This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Ross or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

P-A-T-E-N-T-S

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and all other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tw1jan178

MANHOOD RESTORED.

Victims of youthful imprudence, who have tried in vain every known remedy, will learn of a simple prescription, FREE, for the speedy cure of nervous debility, premature decay, lost manhood, and all disorders brought on by excesses. Any druggist has the ingredients. Address DR. WARDEN & CO., 86 NASSAU ST., N. Y.

$2500 a year. Agents wanted everywhere. Business strictly legitimate. Particulars free. Address J. WORTH & CO., St. Louis, Mo.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that has be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and Consumption are frequently fatal affections of the lungs follow, in many instances, a case of simple yet neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleansed and purified. Continuing in its action in that of a powerful purifying agent, destroying in its course, through the system the acid poison, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had to breathe through the nostril. I had droppings in the throat, a very bad cough, and was so hoarse that I was obliged to a respeak or it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my voice or hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared after the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored, I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

PITCHBURG, Oct. 16.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, not more than time to time mentioned in his case. I believe his statement to be true in every particular. JAS. P. DERBY.

PITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

Fairly Caught.—A Graceful Surrender.

A few evenings since, a party was given at the house of one of our prominent citizens. One of the guests was a most charming and accomplished lady who had worn the weeds of widowhood two years; another was a gentleman, but recently come to our town,—a native of Manchester, N. H. The pleasures of the evening were varied and thoroughly enjoyable; but the chief attraction proved, by a delightful event, to be the game of bassino. Several had tried their skill at the board, with varying fortunes, when the gentleman and the lady referred to approached the table, and the gentleman suggested to his partner that they should try their skill at the pins. The challenge was accepted, and the lady playfully proposed that they play for a wager. The gentleman gallantly assented, and asked her to name the stake. Seeing her confusion, the host jokingly said:—

"His hand against yours."

The lady demurred, and was turning to leave the table, when the gentleman, after a moment's thought, said:—

"My hand for yours, if I win; or at your disposal for any young lady of respectability (her consent being first obtained,) if I lose.

A proposition so gallant the lady could not resist, for the gentleman was a prize, whoever might win him. Excitement now ran high,—all other amusements being suspended, as the company gathered around the bassino board. The lady was reputed skillful with the mace, but the gentleman knew nothing about the game, yet possessed an admirable coolness, which was almost an offset for inexperience. The lady led off, getting a "king strike," and the gentleman followed, missing little bassino, and making a "muff" with the third ball. A laughing sensation was indulged in when the score for the first play was announced—"lady, 45 and a bassino spare; gentleman, *minus* 18." Nothing daunted, S—— continued the play, followed with equal spirit by the fair admirer, until near the close of the game,—after the seventh play, when the score stood—"gentleman 215, lady 164." The excitement among the guests was now intense; and the lady, flushed and trembling, played very badly her last three plays, losing heavily. At the close of the tenth and last play, the score stood —"lady 138, gentleman 385,"—said to be the best score ever made in town. A decorous applause followed the announcement; and the lady, covered with confusion, scarce had presence of mind enough to acknowledge the low bow of S——, who murmured a few sentences expressive of joy. The hostess now advanced, took the feebly-resisting hand of the fair widow, and placed it in that of the winning gentleman. And we hear that the latter ceremony is to be repeated with more solemnity some few months hence, due notice of which will be published in the *Register*. The mace used S——begged of his host, saying that he would treasure it carefully, for a perpetual reminder of that happy evening.—*Franklin, Mass., Register.*

To Europe in a Day.

The Cincinnati *Gazette* says: The "Fluid Register Neutralizer" is its name, and the inventor, J. Q. A. Danforth, was explaining it to divers citizens of Covington yesterday, with a view to raising a stock company with shares at five dollars each, fixed at this low rate so that any one, rich or poor, or neither, may identify his name with the greatest hydrostatic invention of the age. He had an offer of $25,000 from Captain Vint. Shinkle, and one of $45,000 from Captain Coffin, in cash, to be paid when he proved the efficiency of his invention. He intends to complete also for the $100,000 prize offered by the Erie Canal Commissioners. Mr. Danforth explains his invention as follows: Three revolving cylinders are fixed in front of the boat, in a manner similar to the screws of a propeller. These cylinders are connected with rods with propelling screws at the stern of the boat. When these rods are revolved the wheels in front will throw the water to either side, thus making a trough for the boat, and the wheel behind has only to push the boat through the air. Even with hand-power the inventor thinks he can drive a boat at the rate of forty-five miles an hour; with steam a speed of 137 1-2 miles an hour, or sufficient to cross the Atlantic in twenty-four hours, can be maintained. To utilize the tornado which will sweep along the decks, a peculiar apparatus, styled by the inventor an "anger shaped windlass," will convert the motion into propelling power to overcome the resistance of the air. The inventor has spent a great portion of his life in China as a missionary, we understand, but returned because the climate did not agree with him. He has also invented a perpetual motion-machine, he thinks.

A Year Without Eating.

A phenomenal life without food is noted in the London papers. In the zoological gardens there is an anaconda which was caught in South America some time in 1876. It arrived in London and was put in the gardens some time in February, 1877. The great snake refused to eat, and the keepers tried every means to whet the serpentine appetite. Live birds and other dainties placed before it were no inducement. The sullen serpent took no notice of its natural food. It then became curious to determine how long an animal could live without eating, or any nourishment whatever but air. A year passed and the size of the body had apparently not diminished at all. There was no change perceptible in the health of the reptile. A short time ago it recovered its appetite, and a duck put in the cage for its entertainment suddenly disappeared. It is certain that the anaconda lived over a year without eating, which is the longest performance of total abstinence on record.

Daily Chronicle

THURSDAY, MAY 16, 1878.

The "Fraud" Movement.

The latest sensation, eclipsing in the public interest Mrs. Tilton's last confession and the arrival of the Cimbria with a cargo of Russians, is Tilden's "fraud" movement toward the next democratic nomination for the Presidency—for Tilden's guiding hand is now plainly seen in the whole matter. Tilden nominated himself once, in opposition to the wishes of a large proportion of his party; he means to nominate himself again, and however much the party may squirm it must "pass under the rod." The business interests of the country, and consequently the vital interests of the working men, demand a cessation of political turmoil — that "bygones be bygones," whether the question be as to how Hayes was elected, how the democrats of Mississippi carried that State for Tilden against a republican majority of 40,000, or how "Gobble" Grover, Pelton, Tilden & Co., erected the red-nosed Cronin into an Electoral College in Oregon; and the great mass of the democratic party anxiously desire this. But Tilden does not ask the party what is wanted; he has decided that political capital is to be made —for himself—by a fair investigation which shall look into every suspected republican fraud and carefully avoid touching upon any democratic scoundrelism; and that he is able to steer his party on just what course he pleases is evident from the action of the "democratic House" on Clarkson Potter's resolution concerning the electoral count in Florida. "King Caucus," the object of so much virtuous democratic indignation in the years when the republicans controlled both houses of Congress, cracked his whip over the heads of the democratic Congressmen and made all but two of them toe the mark.

The democratic leaders assert that no attempt is to be made to disturb Hayes' title. This assertion was not needed. Hayes is President, and can only be removed by one of three ways; by impeachment, assassination or revolution. Impeachment is available only when an official is guilty of malfeasance in office; assassination has been tried once, and successfully, but it is not legal or likely to become popular; and revolution for the sake of putting Samuel J. Tilden in the White House is hardly to be feared. The object of the "fraud" movement is plain —to make political capital through a partisan investigation, by a partisan committee, of a few charges, carefully ignoring all charges brought by the other side, no matter how conclusive the evidence offered. This programme Tilden proposes to have carried out, and the votes of the "democratic House," and the rulings of its democratic Speaker, are to do the dirty work.

The fraud movement has not had a very propitious send-off. The republicans, under the lead of Eugene Hale, ably seconded by Gen. Garfield and Mr. Conger, insisted on offering an amendment. This amendment the democrats refused to allow to be read, knowing that it provided for an investigation of the wholesale frauds by Tilden's henchmen; and then the republicans blocked the wheels by refusing to vote, thus leaving the House a quorum. On roll-calls the republicans answered; but they could not be made to vote, and finally Tilden's men had to adjourn, having succeeded only in making even plainer than ever the contemptible partisanship of the proposed investigation.

Next day (the 14th inst.) the same tactics were pursued, and the democratic whips not having succeeded in gathering a quorum of their followers, the only thing they could do was to adjourn. Then a call was read for a democratic caucus, the managers thinking it necessary to give the disaffected ones a little stiffening in the shape of orders from "King Caucus;" the reading of the call was greeted with derisive laughter from the republican side. At the caucus it was decided to stick to Florida and Louisiana, and rigidly exclude Mississippi, Indiana, Pelton and Cronin's nose from the impartial investigation sought for.

On Wednesday the democrats were still without a quorum, having been able to drum up only 118 members. The republicans still refused to vote, and some of the green democratic members wanted them to be forced through the tellers by the Sergeant-at-arms! Some of the democrats stubbornly refuse to cringe at the crack of the party whip. After vainly endeavoring to force a vote until one o'clock P. M., the House adjourned; and the republicans immediately went into caucus.

Congress.

The Senate on Tuesday, the 14th inst., passed the post-office appropriation bill, and had some more discussion on the repeal of the resumption act.

The "democratic House" was too busy, Monday and Tuesday, in endeavoring to make partisan capital, to pay any attention to the business of the country. Ditto on Wednesday.

The Senate committee on elections on Wednesday adopted a report that Hamburg Massacre Butler has no right to the seat in the Senate which he now holds from South Carolina.

The Other Side of the Question.

While so many indulge in the belief that legislation is a panacea for the depression in business, and that especial enactments and specific appropriations can revive and stimulate trade, there are those who are firmly opposed to this theory. They doubt the effects of protection in tariffs, and question the constitutionality and expediency of subsidies. The fact is, the latter have been so constantly a means of private plunder instead of being devoted to the ends they were ostensibly enacted to promote, that in the minds of many they have become odious. The fact that subsidies previously granted have mainly been squandered among lobbyists and divided among wicked Congressmen somewhat in the manner of the credit mobilier, makes the honest legislator pause even before the most eloquent advocate and under fire of the ablest editorial that may be aimed at him.

The opponents of the subsidy question maintain that the proposed bill does not offer any reward or encouragement to parties or companies who will establish steamship lines. It is so framed that it excludes all lines save one, and gives a subsidy to a line already established and paid by the Emperor of Brazil, as it is stated. Now economists who have made a study of the condition of Brazilian trade contend that such is its future that the demand for steamships will be met without any legislative stimulus, and that a healthful competition will follow the discussion of this question; and the attention of the manufacturing and commercial interests of the country having been called to this market, means of transportation will be found for all goods ready to be sent forward.

The granting a subsidy to one line will simply give it the power to wipe out all competition and itself become a monopoly capable of dictating terms as to freight and passengers, and controlling rather than encouraging and stimulating traffic. The history of too many such attempts shows that in the end the parties benefitted are the steamship owners alone, who profit by the subsidy, and not the proposed customers who were expected to be aided in their commercial relations by the appropriation. Now it is important that these questions should not be hastily or imperfectly considered; that the people should not go off at half-cock upon this question; for the precedent once established and the subsidy system well under weigh in this country, it will be simply a question of the lobby.

There is one other suggestion that should be considered, which we take from a letter from a New York merchant upon the subject:

There is a line of steamers running monthly from New York to Brazil, and which carries the mails regularly, and to the entire satisfaction of the Post Office Department without subsidy. This is the "Merchants' Line" of steamers, consisting of three vessels which for fourteen months past has carried full cargoes of American products and manufactures to Brazil, and have brought to the United States cargoes of coffee, sugar, hides, etc., from Brazil. In the bill proposed it is manifest but one man, or one concern, in the United States can make a proposal to the Postmaster General for carrying the mails to Brazil, and therefore the legislation asked for is special legislation. But the line now running from this port asks no special legislation or subsidy. It is conducted on commercial principles, and if Congress was informed that this company is doing the actual service of carrying mails without cost to the United States Government and for which service it is proposed to pay other parties $300,000 per year for ten years, amounting in the aggregate to *three millions of dollars*, then it seems to me this enormous sum will not be voted by Congress, as a gift to shipbuilders who propose to go into the Brazil business if they are paid for it by a subsidy from the American people.

If we have a line in full blast the proposition to subsidize another line looks like a kind of special legislation, which will not be likely to find favor until a more extended view of the case can convince Congressmen.

New Hampshire Items.

Seven of the thirteen small-pox patients taken to the Manchester pest-house have died—a rate of mortality regarded in that city as "quite singular."

At Farmington, on the morning of the 14th inst., Mr. Edwin P. Mooney, livery stable keeper there, committed suicide by hanging himself by the neck from a brace in his stable with a small cord. He has heretofore been subject to seasons of insanity, and within the past fifteen years he had been twice sent to the Insane Asylum. Financial difficulty is supposed to have been the immediate cause of his suicide. He was forty-six years of age and leaves a wife and one son.

News and Notes.

Ira. B. Wright, treasurer of South Hadley, Mass., for ten years past, confesses to stealing $25,000 of the town's money. He confessed without waiting to be found out, and gave up all his property, amounting to about $8000.

While Minnis Saunders of Bullet county, Ky., was at work in her father's chicken-house, a large game cock attacked her, driving his spur through the side of her head into the brain. The girl, who is but eleven, has since been paralyzed, and is dying gradually.

Major-General Thomas S. Dakin, commanding the 2d Div. New York National Guard, but more widely known from his connection with the international rifle matches and for his wonderful proficiency at long-range shooting, died in Brooklyn on the night of the 13th inst., very suddenly, of neuralgia of the heart. He was forty-seven years old.

A Philadelphia jury, engaged on a case in which a man was charged with forging the name of another to an agreement of copartnership, had the case given to them on the 2d inst., and were discharged from its further consideration on the 14th, being unable to agree. That jury was "a obstnit pack."

Portsmouth Mills Damaged.

About half-past seven o'clock Wednesday morning there was an alarm of fire from the picker attached to the Portsmouth Manufacturing Company's cotton mills in South Berwick, Me., which created a general stampede among the operatives, but by prompt efforts of the firemen of South Berwick and Salmon Falls, with the local facilities of the mill for extinguishing fires, it was confined to the picker alone, which was destroyed. The loss will reach $50,000, which will fall upon insurance companies.

Naval Affairs.

Commander S. Livingston Breese and the other officers of the U. S. S. Ossipee, at Boston, have been ordered home to await orders.

Capt. John G. Walker is detached from duty as a member of the Lighthouse Board.

What is Beauty.

This question has alike puzzled the lover and the philosopher. The sage analyses it into perfection of feature and coloring, and the lover, looking into the homely face of his adored mistress, declares that true beauty pertains rather to the imperishable soul than to the ever-changing body. But the physician knows that the chief element of beauty is health. Health is to beauty what the subtle magnetic current is to the bar of polished steel—by its presence attracting and retaining all its devotees. Beauty without health is a shrine without an oracle. Woman cannot possess this subtle attractive power of beauty while suffering from those chronic ailments and weaknesses that continually exhaust the springs of her vitality. Dr. Pierce's celebrated specific for this class of diseases, the Favorite Prescription, has been used by thousands of these sufferers, restoring to them health, strength, and beauty.

BURLINGAME, Osage Co., Kan., August 7th, 1877.

Dr. R. V. Pierce, Buffalo, N. Y.:

Dear Sir — Five bottles of your Favorite Prescription has effected my entire cure. Yours respectfully,

MRS. BESSIE PECK.

"Will you take a hack, sir?" "No sir, I had a hack for five years, and got rid of it by using "*Adamson's Botanic Cough Balsam.*" Price 35 cts.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&ctsept15 7

E. G. PIERCE, JR., P. M.

THE CITY.

The schooner Chilion, of Wells, came down the river on the 14th inst. with a load of brick for Boston, was carried against Portsmouth bridge by the strong tide, swung around broadside to the bridge, and sprung her mainboom. She was delayed for repairs.

Hon. James W. Patterson has complied with the request of citizens of Portsmouth to give his celebrated lecture on Italy, which is so highly commended by all who have heard it, in Congress Hall on Tuesday evening next. Mr. Patterson is so well known here as a finished orator that the hall will undoubtedly be filled.

We are informed that the bottom of the U. S. S. Omaha, at the navy yard, is in such bad condition that she has been moored between the ships Sabine and Kearsarge, so that she may not sink in case the bottom should happen to fall out. We learn that the Board of Survey has condemned her as not being worth repairing.

The new steamer James Sampson, of Dover, with a party of ladies and gentlemen on board, came down river to this city on Wednesday to try her engines and steering qualities. She is a little less in size than the navy yard ferry steamer Emerald, and is a very pretty little boat. She is fitted with double engines and steams fast, and will no doubt do better still when the stiffness gets worn off her machinery. Her rudder is bigger at the top than it is at the bottom, which is not strictly according to old-fashioned nautical ideas, but she answers her helm well, which is all that is required.

The secret service division of the Treasury Department has issued a circular to bankers and others, warning them that the new counterfeit $100 note on the Merchants' National Bank of New Bedford is one of the most dangerous ones ever printed, and that counterfeits of the same denomination on other Massachusetts banks are expected, printed from the same plates. A later circular gives warning that other counterfeits from the same plate have already appeared. In consequence we shall in the future decline to give change for hundred dollar bills when tendered in payment for single copies of this paper; for yearly subscriptions we shall continue to accept them, as heretofore.

POLICE COURT.

WEDNESDAY, May 15th; *Batchelder, J.*

Franklin Carleton and Jeremiah Carleton appeared to answer to a charge of trespass, in that by force and arms and with malice aforethought they did build, erect, put up and construct one illegal and aggressive pig-pen on a certain island in Portsmouth harbor, to wit, Tuttle island, said island not being the property of the said defendants, and the said pig-pen having no business on it anyhow. Edward B. Stover, the complainant, did not appear, but another man did who claimed the island as his property; but as the latter individual was not mentioned in the complaint, and seemed to care very little about the pig-pen, the whole matter was dismissed. This was all the business done by the Court on Wednesday.

SUPREME COURT.

WEDNESDAY, May 15th.

Judge Smith was in attendance at Exeter on Wednesday.

Daly, the tramp who shot Mrs. Bennett at Newmarket Junction, was sentenced to three months imprisonment and to pay a fine of $200, and costs of prosecution.

Various unfinished cases were disposed of, and the term closed by an adjournment of the Court without day.

CIRCUIT COURT OF THE UNITED STATES.

MAY TERM—CLARK, J.

WEDNESDAY, May 15th.

On the coming in of the Court, at nine o'clock A. M., Judge Clark charged the jury in the case against Wyman. [The jury came in at a quarter to one o'clock P. M., the foreman stating that they were unable to agree; they again retired, and at half-past one returned a verdict of "not guilty."]

In case United States against Dunn, convicted of fraud under the bankrupt act, at a former term, and motions for a new trial and in arrest of judgment overruled, the District Attorney moved for sentence. The Court alluded to the penalty in these cases, and spoke of the necessity of punishing offenders against the bankrupt law; but the Court was not inclined to go to the extreme penalty in Mr. Dunn's case, and would not send him to the State prison, but should order him confined in jail for one year. The clerk then announced the sentence for one year's confinement in the jail at Manchester. Dunn requested permission to make a statement. He said he had done nothing against the law of the United States, and had done nothing except by the advice of counsel and the knowledge of his assignee. The Court said that the verdict of the jury was all the Court could regard. Dunn said if he was to be confined at all, he would prefer Manchester as the place. The Court stated that there could not be punishment by fine, but it must be by imprisonment, but without payment of costs.

Mr. Dunn's sureties surrendered him into the hands of the Marshal on Tuesday, and he was committed Wednesday evening.

United States vs. Nathan Adams; fraudulent concealment of property from his inventory as a bankrupt. Hon. C. R. Morrison submitted to the Court certain objections to the indictments, maintaining that allegations of importance had been omitted. The Court intimated that similar questions had been raised in Dunn's case, just disposed of; Judge Shepley had overruled like objection in that case, and he should in like manner hold in regard to the case at bar. Adams was a soldier in one of the New Hampshire regiments, and it was contended that his exposure in the military service affected his mind as well as body; and that his schedule of assets was made by a Mr. Spalding, a lawyer who told Adams that he understood how to do such business. The government claimed that the respondent omitted from the schedule of personal estate, eleven cows, one yoke of oxen, two two-years-old heifers, two yearling heifers, one mowing-machine, a horse-rake, a hay-tedder, a two-horse-wagon, an express-wagon, ox-cart, six plows, etc. Those Adams gave by a bill of sale to his son on his attaining his majority, and the government contend it was without consideration. The jury, after a brief retirement, returned a verdict of guilty.

James Brooks and William Falvey were then arraigned upon an indictment charging them with stealing from the post-office in Portsmouth, on the 12th of March last, a letter addressed to Rose Ricker, containing two dollars in money. They each pleaded not guilty.

At seven o'clock in the evening the Court came in and the trial of Brooks and Falvey commenced. City Marshal Entwistle testified to the confession of Brooks that he went with Falvey to the post-office, saw a letter on the list for Rose Ricker, called for it, found there was three cents extra postage to pay on it, procured the three cents and took the letter from the office. Asst. Marshal Cole corroborated Marshal Entwistle. Police Officer J. B. White also testified to the statements of the boys; and Asst. Marshal Charles A. C. Gray related a conversation with the boys at the station house, and their testimony before the United States Commissioner. Commissioner Hackett detailed the evidence given by the prisoners before him. Rose Ricker denied that she gave authority to take out her letters to the respondents. When the government's case was closed, Mr. Page in behalf of Falvey moved that he be discharged for the lack of evidence against him; the Court denied the request. The defence then called Michael Welch to contradict Ricker. Brooks was put on the stand and testified that Miss Ricker gave him authority to take out her letter, and denied that he testified before the Commissioner as the government witnesses had stated. Falvey also testified as to authority of Brooks to take such letters from the office. The case was given to the jury late in the evening. Hall for United States; Hatch for Falvey, Page for Brooks.

Half an hour after midnight the jury returned a verdict of guilty in the case of Brooks, who was sentenced to one year in prison. Regarding Falvey the jury disagreed, and he was bound over in $200 to appear at the October term.

MASONIC ELECTION.

At the annual convocation of the Grand Chapter of Royal Arch Masons of New Hampshire, held at Concord on the 14th inst., John J. Bell of Exeter was elected Most Excellent Grand High Priest; Joseph W. Hildreth of this city Excellent Grand Treasurer; Charles G. Connor of Exeter Grand Principal Sojourner; Benjamin F. Webster of this city Grand Master of the Third Veil.

THE VICINITY.

The Cocheco Manufacturing Co. at Dover, pays a dividend of three per cent. June 1st.

The Murphy movement, with a slight admixture of the western temperance crusade, is going ahead lively at Exeter. A praying band visited the Phenix saloon on Tuesday, the 14th, and prayed for and argued with the proprietor.

The annual meeting of the Portland, Saco & Portsmouth Railroad Co. occurs on Monday, June 3d, at Kittery.

Mrs. Joseph Pickering, of Greenland, while driving to this city Wednesday afternoon, was thrown from her carriage near the Concord Railroad depot in that town and badly injured.

There was a very severe hailstorm at Newmarket Junction Wednesday forenoon. Hailstones as big as robins' eggs are reported to have been picked up, and much damage done to young crops.

Ephraim C. Spinney, Esq., of Kittery, is spoken of as a candidate for Congress from the 1st district of Maine in opposition to Hon. Thomas B. Reed. Whether Mr. Spinney is to stand on a democratic or a greenback platform, or both, we are not informed.

A gentleman walking near the head of York river a day or two since saw three very large bald-headed eagles at one time, sitting on a tree. They were not only very large, but very tame, or very lazy, for they permitted him to approach as close as he wished.

Exactly one thousand looms were running in the Cocheco Mills at Dover on the 14th inst., leaving only three hundred and twenty-nine to be started up. Weavers were coming in rapidly, and it was expected to have the mills in full operation before the end of the week.

The Eastern Railroad corporation has been making important changes and repairs at the Wolfeborough end of the line. A new billiard saloon has been fitted up in the new depot building on the wharf, the platform at the passenger depot has been leveled, and the entire line is to be put in good condition for summer travel.—*Dover Democrat.*

Samuel Carter has just finished a handsome French-roofed cottage, with a bay window and piazza, for a residence, on the New Road—so-called, though it was built twenty or thirty years ago—leading from Kittery to York. He has much improved his grounds by setting out fruit trees.

The stevedores at Saco are running each other, and cutting prices accordingly. The price for discharging coal from vessels has hitherto been from twenty-two to twenty-five cents per ton; but on Monday one vessel was having her cargo put out at eight cents per ton, another at ten, a third at twelve and a fourth at fifteen cents a ton.

The Dover *Democrat* reports that Mr. J. Albert Walker, of this city, has made a proposition to fit up the entire first story of the building about to be erected by him on the corner of Washington and Locust streets in that city as a post-office, if the people of Dover so desire and the Post-office Department at Washington will consent to rent the building for a term of years.

A Tranquil Nervous System

Can never be possessed by those whose digestive and assimilative organs are in a state of chronic disorder. Weak stomachs make weak nerves. To restore vigor and quietude to the latter, the first must be invigorated and regulated. The ordinary sedatives may tranquilize the nerves for a while, but they can never, like Hostetter's Stomach Bitters, remove the causes of nervous debility. That superb invigorant and corrective of disordered conditions of the alimentary organs has also the effect of imparting tone to the nerves. The delicate tissues of which they are constituted, when weakened in consequence of impoverishment of the blood, resulting from imperfect digestion and assimilation, draw strength from the fund of vitality developed in the system by the Bitters, which imparts the required impetus to the nutritive functions of the stomach, enriches the circulation, and gives tone and regularity to the secretive and evacuative organs.

THINK OF IT, that a Cough or Cold neglected, may lead to serious consequences: in the early stage of Throat and Lung diseases, *Madame Porter's Cough Balsam* is an invaluable remedy, can be taken by the oldest person or youngest child. Is safe, reliable, and *agreeable to the taste.* Price 25 cents, and in large bottles at 50 and 75 cents.

t m 21

"To do as Folks of Fashion do," in one respect at least, you must use GLENN'S SULPHUR SOAP, which is immensely popular among the elite of society, and deservedly so, for it is the most salutary of beautifiers and purifiers. Sold by all Druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50 cents. tmay21

The Colonnade Hotel, Philadelphia, Pa., sustained its well-merited reputation, and, if possible, earned greater, with its patrons, during the "Centennial Exhibition."

A lady in Westchester county, N. Y., made $1,200 lately by an investment of $106.25. Alex. Frothingham & Co., 12 Wall street, New York, were her brokers. Send for their *Financial Report.* You may be equally as fortunate. 6

Centaur Liniments.

More than 1,000,000 bottles of the new celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Wild Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended to mothers of children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 25 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir,*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable, and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms Sour Stomach and Disordered Bowels, there is nothing like Castoria. tmsg

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed those dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal fatality, that is well founded if the remedy be taken in season. Every family should kavell in their closet for the ready and prompt relief of its numerous ills. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and roadbed, a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. febs20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Catarrh Remedy
Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.
It Speaks for Itself.
ROCKPORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (mere dollar-grabbers) would be glad if they could conclude a similar cure in the papers. For 26 years I suffered with catarrh. The nasal passages became completely closed. "Snuff," "dust," "ashes," "inhaling-tube," and "douche," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became a valuable doctor such medicines. Gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 36 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered, and constitution broken, and I was hawking and spitting seven-eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second-quite the hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose.

Yours truly,
S. D. REMICK.

A CLOUD OF WITNESSES.

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Spring, Nettle Lake, Ohio; Charles Hunter, Chesterfield, Me.; Milton Jones, Scribs, N. Y.; J. E. Golden Medical Discovery
Is Alterative, or Blood-cleansing.
Golden Medical Discovery
Is Pectoral.
Golden Medical Discovery
Is a Cholagogue, or Liver Stimulant.
Golden Medical Discovery
Is Tonic.
Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Kindred Ailments, as Tumors, Ulcers or Old Sores; Blotches; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchitis, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Cholagogue properties remove the unequaled remedy for Biliousness; Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy foreboding, irregular appetite, and tongue coated, you are suffering from *Torpid Liver, or "Biliousness."* In many cases of *"Liver Complaint,"* only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's
MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potassa and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, encrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the acid poison, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had catarrh for ten years, each year with increasing severity. For nine years I had not breathed through my nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of the above mentioned symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored, I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my report of his case. I believe his statement to be true in every particular. JAS. F. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesal Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,
No. 3 BOW STREET.

Daily Chronicle.

Washington Correspondence.

WASHINGTON, D. C., May 13th.

It seems evident to those observing the drift of political sentiment here that a large majority of democratic Congressmen would have given something if McLin and his fellow confessors had been in—well, Halifax, say, or at some still more inaccessible point, before coming here with their fraud budget to put democracy in its present unpleasant dilemma relative to an investigation. From the trifling causes urged for delay it is reasonable to believe that only a few are really in favor of taking a step in that direction on the data now in hand. They feel they will be held responsible for the detriment of business that will grow out of what is regarded by many as a reopening of a question which was thought to have been settled by a decision that each party stands pledged to respect; and though those opposed vigorously protest that the investigation is not intended to undo the work of the Electoral Commission, but is simply designed to punish criminals against a free ballot, the aggregate ingenuity of the party will not enable it to make the distinction so palpable as to wholly relieve it of a suspicion of bad faith. And it seems the general belief that many have allowed themselves to be egged on to a measure that they believe will only react disastrously. However, the *Post* (democratic organ) of this date, expresses itself as confident that today that a resolution will be introduced and passed, directing an enquiry to be made, based principally on Blair's memorial and secondarily on the so-called confessions of the Florida parties and such other information as the Tilden gleaners have been able to secure. It is believed that if offered the republican managers will come in with such amendments as will include in the enquiry every Southern State having alleged republican majorities though carried overwhelmingly for Tilden; and also the "Gobble" and Eph Holland frauds. If both sides are accommodated it must have the effect to indefinitely postpone the day of adjournment, unless the committee is empowered to sit between sessions. Whatever the outcome, it is the general belief that a large majority of both parties privately condemn the movement *in toto.*

The bull in partisan warfare, it seems, has made an opportunity for members to settle, or at least to give more time to, their personal differences. Kelley and O'Neil, both of Pennsylvania, had a falling out the other day at the Capitol, which has been considerably discussed in Congressional circles, among their more immediate friends, and to a less extent, by the public. There has been no bloodshed as yet; and should the gentlemen find it impossible to settle the hash amicably between themselves, we still have Hamlin, Howe and the other two Senators through whose joint efforts Conkling and Gordon were persuaded that neither honor nor common sense demanded that they should behead or riddle each other with bullets. By the way, there must be a good deal of statesmanship or diplomatic craft in the plan hit upon in this case by the peace makers, as England and Russia have appropriated it and are striving to adjust the long standing Eastern controversy by it, after the resources of European statesmanship had been exhausted and found notoriously inadequate.

Dennis has gone back to Florida, mad as ever he can be, at the vacillation of the democrats over the investigation business. As is very apt to be the case, under similar circumstances, the revelations he made assumed an exaggerated importance in his eyes. No one can doubt that the man is sincere in the belief that he has not been appreciated at his full value, and rewarded accordingly; and it is quite as patent that he allowed his resentments to get the better of his judgment in urging him to a course that he will likely regret to the end of his life. The democratic managers are probably like other men, in that they will use him to the extent he proves valuable to their side.

Sitting Bull's threats receive some attention, as his ability to execute them—or at least to carry devastation to many a frontier home—is acknowledged in the present weak condition of our army.

Latest advices from our southern border make it apparent that Lerdo's partisans have miscarried; and our own relations with the Mexican government seem less threatening than a few days ago.

There are no specially important developments relative to the "Cimbria." But every indication points to the fact that should war actually occur between Russia and England, our government will be kept busy if it prevents infractions

of the Washington Treaty, in connection with our shipping interest especially.

KNOX.

Daily Chronicle

FRIDAY, MAY 17, 1878.

Pay-Director Cutter.

We are glad to notice that at last Pay-Director George Frank Cutter, who for some time has stood at the head of the active list of Paymasters in the navy, has been confirmed by the Senate as Chief of the Bureau of Provisions and Clothing, and Paymaster-General of the Navy. In Massachusetts, the State of his birth, as well as in this city, where he has been on duty, Mr. Cutter has for thirty-four years been known as a capable and honest officer and a gentleman of unexceptional character. But some one jealous of his preferment, or desirous of heading him off, or to revenge some imagined wrong, had undertaken to bring charges against him. The Senate once confirmed him, then reconsidered the vote and proceeded to investigate the case. The committee found nothing against his fair record as an honest officer, and upon their report the confirmation is at once "confirmed."

In the report to the Senate of the committee on naval affairs, Senator Sargent, the chairman, referring to the charges against Pay-Director Cutter, says that in the judgment of the committee "the charges are not only not sustained by the testimony, but refuted by it."

Naval officers, especially those in the pay department, who are brought in contact with the contractors and others who desire to make a good thing out of the government, are always subjected to the chances of being injured by designing men who seek to control, to some extent, the acts of the officer. If he is above being managed, and so far protects the government he serves as to prevent contractors from wronging it, he is liable to be pursued. If he succumbs to the blandishments of the men who seek to use him for their selfish purposes he is utterly lost. We do not know what caused the especial hitch in Cutter's case; we only know that his New England training, his experience and ability admirably fit him for the position he has so long been entitled to fill, and in which, after being under fire, we hope he will be permitted to remain unmolested.

The "Fraud" Movement.

At the republican Congressional caucus, Wednesday evening, the following resolutions were unanimously passed:

Resolved, That the resolution now pending in the House is an attempt, in form unjustifiable and illegal, to reopen the question of the Presidential title, a question solemnly settled by the action of the Forty-fourth Congress, which alone had jurisdiction, and is therefore revolutionary and destructive of the good order, business prosperity and peace of the country.

Resolved, That the effort of the democratic majority to force upon the House, without opportunity for amendment or debate, a measure of such a revolutionary character, which had not been recommended or considered by any of its committees, but had been devised for individual or party ends, should be resisted by all means which are authorized by the rules of the House.

On Thursday the deadlock continued, the republicans still declining to sanction such a grossly partisan investigation, to be conducted under rules drawn by Sam. Tilden. They are more than willing to have *all* the frauds and villainies of the last Presidential election laid bare, if possible; but an investigation which is to include McLin and one-half of the Louisiana matter, and exclude Cronin, the rifle club massacres in South Carolina, the night-riding in Mississippi and the wholesale murders by the democratic White Leaguers in Louisiana, they will not consent to.

A Question of Privilege.

The New York *Graphic* thus phonographs a recent scene in Congress:

Hon. Clarkson N. Potter, democrat, of New York (rising and rolling a spool of resolutions)—"Mr. Speaker, I rise to a question of privilege. I move that a committee of eleven be appointed, seven democrats and four republicans, to investigate republican frauds in Florida and Louisiana."

Hon. Mr. Garfield, republican—"I move to amend by including *all* frauds in *all* States, without regard to party."

Potter (jumping up excitedly, and with a flushed face)—"No, sir! That ain't fair! I rose to a question of privilege, and I insist on having the privilege!"

Conger, republican—"I'd like to know what the gentleman from New York calls a question of privilege?"

Potter—"Why, you stupid dunderhead, I mean the privilege of having your side investigated, and not having our side investigated. That's a privilege, ain't it?"

Speaker (rapping enthusiastically with his gavel)—"I decide that it is a privilege."

New Hampshire Items.

Mr. John Folsom, of Derry, marked a herd of cattle with Paris green paint, and started them for pasturing in Groton. Arriving at Hill one of the number, a valuable cow, was taken sick and died in a short time. Examination showed that a quantity of the poison had been taken into the stomach, which proved fatal. Several others were taken sick in the vicinity of the same drove; antidotes were applied ejecting the poison from the stomach. Some of them are recovering. The drove was stopped and the paint sheared off, so no more fatal cases have been reported.

Gen. Clough has issued a circular to the First Brigade of State Militia, inviting them to join in the inauguration ceremonies on Thursday, June 6th, at their own expense, except a dinner, which will be furnished by the citizens of Concord. Arrangements will be made for the transportation of the troops on the railroads at reduced rates.

Naval Affairs.

Officers of the navy have been notified they will not be paid for May and June for that purpose, as the appropriation until Congress makes an appropriation made for the current fiscal year, owing to the "economic" vein of the democracy, was far below the estimate.

Pay Director E. C. Doran has sailed for Paris under special instructions from the Secretary of the Navy to report for duty at the Exposition as senior naval officer in charge of the United States representation there, and is particularly charged to make a detailed report of everything relating to naval and marine exhibits.

Upon recommendation of the naval board which convened at this yard last week to examine into the case of Major Philip R. Fendall of the Marine Corps, a resident of this city, that officer has been placed upon the retired list. This gives a general promotion of all beneath him on the roster.

News and Notes.

A board of ordnance officers, of which Major T. S. Treadwell is a member, is to meet in New York for the examination for promotion of Capt. L. S. Babbitt and Lieut. J. E. Greer.

The reports from the capitals in Europe are warlike. The Czar says he is determined not to yield to England's demands, as he thinks it would be humiliating, and Austria is opposed to Russia.

Geo. F. Miller, clerk of the North Adams, Mass., fire district, and clerk of the Adams assessors, is a defaulter to the amount of $5000.

A big steamship just built at Chester, Pa., for the Pacific Mail line, has been sold to the Russian government. The first payment of $100,000, in gold, has been made.

The story that a Mrs. Rogers of Middletown, Conn., had presented Rev. Mr. Penticost with a bank book, with a comfortable sum to his credit, was strictly true, but the amount on deposit was $5, and the bank was insolvent.

The powder-mill of Miller & Brothers at Sumneytown, Pa., blew up Wednesday, and William Swartley, twenty years old, son of the foreman, is said to have been blown 300 feet and not killed.

The New York *Sun* says that a suit will soon be opened against the executors of the great estate of William T. Garner on behalf of two infant children of Frost Thorn, who with Garner was lost on the yacht Mohawk. Garner is said to have held in trust lands in Texas valued at $30,000 belonging to Thorn, which the executors refuse to reconvey.

Complaint is made of a new rule of the treasury department, whereby sea-captains carrying chronometers of foreign make, are obliged to pay duty upon the instruments every time they are landed, or give bonds to export them again. This rule bears unfairly upon captains who rent chronometers from American dealers, and on returning are required to pay duty before they can return the instruments. The proof of one payment of duty on imported chronometers ought to be a bar to any further requirement in this direction.

Kansas City expects soon to be lighted by natural gas. In various places round and about the town people who have sunk artesian wells have struck gas veins. At Wyandotte, two miles off, there is an abandoned salt bore that for five years has given off 25,000 feet of gas a day. Other experiments have led to similar results, and now the local gas company, as well as several corporations, have begun to bore right under the city, with a view to securing the natural instead of manufactured product.

A physician in Rochester, N. Y., says that the girls of that town are very pretty, and grow in grace and lovliness until they are about eighteen or twenty, when they get pale, sickly-looking and faded, "going to pieces at twenty-six." Among the causes of their deterioration he enumerates the lack of exercise in the open air, the wearing of veils that interfere with breathing, tight lacing, round dances and too much study.

The centennial of the massacre of Wyoming, Pa., one of the most thrilling and revolting incidents of the Revolution, is to be celebrated on the third and fourth of July in as realistic a manner as possible, with the old forts rebuilt, many ancient articles collected and a tribe of Indians present in full costume. Odes and orations will recall the particulars of the affair on the first day, and on the second a great pageant, participated in by civil and military societies of the State, will be followed by an evening display of fire-works along the river banks. President Hayes and lots of other big guns are expected.

One of the strangest cases of suicide ever chronicled recently occurred at Alton, Ill. Miss Christy, who resided at Upper Alton, was a lady of unusual beauty and intelligence. She had been afflicted for the past few months with a most extraordinary phenomenon. Her head was continually suffering from a throbbing and buzzing sensation, as if myriads of bees, flies and gnats, or other winged insects were pursuing her and encircling her head with an eternal, everlasting buzz. The imaginary insects pursued her everywhere; every step she took she was accompanied by this horrible torment, which at last became so intolerable that in a moment of uncontrollable agony she ran from the house into the back garden and jumped into the well. Before she could be rescued from the well, life was extinct.

Political.

The republicans of Pennsylvania have nominated Gen. Henry M. Hoyt for Governor.

The Ohio democratic Legislature has gerrymandered the State into Congressional Districts in such manner that a republican majority of 32,454 is concentrated in seven districts, while a democratic majority of 25,810 is spread over thirteen districts. This legislation is of a piece with that proposed by Clarkson Potter in Congress, which provides that investagation carried on at the public expense shall be confined strictly to the operations of one party.

The "nationals" are certainly a plain-spoken people. In California, they have deposed Dennis Kearney, the chairman of their State committee, because, as they say, he is guilty of "fraud, corruption, Cæsarism, and insanity," and he retorts by denouncing them as "squint-eyed fools and villains."

—They say that the Sherman girls "all love their husbands and are good cooks. Hence these marriages."

A Tranquil Nervous System

Can never be possessed by those whose digestive and assimilative organs are in a state of chronic disorder. Weak stomachs make weak nerves. To restore vigor and quietude to the latter, the first must be invigorated and regulated. The ordinary sedatives may tranquilize the nerves for a while, but they can never, like Hostetter's Stomach Bitters, remove the causes of nervous debility. That superb invigorant and corrective of disordered conditions of the alimentary organs has also the effect of imparting tone to the nerves. The delicate tissues of which they are constituted, when weakened in consequence of impoverishment of the blood, resulting from imperfect digestion and assimilation, draw strength from the fund of vitality developed in the system by the Bitters, which imparts the required impetus to the nutritive functions of the stomach, enriches the circulation, and gives tone and regularity to the secretive and evacuative organs.

"Will you take a hack, sir?" "No sir, I had a hack for five years, and got rid of it by using "*Adamson's Botanic Cough Balsam.*" Price 35 cts.

THINK OF IT, that a Cough or Cold neglected, may lead to serious consequences: in the early stage of Throat and Lung diseases, *Hedeoma Pectoral Balsam* is an invaluable remedy; can be taken by the oldest person or youngest child. Is safe, reliable, and *agreeable to the taste.* Price 25 cents, and in large bottles at 50 and 75 cents.

t m 21

"To do as Folks of Fashion do," in one respect at least, you must use GLENN'S SULPHUR SOAP, which is immensely popular among the elite of society, and deservedly so, for it is the most salutary of beautifers and purifiers. Sold by all Druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50 cents. tmay21

The Colonnade Hotel, Philadelphia, Pa., sustained its well-earned reputation, and, if possible, earned greater, with its patrons, during the "Centennial Exhibition."

A lady in Westchester county, N. Y., made $1,300 lately by an investment of $106.25. Alex. Frothingham & Co., 13 Wall street, New York, were her brokers. Send for their *Financial Report*. You may be equally as fortunate. 6

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&tsept15 7

E. G. PIERCE, JR., P. M.

THE CITY.

The National Mechanics & Traders' Bank paid its dividend in gold, Wednesday.

Harper's Magazine for June is now ready for delivery at Moses Brothers' and W. G. Myers' bookstores.

William Russell Foster, Esq., of this city, has on motion of Judge Stickney been admitted to the Rockingham bar.

Mr. Oliver L. Towle and wife have recently returned to their home on State street from a long visit at San Francisco.

An oil painting of Hon. Marcellus Eldredge's dog "Ben" is on exhibition in the window of Mercer Goodrich's bookstore.

Now that the good old-fashioned lyceum seems banished from our community it is refreshing to get back a glimpse of it in the shape of a lively and attractive lecture such as Mr. Patterson will give us on Italy next Tuesday evening at Congress Hall. Tickets at Rundlett's.

Fernald's lumber wharf at the north end caved in on Thursday, owing to the weight of lumber on it, letting a large amount of building material into the dock; the lumber was quickly secured with ropes, to prevent its being carried off by the tide. No other damage was done.

The City Guards have voted to appear on Memorial Day. The Heavy Artillery will also take part in the memorial services, but will not attend the inauguration at Concord; their invitation to visit Portland is under discussion. The Light Artillery have laid their invitation to take part in the memorial exercises on the table, but will visit Concord.

Steamer Williamsport, Capt. Willetts, which sailed from this port for Philadelphia at six o'clock Wednesday evening, 15th inst., discharged 1650 tons of coal in nineteen hours and forty minutes at Concord Railroad wharf—the quickest time ever made here, and not easily beaten anywhere. She worked four gangs of men, the stevedores being Messrs. George R. Raitt, Timothy Lynch, Benjamin Moore and Peter Donnell.

Quite an excitement was created on Thursday afternoon by the exhibition of "Prof. Dare," a very good tight-rope and trapeze performer, who gave a public show of his abilities on a rope stretched from roof to roof of two of the high buildings on opposite sides of Market street, near the square. The square was well filled with carriages, and the street with people on foot. How much money the Professor got we cannot say, but the "voluntary contributions" appeared to be liberal. There was another performance at half-past six o'clock in the evening, when the hat was again passed around.

The famous sloop yacht "Una," which has lately been laying at Walker's wharf, was sold by her former owner, Mr. Andrew Manning of Boston, to David F. Nudd and John A. Dow of Hampton, for $1800. She was built by George Steers of New York twenty years ago, and it is said has won every race that she has ever been in. For her superior sailing qualities she is barred out from yacht races. The "Una" registers forty-three tons, is seventy-one feet long and eighteen feet beam, and draws seven feet of water. There are one thousand yards of canvas in the jib and mainsail, and about two hundred yards in her jib and gaff topsails. Her cabin is spacious, easily seating forty persons. She will be used this summer in carrying passengers from Hampton to the Shoals, and for general excursion parties. She was four hours and a half coming from Boston to this port.

GOV. WENTWORTH'S PORTRAIT.

Mr. Ulysses D. Tenney has been very successful in a copy of Copley's portrait of Gov. John Wentworth, to be given to Dartmouth College, at its solicitation; Gov. Wentworth having been one of its earliest, warmest and most influential friends. The original portrait of the last Royal Governor of New Hampshire came into possession of its present owner, Mark H. Wentworth, Esq., of this city, in a somewhat remarkable manner. It was probably painted about 1765—70, and was taken away with his other effects by the Governor when he left on the breaking out of the Revolution. After his death in 1820, the picture was given by his son Charles-Mary to Mr. McDonough, then British consul at Boston. Some five or six years ago Mr. McDonough's daughter, then residing in Boston, mentioned to a lady friend that she had a portrait by Copley of Gov. Wentworth and intended presenting it to the city of Halifax, where the Governor lived during the time he was Lieut. Governor of Nova Scotia, (under the Duke of Kent, as Governor General of the British Provinces,) and afterward until his death. The latter lady informed the possessor of the portrait of the existence in this city of descendants of the Wentworths of the old Colony times, and correspondence ensued which resulted in the portrait coming to this city instead of going to Halifax. Mr. Tenney in his copy, which is somewhat larger than the original, has most happily caught the likeness and expression transferred to the canvass over a century ago by the great portrait painter of that day.

CIRCUIT COURT OF THE UNITED STATES.

MAY TERM—CLARK, J.

THURSDAY, May 16th.

At about one o'clock A. M., on the conclusion of the trial of Brooks and Falvey, the Court took a recess, having been in session (with a very brief interval) since nine o'clock the previous morning.

Brooks was taken to Concord jail on Thursday. Falvey succeeding in finding bail.

Nathan Adams, convicted of fraudulent return of his property as a bankrupt, was sentenced to six months imprisonment in the jail at Manchester. The Court in passing this sentence remarked that they were induced to make it shorter than it otherwise would have been, on account of the representations made in regard to the health of the respondent. Adams' counsel, having examined the case of Dunn, found that there was no prospect of avoiding the result, and submitted to the order of the Court as to sentence.

The action Isaac N. Quimby, administrator of the estate of Leonard Mr. Endy, vs. the Pennsylvania Mutual Life Insurance Company of Philadelphia, was first entered in the Supreme Court of Grafton county at the March term, 1878. The action is brought to recover upon a policy of $2000, on the life of Endy, who died Nov. 29th, 1876, at Bartlett. The Insurance Company petitioned for the removal of the cause to the Circuit Court, but the plaintiff contended that the action was not a suit between citizens of different States within the meaning of the law, because the Insurance Company entered into a contract by virtue of authority conferred upon it by the laws of New Hampshire, and so far as performing said contract or being excused from its performance is concerned, is a citizen of New Hampshire and amenable to the laws of this State, and to be tried by its Courts. Other objections of a technical nature were filed, and the motion of the defendant to remove the case was denied, and the question of law was reserved by the State court. In the meantime the action is entered by the defendants in the U. S. Court, and continued to the October term. Bingham and Mitchell, of Littleton, for plaintiff; Samuel C. Eastman for defendants.

In case United States vs. Carter and others, suit on postmaster's bond, a default was entered, defendant to be heard in damages. Hall for United States; Hatch and A. F. Stevens for defts.

CITY COUNCILS.

In Board of Mayor and Aldermen, Thursday evening:

A petition was presented for the city to locate a gaslight on the corner of Bridge and Islington streets, also one at the corner of Brewster and Islington streets, the petitioners to pay for the posts and lanterns. Accepted and referred to committee on gaslights, to report.

A petition for a special policeman to be stationed at the south cemetery to keep order and protect public property, also that the street commissioner be instructed to remove the sediment that has collected in the pond in said cemetery by running from the public road through the drain leading into the pond. Voted that the first request in the petition be granted.

Joseph H. Berry applied for a sidewalk on Islington street and a crosswalk at the head of Salem street. Referred to committee on streets with power.

John Quinn applied for a brick sidewalk on Gates street. Referred to committee on streets with power.

E. M. Brown asked leave to open Warren street for the purpose of laying a drain. Granted.

The committee that was appointed to procure suitable persons to take the census, reported, and the report was accepted.

Alderman P. D. Norton presented the following, which passed: That the City Treasurer be directed to tender to all parties interested, the amount to which they are entitled for damages by the laying of the proposed road around the South mill-pond.

Voted, That the matter relating to the removing the mud from the South mill pond be referred to committee on streets with power.

Voted, That the Mayor and Alderman Hoyt be appointed a committee to confer with the authorities of the Eastern and Concord railroad companies in regard to the filling up of the pond at the foot of Brewster street, and report at the next meeting.

The appropriation bill was received from the Common Council, and referred to committee on bills on second reading.

Voted, That the part of the report of the Committee on Fire Department relating to the laying of a six-inch pipe from State street to Market square reservoir be referred back to the same committee with power. The clause relating to reservoir on Dennett street was indefinitely postponed.

A WORKING COURT.

The Circuit Court did a good day's work on Wednesday, as far as time is concerned. The Court came in at nine o'clock in the forenoon and was in session with only thirty minutes for lunch until six o'clock in the evening. The Court came in again at seven o'clock, P. M., for the trial of Brooks and Falvey, and remained in session until one o'clock on Thursday morning, when the third verdict of the day was announced, the Court then taking a recess. The object of such continuous labor was to permit the jurors to return home on the morning Concord train, and the Marshal and Clerk after five hours' absence were at their desks on Thursday morning at six o'clock completing the pay rolls that the jurors might return by the early train. Judge Clark in thanking the jury for their attendance explained why he had given them a third case in the evening, and Mr. Clapp, the foreman, signified that the jury were much gratified to have the opportunity thus to hasten the termination of their duties. Judge Clifford, who was expected to open this Court, arrived in Boston in season to open the session of the May term on Wednesday. It is expected that he will come here either next month or in July and sit with Judge Shepley, when the decisions of certain cases now under advisement by these Judges will be announced. Judge Shapleigh is now in attendance at the Rhode Island court.

THE VICINITY.

At the Dartmouth college athletic sports, at Hanover on the 15th inst., J. E. Ham of Dover won the one-mile walk in eight minutes, fifteen and a quarter seconds.

Mr. S. A. Jackson, of Kittery, is the owner of a little four-year-old cow which recently produced her second calf, and now gives nineteen quarts of strained milk of good quality daily. Mr. Jackson thinks his little cow attends to business about as well as anybody's cow does.

Prominent greenbackers of York county met at Biddeford Wednesday to discuss the political prospects and make arrangements for prosecuting the campaign. Considerable enthusiasm was exhibited. Among the new converts present and taking an active interest were Hon. Geo. Hobbs of Wells, formerly an anti-Hayes republican, and E. C. Moody, late a member of the Democratic County Committee. The greenbackers are confident of electing a successor to Congressman Reed.

A gentleman of this city, on antiquarian search intent, recently called upon Mr. Edward A. Bragdon, collector of the port of York, and requested permission to look over the old records of his office. Mr. Bragdon informed his visitor that the government furnishes no books in which to keep the records of the port of York, and that he makes books for himself by sewing quires of foolscap paper together. These records he was at liberty to inspect as much as he pleased; but all the old ones, kept previous to Mr. Bragdon's appointment, are gone. Government having no building at that place, the "custom house" has always been located wherever the collector for the time being happened to live; and the last house in which the old records were kept was torn down years ago, and the accumulated documents, amounting in bulk to a cart-load or more, were tumbled into the cellar of the razed building, and left there.

MARRIAGES.

BROUGHTON—GARLAND. In this city, May 12, by Rev. C. B. Pitblado, Mr. James Broughton of Portsmouth and Alvina Garland of Newington.

Portsmouth Chronicle

Interesting Decision.

The Supreme Court of the United States this week decided the case of the Boston Beer Company vs. Commonwealth of Massachusetts. Error to the superior court of Massachusetts. It is held that a corporation chartered for the purpose of manufacturing malt liquors, whose charter was made subject to an existing law, reserving the right of legislation to alter or repeal all charters that exist subject to this reserved power, and that having accepted such a charter its liability remains, notwithstanding the repeal of the law to which its charter was made subject; but, aside from this view, it is said the business of a corporation can be no higher or more sacred than that of the individuals ever which the police power of the State is always supreme; that whenever in any case the good of the community requires the discontinuance of any manufacture or traffic the hand of a legislature cannot be stayed from providing therefor by any incidental inconvenience which individuals or corporations may suffer. All rights are held subject to the police power of the State, but had the liquor been in existence when the prohibitory law was passed it would be protected.

The stoppage of the bankrupt Fall River mills has had the effect of decreasing the production of print cloths some 150,000 pieces a week, and, in consequence, a quickened and improved market has resulted.

Secretary Thompson's trip to the scene of the disaster to the Huron has revealed the fact that the wreckers who have been endeavoring to obtain a contract to raise the Huron have not fairly stated the situation. They have said that the hulk is covered with sand. Instead of this being the fact, at low water the hulk can be plainly seen, and the guns are plainly visible. The Chief Engineer of the Navy, who accompanied the expedition, states that there is material in the wreck to the value of $100,000.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"Cornwall, Lebanon Co., Pa., Mch. 17, '74.
Dear Sir,—I have used your Castoria in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable, and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

J. B. Rose & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms Sour Stomach and Disordered Bowels, there is nothing like Castoria. tsug

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured to itself a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the Cherry Pectoral has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for prompt relief and prompt cure of the numberless Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine. No. 1

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND **Equipment**
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track continuous combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. lfeb20 79

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported fools up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Catarrh Remedy
Cures "Cold in Head" and Catarrh, or Ozena.

AN OPEN LETTER.

It Speaks for Itself.

ROCKPORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (mere dollar-grabbers) would be glad if they could embrace a similar testimonial in their papers. For 26 years I suffered with catarrh. The nasal passages became completely closed. "Snuff," "dust," "vaslen," "inhaling-tubes," and "relaks," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became a valuable lecturer for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 168 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered, and constitution broken, and I was hawking and spitting seventeen-fifths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES.

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Springer, Scotic Lake, Ohio; Chas. Concroy, North Chesterfield, Me.; Milton Jones, Scriba, N. Y.; J. E. Miller, Bridger Station, Wyo.; J. Merriman, Logansport, Ind.; A. M. Post, Logansport, Ind.; J. W. Bailey, Tremont, Pa.; H. H. Ayres, La Porte, Ind.; Jessie M. Reed, J. Brosch, Ind.; L. Williams, Canton, Mo.; W. A. Thayer, Onarga, Ill.; S. H. Nichols, Jr., Galveston, Texas; Jonas F. Reinert, Stoneville, Pa.; S. W. Lunt, McFarland, Wis.; Johnson Williams, Helmick, Ohio; Mrs. M. A. Currey, Trenton, Tenn.; J. G. Joslin, Louis Anders, Grayson, Ohio; C. H. Chase, Elkhart, Ind.; Mrs. Henry Haight, San Francisco, Cal.; Mrs. E. M. Gallusha, Lawrenceville, N. Y.; W. J. Graham, Adel, Iowa; A. O. Smith, Newnan, Ga.; Chas. E. Rice, Baltimore, Md.; Jesse M. Sears, Carlisle, Ind.; Daniel B. Miller, Fort Wayne, Ind.; Mrs. Minnie Arnaise, 290 Delancy Street, New York; H. W. Hall, Hastings, Mich.; Wm. F. Marston, Lowell, Mass.; I. W. Roberts, Marietta, Ark.; Chas. S. Delaney, Harrisburg, Pa.; M. C. Cole, Lowell, Mass.; Mrs. C. J. Spurlin, Camden, Ala.; Chas. E. Kaw, Fredericktown, Ohio; Mrs. Lucy Hunter, Farmington, Ill.; Capt. E. J. Spaulding, Camp Stamaugh, Wyo.; L. W. Tracy, Steamboat Rock, Iowa; Mrs. Lydia Waite, Shushan, N. Y.; J. M. Peck, Junction City, Mont.; Henry Ebe, Bantas, Cal.; L. P. Cummings, Raccoon, Ill.; S. B. Jones, Charleston Four Corners, N. Y.; Geo. F. Hall, Pueblo, Cal.; Wm. E. Bartrie, Sterling, Pa.; H. H. Epon, 948 Penn Street, Pittsburgh, Pa.; J. R. Jackman, Samuel's Depot, Ky.; Henry Zobrist, Geneva, N. Y.; Miss Hattie Farrott, Montgomery, Ohio; L. Ledbrook, Chatham, Ill.; S. B. McCoy, Nashport, Ohio; W. W. Warner, North Jackson, Mich.; Miss Mary A. Winne, Darien, Wis.; John Ziegler, Carlisle Springs, Pa.; James Tobin, St. Cloud, Minn.; Enoch Duer, Pawnee City, Neb.; Joseph T. Miller, Xenia, Ohio; S. B. Nichols, Galveston, Tex.; H. L. Laird, Upper Alton, Ill.; John Davis, Prescott, Ariz.; Mrs. Nancy Graham, Forest Cove, Oregon.

Golden Medical Discovery
Is Alterative, or Blood-cleansing.
Golden Medical Discovery
Is Pectoral.
Golden Medical Discovery
Is a Cholagogue, or Liver Stimulant.
Golden Medical Discovery
Is Tonic.
Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; and eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Cholagogue properties render it an unequaled remedy for Biliousness; Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits and gloomy forebodings, irregular appetite, and bowels confined, you are suffering from *Torpid Liver, or "Biliousness."* In many cases of *"Liver Complaint,"* only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty-two wood-engravings and colored plates. He has already sold of this popular work

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who of substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so efficacious, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive of health as Catarrh. Bronchitis, Asthma, Coughs, and Sores and frequently fat I affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE for CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulcerous and inflammation subdued and healed; the entire membranous linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh in its worst form, and was with increasing severity. For nine years I had not breathed through my nostrils. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with his case. I believe his statement in every particular. JAS. P. DEIDY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. Forsale by all wholesale and retail druggists and dealers throughout the United States and Canadas, and by WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Chronicle Correspondence.

NEW YORK, May 13th.

The first impression of a visitor to the metropolis, on his way north from Baltimore, was that a horse car, about six o'clock P. M., going up town, was capable of accommodating more human beings than it ever was intended should be done by its builder. The one particular car in question, which conveyed the writer of this to the St. Cloud Hotel from the Pennsylvania depot, had on, in and about it, at one time, upwards of fifty individuals. No matter how full a car may be, the driver always pulls up when he is signalled by any one to stop. It seems to be a rule with them that there is always "room for one more." There is a slight difference apparent in the way the cars are run here from what is done in Baltimore. In the first place, they go faster; in the second, the drivers stand up, instead of sitting down on stools, as they do there. It may be that they are more merciful to both man and beast in Baltimore, but to any one in a hurry a trip in a horse car in the latter city is just so much lost time. A very cheap ride, only five cents, (in New York) is on the Belt Road from Central Park to the Battery, taking over one hour to do it, and giving one a view of all East New York, adjoining East river. When the new Elevated Railway is in running order it will take not more than fifteen minutes to go the same distance.

A visit to Central Park on Sunday gives an impression to a stranger that it is some holiday, there are such crowds of people to be seen. Of course everybody who goes to New York "takes in the Park," and in fact, no one ought to think of going away without going there. The Museum and Menagerie are objects of great interest, and no show travelling can compare with the show given here to all who choose to attend.

Before closing, perhaps it may interest many of the readers of the CHRONICLE and GAZETTE, to allude to the St. Cloud Hotel and its popular proprietors, the Rand Bros. They are all there ready to receive their friends with an old-fashioned welcome, and entertain them with the best of everything, good cheer included; but intimate friends, and especially if a little verdant from long absence from contact with things that are sharp and city-like, have to keep their ears and eyes open—wide open—and mouths closed, tight—yes, very tight—if they don't wish to buy anything. Anybody wishing to purchase a few specimens, which were innocently bought and are carefully treasured, can be accommodated at the lowest market price by applying to NAT.

The Merrill Will Case.

The Merrill will case has assumed a new phase by reason of proceedings recently begun in the Supreme Court of New York by George Merrill, the principal contestant, through Man & Parsons, his attorneys. By the will of Captain Merrill, made November 17, 1856, George Merrill received $30,000, and the residue of the estate, amounting to $350,000, went to Mrs. Merrill. The will of Mrs. Merrill, made at the same time, has corresponding provisions in regard to the husband and the adopted son. Mrs. Merrill, in 1861, made another will, and still another—the one offered for probate—in 1871. From the first two wills she cut out her signature before making the third one. The present proceeding in the Supreme Court is based on the validity of the first will of 1856. The following allegations are made in the complaint:

"Mrs. Merrill was, at the time of Mr. Merrill's death, possessed of little if any estate. Under the will of Mr. Merrill she received all the estate that was left by him, less only the legacy of $30,000 which, by Mr. Merrill's will, was bequeathed to George. The said wills of Mr. and Mrs. Merrill were mutual wills. Prior to their execution it was agreed between Mr. and Mrs. Merrill that Mr. Merrill should make his will as aforesaid, and in consideration thereof that Mrs. Merrill should make her will as aforesaid, and to her death should continue the same unchanged. The intention of the agreement, well understood and agreed to by each, was that if Mrs. Merrill survived her husband, her estate, including what she so received from her husband, with its accumulations, should go to George Merrill, their adopted son. It was for the purpose of carrying out this intention that the agreement was made and that the wills were executed. It was under and by means of this agreement Mrs. Merrill became possessed of the residuary estate left by Mr. Merrill."

When Mrs. Merrill cancelled the two earlier wills, and when she made the last one, it is further alleged, she was insane, and these acts were invalid. The complainant, therefore, asks that Mrs. Merrell's will of November 17, 1856, be declared her only valid will, and that the

proceedings before the Surrogate for the probate of the papers propounded as the will and codicil of Mrs. Merrill may be enjoined.

In this action not only Cardinal McCloskey and the representatives of the Catholic institutions to which Mrs. Merrill left her money, but also all the other contestants, excepting George Merrill, are made defendants. Homer A. Nelson, who appears for George H. C. Salter and seven other nephews and nieces of Mrs. Merrill, has put in an answer to the complaint, alleging that Mrs. Merrill, in cutting her name from the two earlier wills, cancelled them, and that her will of 1871 was made while she was insane, and therefore she died intestate; if so, her property must be divided according to law among her next of kin. The answer moreover alleges that the will of Captain Merrill, made in 1856, shows his intention to give his property unreserredly to his wife.

Daily Chronicle

SATURDAY, MAY 18, 1878.

The Democratic Revolutionists.

The Tilden "fraud movement" by the democrats of the House must be aimed at the accomplishment of one of two ends, viz.: to unseat the President or to make political capital for the democratic party. Many of the democratic leaders and not a few of the democratic papers steadily insist that the end aimed at is not the Mexicanizing of the United States by the expulsion from his seat of a legally elected President, that the defeated candidate may occupy it; and if they tell the truth, then the "investigation" sought for under the Potter resolutions can be nothing more or less than an attempt to prostitute the highest and most sacred functions of the government to the basest partisan purposes, and to make the people of the nation pay the secret service expenses of the democratic party. The wretched dishonesty of the democratic pretenses—which deceive nobody in either party—that their "fraud" movement is solely in the interests of a pure ballot, is shown by their refusal to extend the investigation beyond the boundaries designated by Tilden; should it be thus extended the Tildenites would drop the whole matter, as is that case they know that they cannot prevent the production of absolute proof that whatever Hayes' friends may be charged with having done, attempts to bribe can easily be proved on Tilden and his managers.

But the republican watchers at Washington—even those who at first believed that the "fraud" movement was merely a wire-pulling dodge to influence the next Congressional election—have become satisfied that whatever one portion of the democratic party may mean, the ruling portion means nothing less than to seat Samuel J. Tilden. In other words the "fraud" managers aim to expel from his seat the President declared elected by the 44th Congress, which body was the sole judge of the matter under the Constitution. True, this would be revolution; but many of the same men who are engineering the "fraud" were engaged in the previous democratic attempt to revolutionize the country, and are quite ready to destroy through revenge what they failed to destroy in the interests of human slavery—republican government in America. If their revolutionary scheme is allowed to prevail, the election of President by the people will become even more of a farce than it is in Mexico; for the tenure of office of the President would depend on the party that elected him retaining control of Congress. There would be nothing to prevent the opposite party, once a majority in Congress was secured, from declaring the office of President vacant and then filling the vacancy by putting their own candidate into it. There is nothing to prevent this being done now, save the law and the Constitution, backed by the respect of the American people for their republican institutions. And once let the highest and most sacred laws of the land be successfully kicked aside in the manner contemplated by the Tilden "fraud" managers, and a clique of political tricksters will have accomplished what the armies of the confederacy failed to compass—the "bursting of the republican bubble."

A Modest Southern Claimant.

On Thursday one Dr. John B. Read was heard by the Senate patent committee in support of a claim against the government for $17,000, for the use during the war of his inventions and improvements in projectiles for rifle cannon. This same invention was patented by him in Richmond, Va., during the war, and was used by the confederates in the field. Now, as a loyal man, he presents this claim against the United States government for a royalty for the use of this same projectile by the rebel government in the effort to destroy the Union!

News and Notes.

Earl Russell, long a prominent man in English politics, died on Friday, in his 86th year.

The last of the $50,000,000 of 4 1-2 per cents has been subscribed for by the Syndicate, and they are talking about taking $100,000,000 of four per cents.

The riots of the cotton workers in England continue. Three cotton mills were burned by mobs, Thursday.

An old man in Chester, N. Y., whose house was on fire Wednesday night, carried out his wife and then returned for some valuable papers, when he was burned to death.

Mrs. Lydia Sherman, the Derby poisoner, has died in the Connecticut State Prison, where she was serving a life sentence for poisoning her husband. After her sentence for this crime she confessed to having poisoned three husbands and four children. She was a little over fifty years old. She once escaped from the prison and was recaptured.

A dispatch from North Troy, Vt., near the Canada line, says that a body of Irishmen is encamped in the woods near that place, and is receiving accessions hourly. The Canadian militia have been called out to repel an anticipated Fenian invasion. Probably all bosh.

A Texas despatch says: "The first car of new wheat was shipped Wednesday from Dallas via the Texas Central Railroad to St. Louis. The yield of wheat is heavy."

Governor Rice nominated, and President Hayes has appointed, E. B. Haskell of the Boston *Herald*, and Charles L. Lovering of Taunton, honorary commissioners from Massachusetts to the Paris Exposition.

A remarkable story is told in relation to the murder of the late Earl of Leitrim. The Earl, it is asserted, was killed by the relatives of a woman whom he had seduced. They went from England to Ireland for the purpose, and two of the three men who committed the deed are said to have escaped to this country.

A Rhode Island paper says: "The automatic fog horn at Newport, R. I., which has continued its unearthly sounds up to the present time, will soon be removed; the plan of a fog bell to be rung only in thick weather has been accepted in its place. Many letters have been received at Newport from persons who hesitated to make their summer arrangements till this question was settled."

Mr. Lapham, of New York, does not propose to leave the country defenseless under the democratic policy of cutting down the force of the regular army. He has introduced a bill which proposes to permit the President to increase the army to 75,000 men by enlisting volunteers during the recess of Congress, in case of necessity for a greater force, which is wise, prudent, and timely in view of the possibilities.

The democratic aldermen of Augusta have created quite a rumpus by taking the appointment of city team driver from the Chief Engineer of the Fire Department and vesting it in themselves. Chief Engineer Morse and First Assistant Robbins have resigned, two companies have disbanded and the third is to follow, while the aldermen have filled the places of the resigned officers with men who know nothing about the Fire Department's affairs.

Congress.

The Senate in executive session on Wednesday ratified a treaty between France and the United States providing for a convention to be held at Paris next summer, with a view to the adoption of a metric system of weights and measures. It is expected that all the principal European nations will participate in this conference. The treaty was concluded about two years ago.

The Senate committee on judiciary has decided that the President acted without warrant of law in restoring Major B. F. Runkle to his rank in the army. A report to that effect will be made to the Senate in a few days. The committee holds that verbal confirmation of the findings of courts martial by the President, through the Secretary of War, is as binding as a written order of approval.

Political.

At a meeting of the Tammany Hall General Committee in New York Thursday night, State Senator Ecclesine made a vigorous speech in denunciation of Samuel J. Tilden, who, he said, having been elected President, had not the pluck to take that given him by the people. The republicans have foreshadowed their coming man, now touring in Europe. He is bold, vigorous and determined, and sticks to his friends. The democrats must name a man of like qualities.

The Ohio House cast sixty-four yeas and eighteen nays Wednesday, on a resolution declaring the seat of Representative John O'Connor, the thief, vacant, but the Speaker, in view of some technicality, reserved his decision as to the adoption or defeat of the resolution until Thursday.

Representative Casey Young is another active rebel against the domination of King Caucus. He outdoes Mills, of Texas, in the earnestness of his opposition to the Potter resolution. He demands that this title-investigation business shall stop short of Tilden's claims. He believes the title of President Hayes to be "sacred and irrefragable," and asks his fellow-partisans to join him in a declaration of that belief, but they significantly refuse. Hence the democratic inharmony and a threatened bolt from caucus rule.—*Washington Republican.*

New Hampshire Items.

At the preliminary examination of George H. Wood on the charge of felonious assault upon the wife of Eli N. Davis, he was held at Wolfeborough Thursday in $600 for his appearance at the October term of the Court. The parties live in Tamworth, and are married. Wood is reputed to be wealthy, while Mrs. Davis is poor, but bears a good reputation. The crime it is alleged was committed on the night of the 23d of April at the house of Mrs. Davis, while alone, her husband being away at work at the time.

The annual Convocation of the Masonic Grand Council of High Priests of the State of New Hampshire, in Concord, elected John J. Bell of Exeter M. E. President, Albert S. Wait of Newport E. Vice-President, Elisha Ayer of Keene E. Chaplain, Alpheus W. Baker of Lebanon E. Treasurer, George P. Cleaves of Concord E. Secretary, Frank D. Woodbury of Concord E. Master of Ceremonies, Benjamin F. Webster of Portsmouth E. Conductor, Charles N. Towle of Concord E. Herald, Edward Dow of Concord E. Guard.

A Debatable Question.

While much has been written concerning the use of "put up" medicines, the question is still an open one, and demands of the people a careful consideration. The salient points may be briefly stated, and answered as follows: 1st—Are the sick capable of determining their real condition, the nature of their malady, and selecting the proper remedy or means of cure? 2d—Can a physician, no matter how skillful, prepare a universal remedy, adapted to the peculiar ailments of a large class of people, residing in different latitudes, and subject to various climatic influences? In answer to the first proposition, we would say, diseases are named and known by certain "signs" or symptoms, and, as the mother does not need a physician to tell her that her child has the whooping-cough, or indicate a remedy, so people when afflicted with many of the symptoms concomitant to "impure blood," "torpid liver," and "bad digestion," require no other knowledge of their condition, or the remedy indicated, than they already possess. Second proposition—Many physicians argue that diseases are sectionally peculiar and that their treatment must therefore vary, and yet quinine, morphine, podophyllin, and hundreds of other remedies are prescribed *in all countries* to overcome *certain conditions*. Is it not, therefore, self-evident that a physician whose large experience has made him familiar with the many phases incident to all impurities of the blood, general and nervous debility, liver complaint, dispepsia, consumption, and catarrh, can prepare a series of remedies exactly adapted to meet the conditions manifest, wherever, and by what means, it may have been engendered? The family medicines prepared by R. V. Pierce, M. D., of Buffalo, N. Y., fulfill the above requirements. Many physicians prescribe them in their practice. His Golden Medical Discovery has no equal as a blood-purifyer and general tonic, while his Favorite Prescription cures those weaknesses peculiar to women, after physicians have failed. His Pleasant Purgative Pellets, which are sugar-coated and little larger than mustard seeds, are a safe and certain cure for "torpid" liver and constipation. If you wish to save money by avoiding doctors and keep or regain your health, buy The People's Common Sense Medical Adviser, an illustrated work of over 900 pages. It contains instruction concerning anatomy, physiology, hygiene, and the treatment of disease. Over one hundred thousand copies already sold. Price (post-paid,) $1.50. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

Proposals for Rations.

QUARTERMASTER'S OFFICE,

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PIERCE, Jr., P. M.

THE CITY.

A game of base ball at the navy yard on Friday between the Granite States and the Marine nine was won by the Granite States, score twenty-six to seven.

Rev. Dr. Alden will give the sixth of his course of lectures on the East, at the Middle street church on Sunday evening. Subject, "The Red Sea and the Desert."

The schooner Grace Choate arrived on Thursday for repairs, having carried away one of her main shrouds and jibstay bolt. She put to sea again on the same day.

Rev. John A. Goss, of this city, delivered his lecture on "Wit and Humor," to an appreciative audience in Manchester on Wednesday evening; the *Mirror* refers to it as "very interesting."

Mr. Patterson has a vivid and magnetic style of oratory particularly adapted to describing foreign travels. Get your tickets for Tuesday night—before they are all gone—at Rundlett's.

John Buckley, a lad about eleven years old, was run over by a team on Market square, Friday evening, but received no serious injury. This was about the time the rope-walker was getting ready to perform. The exercises were also varied by a brisk dog fight.

There was about 100,000 feet of lumber on Fernald's wharf when it broke down on Thursday, and the lot would have gone adrift had it not been for a schooner which was moored in such a position as to prevent it floating away. The wharf we are informed will not be rebuilt.

Mr. Cyrus M. Rogers, section boss on the Concord Railroad, on Friday morning accidentally left his watch in a building on the railroad wharf, and forgot it until noon, when he looked for it but did not find it. It had been picked up by Mr. Daniel Sullivan, who promptly handed it to Mr. Rogers as soon as the latter made known his loss.

As Mr. John B. Trefethen, of Kittery, was driving up Market street, Friday afternoon about three o'clock, on his way home, when near Plaisted's corn and grain store the forward axle broke, letting the carriage down lively. Mr. Trefethen got out of the carriage in a very brief period, but no other harm was done, the horse being immediately stopped.

The Temperance Mutual Relief Association had a very pleasant gathering at Franklin Hall Thursday evening. The attendance was large, and at the supper there were abundant refreshments, which were handsomely served out by an efficient committee. Mr. S. W. Clarke, President of the Association, presided at the table, and excellent little speeches were made by ex-Mayors Marvin and Miller, Rev. Dr. Alden, Rev. C. B. Pitblado, Messrs. Treat, Janvrin, Thurston, Tripp and others. The Relief is a growing organization and is fast becoming one of the best in the city. There are now about seventy members.

About half-past one o'clock, Friday afternoon, as a team with two men was coming over Noble's island bridge into this city, the horse took fright at a locomotive and ran away. At the corner of Green and Market streets he hit the carriage against a lamp-post, throwing out one of the occupants, a Mr. Shattuck, who lives in Concord and was on his way from York to take the train for his home. The horse kept on, caroming on the buildings on both sides of the street, until he reached Junkins' store, where he was stopped. The carriage was not badly hurt, and the men not at all, which was considered a wonder by the spectators, who cannot yet explain how Mr. Shattuck escaped instant death.

MEMORIAL DAY.

The Committee on Memorial Day met in the Common Council room Friday evening.

A communication was received from the Portsmouth Heavy Artillery, stating that they had voted to participate in the parade on Memorial Day. The U. S Marines at the navy yard will appear in line.

Col. J. Horace Kent was appointed a committee to visit Dover and see what arrangements can be made in regard to the State militia joining in the parade.

Hon. N. B. Bryant, of Boston, has consented to deliver the oration in Music Hall in the evening. The hall has been secured, and only those having tickets will be admitted; the tickets to be in charge of Messrs. Rundlett and Hutchinson, and the number limited to 1200.

Adjourned to Tuesday evening at 7:45 o'clock.

EASTERN RAILROAD.

A writer in the Dover *Enquirer* says there is scarcely a railroad in the Eastern States with greater facilities for success than the Eastern, and notwithstanding its history for the past ten years, there is assuredly a future, and in the years that lie before it, with such energy and perseverance as are now associated with the name of Gen. A. P. Rockwell as its President, must ultimately be marked with success. "It is only fools who make mistakes"—so if wise men make them, so much more they profit by them, and those who now see through a "glass darkly" may be astonished by its success in the no distant future. It has the finest rolling stock and all combinations for speed and safety in transportation, and if you travel from here to San Francisco, you will never find more gentlemanly conductors, nicer Pullman cars, and every accomodation for ease and comfort, than are daily in attendance.

So much, also, can be said of the beauties of the landscape scenery. If you travel for pleasure during the vacation season of July and August, starting from Boston, catching glimpses of those beautiful oases God has given for our enjoyment, one will see Nahant, Salisbury Beach, Boar's Head, Hampton, esc., etc., with ever and anon a whiff of its invigorating air. Still onward and there is ten miles of its road, built on the banks of the Piscataqua and Cocheco rivers, that delights the eye of the lover of nature, and beyond the blue of these waters, are the far famed hills of New Hampshire, of which she is so justly proud, presenting that undulating surface, broken and dotted here and there by the thrifty farm houses. Then if you still go on, there are Wells and Portland along the coast of Maine, and Wolfeboro' and North Conway in New Hampshire (being the only true approach to the famous White Mountain region,) as sentinels, keeping watch and ward at the very gate-way of this popular resort, where its iron track is smiled upon by Chocorua's "horn of plenty," and the throes of nature with its vast upheavals made room for the iron horse in the valley below, while Mt. Washington in the foreground bids one welcome to its cooling shadows and invigorating air.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7.30.

At the Congregational church, Rev. James W. Hubbell, pastor, services at 10:30 A. M. and 3 P. M.; prayer meeting at 7:15 P. M.

At the Advent church, services at 10:15 A. M., 2:15 and 7:30 P. M. Elder John Sedequist, of Lynn, will preach to-morrow.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7:30; Sunday school at 2:45 P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

Mission services; William A. Loyne, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

Reform club meeting in Mechanic's Hall at 7:30 P. M. Speaking by members.

THE VICINITY.

A greenback club is to be organized in Rye, according to common report.

The Universalist society at Kittery has within the last few days raised by volunteer subscription the sum of $440 to help liquidate their debt.

The Kittery greenbackers had a large meeting in Trefethen's Hall on Wednesday evening, the 15th inst., and propose to make things lively for both the old parties.

The census of Greenland, just completed, shows that there are 673 inhabitants in the town, of whom 190 are voters. By the census of 1870 the population was 695.

In the United States District Court at Portland, Thursday, in the case of George Bowden against the Manhattan Fire Insurance Company to recover the amount of insurance on the summer hotel at York beach, burned May 24th, 1876, a verdict was rendered for Bowden for $2700.

About the Duke of Edinburgh.

It is alleged, and is now pretty confidently believed, because there has been no denial, that he has been guilty of misconduct, which, if he had been a common sailor, would have sent him to the yard-arm, or, if any rank below that of a prince of the blood, would have subjected him to ignominious cashiering by a court martial, if he were not put on his trial for high treason. The distinct charge is that, having received as a guest on board his ship one of the Princes of Battenberg, an officer in the Russian service, he so far forgot, not only the dictates of common sense, but his obligation as a British officer, as to reveal to him the details of the English torpedo system. The story seems almost incredible, but it is to be feared is too true. Probably he had been indulging too freely, and was scarcely conscious of what he was doing, but the event shows how absurd it is to make ornamental captains and admirals of the princes of the blood, who can not be, and are not expected to be, practical and professional officers. Of course the matter will be hushed up, but the public will be very much surprised, and certainly have good reasons to complain if His Royal Highness is ever intrusted with another command.—*London cor. Chicago Journal.*

—The striped India shawls which used to sell for thirty and forty dollars are reduced to eight, ten and twelve, and are being sold for window curtains.

MARRIAGES.

Ship Gov Goodwin, Lester, from Victoria arr at San Francisco May 9th.

A Tranquil Nervous System

Can never be possessed by those whose digestive and assimilative organs are in a state of chronic disorder. Weak stomachs make weak nerves. To restore vigor and quietude to the latter, the first must be invigorated and regulated. The ordinary sedatives may tranquilize the nerves for a while, but they can never, like Hostetter's Stomach Bitters, remove the causes of nervous debility. That superb invigorant and corrective of disordered conditions of the alimentary organs has also the effect of imparting tone to the nerves. The delicate tissues of which they are constituted, when weakened in consequence of impoverishment of the blood, resulting from imperfect digestion and assimilation, draw strength from the fund of vitality developed in the system by the Bitters, which imparts the required impetus to the nutritive functions of the stomach, enriches the circulation, and gives tone and regularity to the secretive and evacuative organs.

"Will you take a hack, sir?" "No sir, I had a hack for five years, and got rid of it by using *"Adamson's Botanic Cough Balsam."* Price 35 cts.

THINK OF IT, that a Cough or Cold neglected, may lead to serious consequences: in the early stage of Throat and Lung diseases, *Madame Porter's Cough Balsam* is an invaluable remedy, can be taken by the oldest person or youngest child. *Is safe, reliable, and agreeable to the taste.* Price 25 cents, and in large bottles at 50 and 75 cents.

t m 21

"To do as Folks of Fashion do," in one respect at least, you must use GLENN'S SULPHUR SOAP, which is immensely popular among the elite of society, and deservedly so, for it is the most salutary of beautifiers and purifiers. Sold by all Druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50 cents. tmay21

The Colonnade Hotel, Philadelphia, Pa., sustained its well-merited reputation, and, if possible, earned greater, with its patrons, during the "Centennial Exhibition."

A lady in Westchester county, N. Y., made $1,200 lately by an investment of $106.25. Alex. Frothingham & Co., 12 Wall street, New York, were her brokers. Send for their *Financial Report.* You may be equally as fortunate. 6

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 7

Centaur Liniments.

More than 1,000,000 bottles of the new celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, from a single bottle, they have cured Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poison one Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbonic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and flesh of horses and animals. For Stiff Joints, Lameness, Sprains, Bruises, Sore Throat, Colds, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of *Dr. Pitcher's Castoria*, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or cordial ever used. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for Children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.

Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable, and agreeable medicine.* It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms Sour Stomach and Disordered Bowels, there is nothing like Castoria. 1aug

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it by them, ready for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

NEW FOUR PER CENT
GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and $1000 upwards, at par and accrued interest in coin.

The Bonds are redeemable after July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth, laid on beds of stone or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are of the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed, a combination of safeguards against accidents which have rendered them practically
Impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis.
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 16eb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 8 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article, by reason of superior merit, Dr. Pierce's 8 standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Cures "Cold in Head" and Catarrh, or Ozena.

AN OPEN LETTER.
It Speaks for Itself.
ROCKPORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures at catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (mere dollar-grabbers) would be glad if they could emblazon a similar cure in the papers. For 26 years I suffered with catarrh. The nasal passages became completely closed, "snuff," "dust," "ashes," "inhaling-tubes," and "sticks," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became the valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 36 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nerves very much shattered, and constitution broken, and I was hawking and spitting seven-eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. A very experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES,

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

Golden Medical Discovery
Is Alterative, or Blood-cleansing.
Golden Medical Discovery
Is Pectoral.
Golden Medical Discovery
Is a Chologogue, or Liver Stimulant.
Golden Medical Discovery
Is Tonic.
Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Chologogue properties render it an unequaled remedy for Biliousness, Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

When the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of "Golden Medical Discovery" will effect an entire cure. If you feel dull, languid, dobilitated, have sallow color of skin, or yellow blotches, or spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits and gloomy foreboding, irregular appetite, and tongue coated, you are suffering from *Torpid Liver, or "Biliousness."* In many cases of "Liver Complaint," only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's
MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Advisor, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

PATENTED April 10, 1877.

This *simplest* and *best* article for **Cooking Beefsteak** *ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the *juices* and *flavor* are retained.

Does not get *ashes* or *coal* on the meat. Does not give smoke and *gas* out of the stove. Does not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & Co., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fiberville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY for DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 75c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purpose."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For three years I have not breathed through one nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored, have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made me familiar with his case. I believe his statement to be true in every particular. JAS. F. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

Honors to a Horse.

The following are General Orders No. 7, issued from the Headquarters of the Seventh United States Cavalry, Fort A. Lincoln, Dak., April 10, 1878:

I. The horse known as "Comanche" being the only living representative of the bloody tragedy of the Little Big Horn, June 25, 1876, his kind treatment and comfort should be a matter of pride and solicitude on the part of every member of the seventh cavalry, to the end that his life may be prolonged to the utmost limit. Wounded and scarred as he is, his very existence speaks in terms more eloquent than words of the desperate struggle against overwhelming numbers, of the hopeless conflict and of the heroic manner in which all went down on that fatal day.

II. The commanding officer of Company I will see that a special and comfortable stall is fitted up for him, and he will not be ridden by any person whatever, under any circumstances, nor will he be put to any kind of work.

III. Hereafter, upon all occasions of ceremony (of mounted regimental formation) "Comanche," saddled, bridled, draped in mourning and led by a mounted trooper of Company I, will be paraded with the regiment.

By command of Brevet Major-General S. D. Sturgis, Colonel 7th Regiment.

A Dog Story.

A paragrapher gets off a good joke on a dog or the man who bought the dog for a ratter, or both dog and man. His house was troubled with rats and he paid a good round price for a ratter that had made a brilliant record of rat-slaying, so his original owner said. The purchaser took his canine prize home to have some fun with him. The first thing he did was to give the dog a bone to polish in the back yard, and he showed that he thoroughly understood bones. Presently a huge rat came out of his hole and rodent and ratter were face to face. The man called his wife to see the sport. The rodent drew nearer and nearer to the ratter and his bone. The following dialogue initiated by the man ensued in whispers:

"Now watch him; just keep your eye on him!"

"Why, he doesn't seem to see him, does he?"

"That's all right; he's laying for him. You'll see some fun directly. There, he sees him now."

"Yes, but what makes him stick his tail between his legs that way, and bristle up so?"

"Oh that's all right—guess he does that because he's mad."

Rat and ratter were new nose to nose. The rat seized the bone and shot back into his hole as though he had forgotten something; and the excited spectators conversed no more in whispers.

He Had a Heart.

She was an angel blonde, and tripped through the market until she reached a stall where a handsome butcher stood.

"Have you a heart?" she said blushing timidly.

"Have I a heart, Miss?" responded the butcher. "Do you think that I can watch you day after day and see your eyes cooping as they meet mine—that I can feel your velvet breath on my cheek, as I stoop over to serve you—and not have a heart? Ah! maiden, I am all heart, and you ask me have I one?"

"Yes," she sighed faintly, "this is beautiful, this is divine, but it ain't the kind I want this morning, so give me a bullock's heart, quick; and trim it for stuffing, or my old man'll be raising Cain if his dinner ain't cooked."

—Dr. Mary Walker has so far recovered her health that she has left the hospital.

—The *Hawkeye* notes the fact that the boy who does not known that the gun is loaded is nevertheless always found at the safe end of the gun. Providence ought to look after this little arrangement, and reverse it occasionally.

—An interesting experiment in magnetism was recently related to a scientific society in Philadelphia. A spider found running along the carpet was covered by a small U shaped magnet, so that it rested between the arms of the magnet. The spider stopped, and in a few seconds was motionless. At the end of a few moments it moved slightly, and at the end of five minutes was quite still. The spider and magnet were covered with a tumbler, and upon examination two hours after the spider was found to be dead.

—Far and wide the "saloon" gains its support from the wages of the laborer, and returns him nothing but poverty and wretchedness. Two laborers come to blows and are dragged into the police court to be fined or imprisoned. It is all a very costly proceeding for them, and the chances are one hundred to one that they would have remained at peace and saved their money for legitimate expenses but for the "saloon." Nine-tenths of the crime and pauperism are directly traceable to this agency, and yet "labor" has not the wit to see it. Practically the dispenser of liquid poison is held to be the best friend of the workingmen, and is accorded more influence than the most respectable employer, however generous he may be. As a rule, if an aspiring politician wishes to make use of a large vote from the ranks of labor he buys the influence of the saloons. It is always for sale, as much so as the goods passed over the counter, but the laborer goes on denouncing the oppression of capital while contributing to the support of the saloon without a murmur and patiently following the lead of the man behind the bar.—*Hartford Post.*

Daily Chronicle

MONDAY, MAY 20, 1878.

Success of the Fraud Revolutionists.

On Friday afternoon, after having wasted a week of time which should have been devoted to the appropriation bills and other measures of importance to the country, the democratic revolutionists of the national House of Representatives succeeded in passing Potter's partisan resolution, providing for a partisan and partial investigation of alleged frauds in the Presidential election. The vote on the final passage of the lying preamble and restricted resolution was 145 to two —the republicans refusing to vote. The democrats voting against the infamous measure were Mills of Texas and Leopold Morse of Massachusetts. The result so far shows what can be accomplished by the reckless audacity of a score of bold, bad men. Probably not thirty members of the democratic side desired to disturb the business of the country, and stir up feelings settled by the Electoral Commission, but they were driven into it—completely bull-dozed—by the audacity of a few of their reckless associates. The conduct of Speaker Randall throughout the whole proceedings must earn for him the contempt of the country, his rulings throughout having been partisan to the last degree.

In gleefully announcing the success of their first move toward revolution, the democrats say "the committee does not expect to get through the investigation before Congress adjourns, and no report is expected to be made at the present session, although it is announced that most of the meaty evidence can be formulated and brought out within fifteen days"—meaning, of course, that this partisan committee, expressly appointed to conceal the scoundrelism of the Tildenites, will in fifteen days issue a manifesto, regardless of decency or truth, to be used as democratic capital in influencing the fall elections. And it is significant of the intentions of the fraud engineers that the democratic despatches from Washington remark that it is singular that Hayes was nominated on Friday and declared elected on Friday, and "now on a Friday the Presidential question is reopened." How well the suffering business interests of the country will like the reopening of the Presidential question remains to be seen.

A Pregnant Warning.

The Republican Congressional Committee, at the close of the unavailing struggle against the revolutionary scheme of the democrats of the House, issued the following address

To the Voters of the United States: The democratic House of Representatives has to-day by a party vote adopted a resolution which, under the pretence of an investigation, is to lay the foundation for a revolutionary expulsion of the President from his office. This is the culmination of a plot which has been on foot from the day that Hayes and Wheeler were constitutionally declared elected. It made its first public appearance in the resolution of the last democratic House, adopted at the close of the session, declaring that Tilden and Hendricks were elected. Tilden and Hendricks subsequently made similar public declarations themselves. A few timid members have long held back, and some of them, after being coerced to the final vote, still pretend that they will halt as soon as their partial and one-sided investigation shall be ended. In other words they intend, after hearing suborned evidence, to bring in a verdict that Hayes is a usurper, and that he shall not remain in office. These men have no control in the democratic party. They dared not even to follow Alexander H. Stephens, a unit against caucus dictation, to the extent of showing some semblance of fair play. They will, impotent in the future as they have been in the past. Moreover, it is difficult to believe in their sincerity, in the public disavowal of their party, that its purpose is, if possible, to displace the President. It is a matter of history that the resolution just adopted was framed to express this object. The Speaker of the House was consulted in advance as to whether he would rule that it was a privileged question. The party managers were anxious to conceal their purpose if possible. In this they were defeated by the Speaker, who would not rule it a question of privilege unless it clearly assailed the title of the President. The resolution being offered, he read a carefully prepared opinion, deciding it to be a question of the highest privilege, because it involved the question of the validity of President Hayes's title. Here are his very words: "A higher privilege than the one here involved, and broadly and directly presented, as to the rightful occupancy of the chief executive chair of the Government, and the connection of high Government officials with the frauds alleged, the Chair is unable to conceive. The Chair finds enumerated among the questions of privilege set down in the manual the following: Election of President. The Chair therefore rules that the preamble and resolution embrace questions of privilege of the highest character, and recognizes the right of the gentleman from New York to offer the same." Upon this the republicans commenced a struggle against the revolutionary scheme, which, after five days' duration, terminated in the success of the conspirators. The republicans offered to favor the fullest investigation into all alleged frauds by whichever party charged to have been committed, but the democracy pursued its course shamelessly and relentlessly, and stifled all inquiry into the attempts at bribery in Oregon, South Carolina, and Louisiana, and murder and violence in the several States. Neither amendment nor debate was allowed. The inexorable previous question was applied and enforced. This scheme, if pursued, and it is now fully inaugurated, can only have the effect of further paralysing business of all kinds; preventing the restoration of confidence, which seemed promising, casting a gloom over every household and bringing our nation into reproach before the civilized world. The peace of the country is the first consideration of patriots. This new effort of the democracy to inaugurate anarchy and Mexicanize the Government by throwing doubts upon the legitimacy of the title of the President is in keeping with the record of that party, one wing of which rebelled against the Government while the other wing gave them aid and comfort. We call, therefore, upon all who opposed the rebellion of 1861, without distinction of party, to rally again to the support of law and order and stable government, and to overwhelm with defeat the reckless agitators, who, to gain political power, would add to the present distress of the country, by shaking the foundations of the Government, which they failed in a four years' war to destroy.

By unanimous consent of the Committee. EUGENE HALE, Chairman.
GEO. C. GORHAM, Secretary.

The Model Investigator.

Mr. Glover, the professional investigator, has caught another swindler—but this one, too, is a democrat, F. A. Prescott, one of the democratic "experts" who went to Louisiana with Morrison's committee to help the White League count the Presidential vote, on a salary of $5 a day, and who filled out a voucher at $10 a day and himself signed Morrison's name to it. Since his return from Louisiana, Mr. Prescott has been a hanger-on of the "democratic reform House."

And still another. And this one, too, like each of Glover's other hauls, a democrat. On Thursday, when Glover landed his net, he found in it a swindler of larger size than the bummer Prescott—ex-United States Representative Meade of New York, no less. This Meade was one of the democratic Louisiana fraud committee—that famous convocation of patriot reformers whose first bill for the people to pay was for "$196 worth of champagne, cigars and Old Stag whiskey;" he is a democratic reformer of heavy calibre, and a trusted friend of that epitome of reform, Samuel J. Tilden. He was chairman of one of the democratic fraud sub-committees, and as such drew two thousand dollars for the payment of expenses which now turn out to have been all paid by Moore, then Deputy Sergeant-at-arms.

Glover, of the dragnet, may not be doing so much good to the democratic party as it was expected he would do when he was set to work, but he is doing good work nevertheless. If the "democratic House" tires of him, the republicans should keep him going, and give him all the "experts" he asks for, even if they have to pay the expenses out of their own pockets. He is fast demonstrating that the pure democratic reformers have stolen everything they could lay their hands on, while controlling only one branch of Congress; and that they would steal the entire country were they once entrusted with it.

Naval Affairs.

Rear-Admiral Rodgers is ordered to duty as a member of the Lighthouse Board, in addition to his duties as Superintendent of the Naval Observatory.

Among other promotions of naval officers confirmed by the Senate on Friday were: Commander S. Livingston Breese to be captain; Lieut. Thomas M. Gardner to be lieutenant-commander.

The Senate on Friday passed a bill giving pensions to Louisa J. Guthrie, widow of Capt. John J. Guthrie; Ellen Saxton, widow of James Saxton; Celia Bell, widow of Stephen Bell; Roxana Walker, widow of Willis Walker—whose husbands were drowned while attempting to render assistance to the crew of the United States steamer Huron; also the House bill granting a pension to the widow of the late Commodore Benjamin J. Totten.

Norfolk advices of last week announce that the U. S. S. Powhatan, the flag-ship of Rear-Adm. Trenchard, was to leave there on Monday for New York, where she will receive new boilers and be overhauled and fitted out for the reception of Rear-Admiral John C. Howell, who is to succeed Admiral Trenchard on the first of July in command of the North Atlantic and Gulf squadron. The Powhatan has been lying at the naval anchorage below Norfolk for the last six or seven weeks.

Commodore John C. Beaumont, Chief Signal Officer of the navy, will be ordered this week to command the Boston navy yard, to succeed Commodore Foxhall A. Parker, who is ordered as Superintendent of the Naval Academy. Commodore Beaumont is well known as the officer who commanded the first iron-clad vessel which ever crossed the ocean; the vessel which was sent to Russia in 1866 to congratulate the Emperor on his escape from assassination and to show the gratitude of America for the good feeling evinced for us during the civil war. There are a number of applicants for Commodore Beaumont's present detail as Chief Signal Officer of the Navy, among whom are Captain John H. Russell, Captain Andrew W. Johnson, who was lately commanding the training ship Minnesota, and Captain William G. Temple, who is now the senior of his grade in the navy. The Navy Department rumor is that Captain Temple will succeed to the vacancy, and we incline to the belief that he will, as he always very naturally drops into the nice places in the Navy; and as he is a gentleman whom every one respects and likes no one objects to his enjoying these positions if he can attain them.

News and Notes.

The Fenian rendezvous at North Troy, Vt., turns out to be only a big gathering of tramps in the woods.

The Union Mills Co., of Fall River, Mass., has voted to go into bankruptcy.

The Massachusetts Legislature has adjourned.

There was a meeting in St. Louis, Thursday night, of a dangerous organization which proposes to supply arms to bodies of men who call themselves military companies to be composed exclusively of workingmen who were military veterans, formed "to protect themselves against the encroachment on their rights by the military and police forces." The Commune is going ahead rapidly.

The announcement of Lord Russell's death, made on Friday, was premature. He was reported as getting better on Saturday.

George McFarland, employed at the rolling mills, Portland, Me., died Friday of hydrophobia, induced by the bite of the mills watchdog.

Numerous thefts, outrages of women and other offences are reported against tramps throughout the country.

John Ten Eyck, the negro accused of murdering old Mr. and Mrs. Stillman at Sheffield, Mass., last year, was tried at Pittsfield last week. The case was given to the jury on Saturday, and a verdict of guilty was returned. The murder was a most brutal one, and committed for the purpose of robbery.

New Hampshire Items.

Eleven months ago the post-office at Manchester was robbed of between three and four thousand dollars worth of stamps in broad daylight. The stamps were stolen at noon while there was but one clerk in the office. The robbery was kept a secret until now, the detectives supposing that they could more easily catch the robber. In this they were unsuccessful, and the matter is now made public. An effort is being made to induce Congress to indemnify Postmaster Stevens for his loss.

The Nashua Manufacturing Co. pays a dividend on Monday, May 27th.

Political.

Apropos of Samuel J. Tilden's declaration that he had nothing to do with instigating and engineering the "fraud" movement, the democratic Baltimore *Sun* says that Speaker Randall met Mr. Pelton, Mr. Tilden's nephew, in that city just before the matter was introduced in the House, and that the two were in consultation all night. The inference is that Tilden is as careful not to waste the truth now as he was when he swore to his income-tax returns.

Only a few days ago the southern press was declaring that unless the northern democrats showed more zeal for the payment of southern claims, the south would switch off from the party. This talk has all subsided; the southern democrats are all suddenly converted to the fraud crusade, and there is a general understanding that all claims are to be postponed to the next Congress. Does this mean anything, and if so, what?—*Tribune.*

We trust that it is not the deliberate design of the democrats in Congress to reopen the Presidential question. There can be no rational expectation of unseating President Hayes. The democrats are still in Congress who urged the passage of the Electoral Commission Bill, which had little or no ground in the Constitution, no ground in equity, and not a shadow of excuse in politics, from the democratic standpoint. The Presidential question has been once—and finally—tried *before a tribunal which democrats created.* There is no hope of reversing the decision of that tribunal. To change it, it would not only be necessary to go "behind the returns," but behind the law of the land. The task found impossible before is doubly difficult now. As it is not intelligently expected that President Hayes can be unseated, the only motive for the introduction of the Potter resolution must be the design to make political capital. Even for this purpose we cannot but think the policy a mistaken one.—*Cincinnati Enquirer, dem.*

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&teeptf17

THE CITY.

The Light Artillery Company have engaged the North Hampton Flute and Drum Band, sixteen pieces, to accompany them on their visit to Concord, June 6th.

The alarm of fire at 4:20 this morning was occasioned by the partial burning of the building corner of Ceres and Bow streets, in the basement of which is Rand's eating house.

R. E. Chauncey H. Green, Grand Commander of the State of New Hampshire, is on a visit to this city and will be present at the conferring of the Templar degree by De Witt Clinton Commandry of Knights Templar this evening.

A college graduate who has been principal of high schools several years, advertises in a Boston paper that he will pay seventy-five dollars to a school committee for a principalship, and can give the best of reference; and he wants such committees as are in the market to address him confidentially in this city.

A well known grocer who lives on Wibird street and fills up the hiatus between harvesting and spring work by writing on the navy yard, created quite a sensation one night last week by appearing in his garden at a late hour, dressed in white clothes and a lantern, and proceeding to plant squashes. It is supposed his barn 'll be full of that choice fruit next autumn.

One of the most beautiful trees in the city is the flowering cherry in front of Mr. T. Salter Tredick's residence on State street. The two fine tulip trees in front of the Robinson house on Pleasant street were cut down last week; there are only two others in the city, that we know of, one in the front garden of the Burroughs house, and the other on the Pickering estate on Pleasant street.

An Italian named Signrei Gignie was arrested in this city on Thursday evening by Officer Bean of Manchester, for stealing $50 from Francis Codbout of that city. Gignie acknowledged the theft and stated that he secreted the money in a stone wall at Greenland. The officer and prisoner went to that town on Saturday to search for the money, of which $40 was found hidden where the thief said it was.

The China ware and paintings of the late Daniel Austin have been taken to Studio building at Boston, where they are offered at private vendue, to be delivered at place of sale. It would seem that if the expense of packing, transportation, etc., had been taken into the account, the executors of Mr. Austin's will would have realized a far greater sum at a competitive sale at Willow Bank, in the riverside mansion, where all these articles would have sold to far better advantage, to a company gathered at a public sale, than they can possibly do by the mode adopted. But the executors were lawyers and not business men.

There was a heavy southeast gale off the coast on Thursday, though it was not felt on shore here. A heavy sea was sent in on the beaches, and a large proportion of the lobster-pots at the Shoals and along to the eastward were lost. The wrecked schooner Hampden, ashore on Hampton beach, was driven high up on the land and broken to pieces, nearly the whole of the coal remaining in her being deposited above ordinary high water mark, so that there will be no difficulty in carting it off. About one hundred tons of the coal had previously been taken out in lighters.

Concerning the performance in Boston of "Fra Diavolo" by the Carleton English Opera Company, by whom the same opera will be given at Music Hall on Wednesday evening, the *Transcript* says: "Though not up to the standard of grand opera, the performance met every expectation of those who are familiar with the merits of the leaders of the company. Mr. W. T. Carleton, for the first time in Boston, assumed the tenor title role, and with his high baritone voice did himself much credit. His bearing in the part of the brigand chief was excellent. The Zerlina of Miss Maria Stone was creditable to her both in the singing and the acting, her fine voice bringing her at once on good terms with her hearers. Lady Allcash was assigned to Miss Adelaide Randall, whose manner and song were pleasing. The chorus showed excellent training, and the harmony in nearly every instance was perfect, and worked well with Mullaly's fine orchestra. As a whole the performance was a success, and the company has won much favorable comment in that opera."

[Communicated.]

FALL IN.

As Memorial Day approaches, it has occurred to me to say a few words in regard to the part taken by the service men in the observances of that day. The interest in the day has not lessened in the least, on the part of the civilian; an increased appropriation will be made this year by the City Government; the street display, floral offerings, etc., will be larger than ever before. The people generally have not forgotten to honor the brave men who fought and died that others might enjoy the blessing of a united and free country. Those who fought and are still living are the only ones who have seemed to lose interest in the day and in honoring the memory of their brave comrades. Year after year the number of soldiers and sailors in line on Memorial Day has grown less; last year there was but a corporal's guard. This cannot be explained by the excuse that their numbers have been lessened by death or other causes, for a very respectable number still live in Portsmouth, who if they wished could participate in the services of the day. As a general thing the old soldier has an antipathy against anything like drill; he has soldiered enough, and considers that the years he spent in the army during the war should forever excuse him from anything like military service. This is without doubt perfectly right; they certainly did their share, and they did it well. But on Memorial Day another condition of affairs exists; they are not asked to turn out for mere display or drill, but for the nobler purpose of showing that they still bear in kindly remembrance the comrades who stood shoulder to shoulder with them, when to be a soldier meant more than drill and parade, for it meant death to those whose graves they are now asked to honor. Aside from the want of respect to their old comrades now in their graves, this absence of soldiers and sailors from the procession formed for the purpose of decorating those graves will have a bad effect generally, for if the veterans of the army and navy appear to take no interest, finally all interest will be lost on the part of everyone. People will refuse to give aid or take part in the ceremonies of the day, if those who should be most interested show themselves lukewarm. I hope therefore, that on this coming Memorial Day every service man will show himself in the ranks, and thereby give the lie to the assertion that is often made that there is no honor to the man who fell in the late war, and that even his old comrade has forgotten and neglected him.

A VETERAN.

THE GREENBACK-OCRACY.

Says the Boston *Post*: "The *Traveller*, after reviewing the field in Maine, closes with expressing the belief that the greenback movement will grow rapidly at the expense of the democratic party. There is food here for profitable reflection on the part of Maine democrats. The *Traveller* is not alone in entertaining such an opinion."

Whatever the case may be in other parts of the State, it is certain that in the western part of York county the greenback party and the democratic party are fast becoming identical. The Biddeford *Times*, in its report of the greenbackers' recent meeting in that city to effect a county organization, names Ephraim C. Spinney, Esq., of Kittery, and Mr. Edward C. Moody, of York, as appointed members of the greenback county committee. Mr. Moody is—or recently was—a member of the York county democratic committee; he is one of the quickest men on record to discern the set of the political current, and his going into the greenback movement is proof that it is a strong one in his vicinity. Mr. Spinney has all his life been a democrat of the democrats; he stuck to that party all through the war, and all its blunders and crimes afterward did not suffice to divorce him from his first political love; and the fact—if it is a fact—that he has now abandoned it, shows how serious the democratic secession to greenbackism is becoming along the Piscataqua.

That the case is the same all over the State, as the *Traveller* asserts and the *Post* acknowledges that it fears, is indicated by the fact that but one (we believe) democratic paper in the State, the Belfast *Journal*, takes a square stand in favor of the "honest money" of the old "mint-drops" democracy, and against an overwhelming flood of irredeemable and therefore worthless paper money, and consequent repudiation; while all the others are either coquetting with the new party or openly advocating its want of principle.

THE P. & D. SINKING FUND.

The City Councils of Dover held a special meeting Thursday night in relation to the raising of money by taxation for a sinking fund to be devoted to the payment of the bonds issued in aid of the Portsmouth & Dover Railroad. The City Solicitor was present and gave his opinion in regard to the law. He said the law was imperative and compulsory; that the money must be raised, or the city would be liable to indictment, and each member of the city government who voted against it would be personally liable. The result was, the Councils, both branches concurring, voted to raise three per cent. of all the bonds issued, amounting to about seven thousand dollars, and put the same into the tax list of the present year. Commenting on this the *Democrat* says: "Perhaps this is all right. If it is the compulsory law, it ought to be done. But it is a singular fact that the lawyers are not agreed as to what the law really requires. The best lawyers in Rockingham county say that the city is not bound to raise any money in this particular way for this particular purpose, and the city of Portsmouth, acting on that opinion, has thus far raised not a dollar."

THE VICINITY.

Somebody has poisoned a number of dogs in Newmarket recently, and the owners thereof are very indignant.

Mr. Jerry Gunnison, of Kittery, who some weeks ago made an abortive attempt to commit suicide, died on Saturday.

Three lambs belonging to Mrs. Fifield, of North Hampton, were killed a few nights since by dogs. Another little bill for the town to pay.

The schools in the new schoolhouse at South Seabrook commenced May 6th, under the charge of Miss Fannie E. Sanborn, of Standish, Me., and Miss Ella A. Newton of this city.

Saco has a fire-bug, for whose conviction the mayor offers $100 reward. In the early part of last week he attempted to destroy a block of tenement houses, and on Saturday morning, shortly after midnight, he set fire to and destroyed a shed belonging to the high school building.

On Friday the Cocheco mills at Dover had 1229 looms in operation—just one hundred less than the full number. The weavers who caused the stoppage of the mills by striking have generally returned to work, thereby showing more sense than they did when they left it. The Cocheco Manufacturing Company is understood to have made $52,000 in the printery and a few hundred dollars in the cotton mills, and divides $30,000 of this.

Out of Tune.

When the tones of a musical instrument become harsh and discordant, we say it is "out of tune." The same may be said of that far more wonderful and complicated piece of mechanism the human structure, when it becomes disordered. Not only actual disease, but those far more common causes, overwork, mental anxiety, and fast living, may impair its vigor and anxiety. The best remedy for a partial collapse of the vital energies, from these as from other causes, is Hostetter's Stomach Bitters, which is at the same time an agreeable and mild cheering cordial, and the best possible invigorant in all cases of debility. It is an incomparable stomachic and antibilious medicine, eradicates fever and ague, and prevents subsequent attacks. It remedies with certainty and thoroughness bowel and kidney complaints, dyspepsia, nervousness, rheumatic troubles, and many other bodily ailments. It also counteracts influences which predispose to disease.

"Will you take a hack, sir?" "No sir, I had a hack for five years, and got rid of it by using "*Adamson's Botanic Cough Balsam.*" Price 35 cts.

THINK OF IT, that a Cough or Cold neglected, may lead to serious consequences: in the early stage of Throat and Lung diseases, *Madame Porter's Cough Balsam* is an invaluable remedy, can be taken by the oldest person or youngest child. Is safe, reliable, and *agreeable to the taste.* Price 25 cents, and in large bottles at 50 and 75 cents.

t w 21

"To do as Folks of Fashion do," in one respect at least, you must use GLENN'S SULPHUR SOAP, which is immensely popular among the elite of society, and deservedly so, for it is the most salutary of beautifiers and purifiers. Sold by all Druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50 cents. tmay21

A lady in Westchester county, N. Y., made $1,200 lately by an investment of $106.25. Alex. Frothingham & Co., 12 Wall street, New York, were her brokers. Send for their *Financial Report.* You may be equally as fortunate. 6

Centaur Liniments.

More than 1,000,000 bottles of the new celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Napkins, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined Horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Fletcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

Take in one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable, and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Fletcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms Sour Stomach and Disordered Bowels, there is nothing like Castoria. tsug

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as **Ayer's Cherry Pectoral.** It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. Itself makes the most official cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well merited by the success of its use in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed, a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that overshadows all others. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. Success or superior merit, Dr. Pierce's Standard Medicines have outstripped all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.
It Speaks for Itself.
ROCKPORT, MASS., April 2, 1877.
MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (never distinguished for modesty) would be glad if they could emblazon a similar cure in the papers. For 26 years I suffered with catarrh. The nasal passages became completely closed, "bony" dust, "ashes," "inhaling-tubes," and "sticks," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 36 hours. All sense of smell and taste gone, sight and hearing impaired, voice shrunken and weak-ened, nervous system shattered, and constitution broken, and I was hawking and spitting seven-eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. I used the "Douche" and cured me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,
S. D. REMICK.

A CLOUD OF WITNESSES,
The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:
A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; R. Lewis, Rulmer, Ill.; Lost Springs, Nettie Lake, Ohio; Chas. Norcrop, North Chesterfield, Me.; Milton Jones, Scriba, N. Y.; J. E. Morgan, Bridger Station, Wyo.; Jas. Merriman, Logansport, Ind.; M. M. Post, Logansport, Ind.; J. W. Bailey, Tremont, Pa.; H. H. Ayres, La Porte, Ind.; Jessie M. Jones, Fairmount, Ind.; L. Williams, Canton, Mo.; W. A. Thayer, Omaha, Neb.; S. Nichols, Jr., Galveston, Texas; Jonas F. Reinert, Stoneville, Pa.; S. W. Lewis, McFarland, Wis.; Johnson Williams, Helmick, Ohio; Mrs. M. A. Carey, Kennedy Tem., Pa.; G. Joslin, Louis Anders, Gayepont, Ohio; C. H. Chase, Eckhart, Ind.; Mrs. Henry Haight, San Francisco, Cal.; Mrs. E. M. Gallusha, Lawrenceville, N. Y.; W. J. Graham, Adel, Iowa; A. O. Smith, Newnan, Ga.; Chas. E. Rice, Baltimore, Md.; Jesse M. Scott, Carlisle, Ind.; Daniel R. Shaffer, Fort Wayne, Ind.; Mrs. Minnie Arnaise, 299 Delancy Street, New York; H. W. Hall, Hastings, Mich.; Wm. F. Marston, Lowell, Mass.; I. W. Roberts, Marietta, Ariz.; Chas. S. Delaney, Harrisburg, Pa.; M. C. Cole, Lowell, Mass.; Mrs. C. J. Spurlin, Cuthcart, Ala.; Chas. E. Kaw, Pleasant Valley, Ohio; Mrs. Lucy Hunter, Farmington, Ill.; Capt. E. J. Spaulding, Camp Stamsaugh, Wyo.; I. W. Tracy, Steamboat Rock, Iowa; Rev. Lyman White, Shushan, N. Y.; J. M. Cock, Junction City, Mont.; Henry Ebe, Santua, Cal.; L. P. Cummings, Rankin, Ill.; Rev. E. J. Jones, Charleston Four Corners, N. Y.; Geo. F. Hall, Pueblo, Cal.; Wm. E. Barrie, Sterling, Pa.; H. H. Roon, 98 Penn Street, Pittsburgh, Pa.; J. R. Jackman, Somerset's Depot, Ky.; Henry Zobrist, Geneva, N. Y.; Miss Hattie Farrott, Montgomery, Ohio; L. Lelbrook, Dixcham, Ill.; S. B. Wines, Dunlap, Wis.; John Ziegler, Carlisle Springs, Pa.; James Tompkins, St. Cloud, Minn.; Enoch Duer, Pawnee City, Neb.; Joseph T. Miller, Sonia, Ohio; S. B. Nichols, Galveston, Tex.; H. L. Laird, Upper Alton, Ill.; John Davis, Prescott, Ariz.; Mrs. Nancy Graham, Forest Cove, Oregon.

Golden Medical Discovery
Is Alterative, or Blood-cleansing.
Golden Medical Discovery
Is Pectoral.
Golden Medical Discovery
Is a Chologogue, or Liver Stimulant.
Golden Medical Discovery
Is Tonic.
Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Chologogue properties render it an unequaled remedy for Biliousness, Torpid Liver, or "Liver Complaint," and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternate with hot flashes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from *Torpid Liver*, or "*Biliousness*." In many cases of "*Liver Complaint*" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's
MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty-three wood-engravings and colored plates. He has already sold of this popular work

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of the remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the secretions and inflammation subdued and healed; the entire membranous lININGS of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison,* the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through the nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it is night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Cure on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

PITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made me familiar with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

PITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

—These are the days when the foolish man leaveth off his flannel shirt and catcheth cold. The other man don't.

— Mr. Larkin Turner of Merriwether county, Ga., took his first dose of medicine when he was one hundred years old. Fatal step! He only lived ten days after that.

—A cow was recently killed at Fergus Falls, Ont., in the stomach of which was found a stick two feet long and half an inch in diameter. She had evidently taken in wood as well as water.

—"What was the sermon about?" was the question. "Well," was the reply, "it was about—let me see—it was about twenty minutes too long; that's all I remember."

—Two gentlemen were arguing in a pasture, with only a goat for an audience. In a reply to a statement of one, the other said, "I know. Butt—" The goat took him at his word, and the argument was continued on the other side of the fence.

—Lomer Griffin, probably the oldest person living in the United States, celebrated his 119th birthday at Lodi, Ohio, a few days ago. The people of the town turned out to honor him on this occasion, and spread a banquet at which all the citizens participated.

—Mrs. Hannah King, of Natick, cowhided a policeman last week, and to the astonishment of the people, and the unspeakable amazement of the policeman, the immortal gods looked down upon the unwonted spectacle of a policeman arriving at a scrimmage before it was over.—*Burlington Hawkeye.*

—A Buffalo clergyman, Rev. D. R. Frazer, of the First Presbyterian church, being disturbed by the exit of three young men who marched out with squeaking boots just after he had announced his text, said:—"That strikes me as the coolest piece of impertinence I have experienced in some time."

—At a Methodist prayer meeting in a Maine village, not long ago, one of the earnest brothers in his heated exhortation said with considerable feeling: "We read in the good book that one of the sisters embraced Christ by touching the hem of his garments, but thank God, when I embraced him, I mittened right on to his jacket."

— The English War Department apparently contemplates starting a newspaper in the field in case of war. It has recently given to a London firm dealing in printing materials an order for five complete printing offices with all the requisites of type, sticks, chases and galleys. The whole is to be fitted in an ordinary transport wagon. There is a skilled staff of printers, who are for the present to be attached to the transport department at Woolwich.

—Little Annie, like most little folks, says queer things. A few nights ago her mother had prepared her for bed, and kneeling by her mother's side she repeated the Lord's prayer, as usual. She had no sooner concluded it than she repeated it again rapidly. "Annie," said her mother, "why do you say your prayers twice?" Then the innocent looked up and remarked: "Well, mamma, I feel just like praying to-night, and to-morrow night I may not."

—A little daughter of a well-known gentleman in this city has a passion for dolls, and her collection embraces every kind known to the toy-dealer, and numbers twenty-one. Of course, she has grand good times with them in the many ways with which children of her age are so well acquainted, but the other day she subjected her playthings to an operation which we think very few dollies ever experienced; viz, vaccination. She didn't want any of her family to have the small-pox and be taken off to the pest-house and die, so she vaccinated them every one, but thinks she will have to repeat the operation as it did not "take" in any case.—*Mirror.*

—A German farmer living near Des Moines, Iowa, had his barn insured for $500, which was $300 more than it was worth. It was burned, and he demanded the full amount of the policy. The company offered to settle with him for $200, and on receiving a refusal built a new barn for him. A week later a life insurance agent called upon him and urged him to have his wife's life insured. The farmer used the logic of analogy. "I had my barn insured for five hundred dollars, and when it burn down they pay me no five hundred dollars, but build me a new barn. Now I get my frau insured for one thousand dollars and she die. Den you give me no one thousand dollars, but make me take another old Dutch woman. Dat's what you make me do. I don't want my frau insured."

—General Grant's visit to England has given rise to a singular lawsuit. The corporation of Sunderland entertained him when he was in the North, and charged the rate-payers with the expenses of a special train, the ringing of bells, and music of bands. When it was done there was the bill to be paid; and it was straightway charged to the Borough Fund. Some acute rate-payers objected to the payment of the expenses out of the Borough Fund, on the ground that the money collected was directed by the statute to be applied to certain purposes, of which the reception of General Grant was not one. The Queen's Bench sustained the objection to the payment, and consequently the gentlemen who promoted the reception will be gratified with the opportunity of paying the expenses, not over $500, out of their own pockets.

Daily Chronicle

TUESDAY, MAY 21, 1878.

The Democratic Revolutionary Committee.

The democratic committee to revolutionize the country and set aside the constitutional method of electing a President has been appointed by Speaker Randall, and is as follows: Clarkson N. Potter of New York, Wm. R. Morrison of Illinois, Eppa Hunton of Virginia, J. A. McMahon of Ohio, J. C. S. Blackburn of Kentucky, W. S. Stenger of Pennsylvania, Thos. R. Cobb of Indiana, democrats; B. F. Butler of Massachusetts; Frank Hiscock of New York, J. D. Cox of Ohio and Thomas B. Reed of Maine, republicans. Thus the revolutionary committee consists of seven democrats, three republicans, and Benjamin F. Butler. The only wonder is that so contemptible and reckless a partisan as Randall has shown himself to be should have put on this committee, even as the last man, so able and fearless a republican and patriot as Thomas B. Reed.

The New Democratic Revolution.

The Portland correspondent of the Boston *Post* announces that whatever the engineers of the Potter resolutions may have intended, the democrats of Maine understand them to mean revolution; and that the Maine democrats favor a revolution, let its consequences to the welfare of the country be what they may. The correspondent quotes "the views of a very intelligent and influential democrat of the east in a private letter to your correspondent," as follows:

We have a majority in Congress, the House, some twenty-four governors and 1,200,000 majority. Let this move go right on, and if the proof is sufficient, all right. Let the incumbent be sent home, and the mass of men will say amen.

The correspondent says: "Though this is stongly put, it undoubtedly expresses the real feeling among the democratic masses, and your correspondent does not hesitate to say it is growing rapidly, and that the approaching conventions will give full expression to it. The general feeling in the democratic party of the State, *outside of commercial circles*, is very strongly in favor of this investigation, and of pushing it through to its logical results, whatever they may be." Even this correspondent acknowledges that the democrats in commercial circles, who are better aware than any other men of their party of the disastrous effects to the business interets of the country that must result from this revolutionary movement, are opposed to it; it is the ignorant and unthinking who support it, and it is just this class that is relied on to support it by the demagogues at Washington and Gramercy Park.

The language of the "very intelligent and influential democrat" alluded to by the correspondent is worthy especial attention. "We [the democrats] have a majority in Congress, the House, some twenty-four governors," etc.; therefore let the lawfully elected President be deposed, and a democrat put in his place. Possibly this programme may be carried out; it is evident that the conspirators mean to carry it out if possible; but the day they succeed, representative government by the people in this country will be at an end. We should like to feel as unconcerned about the matter as some others seem to, but we remember the almost fatal apathy on the part of the people—the general incredulity that what was threatened was intended—that preceded the first democratic attempt to destroy the country; and we believe the danger now threatening republican government to be fully as great, though more insidious and less blustering, than was the secession peril of 1860–61.

New Hampshire Items.

The Murphy delegation visited the saloons of Exeter late Thursday evening, and were followed by a crowd. They were going to visit the Granite House, but found it closed, and concluded to sing outside. They were interrupted by the crowd and interference of the police.

About three o'clock Saturday morning two men were discovered loading a safe on a wagon in front of Mr. Joseph French's shoe store on School street, Concord. They fled and escaped on the approach of a police officer, and it was found that the safe had been stolen from the store mentioned. Sometime during Saturday night, burglars operated rather extensively in Fisherville. J. C. Linehan's grocery store, Critchett & Corser's tailoring establishment, Evans & Gale's hardware store and Chamberlain's restaurant were broken into, and various articles stolen. After these burglaries, parties broke into E. E. Sebra's stable and stole a horse and harness, together worth about $200, and into Gilman Shaw's stable and stole a wagon worth $150. They were traced to Concord, but escaped. They are supposed to be the same parties who attempted to steal the safe from Joseph French's store on Saturday morning.

At the Unitarian Convention to be held at Manchester, to-day, Rev. Henry W. Bellows, of New York, is to preach a sermon at 7:30 P. M. At 10:30 Wednesday morning, Dr. L. T. Townsend, Professor of Theology in Boston University, (Methodist Episcopal,) will read an essay in which he will present the orthodox view upon the Bible question. He is to be followed by Dr. Bellows, who will give the liberal idea of the Bible; and a general discussion will then ensue. A mass meeting is to be held on Wednesday evening. The Manchester Unitarian Society will entertain the visiting members of the Convention, and the occasion promises to be one of much interest.

The first mail route established by the United States Government was between Dover and Gilmanton in this State—a distance of sixty miles.

Phillips Academy.

There is to be a centennial celebration to mark the completion of the first century of Phillips Academy at Andover, Mass., on the fifth and sixth of June. The proposed celebration contemplates the collection of documents pertaining to the Academy, the increase of library, additional portraits, formation of an alumni association, etc. Rev. Wm. Adams, D. D. LL. D., of the class of 1823, will preside; a poem will be read by Dr. Oliver W. Holmes of the class of 1825; and a dinner on Thursday will conclude the exercises. The committee on the Centennial Catalogue, W. F. Draper of Andover, chairman, earnestly desire the address of past members of the Academy to be sent in. Among the committeemen of the coming occasion are Bishop Clark of Rhode Island, Dr. Phillips Brooks of Boston, John Albee of Newcastle, (member of committee on press and public notices,) Hon. W. E. Dorsheimer of Albany, Gen. H. K. Oliver of Salem, Judge Isaac W. Smith of this State, and others of note. The citizens of Andover have assumed a part of the expenses, and have designated some of the most efficient citizens as committeemen, and a successful and interesting occasion is anticipated.

News and Notes

During a theatrical performance at Ahmednugger, India, the building took fire and forty persons were burned to death.

An undergarment belonging to Miss Henrietta Ball, of St. Albans, Vt., has been found in a house there formerly occupied by LaPage, the murderer, and handed to Justice Farnsworth.

A hen hawk was attacked and killed by English sparrows at Hartford recently when it flew into a tree where they had their nests.

James Lihas, an English tramp, shirtless and clothed in rags, when overhauled in New Haven, the other day, panned out nearly $200 from his various pockets. Yet he was sent to the Mansfield almshouse.

Charles Wilkinson, a noted American forger, who escaped from Sing Sing Prison two years ago, has just been sentenced to ten years' imprisonment in England for extensive forgeries in London.

The Willis investigating committee reports adversely as to payment of the claims of Mackay and Griffiths, amounting to $1,234,782, for extra work done on steam sloops Enterprise, Adams and Essex.

Political.

Secretary Sherman never uttered a truer thing then when he said that the greatest danger the country has to fear was the accession of the democratic party to power. Whatever may be thought of the President personally, or of the manner of his election, it must be conceded that since the day of Alexander Hamilton the Treasury Department has never been better administered then it is now being administered by John Sherman. In spite of the efforts of the democratic party in Congress, specie payments will be resumed as soon as that body of mischiefmakers is dispersed. The House of Representatives has done nothing but impair the credit of the country, embarrass the Treasury Department, and discourage the revival of business or waste the public money in Washington. Now they propose, to the neglect of the public business and the disturbance of the public quiet, to undo the settlement of the Presidential election—to put the country again in the critical position from which the Electoral Commission, by the concurrence of both parties, relieved it.

The Boston *Herald* reported, in its Sunday paper, the views of very many of the governors of different States upon the recent passage by the House of Representatives of the Potter resolution. Gov. Prescott declined absolutely to express an opinion until he had conferred with Mr. Chandler. All the other republican governors expressed in unreserved terms their disapproval of the action of the democrats, and deprecated its effect upon the peace and business prospects of the country.

Senator Voorhees, of Indiana, finds some of his speeches of 1864–5 unpleasant reminders of the views he expressed on the financial issues of that day. As he goes about the State shouting for the abolition of national banks, the repeal of the resumption act, and the substitution of greenbacks for gold and all other kinds of currency, he is confronted with the speeches he made a dozen years ago, when he used to exhibit a gold eagle and a ten dollar greenback, accompanying the show with the remark that the gold piece was honest money, and the greenback "a fatherless fugitive and a lawless bastard, utterly worthless." It is natural, however, for a modern democratic politician to change front, and from hating turn to loving a bastard or even the mother of a bastard. Dan Voorhees is not expected to be better than his fellows, and perhaps by those who have watched his course it is not strange that he should embrace the financial fugitive he attempted to drive out of circulation a dozen years ago.—*Sandusky (O.) Register.*

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this vicinity have been recorded in the office of the Register of Deeds:

PORTSMOUTH.

John Hatch, of Greenland, to Horatio W. Trefethen, of Portsmouth, land and buildings, $850.

Richard C. Yeaton, of Portsmouth, to James R. Yeaton, of Portsmouth, land on Richards avenue, $1.

Benjamin F. Webster, of Portsmouth, to John Pender, of Portsmouth, land, $100.

James W. Nutter, of Portsmouth, to Mrs. Elizabeth A. Perkins, of Portsmouth, land and buildings, $100.

SEABROOK.

Sewell B. Fowler, of Seabrook, to Jas. Sanborn, of Seabrook, land and buildings, $225.

Benjamin F. Weare, of Hampton Falls, executer of the will of John Weare, late of Hampton Falls, to John Weare, of Seabrook, pasture land, $100.

Washington Eaton, of Seabrook, to Orrin Beckman, of Seabrook, land and buildings, $650.

STRATHAM.

E. G. PIERCE, JR., P. M.

THE CITY.

Mr. George Monroe, late of King's Chapel, Boston, has been engaged as tenor singer at the Unitarian church.

The Portsmouth Cavalry, Capt. E. G. Peirce, Jr., have voted to parade on Memorial Day, and will also attend Gov. Prescott's inauguration at Concord.

The Advent chapel was broken into some time last week, and about five dollars belonging to the Sunday school stolen from a contribution box. The thieves got in through a window.

The St. Mary's Benevolent Association has secured the band and cars for a grand picnic at Pinkham's Grove on July 4th, and the members mean to make it the most enjoyable affair of the season.

On Sunday Rev. Dr. Alden babtized eight persons in the baptistry of the church on Middle street, after which the congregation repaired to Noble's island, where three others received the rite.

In consequence of continued ill-health, Mr. Charles E. Everett of Dover has been obliged to break off his engagement as bass singer at the Middle street Baptist church in this city, and Mr. Hayes of Kittery has been engaged to fill the vacancy.

The wreck of Fernald's lumber wharf, which broke down last week, went down river with the tide on Sunday. It was towed ashore at Newcastle by a party of four men, and has been abandoned by Mr. Fernald to the salvors, who will chop it up for firewood.

Prof. Patterson's lecture on Italy comes off this evening in Congress Hall. The fascinating interest attached to that land of romance, and the orator's well known powers of vivid description, should suffice to fill every seat at the low price of tickets, which may be had at Rundlett's.

The damage to the building corner of Ceres and Bow streets, owned by John G. Rand and others, by the fire of Monday morning, was about $1000, the upper stories being pretty well burned out and the roof destroyed. The fire took from the chimney. Building insured. Mr. Adolph Nelson, who occupied a room in the building, lost a valuable collection of stuffed birds.

An Italian with a box full of trained white mice, white rats and piebald rats, drew a good deal of attention and considerable quantities of coppers and nickels, around town Monday afternoon. Boss Tweed was the leading performer among the white rats, and the way he ran off with the treasury when he got a chance showed that the Italian had a proper conception of the fitness of things when he named him.

To-morrow evening, at Music Hall, Carleton's English Opera Company will present Auber's "Fra Diavolo," last week performed in the Globe Theatre at Boston by the same company, to the delight of large and cultivated audiences. Says the *Advertiser*: "It is impossible to say how brilliant, charming and delightfully gay the music of Fra Diavolo sounded last night. The work is *sui generis* for us,—since we are never allowed to hear The Black Domino or Masaniello, or any other of Auber's classics in musical comedy, nowadays,—and it is good to have the assurance of one's ears again that vulgarity and fun are not inseparably welded together upon the operatic stage." Of Mr. Carleton it says, "in appearance, bearing and action he was an admirable representative of the romantic brigand, and looked the part as well as any one who ever played it in Boston." Of Miss Stone that "her singing was spirited, accurate and beautifully in tune." And the other performers are all commended as doing their part toward furnishing a rich treat.

POLICE COURT.

MONDAY, May 20th; *Batchelder, J.*

The Court did a good business to-day. The first on the list was Mary Parkins, who pleaded that her name was Ellen and not Mary, and the indictment was quashed.

Ellen Parkins was then arraigned on a complaint under the law against disturbing religious meetings, and was fined $8, costs being taxed at $9.18, which was paid. The case grew out of the woman's conduct at the Sunday afternoon baptizing of several persons at Noble's island by Rev. Dr. Wm. H. Alden, of the Middle street Baptist church. Just as Dr. Alden had concluded a prayer the woman appeared with a cat in her arms, which she threw into the water close by, remarking to the effect that this cat might as well be baptised as any of the rest. City Marshal Entwistle, as soon as the service was over, got out the requisite papers and went for the woman, who hid away in a closet of her house, but was hunted out, taken to the station, locked up for the rest of the day and night, and brought before the Court as before related. Complaints have been made on previous occasions of the disgraceful conduct of young roughs and others at public baptisms, and the Marshal proposes to stop it; and if anybody, male or female, so utterly lost to decency as to act the ruffian on such occasions, is taken in by the officers, his or her name will go into our court report in full. If the bummers of either sex don't approve of public baptisms, let them keep away from them, and stow themselves in the rear rooms of liquor saloons or other congenial localities. Every respectable person in the city will back up the police in this matter.

John Burns, better known as "Cheap John," was arraigned on three complaints for assaulting his wife, adjudged guilty on each, and sentenced to pay—on the first complaint, $5 fine, costs $5.76; second complaint, $2 fine, costs $3; third complaint, $10 fine, costs $6.90. He entered an appeal in each of the first two cases, but subsequently withdrew the appeals and paid all up—$32.66.

This was a profitable day in the Court, Mr. Burns' contribution for wife-beating, with what was paid for baptising the Parkins cat, amounting to $44.84.

The Court held an evening session in the Sheriff's office at the jail, when Frank Ward and John Haley were arraigned for breaking into the store of John R. Saunders, at Newmarket, and stealing therefrom a basket, some money, raisins, tobacco, smoked halibut, soap and cheese. Mr. Saunders positively identified a basket and a battered cent found in possession of the prisoners as having been stolen from his store. The pair were bound over in $800 each to appear at a higher court.

THIEVES CAUGHT.

Two men, calling themselves Frank Ward and John Haley, and hailing from Providence, R. I., were arrested in the woods on the Dow place at Breakfast Hill, Rye, Monday morning, by Officer A H. Hodgdon, assisted by others. The arrest was caused by two men from Nottingham, who left there at one o'clock Monday morning, upon information given by Mr. Bartlett of that place, who discovered that his store had been broken into and robbed a short time previous; and these men tracked the supposed thieves to Rye, where they discovered them in the woods asleep, and procuring the assistance of the officer, pounced upon them and had them secured before they knew what was the matter. They were taken to the lockup in the Town Hall and there confined. They had in their possession when found in the woods a wagon loaded with goods, supposed to have been stolen from Bartlett's store; but the men who had tracked them had left Nottingham in too much of a hurry to wait for a description of the goods taken, and as soon as they saw the campers-out securely caged returned to Nottingham for further evidence. Ward and Haley claimed to be peddlers, on their way from Exeter to this city; but they look more like desperadoes, and had on their persons when arrested five loaded revolvers and a loaded "billy." Word was at once sent in from Hampton to Sheriff Kent, who visited that town in the afternoon to see if he could identify them as known criminals.

The horse driven by Ward and Haley, and which was found hitched in the woods near where the "peddlers" were sleeping on a blanket, has one very wide hoof; and it was by the track of this hoof that the Nottingham men traced them to Breakfast Hill. When the pursuers were passing through Newmarket, and were not far from Mr. John R. Saunders' store, Mr. Saunders saw them examining the road with a lantern, learned their business, and told them his store had been robbed within a few hours by some one driving a horse with one wide hoof. On their return they informed Mr. Saunders of the arrest, and he at once came to this city; and the High Sheriff having brought the prisoners here, they were arraigned before Judge Batchelder, as mentioned in our Police Court report.

RYE LETTER.

RYE, May 16th.

At the Reform Club meeting in the Town Hall, last week, the hall was well filled to listen to an able lecture by Rev. John A. Goss of Portsmouth. Mr. Goss favored "legal suasion" as the best means to repress intemperance, and believed the prohibitory law should be enforced; he said there were last year in Portsmouth 164 more arrests for drunkenness than there have been in Dover for four years, though the population of the latter city is largest, the great difference in the number of arrests being due to the fact that the liquor law is enforced in Dover and not enforced in Portsmouth. Mr. Joseph Philbrick also made remarks. At the close of the meeting a number signed the pledge, the club book now containing 165 names, and the number steadily increasing.

Last Saturday night an attempt was made to break into Miss Anna Garland's barn at the Four Corners, near Chesley's store, the objective point no doubt being the house, which is connected with the barn by a woodshed. The latch of the door was broken; and the door itself, which was fastened on the inside by two hasps, was shattered. The thieves, who were evidently well acquainted with the premises, were probably frightened away by their own noise.

Mr. James H. Perkins, one of our most enterprising young farmers, has a fine herd of twelve Jersey cows, including one which gives twenty-two quarts of milk a day. Mr. Perkins is agent here for Matthews' patent tree protector, which has proved effective against the canker worms wherever used.

Master C. Leavitt Jenness, son of G. Harrison Jenness, Esq., is remarkably ingenious and skillful in bracket-making. A piece of his work was awarded a diploma at the State Fair at Manchester last autumn.

A literary and musical entertainment by members of the reform club is set for Wednesday evening, May 22d.

Considerable building is going on in Rye. L. Thomas Sanborn and Abram Drake have nearly completed their new boarding houses, and J. Arther Brown his new dwelling. Oliver Jenness is putting an ell on his house, and Cyrus S. Jones has finished a cellar over which he will soon put a building, on the South road.

The fine organ recently procured by the Congregational society was dedicated on Thursday evening by a grand vocal and instrumental concert at the church. A large audience attended, and the affair was a decided success. The managers were David Jenness, Charles W. Brown and Charles W. Rand, Mr. Brown being conductor of the exercises, which commenced at eight o'clock with a voluntary on the organ by Mr. Edwin A. Tilton of Portsmouth, followed by prayer by Rev. Mr. Haines of North Hampton. The song "Angel of peace" was sung by a choir of thirty singers under direction of David Jenness, followed by a solo by Mr. Sabine of Portsmouth, Mr. Tilton accompanying on the piano. Song "Soldier's farewell" was given by David Jenness and C. W. Rand, Mrs. J. Foss, Miss Adams and A. E. Drake, after which Mr. Tilton gave another organ voluntary. "Farewell to the forest" was then sung by the chorus; "Nearer, my God, to Thee," by Messrs. Thomas and C. W. Rand, Mrs. Bowdish and Mrs. Shapley; and a song by Mr. Sabine. The chorus then gave "The belfry tower," preceded and followed by voluntaries on the organ; remarks were made by Rev. Mr. Haines; Messrs. Drake and Jenness, and Misses Bunker and Foss then sang "Gathering home," Mr. Tilton played another selection, and Mr. Sabine gave another song; the chorus then sang "The star-spangled banner." Messrs. Rand and Jenness, Mrs. Bowdish and Mrs. Foss, sang "Give me back my mountain home," and the exercises closed with the "Gloria" from Mozart's 12th Mass by the chorus. The organ was made by Hutchinson & Plaisted, of Boston, contains 379 pipes, has twelve stops, two key boards and pedal bass, and cost $950.

SCRIBE.

THE VICINITY.

Diphtheria is raging in Kittery and vicinity. The school at Spruce Creek is closed on account of it.

Robert Lincoln, son of Abraham Lincoln, has engaged quarters for himself and friends at Rye Beach for the coming summer.

Patrick Behen, a well-to-do farmer of Lee, while walking home on the railroad track from Newmarket, Saturday afternoon, with a bundle of purchases under his arm, was assaulted by two tramps, a man and a boy of about seventeen years of age, who attempted to steal the bundle. Behen made a good fight, and a man named Tuttle coming along the older tramp fled. Behen and the young tramp rolled down the railroad embankment into a pond of water, but Behen retained custody of the bundle and the thief, the latter of whom is safely locked up.

Ancient Castles.

What appeals to the imaginative and reflective powers of man more than the ruins of some ancient ivy-covered and forsaken castle? Poets have invited the muses to help them weave into verse the legendric chivalry and bravery that history accords to their former owners and occupants. Painters have vied with each other in portraying the grandeur of their solitude and decay. But is not the premature and social wreck of thousands of young people, annually, a theme that should appeal much more keenly to the reflective faculties of man? Dr. R. V. Pierce, of Buffalo, N. Y., prescribes his Golden Medical Discovery in such affections with the most gratifying results. No known remedy equals or compares with it in purifying and enriching the blood, strengthening and invigorating the nervous system. If the bowels be constipated, use his Pleasant Purgative Pellets. In the more complicated cases, Dr. Pierce may be consulted by letter, and will generally be able to prescribe medicines especially prepared for each individual case that will speedily restore nervous vigor and perfect health.

The following parties, among thousands of others, have either been cured by the use of Dr. Pierce's Medicines or have observed their wonderful curative properties on friends:

J. R. Seltz, Cairo, Ky.; Mrs. A. M. Williams, Claverack, N. Y.; C. T. Hubbs, Randolph, Pa.; C. B. Canfield, Chatham Four Corners, N. Y.; Albert C. Baston, Washington, Ohio; Mrs. E. R. Daly, Metropolis, Ill.; John B. Ledterman, Pekin, Ill.; R. A. Johnson, Buffalo, N. Y.; A. McClure, Albany, N. Y.; L. W. Griswold, Brackville, N. Y.; J. W. Bayer, Vermillion, Ill. For further's see "The Peoples Common Sense Medical Adviser," an illustrated work of over 1000 pages, sent post-paid, for $1.50. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

Out of Tune.

When the tones of a musical instrument become harsh and discordant, we say it is "out of tune." The same may be said of that far more wonderful and complicated piece of mechanism the human instrument, when it becomes disordered. Not only actual disease, but those far more common causes, overwork, mental anxiety, and fast living, may impair its vigor and anxiety. The best remedy for a partial collapse of the vital energies, from these as from other causes, is, Hostetter's Stomach Bitters, which is at the same time an agreeable and mild cheering cordial, and the most possible invigorant in all cases of debility. It is an inexparable stomachic and anti-bilious medicine, eradicates fever and ague, and prevents subsequent attacks. It remedies with certainty and thoroughness bowel and kidney complaints, dyspepsia, nervousness, rheumatic troubles, and many other bodily ailments. It also counteracts influences which predispose to disease.

"Will you take a hack, sir?" "No sir, I had a hack for five years, and got rid of it by using "*Adamson's Botanic Cough Balsam.*" Price 25 cts.

THINK OF IT, that a Cough or Cold neglected, may lead to serious consequences: in the early stages of Throat and Lung diseases, *Mrs. Fletcher's Cough Balsam* is an invaluable remedy, can be taken by the oldest person or youngest child. Is safe, reliable, and *agreeable to the taste.* Price 25 cents, and in large bottles at 50 and 75 cents.

t m 21

The Colonnade Hotel, Philadelphia, Pa., established its well-merited reputation, and, if possible, earned greater, with its patrons, during the "centennial Exhibition."

"To do as Folks of Fashion do," in one respect at least, you must use GLENN'S SULPHUR SOAP, which is immensely popular among the elite of society, and deservedly so, for it is the most salutary of beautifiers and purifiers. Sold by all Druggists.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50 cents. tmay21

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that **the Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Napkins, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Fitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms Sour Stomach and Disordered Bowels, there is nothing like Castoria. tmg

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as **Ayer's Cherry Pectoral.** It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine, which makes it a household treasure. Its cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded, as it is the best medicine known. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tdeb26 79

203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Complete in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" of the Sound, daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route.
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of men? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

DR. SAGE'S
Catarrh Remedy
Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.
It Speaks for Itself.
ROCKPORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (more dollar-grabbing) would be glad if they could emblazon a similar cure in the papers. For 20 years I suffered with catarrh. My nose passages became completely closed. "Snuff," "dust," "ashes," "inhaling-tubes," and "sticks," wouldn't work, though at intervals I would snuff up the so-called catarrh snuff, until I became a valuable tenter for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 163 hours. All sense of smell and taste gone, sight and hearing impaired, only shreds of my sense ofence, nervous system shattered, and constitution broken, and I was hawking and spitting seventeen hours of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package. Well, the first bottle did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and my system regular by using his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES.

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Springer, Nettle Lake, Ohio; Chas. Norcrop, North Chesterfield, Me.; Milton, Oshkosh, Wis.; J. E. Miller, Bridger Station, Wyo.; J. C. Merriman, Logansport, Ind.; M. M. Post, Logansport, Ind.; J. A. Bailey, Tecumseh, Mich.; R. S. Hess, La Porte, Ind.; Jessie M. Sears, Ft. Branch, Ind.; L. Williams, Canton, Mo.; W. A. Thayer, Onarga, Ill.; S. E. Nichols, of Syracuse, N. Y.; Joseph A. F. Reinert, Stonesville, Pa.; S. W. Lusk, McFarland, Wis.; Johnson Williams, Helmick, Ohio; Rev. A. Golden Medical Discovery
Is Alterative, or Blood-cleansing.
Golden Medical Discovery
Is Pectoral.
Golden Medical Discovery
Is a Cholagogue, or Liver Stimulant.
Golden Medical Discovery
Is Tonic.
Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; including Consumption; Lingering Coughs; and Chronic Laryngitis. Its Cholagogue properties render it an unequaled remedy for Bilious Cases; Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel weak, nervous, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from *Torpid Liver, or "Biliousness."* In many cases of *"Liver Complaint,"* only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's
MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humers in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leuckorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. H. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for so obscure that it can be mentioned it so universally prevalent and so destructive to health as Catarrh, Bronchitis, Asthma, Coughs, and nearly and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued, and healed; the mucous membranes lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For three years I had not breathed through one nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with his case. I believe his statement to be true in every particular. J. S. F. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canada; WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 ROW STREET.

Daily Chronicle.

A TRIUMPH.

Little Roger up the long slope rushing
Through the rustling corn, [brushing
Showers of dewdrops from the broad leaves
In the early morn,

At his sturdy little shoulder bearing
For a banner gay,
Stem of fir with one long shaving flaring
In the wind away!

Up he goes, the summer sunshine flushing
O'er him in his race,
Sweeter dawn of rosy childhood blushing
On his radiant face.

If he can but set his standard glorious
On the hill-top low,
Ere the sun climbs the clear sky victorious,
All the world aglow.

So he presses on with childish ardor,
Almost at the top!
Hasten, Roger! Does the way grow harder?
Wherefore do you stop?

From below the corn-stalks tall and slender
Comes a plaintive cry—
Turns he for an instant from the splendor
Of the crimson sky,

Waves, then goes flying toward the hollow,
Calling loud and clear:
"Coming, Jenny! Oh, why did you follow?
Don't you cry, my dear!"

Small Janet sits weeping 'mid the daisies;
"Little sister sweet,
Must you follow Roger?" Then he raises
Baby on her feet,

Guides her tiny steps with kindness tender,
Cheerfully and gay,
All his courage and his strength would lend her
Up the uneven way,

Till they front the blazing East together;
But the sun has rolled
Up the sky in the still Summer weather,
Flooding them with gold.

All forgotten is the boy's ambition,
Low the standard lies,
Still they stand, and gaze—a sweeter vision
Ne'er met mortal eyes.

That was splendid, Roger, that was glorious,
Thus to help the weak;
Better than to plant your flag victorious
On earth's highest peak!

Celia Thaxter, St. Nicholas for June.

Washington Correspondence.

WASHINGTON, D. C., May 17th.

Fuller advices from the Rio Grande seem to indicate that Gen. Ord has grown tired of attempting to regulate his movements by the arbitary stand of any of the contending factions across that stream which to-day may lie in the possession of the machinery of local government, only to be ejected and violently driven out tomorrow, perhaps, by an opposing one of more power. In a general order supplementary to preceding ones just issued, district commanders are instructed to respect stable State governments there when they have occasion to pursue raiders into Mexico; but where the territory invaded is alternately held by rival factions and their appears no responsible government they are to take the shortest route to the thieves' place of rendezvous and the most effective methods for the recapture of stolen property and the punishments of the marauders, treating all seeking to oppose or hamper them as raiders. Of course this leaves a good deal to the discretion of the commanding officer and opens the door to abuses and international complications. But the past experience of our officers seems opposed to a very rigid observance of etiquette in dealing with thieves, robbers, assassins and the desperadoes who appear to make up the bulk of the northern border population of Mexico, if not the officials themselves; and almost any new plan promises as much, at least, as any of the old ones. This will authorize our officers to ignore the bravo officials who are too often in collusion with the thieves and afford them every opportunity for escape. Gen. Ord has likely become convinced that any less vigorous method of interpreting the order received more than a year ago will subject us to the expense of an interminable watch of a long frontier line, a service as irksome as it is destitute of opportunities to gain reputation and promotion; and there appears a disposition to support the General in pretty positive measures about the War Department.

After several interesting sessions and visits to all the points of interest in and about town, the convention of the Superintendents of the Insane Asylums of this country and Canada adjourned to meet again next May at Providence, R. I.

KNOX.

—Time makes all things even. For twenty-seven years a husband kept taunting his wife with the fact that her brother was once in jail. Last week his mother was arrested for setting a barn on fire, and the wife sniffs and says: "Nice family you sprung from!"

—Stutterers are compelled to take life easily, whether they will or no. Two men thus afflicted were at work at a forge. The iron was red hot and placed on the anvil, when the first one said: "John, s-s-strike it hard." The other answered: "Jim, wh-wh-where shall I hi-hit?" "No m-m-matter now, its got co-co-cold," was the reply, and the bar was put into the forge again.

Daily Chronicle

WEDNESDAY, MAY 22, 1878.

Congress.

The Senate on Monday did little but talk, mainly on the question of putting Gen. Grant on the retired list of the army with Gen. Shields. Senator Morrill of Vermont made a speech against the repeal of the resumption act.

The democratic House, exhausted with its exertions in passing the bill for the new democratic revolution, did even less than the Senate.

Nothing of importance was done in either House on Tuesday.

Our New York Fashion Letter.

TRAVELLING COSTUMES.

Before entering upon the question of costumes to be worn at the seaside, it behooves me to say a word in regard to what we shall wear in going thither; what indeed will be prevalent and popular for travelling anywhere. And here especially, I have the pleasure of saying "I told you so." I knew that the idea of short costumes planted somewhat timidly last fall, would by this time bring forth abundant harvest, and it has been so. Upon them the changes are rung incessantly; and every day, almost, some new variation comes to light. All manner of material, furthermore, is being brought into requisition. The greater number are made with kilt plaited skirt, small apron or scarf like drapery relieving the outline around the hips, while the cut away jacket and vest give completion. Often, too, we find such scarf or apron finished with embroidery, and the effect is very pretty. Percale and gingham costumes are also made in this way, but not to the exclusion of a demi-trained skirt trimmed with flowers or knife plaitings, and round overskirt above. The *Savance*, or washerwoman's overskirt, is designed especially as part of a short costume, and it is very tasteful. As a walking or travelling costume for girls from twelve to sixteen years of age, the Victoria Princess dress is extremely pretty—convenient also, as it can be made up in all kinds of dress materials, and is unusually well adapted to a combination of colors or materials. For traveling, driving, etc., the Carrick ulster, with double Carrick collar, is stylish and practical, as it is suited to light cloth, waterproof or linen.

SEASIDE COSTUMES.

The problem of how we shall get to the seaside being settled, it comes next in order to know how one shall dress after reaching such destination. The leading novelty in material is very thin camel's hair cloth in white and all pale shades, and crape in similar hues is also very fashionable. Open work batiste wrought in crape like patterns is made up into elegant polonaises to be worn over silk or velvet underskirts. Some of these are richly embroidered around the edges and finished with superb fringes; the embroidery appearing also of course, on the corsage and sleeves. Grenadines in high and low degree appear, and in such variety that a grandmother of seventy can wear one, as appropriately as her granddaughter of sixteen. The former would of course select the plain woven in black, while the latter would choose a style so ornate as scarce to seem grenadine. For we have them wrought in all manner of gay damasse and bourrette tuftings, and in every combination of color from the delicately refined to such as are brilliant reflections of every rainbow hue. Samples of all new materials are forwarded gratuitously to all parts of the country, on application, by the leading firm of J. & C. Johnston, Broadway and Twenty-second street, thus enabling ladies out of town to make their purchases in New York as advantageously as residents of the city. They also have a millinery and shoe department, as well as all that is novel and desirable in gentlemen's furnishing goods, carpets and upholstery. Now as to the making of dressy materials adapted to

HOTEL HOPS

and the like, we find that the greater number are high neck and with sleeves reaching to the wrist. The Alexandra princess dress is a handsome model for this style of dress. But sometimes one does well to show a pretty neck, and such an one may therefore choose the Pompadour front, with elbow sleeves, and if one has a well-formed hand and arm, why there is the long lace mitt, either black or in any color to match the dress. This brings up the question of gloves for summer. For morning, there will be a great demand for lisle thread, and so we see them brought out in great variety—plain woven, open work, and with embroidery on the outside. Lay it to heart, however, that a glove of any kind in order to be stylish must be long on the wrist. This is a law of the Medes and Persians which admits of no exception.

SHALL IT BE

that an odious panier will again be worn? I trust not, yet we have some few imported dresses which, being made fuller at the back, require such addition. Let us hope they will fall flat, for if there is an abomination in my eyes, it is a panier or anything related to the bustle family.

Cheap and very pretty fans—they cost about $1.00—painted with bright Autumn leaves, not set in bouquets, but scattered over the fan, each leaf on its own responsibility. Richer fans are of feathers painted in Japanese styles. Then again we have Russian leather, black and white painted satin, lace covered, others showing intermixtures of feathers, and others of ivory, tortoise shell or painted wood. But I will not try to enumerate, for indeed I cannot; their name is Legion, and I can only give a hint as to sizes, which are medium. When one says now

"I DON'T CARE A BUTTON,"

one means a great deal. There never was a time when they were of more importance. They are placed everywhere, and there never was a time when they were in such variety. All sorts of pearls, mossic, wood, horn curiously dyed, and brass—politely called gilt. "Fascinator" is the name given a pretty style of scarf of gossamer texture, white, pale blue, yellow, or pink. It is wrapped in some attractive way around the head and neck, often brought over the forehead, crossed at the back of the head, and lightly tied under the chin. They are cheap, costing only 75 cents. Others are square, and may be worn over the head or in shawl fashion over the shoulders. The latter cost $1.50. LUCY CARTER.

NEW YORK, May 20th.

Railroad Meetings.

Next week the country railroad stockholder looks after his investment, and rides over the rails in cars of which he owns a part. The Boston, Concord & Montreal Railroad has its annual meeting at Plymouth on Monday at two o'clock P. M.; the Concord Railroad, at Concord on Tuesday; the Northern, at Concord on Wednesday, and the Wilton, and the Nashua & Lowell Roads, at Nashua on the same day; on Thursday, the Nashua & Rochester, at Nashua, and the Suncook Valley at Manchester; and on Friday, the 31st, the Manchester & Lawrence at Manchester.

News and Notes

James Williams, "Professor Jim" of Trinity college, a colored man born a slave in New York, and since 1825 janitor of the college, died on Monday in his 90th year.

The suffering from famine in China is appalling in its magnitude; 15,000,000 people are actually starving, and 60,000,000 are enduring terrible privation.

The Fenian scare along the frontier continues. The Kanucks don't think it so funny to have bands of armed men raiding across the border now as they did when the raiders organized in Canada and came south to steal and murder.

Details of the earthquake in Venezuela, April 12th, which destroyed the town of Cua, state that over 300 lives were lost, and a fire kindled among the ruins completed the wreck of the town, and consumed many of the crushed and wounded bodies. In other parts of Venezuela shocks were felt, and a week after the first earthquake a part of the town of Ocumare, twenty miles from Cua, was thrown down. The destruction of sugar mills and other property is immense.

Another attempt to sell the Salisbury Manufacturing Co.'s property at Salisbury, Mass., is to be made on Wednesday of next week.

A suit by the Lenox Plate Glass Co. against Wm. E. Dodge of New York for $600,000, was begun in the court at Pittsfield, Mass., on Tuesday.

Sad accounts are received at Quebec of the sufferings of the people of Labrador. The fisheries failed them last fall, and the traders, who give them provisions in barter for their fish and oil, abandoned the territory, not caring to let the wretched people have goods on credit. Thus before winter set in the whole population was left to starve or subsist until summer on fish offal, for crops are impossible on the sterile shore. Whole families have lived through the winter on rotten, half-frozen carcasses of seals driven ashore by the ice floes. Others have kept body and soul together by devouring the nauseous flesh of the black loup-marin, a species of seal which in prosperous times would be shunned even by the dogs. Many deaths have occurred from sheer starvation. Of five families containing forty souls, in one settlement, only five survive. Scurvey is epidemic. The women haunt the shore like spectres, picking up the dead seal, while the men and boys gather sea moss or shell fish.

Political.

Mr. Alexander H. Stephens knows about as well as any member of the House what the first democratic rebellion was, and he says that it hardly equalled in stupidity the second democratic rebellion, just inaugurated. Speaking of the Potter resolution, before it passed he said: "Positively it is the most uncommon piece of political unwisdom I can recall. It does seem to me that there never was such a set, except those who led us into secession. * * Northern papers say we are stifling investigation, afraid to face the music of election frauds, except as we hope to make capital for ourselves. That's true. It looks exactly like that to the country in general. If this resolution passes without the Hale amendment, or some other equally broad, my prediction is that we shall have another bloody-shirt campaign on our hands, and I would not give a fig for our chances to hold the next House of Representatives. * * If we or the country want any of it, we want it all; probe the whole fraud or let it alone."

The comments of the New York papers on the success of the Tilden scheme may as well be condensed into a paragraph as stretched over a column; the country no longer takes its opinions from New York. The *Herald* (independent) calls Tilden "an astute and secretive plotter, who mistakes cunning for wisdom." This effort to depose Hayes, it says, will be resented by the people. The *Tribune*, (Blaine organ) calls it "the rebellion." The *Times* (anti-Hayes) prophesies an uprising of men. The *Sun* (blackguard) says nothing editorially, but has a caricature against Hayes. The *World* (democratic) which at first opposed the measure, has been whipped into line and now attempts to defend it.—*Worcester Press.*

New Hampshire Items.

Hiram P. Grandy has become proprietor of the Claremont *Eagle*.

The Manchester Horse Railroad since its opening Sept. 15th, 1877, to April 30th, earned and received from all sources a profit above its running expenses of $2,610.45, which sum is to be applied to cost of construction above the capital subscribed for. The capital stock of the road is $25,000. The road has carried 162,633 passengers. The Board of Directors consists of five gentlemen, three of whom have been Governors of the State and one a Representative in Congress. Thus as far as the Direction goes this cannot be classed as a "one-horse road."

Notice.

MEMBERS OF NEW HAMPSHIRE LODGE, No. 17, I. O. O. F., are requested to meet at Odd Fellow's Hall on Wednesday evening, May 22, at 7:30 o'clock. Important business will be considered. Per Order.

T. BETTON, Rec. Sec.

Reward.

THE NEW HAMPSHIRE SOCIETY for the Prevention of Cruelty to Animals hereby offer a reward of **Ten Dollars** for information leading to the conviction of the person or persons who shot song or insectivorous birds in or near the South Cemetery about three weeks since; or the same amount will be paid for information sufficient to convict any person of such offence at any other time.

C. E. RATCHELDER, Secretary.

Portsmouth, May 20, 1878.

Notice.

I HEREBY forbid any person harboring or trusting my wife, Lizzie J. Burns, on my account, as I shall pay no bills unless contracted by myself. JAMES BURNS.

Portsmouth, May 22d, 1878.

Terms Cash; $500 to be paid by the purchaser at the time of sale.

A. N. CLARK, Mortgagee.

Boston, Mass., May 20th, 1878.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Beck Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Sore Throat, Lameness, Spavin, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

THE CITY.

See notice of auction sale of plants by H. F. Wendell to-day.

Proposals for furnishing fuel, forage and straw for forts McClary and Constitution in this harbor are receivable at the Port Quartermaster's office in Boston until the 15th day of June.

Right Rev. Bishop Niles will visit St. John's church next Sunday; he will preach his annual sermon in the morning, catechize the children of the Sunday school in the afternoon, and administer the rite of confirmation in the evening to a large number of persons.

"What does that man do on the navy yard?" enquired a man of a naval officer as one of the draughtsmen employed in the office building at the yard passed, the other day. "He is one of the drawers of the Bureau of Construction," was the answer.

Two fellows named Corbett and Taylor, belonging in Pittston, Me., who recently finished out a term of eight months in the Kennebec jail, for stealing a sloop yacht, which they brought to this port where they were captured, have again been "cutting up their shines." On the 8th of April they stole the sloop Tickler, from her moorings at the lower end of Linnekin's Neck, Boothbay. Taking the vessel they sailed southward. The boat was recovered in Delaware, and the thieves were arrested but escaped from the officers.

The society with the excellent purpose and the outrageously long name, in another column offers a reward of ten dollars for evidence to convict the person or persons who some three weeks ago shot a number of little birds in or near the south cemetery; or for the conviction of any other person who may at any other time commit such an offence. Boys who go out shooting "chippy-birds" in violation of law and humanity must be careful to go it alone, as a companion might be willing for ten dollars to do a good deed and hand the bird-killer over to the law.

Ward and Haley, the tramp burglars caught at Breakfast Hill on Monday, broke into the store of George W. Plumer, near the railroad station at South Lee, on the same night that they burgled the stores of H. W. Bartlett at Nottingham Centre and J. R. Saunders at Newmarket. They got little of value in either of the two former places. The thieves had skeleton keys on their persons when arrested, and watches which no doubt were stolen. The team they stole in Fisherville. Ward is a washed-out looking person, and appears more like a door-mat thief or chicken-roost investigator than a burglar or highwayman; Haley has every appearance of being a desperate and dangerous scroundrel, and was evidently the leading man. The latter had three revolvers and a billy with which to defend his precious self; Ward had only two revolvers. The pair will lie in jail here until October, and then will probably emigrate to Concord to remain a goodly number of years. One of them is supposed to have assisted at several burglaries in Dover some time ago.

MEMORIAL DAY.

A meeting of the citizens' committee was held at the Common Council room on Tuesday evening. The committee reports that the commandant and four officers of the navy yard, together with the Marine Corps, the Portsmouth Cavalry and the Heavy Artillery have signified their intention to appear in line. The Flute and Drum Corps of North Hampton, sixteen pieces, has been engaged. The banquet hall of Franklin Opera House has been secured to make up the wreaths, etc., three days in advance of Memorial Day. The meeting adjourned to Friday evening next at half past seven o'clock.

The tickets for the services in Music Hall in the evening will be ready for distribution on Monday next at Rundlett's and Hutchinson's stores, and also by the general committee.

FRA DIAVOLO,

This evening at Music Hall, will be good; there is much pleasing music in the opera, and much fun; and the Carleton English Opera Company do full justice to it. Monday evening Fra Diavolo was given in Portland, and the *Press* says "the rendition was eminently pleasing," and "the company deserves all the applause which was so liberally bestowed by a large and intelligent audience." The *Argus* says "Auber's Fra Diavolo is an ever welcome opera, and its beauties found pleasing interpretation. * * Neither the orchestra nor chorus were large, but they were both excellent. The opera was rendered in a very smooth and even manner." Tickets are going off rapidly, we are informed, and those who wish good seats should be on hand at Preston's early this forenoon.

POLICE COURT.

TUESDAY, May 21st; *Batchelder, J.*

William Barry and Stephen Sullivan, for drunkenness, were charged $9.90 each.

Frank Ward and John Haley were arraigned for breaking into the store of Harrison W. Bartlett at Nottingham, and held in $600 to answer at the October term of the Supreme Court. These are the fellows referred to in Monday's court report. They got nothing at Bartlett's store. The evidence was that they left their team (which they stole at Fisherville, and which has been sent back there,) in a blacksmith shop near by; they pried open the store door, but in doing so broke a pane of glass in it, which made so much noise as to arouse Mr. Bartlett and scare away the thieves, who were tracked by their rubber boots to the blacksmith shop, and then by the horse's tracks to Breakfast Hill. The two men in pursuit, Washington Jones and William F. Watson, found that the thieves drove to every guide-board on the road, showing their lack of acquaintance with the country; finally the pursuers found where the chase had turned into a pasture, and summoning help the ruffians were nabbed while asleep, the horse, wagon and harness being discovered hidden in different places in the woods. The thieves told their captors that if they had been awake they would have made warm work before they would have been taken.

BEATEN AT LAST.

On Sunday afternoon an old white horse belonging to Mr. John H. Grant, which was at pasture in an enclosure on Miller avenue, tumbled into a ditch and was unable to get out. A number of persons mustered, and with the aid of planks and ropes extricated the animal, which when landed was found unable to get up, and refused both food and water. The agent of the animal-protecting society was notified and at once proceeded to investigate the case; and after some delay Mr. Grant was found, and consented to have the horse killed, which was done. This old horse was noted among the boys for his even temper — he was always mad at every boy he saw, and ever ready to bite one if he got a chance. He particularly objected to being called abusive names; and once when he was in the Marcy shipyard and a young fellow called him an "old white fool," he pursued his traducer with such vigor and show of teeth that the offender was glad to take refuge in the river by jumping off the end of the wharf. Another time, when standing in front of Mr. Grant's store, he got a chance at a boy who had often taunted him, and brought his chin down on that boy's head as he passed, in a way to make him see stars and resolve to be careful in the future how he offended a horse with a memory and a jaw like that. As the City Marshal was assisting to haul him out of the ditch, he got one of his hind legs to bear on the officer and sent him—according to the report of an eyewitness—about twenty feet; but as that cool individual landed on turf, and not on rocks or bushes which might have injured his uniform, he paid no attention to the episode at all. The old horse was tough and plucky, but he has gone at last; no boy was ever able to get the best of him in the long run, for he would bide his time and treasure up in his memory all insults received, until he got a chance to pay off the whole score, with liberal interest added; but though he was too much for the boys he was no match for death, and was worsted in his first battle with him, just as other and less combative horses and men get worsted.

TRAVELLING QUACKS.

A good many epidemics have swept over this part of the country within a few years—base ball, croquet, spelling bees, etc.; but the last and worst is now raging, viz.: an epidemic of peripatetic quacks calling themselves "Indian doctor's who travel in pairs, and while one, with unlimited cheek, a fluent "gab" and a smattering acquaintance with almost every subject treated of in the encyclopedias, gathers a crowd by a "free lecture," the other circulates among the people and at a good round price disposes of some infallible nostrum warranted to cure any infirmity, mental, moral or physical. Our exchanges throughout central New Hampshire and southwestern Maine have for weeks been filled with local notices of "the Rangers," the "great Indian doctors," or "Kit Carson, Jr.," all of whom are working Maine and New Hampshire in the way described.

Kit Karson, Jr., and his assistant, were the first to favor Portsmouth with a visit; at least that was what the salesman of the firm hinted the lecturer's name was, as the long-haired, buckskin-dressed spouter held forth from the top of a box in the middle of Market square. The idea of a noted scout and plains ranger engaging in a tour to sell quack medicine is rather comical, and we do not imagine that Kit Carson ever in his life saw any of this particular quack's relatives; but he —the quack— put on plenty of airs, rode around town most gallantly, clad in *outre* dress to attract attention, shot a potato off his confederate's head, for which same he should have been sent to prison, and drove a rousing trade in some worthless weed, among the credulous. When "Kit" and his mate left, they announced an immediate return to the city where they had been so well treated; but they haven't been back yet, though we understand that several purchasers of their infallible medicine would be glad to see them for a few minutes.

On Friday and Saturday evenings of last week another pair of "doctors" occupied Market square, one of them spouting with glib volubility and brazen lungs, while the other exchanged an invaluable cure-all for the worthless dross of commerce yclept money.

The stuff these fellows sell is probably harmless—hay-seed from a barn scaffold, or roots of juniper bushes; but the double entendres and inuendoes of the orators may not be so innoxious. At the best, the travelling charlatans carry off a lot of money, generally gathered from those least able to lose it, in exchange for their worthless nostrums; and people so ignorantly credulous as to be swindled by such fellows should be protected by law from their own folly. A regularly educated physician from another State cannot practise his profession here without proving that he *is* a physician; a skillful apothecary must be a registered pharmacist before he is allowed to put up a dose of salts; and these blatant quacks who pretend to be doctors and lawyers and apothecaries and everything else in one, should have no better chance than educated men before the law. We suggest that the next pair that comes along be requested to move on.

THE VICINITY.

Capt. Mark Willey, who served in the war of 1812, died at Durham recently, at the age of 87 years.

The *Times* reports the formation of a greenback club in Kittery, all whose members were formerly republicans.

About eleven hundred signatures to the Murphy pledge have been secured in Exeter. The crusade has ended for the present.

The Biddeford *Times* says a well-known Saco gentleman, who has resided in that city for over thirty years, started Saturday morning on his first visit to Boston, having never before been nearer the "Hub" than Biddeford Heights.

At a session of the United States court in Boston on the 15th inst., Hon. Charles A. Shaw, formerly of Biddeford, was fully discharged from all his debts, including contingent obligations in the shape of mortgages amounting to about $325,000, which were alleged to have been assumed by him in real estate transactions.

The city of Saco abolished its liquor agency some years since and stored a large lot of liquors in a store on Main street. Some young men being recently arrested for drunkenness it was ascertained that they have had access to the city liquor, and for a long time have been accustomed to help themselves. About $200 worth have been stolen.

At the adjourned town meeting held in York on the 18th inst., in relation to the default of George F. Plaisted, Treasurer and Collector for 1876, the committee appointed to examine his affairs reported that Mr. Plaisted refused to recognize the committee and consequently they did not see his accounts. The meeting took no further action, but adjourned without day; whereupon Mr. Sedgley presented a request to the selectmen to call another meeting concerning the affair, which they have done. The meeting is to be on Saturday, the 25th inst.

On Saturday last two little girls named Jennie Gray and Phebe Streeter, aged about five years, were drowned at Wolfeboro' Junction by falling from a bridge into a mill stream while at play.

The Jackson Co., at Nashua, pay a dividend on Monday next.

Portsmouth Chronicle

Out of Tune.

When the tones of a musical instrument become harsh and discordant, we say it is "out of tune." The same may be said of that far more wonderful and complicated piece of mechanism the human structure, when it becomes disordered. Not only actual disease, but those far more common causes, overwork, mental anxiety, and fast living, may impair its vigor and activity. The best remedy for a partial collapse of the vital energies, from these as from other causes, is, Hostetter's Stomach Bitters, which is at the same time an agreeable and mild cheering cordial, and the best possible invigorant in all cases of debility. It is an incomparable stomachic and antibilious medicine, eradicates fever and ague, and prevents subsequent attacks. It remedies with certainty and thoroughness bowel and kidney complaints, dyspepsia, nervousness, rheumatic troubles, and many other bodily ailments. It also counteracts influences which predispose to disease.

If people will gratify the inborn desire to speculate in chances they will do well to see that all is fair and nothing against them but the odds of fortune. The scheme of the Louisiana State Lottery Company, to be found in another column of this issue, commends itself to all such. Besides the enormous amount of money to be divided among the tickets holders, it should be noted that the entire management of the drawing is in the hands of General G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia.

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 25cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the Colonnade Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&tsep1357

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 25 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable, and agreeable medicine. It is particularly adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms & Sour Stomach and Disordered Bowels, there is nothing like Castoria. tzing

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as **Ayer's Cherry Pectoral.** It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. Its influence is felt in every household in the land, and its wonderful cures are the talk of every fireside. It makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed those dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis.

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 79

FRANK THOMSON, L. P. FARMER,

203 and 205 Washington st., Boston, Mass.

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL.

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Train.

BRIDGLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that produces those results of perfectly Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By natural selection of merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

DR. SAGE'S

Catarrh Remedy

Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.

It Speaks for Itself.

ROCKPORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (more dollar-grabbers) would be glad if they could emblazon a similar cure in the papers. For 26 years I suffered with catarrh. The nasal passages became completely choked, "snuff," "dust," "ashes," "inhaling-tubes," and "sticks," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 16 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered, and constitution broken, and I was hawking and spitting seven-eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES,

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Springe, Nettie Lake, Ohio; Chas. Norcrop, North Chesterfield, Me.; Milton Jones, Scriba, N. Y.; J. E. Miller, Bridger Station, Wyo.; C. C. Merriman, Logansport, Ind.; M. M. Post, Logansport, Ind.; J. W. Bailey, Tremont, Pa.; H. E. Ayres, La Porte, Ind.; Jessie M. Sears, Ft. Branch, Ind.; L. Williams, Canton, Mo.; W. A. Thayer, Onarga, Ill.; S. H. Nichols, Jr., Galveston, Texas; Jonas F. Reinert, Stonesville, Pa.; S. W. Lusk, McFarland, Wis.; Johnson Williams, Helmick, Ohio; Mrs. M. A. Currey, Trenton, Tenn.; J. G. Joslin, Louis Anders, Gayeport, Ohio; C. H. Chase, Elkhart, Ind.; Mrs. Henry Haight, San Francisco, Cal.; Mrs. E. M. Gallusha, Lawrenceville, N. Y.; W. J. Graham, Adel, Iowa; A. O. Smith, Newnan, Ga.; Chas. E. Rice, Baltimore, Md.; Jesse M. Sears, Carlisle, Ind.; Daniel B. Miller, Fort Wayne, Ind.; Mrs. Minnie Arnaise, 290 Delancy Street, New York; H. W. Hall, Hastings, Mich.; Wm. F. Marston, Lowell, Mass.; J. W. Roberts, Maricopa, Ariz.; Chas. S. Delaney, Harrisburg, Pa.; M. C. Cole, Lowell, Mass.; Mrs. C. J. Spurlin, Camden, Ala.; Chas. F. Kaw, Fredericktown, Ohio; Mrs. Lucy Hunter, Farmington, Ill.; Capt. E. J. Squires, Lamy Station, Wyo.; J. W. Tracy, Steamboat Rock, Iowa; Mrs. Lydia Waite, Shushan, N. Y.; J. M. Beck, Junction City, Mont.; Henry Eno, Buntas, Cal.; L. F. Cummings, Rantoul, Ill.; S. E. Jones, Charleston Four Corners, N. Y.; Geo. F. Hall, Pueblo, Cal.; Wm. E. Bartrie, Sterling, Pa.; H. H. Rook, 948 Penn Street, Pittsburgh, Pa.; J. R. Jackman, Samuel's Depot, Ky.; Henry Zobrist, Geneva, N. Y.; Miss Hattie Parrott, Montgomery, Ohio; L. Ledbetter, Chatham, Ill.; S. B. McCoy, Nashport, Ohio; W. W. Warner, North Jackson, Mich.; Miss Mary A. Winne, Darien, Wis.; John Ziegler, Carlisle Springs, Pa.; James Tompkins, St. Cloud, Minn.; Enoch Durr, Pawnee City, Neb.; Joseph T. Miller, Xenia, Ohio; S. B. Nichols, Galveston, Tex.; H. L. Laird, Upper Alton, Ill.; John Davis, Prescott, Ariz.; Mrs. Nancy Graham, Forest Cove, Oregon.

Golden Medical Discovery

Is Alterative, or Blood-cleansing.

Golden Medical Discovery

Is Pectoral.

Golden Medical Discovery

Is a Cholagogue, or Liver Stimulant.

Golden Medical Discovery

Is Tonic.

Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Cholagogue properties render it an unequaled remedy for Biliousness; Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy foreboding, irregular appetite, and tongue coated, you are suffering from *Torpid Liver, or "Biliousness."* In many cases of *"Liver Complaint,"* only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, Pleuro, and Mandrake, with the Iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and Serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by Dr. SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, encrusted matter that has lodged in the nasal passages is removed with a few applications; the inflammation and adamination subdued and healed; the entire membranous linings of the head are cleansed and purified, so effectuously its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the throat a very bad cough, asthma so bad as to be obliged to take a remedy or it is night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 ROW STREET.

Daily Chronicle.

A Philosophical Pasha.

Some of the French jokes connected with the Russo-Turkish war are not bad—these, for example:

A Russian general rides forward to the Grand Duke. "I have the honor, your Imperial Highness, to announce a great victory."

"Very well. Go and congratulate your troops."

"There are none left."

Another: A Turkish Pasha is surveying the field with his glass. An aid-de-camp rides up:

"All our artillery has been captured."

The Pasha strokes his beard philosophically and says, "fortunately it was not paid for."—*Editor's drawer, in Harper's for June.*

—A false scent—A counterfeit penny.

—A sculptor is engaged on a work to be called "Winged Sorrow." If the work isn't too far along, it is suggested that he give it the form and size of a Jersey mosquito.

—The editor of the Utica *Republican* wrote that all the girls who wear trails have large feet, and his modesty was intensely shocked next day at meeting his daughters in the street, clad in ballet costume.

—A gentleman in Lawrence, Mass., has in his possession the identical bill or programme of the play at Ford's Theatre, and in the hands of President Lincoln at the time of his assassination on the night of the 14th of April, 1865.

—At a recent circus performance in Hartford almost all the money taken in was silver. The circus company's treasurer had a bill of $400 to pay a railroad company for transporation, and sent the sum in a coal-hod.

—"Didn't you guaranty that that horse wouldn't shy before the discharge of a cannon?" said a cavalry officer to a horse dealer. "Yes I did, and I'll stick to it," replied the dealer. "He never shies until after the cannon is fired."

—Banting, the "Banting system" man, whose death has just occurred, was once so fat that he could not tie his own shoes, and was obliged to go backwards down stairs to keep his balance; but by shunning all farinaceous and saccharine food he reduced himself to manageable dimensions, and lived to the fat age of eighty-five years.

—A fashion journal says: "Nothing will be worn this summer by the fair sex, except longitudinal striped hose." Good bye! We are off to the Fiji islands, where the women, in addition to a red string around the left ankle, wear bracelets of sharks' teeth around the waist and a fish bone in the nose.—*Norristown Herald.*

—The author of the "Youth's Health Book" does not explain how it is the boy of the present age can play base ball all day and feel all the fresher for it, but cannot walk a mile on an errand without being utterly used up and getting coddled for it by his mamma.

—While wine was being passed around during the administration of the sacrament at a Minneapolis, Minn., church, the other Sunday, the congregation was electrified by the sudden exclamation of a little boy, "Ma, I'll take beer!" A ripple of suppressed laughter disturbed the solemnity of the occasion.

—It is told of an Advent brother in Westfield, Mass., who recently caught a man stealing meat from his market, that in reply to his plea to be let off and his declaration that, God helping him, he would never steal again, the brother said: "God helping you! Why, you scoundrel, if I hadn't caught you stealing you never would have known there was a God."

—"My wife tells the truth three times a day," remarked a jocose old fellow, at the same time casting a mischievous glance at his "better half." "Before rising in the morning she says, 'Oh, dear, I must get up but I don't want to!' After breakfast, she adds, 'Well, I suppose I must go to work, but I don't want to.' And she goes to bed saying, 'There! I have been on the move all day, and haven't done anything.'"

— Petroleum was utilized as early as 1806. Nat Carey, a peddler, was the first person to do so. He gathered it by floating flannel cloths on Oil Creek, Pa., and when they became saturated with the oil floating on the surface, he saved it by wringing out the cloths. The oil thus collected he sold as liniment, under the name of Seneca oil, and it became famous.

—An Enoch Arden case has just come to light at Milbury. Mary Lawrence married Fred Stone in Canada in 1860, and after seven years he left her and was supposed to have died. In March, 1877, she married Frank Payen of West Warren and removed to Millbury. Four weeks ago Stone suddenly turned up and claimed his wife, whereupon Payea disappeared and has not since been seen. Stone has taken away three children, but his wife declines to go with them.

—Billy Bangs is the terror of delinquent debtors in Philadelphia. He collects bad bills, and has invented a very ingenious device to aid him. He wears a very high hat with the legend "Bad Bills Collected," painted conspicuously on it, and "the debtor class" are naturally not pleased to have him seen hanging around their doors very much. One indignant debtor made complaint of him before a court of law, but Billy was acquitted, the judge deciding that Billy could wear a hat with a town clock on it if he wished.

Daily Chronicle

THURSDAY, MAY 23, 1878.

Congress.

The Senate on the 21st inst. finally ended a farce. The bill to put Gen. James Shields on the retired list of the army was defeated by a vote of 34 to 30, most of the negative votes being democratic; Senators Rollins and Wadleigh voted no. The movement to put Gen. Shields on the retired list was made by the democrats as an offsett to their refusal to make him doorkeeper of the House, to which place an ex-rebel general was elected; this subsequent refusal to pass the bill, after it was amended by adding to it a provision to put Gen. Grant also on the retired list, shows that they wished to pension Gen. Shields simply because he is a democrat, and not at all because he was a Union soldier.

The Senate committee on elections decided to take up the claim of D. T. Corbin of South Carolina to the seat to which he was elected, and which is now occupied by Massacre C. Butler, at the special meeting on Saturday.

The House went into committee of the whole on the Hewitt bill to destroy the efficiency of the army, and many speeches were made in its support by democrats. Hewitt ridiculed the idea of keeping the army up to an efficient standard for the sake of protecting the Texas frontier, and put a quietus on all talk about protecting the western settlers by authoritatively asserting that there is no danger whatever of any trouble from the Indians. Several democratic Congressmen vehemently denounced the use of the army to put down riots and protect property; Eph. Holland's Congressman, Banning, was one of them. Debate on it was continued in the evening, and Gen. Butler made a speech of an hour, in a demagogical style, without alluding to the army bill at all. Gen. Garfield made a powerful speech in favor of decent treatment for the army. Mr. Bragg wanted the army cut down at once to 10,000 men of all arms; Mr. Bragg is a democrat, of course.

A Firebrand.

The democratic revolutionists were bothered a good deal on Wednesday, in the national House, when Carter H. Harrison, of Illinois, democrat, rose to a question of privilege and presented a resolution of which the following is the substance:

Whereas, a select committee has been appointed to inquire into alleged frauds in Florida and Louisiana; and whereas, it is charged that frauds of the same character were committed in Oregon and South Carolina; therefore resolved that that committee be instructed to inquire into this if there is substantial evidence; and, further resolved, that the 44th Congress, having decided that Hayes and Wheeler were elected, it is not now in the power of Congress or of this House by the present investigation to annul or to attempt to annul the action of the 44th Congress.

Sayler, Speaker *pro tem.*, ruled that the resolution was a question of privilege. The democrats were in a terrible way; the republicans refused to vote; Potter, white in the face with rage, denounced Harrison, and the Potter committee voted against a full investigation; the Speaker helped delay action all he could, and finally Harrison was bullied into withdrawing his resolution. But the incident shows that the reckless men who propose to destroy representative government "in the interests of the democratic party" are not to have their own way without a struggle.

Naval Affairs.

Commodore Foxhall A. Parker, who is to take the superintendency of the Naval Academy on July 1st, paid a private visit to the Institution on Saturday.

Lieutenant T. B. M. Mason will be detached from the Naval Academy on the 30th of June and granted six months leave of absence, with permission to leave the United States.

First Lieutenant A. C. Kelton, United States Marine corps, was detached from the marine barracks, Naval Academy, on the 22d inst., and ordered to report for duty at League Island, Pa.

Fog Signals.

Since the seizure of the schooner Josie Crowley by the United States authorities for not sounding a bell when anchored in a fog, inquiry is frequently made relative to the requirements of the law governing such cases, as a large number of masters of sailing vessels had supposed that the blowing of a foghorn, when at anchor, was only necessary. The law and regulations governing the same are annexed:

Steam vessels under way shall sound a long blast of the steam whistle * * * at intervals of not more than one minute. Section 4,233 revised statutes, and rule 4 General Regulations.

Sail vessels under way shall sound a foghorn at intervals of not more than five minutes.

Steam and sail vessels, when not under way, shall sound a bell at intervals not more than five minutes.

Coal boats, trading boats, produce boats, canal boats, oyster boats, fishing boats, rafts, or other water craft navigating any bay, or harbor, or river, by hand power, horse power, sail, or by the current of the river, or anchored, or moored in or near the channel or fairway of any bay, harbor or river, and not in any port, shall sound a foghorn or equivalent signal. * * *

These last provisions, relating to coal boats, etc., are understood to refer more particularly to unrigged vessels and small craft. By the rules and regulations governing steamers, the Board of Supervising Inspectors, rule 10, General Regulations, require that when steamers drift, or if at anchor, with steam up, in the fairway of other steamers, it shall be the duty of the pilot to cause three distinct blasts of the steam whistle to be sounded, at intervals not exceeding three minutes. This rule having been approved by the Secretary of the Treasury has the force of law. As the statutes require the sounding of a bell, and the regulations the blowing of a whistle by steam vessels when at anchor, it therefore seems that both these requirements should be observed. From the foregoing it appears necessary that both steam and sail vessels should be provided with a bell, to be used when anchored in a fog. The law does not designate the size or weight of the bell to be used, but it evidently is understood to be of the kind known as a "watch-bell," the size of which should be determined by the relative tonnage of the vessel. There is no penalty for a vessel not having a bell on board, but should a vessel be anchored in a fog, without sounding one, or engaged in navigation without the sound or other signals being as required by law, the craft would incur a penalty of $200. It will be noticed, by some of the provisions, that an interval of "not more than five minutes" should elapse between the sounding of the signals. This limit is considered too long for safety, and as there is no prohibition against shortening the interval it would be better to sound them at least every minute, which is the general custom.

News and Notes

Three hundred cases are marked for trial at the term of the Supreme Court now in session at Alfred, Me., fifteen cases being set for trial by jury.

Bald Mountain, near Asheville, N. C., has been split in two by some strange convulsion. A chasm 300 feet long, ten feet across and of unknown depth has been made.

By an explosion of gas in the coal mine at Sydney, N. S., on the 21st, six men lost their lives.

Cardinal McCloskey arrived in New York from Europe on Tuesday.

One of the oldest, most eccentric and wealthiest residents of Salem, Nathan Minard, was found dead in his bed recently. He was nearly ninety years of age, and by careful painstaking had amassed a large fortune. Twenty years ago he dug his grave, built up the sides neatly with chiseled stone, covered the chamber with a large slab, and filled in the whole with earth. He also purchased his coffin at the same time, and these preparations for his burial have, in accordance with his request, now been used.

New Hampshire Items.

Herbert F. Norris, Esq., of Concord, the New Hampshire correspondent of the Boston *Post*, and Secretary of the Democratic State Committee during the last campaign, recently married Miss Mower at Concord. Nothing less than a full brass band was used to serenade the newly married pair on their return from the bridal trip.

With the projects to impose taxes upon telegraph and express companies; to see if the Lake Company cannot bear more of the burthens of the State; to revise the system of taxing railroads; the county poor system; and the suggested revival of the Portland & Ogdensburg controversy with the Boston, Concord & Montreal R. R.; and numerous other legislative attempts, the lobby does not despair of the coming June session being both pleasant and profitable to the Third House, as of yore.

A Judge off his Native Heath.

A good story is told us as related of himself by an Ex-Judge and Ex-Congressman of Vermont, who held the court in Essex county when a long-standing case in which an especially sharp lawyer had been engaged was heard. The Judge ruled the law points against the lawyer in question, and he lost the case. After tea, the counsellor, who was staying at the same hotel in Guildhall with the Judge, approached the latter and invited him to take a drive, which the Judge accepted. A few minutes behind a good trotter took them over the line into New Hampshire, when the attorney turned to his companion in the buggy and said, "Judge, I presume now we are in New Hampshire we are peers." To this position the Court assented. "Well" rejoined the lawyer, "You blank old fool, how came you to decide that case against me?" and expending a part of his temper upon the innocent animal that carried him, he sped away from the line of Vermont, increasing his vituperation with the distance from the Judge's jurisdiction. Finally exhausted he turned his horse and drove back to Guildhall. As the horse's hoof, sounded on the bridge, which passed, would see the riders again in the Green Mountain State, the now serene lawyer gracefully raised his hat and said, "Judge, we have had a very pleasant ride together. I am greatly obliged for your company, and hope at some future occasion to have the honor of a drive again." Everything having returned to a *status ante bellum* the parties alighted, and the Judge, who appreciates a good thing even at his own expense, told the story to our informant.

Political.

Secretary Sherman strikes right out from the shoulder. The preamble to the democratic resolution, he says, is a series of falsehoods, and must have been known to be such to the men who wrote it. The letter which he is said to have written to the East Feliciana Supervisor is a forgery, and known to be such to the men who are using it. The democratic plot is to carry the next House, and then to seek to replace President Hayes with Mr. Tilden. "This," says Secretary Sherman, "is war," and the Secretary is right.

That republican Congressional address seems to have stirred up the democratic brethren. They did not expect, evidently, to have the cover removed from their little game in so precipitate a manner. They declare they do not mean revolution, but they declared just as emphatically that they would abide by the finding of the Electoral Commission.

Mr. Hampton is not a very bad prophet in this matter. A little more conciliation and a few more Potter resolutions, and a good many people will begin to sigh with the poet for a "still, strong man in a blatant land." And there's no use denying that Gen. Grant about fills that bill.—*Boston Herald.*

Heart Disease Cured.

AMERICUS, GA., Nov. 7th, 1877.

This is to certify that I was taken with a disease of the heart, in February, 1875, and suffered for six or seven months, when my attending physician told me that I had neuralgia or apoplexy of the heart, and that there was no chance for me. Mr. John L. Oliver sent me word to try Dr. Pierce's Medical Discovery, which I did, and found relief from the first dose; after using four bottles I was enabled to go to my daily labor and have continued at work ever since, never feeling any symptoms of the disease. It is certainly a great medicine.

THOS. EDWARDS.

G. W. HEATH, W. R. JOHNSON, JOHN L. OLIVER, } Witnesses.

—Mike White of Chattanooga was killed by a mob. His life was insured for $10,000. The insurance company now sues the county for that sum.

—A little boy in a Sioux City Sunday school put a poser to his teacher. The lady was telling her class how God punished the Egyptians by causing the first-born in each household to be slain. The little boy listened attentively, and at the proper interval mildly inquired: "what would God have done if there had been twins!"

—Fashionable hats for gentlemen are now known by the quality of their grease. Olive Logan says that at the Rothschild-Rosebery wedding, the Prince of Wales wore a hat of peculiar gloss, and upon inquiring of a friend of hers, a German lady, "What's the matter with his hat?" she replied, "Why, don't you know? that's the style now—he's had it brushed with oil." Olive says: "I could not believe her, though she was a woman of fashion and connected with the Rothschilds; but as we strolled down Piccadilly we stopped and looked in at Lincoln & Bennett's window, where the nobbiest 'tiles' are always to be seen, and where you often find two or three ladies on horseback standing by the curb and talking about their beavers to the obsequious clerks who rush out to learn their ladyship's commands. And by all the perfumed little ejaculations in the limited and sinless vocabulary of a lady's swear-words, 'twas true! The hats were smeared with an oily substance—a process which will henceforth render it a still more difficult task than it has hitherto been to most ladies to distinguish between the rainy day and fine weather hats of their gentleman friends."

PROPERTY FOR SALE.

THE Howard Benevolent Society offers for sale the

HOUSE and LAND

ON HIGH STREET,

Which has been used for a Shoe Factory and for manufacturing purposes. The Building is spacious and centrally located, and will be sold at a reasonable price.

Unless previously disposed of at private sale, the property

WILL BE SOLD BY AUCTION,

On Saturday, May 25th,

At 12 o'clock, Noon.

Apply to JOHN STAVERS, Treas.

Letters for the night mails (and no others) east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PIERCE, JR., P. M."

THE CITY.

The rite of baptism will be administered to twelve persons at St. John's church next Sunday.

The sewer on Union street, laid last August, is now being relaid at a lower level, it not having originally been put deep enough to accommodate any of the abuttors, save one.

Steamer Appledore came off the railway at Kittery on Tuesday, and is now laying at her wharf at the north end. She has got on a new coat of paint, and is in first rate condition for the summer trade.

We would suggest to the Board of Aldermen that before passing the appropriation bill they order the removal of the apparatus for pumping water to sprinkle the streets from that stench-hole at the foot of Brewster street to some place where pure water can be had at all times.

There will be a meeting of ex-soldiers and sailors in the Common Council Room at half-past seven o'clock Monday evening, to form an organization to parade on Memorial Day. As far as possible each veteran has been notified by postal card, but the list in the hands of the committee being incomplete, it is probable some have been overlooked. All such will please regard this notice as an invitation to be present.

The presentation of "Fra Diavolo" at Music Hall by the Carleton English Opera Company, advertised for Wednesday evening, was postponed to Friday evening, on account as we are informed of the unexpected success of the company in Portland, which induced them to remain there for another performance. They gave "Il Trovatore" Tuesday evening to a large audience, and were greeted with great enthusiasm. There are good seats still left, which can be secured at Preston's.

Prof. Patterson's lecture on Italy, at Congress Hall on Tuesday evening, had a fair attendance and an appreciative audience. His account of his visit to Milan, Venice, Florence, Rome, Naples, Pompeii and Salerno, with graphic descriptions of their works of art, paintings, sculpture, and the colossal and magnificent structure of their cathedrals, palaces, etc., was fully enjoyed by his hearers. Those who were fortunate enough to hear the lecture will have a pleasant reminiscence of his visit to Portsmouth.

Our attention has been called to the statement in the Boston papers of the 21st inst. that "diphtheria prevails to such an extent here that the public schools have been closed." This statement is wholly incorrect; there is no unusual amount of diphtheria in the city, none of the public schools have been closed, and there has been no thought of closing any of them. Diphtheria is somewhat prevalent in York; and in the Spruce Creek district of Kittery, four or five miles from here, the school has been closed on account of it. None of the other schools in Kittery are closed.

The brewery which was built at the lower part of the city near the Concord Railroad track, about ten years ago, by George W. Tucker and Nathan F. Mathes, of Portsmouth, was sold on the 20th inst. for $10,000, to Matthew Carney, of Lawrence, Mass.; John Lynch, of Lowell, Mass., and Patrick McClinchy, of Portland, Me. They will immediately take possession, make the necessary improvements, and commence brewing beer. Tucker and Mathes were engaged in the business here several years, then selling out to E. R. Sawyer and others, of Boston, who subsequently disposed of it to Dunn & Harris. The property finally came into the possession of the Manchester Savings Bank, which sold it to the present owners.—*Manchester Mirror.*

Eliza Weathersby's Froliques will appear at Music Hall on Saturday evening, in a burlesque extravaganza entitled "Hobbies," by the author of "The Mighty Dollar." This piece we have never seen, but it and its performance by the Froliques are highly spoken of by the press, as mirth-provoking to a high degree. The Detroit *Free Press*—good authority on fun—says: "The fun begins with the rising of the curtain, and steadily intensifies until its going down. The pretense of a plot is a mere thread on on which to string a succession of the specialties of this party. Mr. Goodwin's imitations, which form a portion of the subject matter of the piece, were so fine and so acceptable that the only thing to secure peace was for him to compete with himself, and, instead of repeating what he had already said, to complete his triumph by giving something else replete with fun and mimicry. *The* Weathersby was, as she always is here, a success, and her acting, dancing, singing and dressing were fully appreciated." The Hamilton, Ontario, *Times* says: "It is not a piece with a deep plot; it is simply an extravaganza designed to give scope for bringing out a very large amount of fun in a short space of time. There was no end of fun while this part of the performance lasted, fun, too, which was devoid of anything like offensiveness; the audience divided nearly the whole of their time between laughter and applause. Very odd and grotesque were some of the characters, and portions of the performances were irresistibly comical." Reserved seats at Preston's. See advertisement.

MISS PARLOA'S LECTURES.

Miss Parloa's cookery lectures at Miss Morgan's School have been a great success. The number of students has increased with each successive lecture, and all who have attended are enthusiastic in their commendations; one of our best house-keepers says that the new ideas she got at one lecture were worth to her the price of the whole course.

Mrs. Goddard, of Worcester, Mass., in a letter to the *Spy*, pays the following compliment to Miss Parloa, and her pupils here will every one heartily endorse it: "Miss Parloa is an accomplished cook. Not only are the results good, but it is a pleasure to see her work; everything goes right, there is no spilling or slopping, and no waste. She is really economical, knowing just where butter and eggs can be spared and where they must be used. The school is a charming novelty, and of immense practical importance, and it is all the better because Miss Parloa is personally so pleasing, with quiet, winning manners, and entirely able to attend to her cooking and her class at the same time. Her school ought to soon become a normal school where pupils can graduate as teachers of cooking. As I remember Professor Blot, one needed to know a good deal in order to profit by his lessons, as one needs to know something in order to make use of a cookery book, but Miss Parloa begins at the very beginning; not one thing is omitted, or taken for granted, and any woman who goes to her classes and does not learn must be uncommonly dull."

The lecture to-day is one of the best, including "Salads and Bread." That on Friday will close the course.

THE VICINITY.

The Biddeford *Times*, alluding to a circumstance which recently occurred in this city, says: "Quite a commotion was created during the baptismal services at Noble's island, near Kittery, Sunday, by the appearance among the crowd of one Ellen Perkins with a kitten in her arms, who with loud and profane emphasis proceeded to 'baptize' the canine, as she said, by throwing it into the river." We always supposed a kitten to belong to the feline tribe.

The inhabitants around Brave-boat harbor, York, are somewhat mystified at an occurrence which happened there last week. A sloop boat of about three tons capacity, containing one man and two women, entered the harbor, and the crew, after having moored the boat to a stake on the bank, took some bedding from it and went into the woods near by, remaining there until the next morning, when they walked away and have not been seen or heard of since. The boat has been properly taken care of and is awaiting the return of the party or an owner to claim it. There is a mystery about the affair which needs an explanation.

Straw, E. A.	61 38	Seavey, Woodbury	25 66

The census lately taken by the selectmen, gives a population of 1128, an increase of 132 since the census of 1870. The rate of taxation this year is $1.10 on a hundred dollars. The dog tax amounts to $58, and the books give the number of horses in town as 256; with 325 voters, of whom 24 are upwards of 70 years of age, and pay no poll tax; and nine aliens who do pay a poll tax, the latter being the members of the cable staff.

There are nine couples in town who have been married upwards of fifty years; but only one golden wedding has been observed, that the writer of this is aware of.

Three of the four schools in town are taught, this summer term, by young ladies of the name of Goss, natives of the town, as is also Miss Bunker, who teaches the fourth; and they are all excellent teachers.

The views of various citizens in regard to the proposed forming of a new town, to be taken from Rye and North Hampton, and to be called "Rye Beach," seems to indicate that so far as Rye is concerned, the project is entirely uncalled for, and a large majority would be found to oppose any such division, as the advocates of such a measure—if there be any—will find out, if any serious attempt is made to put the scheme through.

Vegetation is very forward; peas are up six inches high in some lots, and potatoes and corn are out of the ground, and in some instances have been hoed. The apple bloom is abundant, and that of cherries and pears fair. Have heard nothing from the potato bugs as yet, but the crop of mosquitoes bids fair to exceed all previous estimates, if the advance guard which made their appearance last week is a criterion to go by.

NAT.

SPRUCE CREEK, KITTERY, May 21st.

Dr. Wesley Johnson is building a large barn and making other important improvements on his farm.

Mr. William Adams, a resident in this vicinity, has opened a grocery store. This is an accommodation which has been long needed, and the enterprise will no doubt meet with success.

Mr. L. S. Butterfield has on account of the increase of business been obliged to make extensive additions to his smithy.

Farmers go gaily to their work, and are planting more than for many years previous. Fruit trees are in full bloom, and good crops and a merry harvest are in anticipation.

An evening school is to be opened at Beach Ridge, York, and Mr. Nathaniel K. Raynes of Portsmouth has been offered the position as teacher. Mr. Raynes has many friends in this locality, who are averse to his going to Texas, and have offered him this school as an inducement to him to remain here.

Sch Lizzie Wilson, Wilson, from Providence for this port, was at Vineyard Haven 20th inst.

Schs Mabel Rose, Allen, and E A Anderson, Clark, both from Philadelphia, the former for this port, the latter bound up the river, passed by Vineyard Haven 20th inst.

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 35cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the Colonnade Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Centaur Liniments.

More than 1,000,000 bottles of the new celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Pole-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable, and agreeable medicine.* It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & CO., New York.

The Centaur Liniments allay

pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless

remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tuwg

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier.
tf

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind, become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 78

THE STANDARD BROILER.

PATENTED APRIL 16, 1877.

This simplest and best article for Cooking Beefsteak ever invented.

Can be used over either a Coal or Wood fire.

Cooks Steak so quickly that all the juices and flavor are retained.

Does not get ashes or coal on the meat. Does not let smoke and gas out of the stove. Does not put out the fire.

Ask your Dealer for the STANDARD BROILER, it is just what you want. The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 3 cents extra for each Cake.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potass and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humers in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organ, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, fetching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being one *preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, are the fittest to answer to the question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and destructive to health as Catarrh. Bronchitis, Asthma, Cough, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, incrustant matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison,* the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the throat, a very bad cough, asthma and so I was obliged to take a remedy or it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to deprive me of sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored, I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Cures on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time I am familiar with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. Forwarded by all wholesale drug houses and dealers throughout the United States and Canada; WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

Dr. Marston's Fortunate Discovery while Visiting "the Elephant."

Among the visitors at a pleasantly located village in New Jersey that bordered on the Hudson, when a summer of more than ordinary warmth sent the denizens of New York to seek, if they could find it, some cool retreat, none attracted so much attention as Mr. Cort landt Stuyvesant, who claimed descent from two of the ancient worthies of Gotham, whose united names he bore, with the exception that the *Van* had been dropped from the former. It is but justice to "C. Stuyvesant," as he signed his name in dashy style upon the register of the village hotel, to say that he was possessed of a certain amount of good looks, and that his dress was tasteful, without running into any extreme of the prevailing fashion. The only ornament he wore was a brilliant, of rare lustre, upon the fourth finger of a hand that was evidently unused to toil. One of the reasons that he was more noticed than others who were strangers to the population of the rural resort where he has been introduced to the reader, may have been that he was the only single gentleman included among them; the rest being accompanied by the partners they had chosen, and the "olive-plants" who clustered around their tables when at home. Whatever may have been the cause, it is very certain that Mr. Cortlandt Stuyvesant, a young gentleman of six or seven and twenty, and, as has been said, somewhat good-looking, was an object of attraction to many bright eyes through the half-closed blinds of cheerful looking dwellings as he strolled through the village. The only person in whose company he had been seen was Frederick Dalton, a youthful member of the legal profession, and one of the regular boarders at the hotel, who, being of rather a diffident turn, had not taken the liberty of introducing his recently acquired friend to any of the young ladies of his acquaintance; an omission that was readily felt in a community where those of the opposite sex, of the younger generation, were not numerous—the latter circumstance resulting from the fact that, as in most cases in similar localities, the largest proportion of young men left their homes, on arriving at an age to do so, for city life. The first to be thus favored was Miss Ellen Sands, whom they met in one of their walks at the outskirts of the village; the acquaintance being further extended by a visit from them at her home the following evening. Among the accomplishments of Mr. Cortlandt Stuyvesant was that of being a fine singer, as well as having some skill upon the piano, and Miss Sands being also noted for her musical acquirements, their voices were often heard blended together in the evenings that ensued, giving rise to a rumor such as is never wanting in like localities, that their musical acquaintance had resulted in a matrimonial engagement, than which nothing was farther from the inclinations of one, at least, of the interested parties.

Ellen Sands was the daughter of a widow, who, upon a moderate income, after the decease of her husband, had managed to maintain a respectable appearance, as well as giving her only child an education that would have fitted her for any position in which she might have chanced to be placed; and both were intelligent to a degree that rendered their society a privilege that was not lightly regarded by such as could appreciate its value. Apart from the personal attractions in which she was far from wanting, the gentle and winning manners of Ellen would alone have been sufficient to insure her many friends, nor, at the age of twenty, had she failed to win them. The rumor that associated her name so intimately with that of the stranger, received an apparent confirmation when it became known that he had taken a fancy to a choice building site that was for sale upon elevated ground away from the business portion of the village; and that he was not less pleased with the design of a small but picturesque Roman villa to be seen at the office of the architect of several tasteful structures in process of erection in the neighborhood for city residents.

When something more than a month had passed from the period of the advent of Mr. Cortlandt Stuyvesant, a picnic that was pretty generally shared in by the better provided portion of the population, occurred one day on the borders of a picturesque sheet of water a mile from the village, at which he was present, and after being introduced to the young ladies, attached himself very closely to Miss Matilda Marston, the only daughter of the principal physician of the neighborhood. A very flattering circumstance it was to her, having never been

previously known to win an admirer, although she had reached the age of twenty-five and not wanting in a share of attractions, as well as being the heiress of a comforiable property inherited from a maiden aunt for whom she had been named. She would have taken to herself something less of a feeling of triumph when thinking at the time of Ellen Sands, (who had left home that morning on a visit to friends in New York,) had she been aware that the gentleman in her company had made to that young lady an unsuccessful offer of his hand the previous evening, and to which alone she was indebted, in the chagrin he felt at a refusal, for his attentions to her. From that time he was a constant visitor at her house, besides being often seen in her company during their walks and drives, as well as at church on the Sabbath. The gossip that prevailed in relation to the pleasure it gave the young lady to be thus appreciated, after waiting so long, by one of the opposite sex, may be summed up in the characteristic remark of an elderly lady, with a humorous turn of mind, "that a cat could not be more delighted in the possession of two tails, than Matilda Marston with her first beau." That which before was a matter of fancy in relation to Ellen Sands, proved one of fact in the case of Miss Matilda, as she was very ready to acknowledge her "engagement," and did not hesitate to talk freely with her friends of the future when the Roman villa should become a reality, instead of a mere drawing upon paper.

When the cooler days of October arrived, having in the meantime made frequent visits to New York, Mr. Stuyvesant took final leave of his summer quarters, and a week subsequently was followed to the city by Dr. Marston, his lady and daughter, it being the first holiday season the good man had permitted himself to enjoy, from his wide-spread circle of patients, within the memory of any of the younger generation, if not that of "the oldest inhabitant." Miss Matilda's affianced did not fail, as in duty bound, to call at the St. Nicholas, and escort her to the opera, the theatres, etc., as well as showing her attentions in the daytime, by drives upon the avenues. On an evening when he did not make his appearance, with her mother she accompanied some city friends to hear a popular preacher of the time; the Dr. declining to be one of the party on the plea of weariness after his travels about the city in the daytime. When they had gone a friend called on him, and after a chat, he accepted his invitation for a stroll in Broadway. The former was familiar with the ways of the city, and after exhibiting "the elephant" to his rural companion in ways that were most easily accessible, took him to an extensive gambling house in one of the streets bordering on the great thoroughfare. It was a rare novelty to the doctor, as, from the regularity of his life, he had never before looked upon such a scene. After strolling through the various rooms, they stopped to take a look at the players in one devoted to roulette, and as they did so, the attention of the doctor was attracted by a fashionably dressed individual, among the most earnest of them, who, but for the spectacles he wore, he would have had no hesitation in pronouncing to be Mr. Cortlandt Stuyvesant, and after watching the eagerness with which he was engaged in the game, became quite assured, on a nearer approach, without being aware that he ever found needful such optical aids as those referred to, that it was none other than that gentleman. The meeting, when the good disciple of Esculapius presented himself to his attention with the remark that he was unaware of his taste for the occupation in which he was then engaged, was, as will be imagined, rather an embarrassing one to the younger of the pair, but not being wanting in self-possession in emergencies of any description, he endeavored to convince the doctor that he was participating in the scene he had witnessed merely for the purpose of studying human nature in one of its many phases. His efforts in that direction were not successful, and when the doctor had given him a few words of advice to the purport of "studying human nature" under more commendable aspects, preceded by others strongly hinting that his acquaintance in the future could be dispensed with, he took his leave quite convinced that the pretence of his would-be son-in-law to the business of a Wall-street broker, beyond, perchance, an occasional speculation in fancy stocks, was but a *ruse* to cover his real pursuit as a means of subsistence.

The discovery of the doctor in his visit to the city never coming to light, the intimation given by Matilda as a reason for the non-fulfilment of the engagement between them being that her affianced failed to give such needful references as were required, proved quite satisfactory, and in due time she became reconciled to her inevitable fate of single blessedness. Yet did she not pass through life unloved. Devoting herself, with the means at her command, to all sorts of good and charitable deeds, there was no lady in the community who had passed her youth, that in her later life was more kindly regarded.

The Roman villa *did* become a reality upon the spot originally designated as its site, as well as a great ornament to the neighborhood, where it was located, and with Ellen Sands as its mistress when she became the wife of a business gentleman of New York, who made her acquaintance during a summer sojourn at her rural retreat. JOHN H. BOWLES.

Daily Chronicle

FRIDAY, MAY 24, 1878.

Congress.

The Senate has confirmed the nominations of Lucien Fairchild as consul at Paris, and of Stephen B. Packard as consul at Liverpool.

The House has passed Gen. Butler's bill for the publication of an official advertiser of the United States, to take the place of all public advertising through the papers.

The House on Thursday amended the army bill by increasing the number of enlisted men to 25,000, by a vote of 115 to 107.

Naval Affairs.

The U. S. S. Powhatan sailed from Norfolk on the 21st, for New York; she will be anchored for a time in the North river off Twenty-third street. Chief Engineer David B. Macomb, Fleet Engineer of the North Atlantic squadron, and Capt. Henry J. Bishop, Fleet Marine Officer, are on board the Powhatan.

Ordered—Commanders Charles C. Carpenter and George C. Remey to Newport, R. I., for attendance in the course of torpedo instruction, June 1st; Lieut. Emory H. Taunt from this naval station to Newport, and Lieut. Charles H. Rockwell to same place, June 1st, for instruction in torpedo service. Capt. Edward Simpson is detached from duty at New York navy yard, and placed on waiting orders.

The sloop-of-war Adams sailed from Panama for the Samoan islands on the 9th inst., carrying the members of the Samoan Commission.

News and Notes.

The Treasurer's office in Newburyport was broken into and the safe blown open by burglars, early Thursday morning. The thieves got only about $25.

The Peabody cotton mills at Newburyport will suspend operations for three months, June 1st.

The horses attached to one of Barnum's heavy four-horse teams became unmanageable at Fall River, Mass., Wednesday, while on their way to the place of exhibition, and dashed into the crowd. One woman, named Wellington, was seriously and perhaps fatally injured, and both of her legs will have to be amputated. Two other women were seriously injured.

The New England church (W. H. H. Murray's) of Boston has suspended worship for one year. Meantime the pastor proposes taking a vacation, and the members are to labor diligently to procure funds for the erection of a church edifice of their own. Hitherto their meetings have been held in Music Hall. As an organization, having sprung into existence in a year or a little more, its growth and prosperity has been surprising. Still more wonderful will it be if it can shut down for a year and not greatly suffer thereby. The great organizing ability and the popularity of Mr. Murray will however doubtless soon gather another congregation and church, if not the same.

The herring fishery at Magdalen islands is a total failure.

Francisco Peralto on Wednesday rode 305 miles in 14 hours 31 minutes at Fleetwood Park, using 34 horses and six mustangs.

The pleasure steamer Empress of India, with about eighteen persons on board, became unmanageable and capsized, going over a dam in Grand river, at Galt, Ont., on the night of the 22d inst. All the passengers were plunged into the river below and all lost.

Roy M. Cameron was sentenced at Newburyport recently to two years in the House of Correction for stealing surgical instruments. He impudently told Judge Bacon that he had better have made it three. The judge took back the papers, and immediately afterward said: "Having considered the offence the sentence is revised, and you are sentenced to three years in the State Prison, the first day solitary, the remainder at hard labor." "Thank you," responded the prisoner, and in a very few minutes the irons were locked upon the young man's wrists and he put on his way to fulfil the sentence.

A farmer's wife in Russell county, Va., being greatly annoyed by frequent thefts of her butter, put strychnine into one firkin, which was soon after stolen. The thief sold the butter at a store where it was purchased by Mr. Jackson, a prominent planter, whose family of twelve persons were all poisoned by it. Four of them have died.

Schooner yacht Mohawk has been sold to the government, and is being fitted up for coast survey service.

Charles Guptill, on trial at Portland for larceny, walked out of Court while the officer's attention was diverted from him and has not been recaptured.

John Whelton, the convict who attempted to take the warden's life at the Charlestown, Mass., State prison four years ago, was on Wednesday sent to the new State prison at Concord and placed in one of the "strong cells." In forty minutes he had wrenched off a window weight, and with it broken through the wall of the prison. He was captured in the yard and placed in another cell with an officer to watch him.

Edward L. Wilson, a negro pauper at Portland, has been arrested and confesses setting the almshouse on fire to get revenge on Mr. Merrill, who refused to let him sell a pair of blankets which he owned.

A German, seventy years old, a carder in the carpet works at Thompsonville, Conn., drowned himself on the 20th because he could only earn sixty cents a day, on which he and his wife could not live.

A duel between Frederick May, who fought the bloody duel with New York *Herald* Bennett, and Dr. Charles Phelps, who gathered up in buckets the gore spilled on that occasion, is now reported to be likely.

In digging a cellar in Fairhaven, Mass., recently, the workmen discovered a brick and mortar vault six feet long by three feet in width, which contained the remains of a human body with a few old army brass buttons and some chemicals to hasten decomposition. There has been a grocery store on this spot for a great many years, and no one can account for the remains.

Political.

The Republican State Convention of Vermont was held on Thursday, and Col. Rufield Proctor of Rutland unanimously nominated for governor, by *viva voce* vote.

The democrats of Pennsylvania in convention on Thursday nominated Mr. Dill for governor.

The democrats propose to have government of the people, by the people, for the people, perish from the earth; in its place is to be substituted government of the people by the democratic party, for the democratic party.

If Ulysses S. Grant is not the next republican candidate for the Presidency, it will not be the fault of the democratic revolutionists who are now aiming to Mexicanize this country. It is surprising into what prominence the democratic movements of the last few weeks have forced Gen. Grant, as a possible candidate. The idea seems to be that if constitutional government is to be abolished—if the "republican bubble has bursted" indeed— that the despotism of one strong man is preferable to the despotism of a mob. Frauce, under Napoleon III., was better governed and more respected than Mexico ever has been. The "man on horseback" is looming up portentously.

The Ohio Congressional democratic gerrymander was duly consummated on Tuesday in the form of law. On the Presidential vote of 1876 it gives the republicans seven districts by majorities aggregating 25,810. The unblushing infamy of the act—done under imperative orders from the democratic caucus at Washington — permitted an influential State Senator, at the last moment, to so change the programme as to carve out a district for himself. We shall now be disappointed if a large majority of the people of Ohio do not rise superior to the programme set for them.—*Springfield (Ill.) Journal.*

Speaker Randall having no further use for the democratic Legislature of Ohio, has permitted it to adjourn.

The National Democratic Committee met in Washington on the 22d inst., and nearly all were in attendance.

—A man is obliged to die before his will amounts to anything, but that of a woman is always in force.

—A colored grocer in Charleston, standing in his shop door, said to a stranger the other day, "When this building was a slave market, my father, mother, brother and sisters were sold in it, but I own it now!" How very wrong of him to allude to bygones in this way.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&wtsept15 7

THE CITY.

Mr. James T. Fields on Wednesday evening gave readings at Miss Morgan's school for young ladies.

Sulphur baths can be procured in the old Post-office building corner Penhallow and Daniel streets. See advertisement.

The building known as the Camo carciage manufactory, corner Hanover and High streets, is to be sold at auction tomorrow. See advertisement.

Henry F. French, formerly a practicing lawyer in Exeter and Portsmouth, has a peculiar sketch of Count Palaski on shipboard in the June *Atlantic*. Henry Cabot Dodge contributes a historical account of Timothy Pickering which will be read with interest.

Of "Hobbies" and the "Froliques" who are to give the piece at Music Hall to-morrow evening, the Rochester *Union* says: "The fun is continuous from the beginning to the end. Nat Goodwin is certainly inimitable in every sense of the word, and his imitations of dramatic celebrities are well worth going a long distance to laugh at; Miss Westhersby of course is good, and the support is much better than we often see. 'Hobbies' cannot fail to succeed."

David Webster of Concord and Thomas Drake of Boston were brought to this city on Thursday from Newmarket by Deputy Sheriff Smart, and lodged in jail in default of $500 bail to answer to a charge of attempting to extort money from Joseph B. Silver, a hotel keeper of Newmarket. The complaint against them we understand grew out of their occupation as "spotters" of liquor sellers. They are the men through whose agency a number of Nashua liquor dealers have been made to feel the force of the law.

A man who eight or nine years ago kept a drinking place in Kittery, and at that time complained of several other persons who were then in the same line of business in order to increase his own trade by breaking down theirs, was in town on Thursday and created some little excitement among the liquor dealers, who were not sure he was not a spy. He tried to get something to drink in a number of places, but was met in each one with the information that "no intoxicating liquors are sold here," so he had to go thirsty. He finally concluded that he didn't want anything, anyway.

A gentleman, who announced himself a lecturer, phenomenal physiognomist, phrenologist and expounder of character, favored us with a call on Thursday. He said he was just from Santa Fe, New Mexico, and we think likely enough he was, for his shirt looked as if he had worn it about three thousand miles, and slept in it every night. He wanted to read our character, and then if we thought his information worth a quarter or more, he was not above accepting such a trifle. He would tell us all we knew about ourself, and much that we don't know at all. In vain we insisted that we didn't need to be told of anything we are already aware of, and that as to finding out our hidden traits of character we had no inclination, as such traits couldn't amount to much; he talked right on, as glibly as one of the open-air-lecturing-quack-medicine dealers. A sympathizing friend laid the sheep's-foot on our desk, but the persistent philosopher merely stood back a couple of feet, and went ahead with his speech. We were just opening the drawer in which we keep our bowie knife, revolver, etc., when a diversion was effected by the entrance of the Police Magistrate, and the moment we saluted the latter as "Judge" our voluble philosopher vanished like a shot.

The Carleton Opera Company will appear this evening at Music Hall, in "Fra Diavolo." This company is not a "picked-up" organization of merely fair singers, but a first-class English opera company. In Portland, on their opening night, they had but a moderate attendance, but they won such praise from audience and press critics that the second night gave them a large patronage; and on Tuesday evening they had a genuine ovation. The *Press* says: "We have not had in this city for years a troupe so capable of interpreting opera. The opera was admirably presented, and received by an audience, large, intelligent and disposed to be critical, with unmistakable expressions of delight. One does not often see a house more interested and more unreserved in its manifestations of interest than that last evening." The *Argus* says: "It is very evident our people have become aware that this is an opera company in all respects worthy of patronage. Nothing like that of last evening has ever been heard in this city. In deference to a request of many lovers of music, the company will remain this evening and appear in Flotow's charming opera of Martha. Even after the close of the entertainment last evening a number of seats were taken." These extracts are proof that all who attend Music Hall this evening will enjoy a musical and dramatic feast. Seats can be selected at Preston's.

CITY COUNCILS.

In Board of Mayor and Aldermen, Thursday evening:

Wilbur I. Trafton presented a plan to the Board whereby, in his opinion, a better supply of water could be had at the Congress street drinking fountain.

Calvin Page gave notice of an execution against the city for $150 in the suit of Alvin H. Emery.

J. S. H. Frink gave notice of an execution against the city for $94, the cost in laying out Jackson Hill street. Ordered paid.

Andrew J. Penhallow asked leave to open Russell street for the purpose of laying drain. Granted.

Mayor Broughton asked for a brick sidewalk on Middle street. Referred to committee on streets with power.

City Solicitor gave his opinion in regard to tendering of money for damages to the owners of the land around the South Pond to be used in laying out the highway.

Committee on gaslights reported in favor of placing gaslights on Islington street at the corners of Brewster and Bridge streets.

The appropriation bill was passed by the Board as follows:

State tax,	$20,260 00
County tax,	27,730 56
City debt,	5,000 00
Interest,	8,750 00
Salaries of city officers,	5,000 00
Streets,	10,000 00
Fire Department,	10,000 00

Contingent,	4,000 00
Land damges, and making extension of Jackson Hill street	1,400 00
	$143,090 56

POLICE COURT.

WEDNESDAY, May 22; *Batchelder, J.*

George W. Plumer, of Lee, well known all over this section of the State as a popular and successful peddler, who always sells something at every farmhouse he stops at, appeared before Judge Batchelder to enter a complaint against Ward and Haley, now in jail here, for breaking into his store in Lee. The testimony of Mr. Plumer and his son was to the effect that they found the store door open, having evidently been pried open; and indications that the intruders, whoever they were, had had a hard fight with a big dog that was loose in the store, the burglars being finally forced to retreat. The combatants had knocked things around considerably, and tufts of the dog's hair were lying about the floor. From tracks in the vicinity it was found that the thieves wore rubber boots, and had left a team some distance away, the horse having one very big hoof, his track measuring five inches one way by seven the other. The Plumers were required to recognize personally for their appearance as witnesses at the October term of the Supreme Court.

THURSDAY, May 23d; *Batchelder, J.*

Charles H. Horn, for an assault on John O'Brien, was fined $2, costs $6.90. It appeared that O'Brien called Horn a liar, when Horn caught him by the throat and slammed him up against a fence.

James Hafrin, Edward Clark, William Randall and James York, all transient persons and all drunks, were each required to pay $9.90, fine and costs—Brentwood in default.

Edward Murch, common vagrant, was sent to Brentwood for three months, and ordered to pay $6.90 costs.

Charles Otis and George W. Otis, brothers, residing on the Banfield road, were arraigned on six complaints for petty larceny. A doormat having been stolen from Mayor Broughton's residence, and the Otises having been seen around there late at night, they and others of the young fellows who are accustomed to regularly range the streets until midnight or later were taken into custody on suspicion. After awhile Charles, the older brother, had his conscience quickened and confessed that he suspected his younger brother had been stealing things; and the police taking him to his home, he showed where the stolen property was hidden—all-out it being in the room occupied by the two brothers, and some of it in Charles' own trunk. The articles recovered consisted of a doormat stolen from the residence of Paymaster Edwin Putnam, U. S. N., the Mayor's lost doormat, a pair of reins taked from Mr. Jerome C. Butler's team while it was hitched in front of the Unitarian church, and a carriage robe and pair of reins stolen from George E. Hodgdon, Esq. On five of the six complaints the culprits got thirty days in jail on each complaint, and were ordered to pay costs of prosecution; on the sixth complaint, for stealing a chair from Samuel H. Ayers, Charles Otis was discharged, George confessing that he stole the chair, but left it in the street on his way home. On the latter charge George was fined $5 and costs.

THE VICINITY.

Mr. J. C. Palmer, of Hampton, has purchased at auction the schooner Minnie Chase, of New Bedford, of 34 71-95 tons, for $880. The Minnie Chase is to ply between Hampton river and Boston, transporting wood, etc.

The dedication of the new temperance campaign tent, under the auspices of the Dover Reform Club, occurred Wednesday afternoon at Dover. Delegations were present from Rochester, Great Falls, South Berwick, Durham and Newmarket. Mrs. Fitzgerald, the noted female temperance agitator, and other notables were present. The exercises continued in the evening, with a large crowd in attendance.

Out of Tune.

When the tones of a musical instrument become harsh and discordant, we say it is "out of tune." The same may be said of that far more wonderful and complicated piece of mechanism the human structure, when it becomes disordered. Not only actual disease, but those far more common causes, overwork, mental anxiety, and fast living, may impair its vigor and anxiety. The best remedy for a partial collapse of the vital energies, from these as from other causes, is, Hostetter's Stomach Bitters, which is at the same time an agreeable and mild cheering cordial, and the best possible invigorant in all cases of debility. It is an incomparable stomachic and antibilious medicine, eradicates fever and ague, and prevents subsequent attacks. It remedies with certainty and thoroughness bowel and kidney complaints, dyspepsia, nervousness, rheumatic troubles, and many other bodily ailments. It also counteracts influences which predispose to disease.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 35cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the Colonnade Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisoning Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Wild Hazel, Carbonic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lumbago, Sciatica, Rheumatism, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '78.
Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable, and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms over Stomach and Disordered Bowels, there is nothing like Castoria. tang

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compounds, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public for forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect this, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists.

Sold by all Druggists and Dealers in Medicine. No. 1

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 16cb20 79

DR. PIERCE'S STANDARD REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of men? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported finds up in several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Catarrh Remedy

Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.

It Speaks for Itself.

ROCKFORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I may be "snuff" and "snuffing-tube" making (mere dollar-grabbers) would be glad if they could embalmon a similar cure in the papers. For 30 years I suffered with catarrh. The nasal passages became completely closed. "Snuff," "dust," "ashes," "inhaling-tubes," and "sticks," would't work, though at intervals I would try and use the so-called catarrh snuff, until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 168 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered, and constitution broken, and I was hawking and spitting seventeen eighths of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydraulic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES.

The following named parties are among the thousands who have been *cured of catarrh* by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Springer, Nettle Lake, N. Y.; Chas. Noscrop, North Chesterfield, Mo.; Milton Jones, Scriba, N. Y.; J. E. Miller, Bridger Station, Wyo.; J. C. Merriman, Logansport, Ind.; M. M. Post, Logansport, Ind.; J. W. Bailey, Tremont, Pa.; H. H. Ayres, La Porte, Ind.; Jessie M. Sears, Ft. Branch, Ind.; L. Williams, Canton, Miss.; W. A. Thayer, Omaha, Ill.; S. S. Nichols, Jr., Galveston, Texas; Jonas F. Reinert, Stonesville, Pa.; S. W. Lusk, McFarland, Ind.; Mrs. Henry Haight, San Francisco, Cal.; Mrs. E. M. Gallusha, Lawrenceville, N. Y.; W. J. Graham, Adel, Iowa; A. O. Smith, Newnan, Ga.; Chas. E. Rice, Baltimore, Md.; Jesse M. Sears, Carlisle, Ind.; Daniel B. Miller, Fort Wayne, Ind.; Mrs. Minnie Arnsize, 260 Delancy Street, New York; H. W. Hall, Hastings, Mich.; Wm. F. Marston, Lowell, Mass.; I. W. Roberts, Maricopa, Ariz.; Chas. S. Dennis, Harrisburg, Pa.; M. C. Cole, Lowell, Mass.; Mrs. C. J. Jones, Camden, Ala.; Chas. F. Kaw, Fredericktown, Ohio; Mrs. Lucy Hunter, Farmington, Ill.; Jesse E. J. Spaulding, Camp Stamsaugh, Wyo.; I. W. Tracy, Steamboat Rock, Iowa; Mrs. Lydia Waite, Steuben, N. Y.; J. M. Peck, Amherst City, Mont.; Henry Ebe, Bantas, Cal.; L. P. Cummings, Rantoul, Ill.; S. E. Jones, Charleston Four Corners, N. Y.; Geo. W. Fish, Cuyahoga Falls, Ohio; Wm. E. Beattie, Sterling, Pa.; H. H. Eson, 918 Penn Street, Pittsburgh, Pa.; J. R. Jackman, Samuel's Depot, Ky.; Henry Zobnist, Geneva, N. Y.; Miss Hulda Parrott, Montgomery, Ohio; L. Ledbrook, Chathaun, Ill.; S. E. McCoy, Nashport, Ohio; W. W. Warner, North Jackson, Ohio; Mrs. M. Murfy, Alwine, Darien, Wis.; John Ziegler, Carlisle Springs, Pa.; James Tompkins, St. Cloud, Minn.; Enoch Duer, Fawnee City, Nebr.; Joseph T. Miller, Xenia, Ohio; S. B. Nichols, Galveston, Tex.; H. L. Laird, Upper Alton, Ill.; John Davis, Prescott, Ariz.; Mrs. Nancy Graham, Forest Cove, Oregon.

Golden Medical Discovery

Is Alterative, or Blood-cleansing.

Golden Medical Discovery

Is Pectoral.

Golden Medical Discovery

Is a Cholagogue, or Liver Stimulant.

Golden Medical Discovery

Is Tonic.

Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood Usually Denominated Scrofula or King's Evil; Tumors; Ulcers or Old Sores; Blotches; Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Coughs, Colds, Throat, and Lung Affections; Incipient Consumption; Lingering Coughs; and Chronic Laryngitis. Its Cholagogue properties make it an unequaled remedy for Biliousness; Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are unsightly swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from *Torpid Liver*, or "*Biliousness.*" In many cases of "*Liver Complaint,*" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

The People's MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray, or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried every physician and remedy without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous linings of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal disease.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had Catarrh for nine years, each year with increasing severity. For nine years I had not breathed through my nostril. I had dryness in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it might before being able to lie down and sleep, and a constant dull pain in the head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 24.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with his case. I believe his statement to be true in every particular. JAS. F. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

No. 3 BOW STREET.

Daily Chronicle.

The Cardiff Giant Sell.

The June number of the *Popular Science Monthly* has a full circumstantial account of the origin and history of the "Cardiff Giant," so called. It was quarried in Iowa in a slab twelve feet long, four feet wide and twenty-two inches thick, weighing three and a half tons. This slab was sent to Chicago, where the image was cut out of the stone. The freshly-cut appearance of the gypsum was removed by rubbing with sand and water, the pores of the skin were imitated by pecking the surface with needles, and, finally the image was bathed in writing fluid and washed with sulphuric acid, thus acquiring a satisfactory appearance of antiquity. When completed it weighed 3729 pounds. It was shipped to Union, N. Y., and finally to Cardiff, where it was buried in November, 1868. In October, 1869, it was "accidentally" discovered in digging a well, and at once created an immense sensation. Local and many other scientists, some of small and some of large reputation, agreed that it was a wonder deserving the attention of archæologists. Some men of much eminence were fully deceived in regard to it. Barnum tried in vain to purchase it, as the genuine. The Solons of Boston, after a long and critical examination, decided that it was a *"piece of stratified gypsum, probably very old."* This was undoubtedly true. The proofs of fraud were, however, soon too strong to be denied, and the Cardiff Giant was consigned to oblivion.

What a Standing Collar Did.

All things are fair, so it is generally thought, in war, in love, in a horse-trade, and in a law case. It is probably on that bad rule that the late President Lincoln acted when he defeated an antagonist before a jury. The anecdote is thus told by Dr. Bateman. He was often pitted against eminent lawyers during trials in the Sangamon county circuit court. On one occasion he was opposed to a very able advocate, who made a powerful, eloquent and convincing speech to the jury, and Mr. Lincoln saw that it had been very effective on the minds of the jury. The gentleman, moreover, was a man who was very precise in his dress, as well as manner and oratory. But Mr. Lincoln had been observing him, and saw a flaw in his usually faultless attire. "Gentlemen of the jury," said "Old Abe," when he arose to speak, "the gentleman who had just spoken has made a strong argument. He has quoted the law and evidence, and it is not for me to say that he is wrong. He may be correct in all he has said. But I want you to take a good look at him. Look especially at the upper half, and then, gentlemen, tell me if any man who comes before you with his standing-collar buttoned 'wrong end to,' with the points sticking away out behind his ears, may not be altogether mistaken in all his arguments." The plan was successful. Mr. Lincoln had broken the spell which the eloquence of his opponent had thrown over the jury.

Simple Words the Strongest.

The following anecdote is related of Col. Bedel of the Third New Hampshire, who was every inch a soldier, serving with distinction in the Mexican war and coming out of the war of the rebellion a brevet brigadier. One time, feeling homesick, he got a furlough for six months. He reached his native State in safety, and while riding from the railway station in the stage-coach, an amusing incident occurred. While passing along the road, his hat fell off. Putting his head out of the window, he shouted: "Charioteer, pause! I have lost my chapeau!" The driver, however, paid no attention. Again he shouted: "Charioteer, pause! I have lost my chapeau!" No attention being paid by the driver, a plain, blunt man who accompanied the Colonel in the stage became disgusted, put his head out of the window and said: "Driver, hold on! This damn fool has lost his hat." The Colonel wilted.

—Whist proverb—"For want of leading a trump the trick was lost, and for want of the trick the game was lost, and for want of the game the rubber was lost, and for want of the rubber the temper was lost, and for want of the temper the friend was lost."

—The most remarkable thing in dress material is the manner in which all the rare and costly fabrics are imitated. The bourettes, checked, *bouclet* and basket-woven stuffs in the fine kinds, are found imitated in cotton and cotton and wool goods, costing not more than ten, fifteen and twenty-five cents a yard.

—Referring to Easter week in London, Mr. Louis Jennings writes that he never saw such a number of drunken people about the streets as he did on Good Friday night. "The British workman," he says, "of whose grievances you hear so much, left work on Thursday, and he will not begin again till next Wednesday. It is doubtful whether he will do much all next week. I wish I could get so long a holiday as this, but not having the luck to be a British workman I must stick to my desk, and could not even find time to get drunk if I wanted to do so. I must say that the talk about the privations of the working classes will not take me in any more. There are some thrifty men and women among them, and they generally manage to get on well and live in comfortable homes. But with a very large number the money is no sooner earned than it is taken round to the accursed gin-palace, while the children are left starving at home. These dens ought to be closed entirely on public holidays. And surely on such a day as Good Friday it is simply scandalous to see them open all the evening and part of the day.

Daily Chronicle

SATURDAY, MAY 25, 1878.

The New Democratic Revolution.

The session of the National Democratic Committee at Washington, Thursday, was very inharmonious, and some members spoke out in plain terms their condemnation of the Potter investigation. But the committee adjourned without passing any resolution which could be construed as antagonistic to revolution, though a resolution endorsing the Potter-Tilden movement was passed.

The Democratic State Convention of Pennsylvania on Thursday unanimously resolved, that, "We oppose any attack upon the President's title, as *dangerous to our institutions*, and fruitless in its results." Not a dissenting voice, not a delegate from any part of the great State of Pennsylvania, to demur to this terse and expressive language. The democracy of Pennsylvania believes that the Potter movement is "dangerous to our institutions," that is to say, that it is a revolutionary proceeding.

Governor Hampton, of South Carolina, says he believes the country will look upon the Potter investigation as revolutionary, and declares that the conviction that such is its character "will do more to make General Grant President of the United States in 1880 than every other agency combined."

A New York newspaper that has been one of Tilden's most ardent supporters gleefully asserts that "Mr. Tilden will be in the White House before the 4th of March, 1879;" but a member of the Democratic National Committee is quoted as giving the programme as follows: "We shall obtain positive evidence implicating Mr. Hayes with fraudulent returns, and a joint resolution will then be offered in the House declaring that Hayes and Wheeler are not legally entitled to recognition by Congress as President and Vice President. The House will pass this as a matter of course, and we know that there are republican Senators enough in its favor to enable the democratic Senators to pass it also. These same republican Senators will then join the democratic Senators in going into an election of a President *pro tem.*, which a majority of the Senate can do at any time, and then elect Senator Thurman, who will thus become President of the United States until a new election can be held."

The Charleston *News and Courier*, democratic, "fears that the action of the democracy on Mr. Potter's resolutions will prove to be a horrible blunder." Watterson, of the Louisville *Courier-Journal*, sees the spook of the "third term" arising from the smoke of the new democratic revolution. The Cincinnati *Enquirer* thinks "There is about as much necessity for a Congressional investigation of the Louisiana and Florida frauds as there is for an investigation of the marital relations of George Washington and the widow Custis," and that the efforts of the Potter-Randall-Tilden revolutionists will only result in welding the "recently disintegrated republican party" into one homogeneous mass. A Washington correspondent of the New Orleans *Times* says "the democrats mean to bounce Hayes, who won't go without a row," and that "both the President and Vice President will be turned out."

All this shows what the drift of party opinion is among the democrats; it shows that the republicans have put the issue in the right light when they call it revolution, and the squirming of the more far-sighted democrats under the charge is proof enough that they realize the disastrous consequences of allowing the true object of the movement to be understood by the people.

Great Fire at Suncook.

Nine buildings were destroyed by fire at Suncook on Friday, the loss aggregating $61,000, with $35,000 insurance. The Suncook *Journal* was burned out.

New Hampshire Items.

The community in one of the cities in this State were startled the other day to learn that a gentleman who had been Superintendent of a Sunday school for eight years and was about to leave the State, was not a defaulter! Confidence was reassured when it was discovered that he was a printer.

A. S. Sperrin, a well-to-do farmer of Claremont, committed suicide Wednesday night by cutting his throat. He had been sick for some time and attempted suicide before unsuccessfully.

The President on Friday nominated Charles M. Murphy of this State to be United States consul at Moscow.

The committee appointed by the Governor and Council in compliance with an act of the legislature, to divise means to increase the revenues of the State, will report a bill to the next legislature to tax all male inhabitants between the ages of eighteen and forty-five years, not active members of the militia, the sum of fifty cents per year each, to go toward the support of the militia.

A full investigation of the circumstances attending the hanging of Frederick Everett, son of Ezra Everett of Sunapee, recently, showed that it was probably an accidental hanging. He went to the barn to feed a calf, and it is supposed he caught a rope attached to a beam with a noose at the lower end of it, and attempted to swing himself from a scaffold, as he and his brother had frequently done before, when the noose accidentally slipped over his head and choked him to death before assistance arrived.

News and Notes.

One of the cases brought before the present term of the Supreme Court at Alfred, Me., is an action of trover to recover the value of a horse, brought by a wife against her husband.

The loss of life by the disaster to the steamer Empress of India, at Galt, Ontario, was less than first reported. There were seventeen persons on board when the steamer went over the dam, of whom nine were rescued. One of those lost was Mr. Jaffrey, proprietor of the Galt *Reporter*.

Gov. Colquitt of Georgia has commuted the death sentence of Mrs. Kate Southern, of Pickens county, to imprisonment in the penitentiary for ten years. Mrs. Southern killed Narcissa Cowart at a dance in Pickens county about a year and a half ago, for dancing with her husband. An immense pressure for commutation was brought to bear on the Governor.

The Lerdo revolutionists in Mexico on Thursday captured the town of Reynosa, and levied a "prestimo," of $8000—which we presume means that they stole that amount.

Joel H. Barlow of West Brookfield, Mass., about eighty years old, while burning brush Wednesday, caught his clothes on fire and was burned to death.

Severe tornadoes in Wisconsin and Illinois, Thursday, blew down many buildings, damaged crops greatly, and killed several persons. At Mineral Point, Wis., three women and a man lost their lives, and at Quincy, Ill., three persons were killed.

Matthew Mirfield, of Bradford, Eng., a worsted manufacturer, has failed, with liabilities of $1,000,000.

Great floods are reported in Colorado and Dakota Territory.

The mysterious bald eagle with a bell attached to its neck has again been seen in Maine, having flown over Harpswell the other day day at so low an elevation that the tinkling of the bell could be distinctly heard.

A theatrical company visiting Maine is travelling from place to place in a yacht. A show was given at Mt. Desert, and largely attended by the Russians from the Cimbria, who paid their fare in Russian gold pieces, worth about $2.50 each.

Gilmore's American Band attended a grand concert given in their honor by the most noted British regimental bands at Sydenham Crystal Palace on Thursday; over 30,000 people were present, and the American band was enthusiastically greeted.

A young man named Robinson, in Portland, while shooting at a mark on the side of a building, put two balls into a room occupied by a Mrs. Finch. One passed by her head and the other through her hair. She then gave an alarm and the youth ceased firing.

Washington Correspondence.

WASHINGTON, D. C., May 23d.

Many significant incidents confirm the belief that a large majority of democratic Congressmen have been bull-dozed and terrorized into an endorsement of Potter's demand for an investigation, through fear that the dogs would be let loose on them and they be convicted of party infidelity by a small minority of Tilden's abettors aided by a little handful of dyed-in-the-wool Bourbons. Many southern Congressmen particularly, have indicated their contempt of Tilden, and their preference for Hayes, as between the two men. Not a few northern and western democratic representatives have been quite as outspoken in the same direction; and notwithstanding the assertions of unanimity sent away from here by the Tilden engineers to solidify the party and reconcile it to this palpable violation of the spirit of its pledges to cheerfully abide the decision of the Electoral Commission, there is a formidable element opposed to the present proceedings. Every new development indicates that the foxy old gentleman at Gramecy Park was the real author of the Blair memorial and the Florida "confession;" that he has a little army still at work manufacturing *ex-parte* confessions; that subornation and perjury have no terrors to him, and that to accomplish the desperate purposes in view—the voluntary or enforced retirement of Hayes and the substitution therefor of Samuel J. Tilden—he will not hesitate to broach a new barrel.

Attention here is still chiefly absorbed by this Potter resolution business. Republicans are more than ever persistent in their charges that it covers a purpose to assail President Hayes' title—indeed, that is its only real purpose. Very few of the democrats appear to care to assume the responsibility of speaking for the party in the matter, and those supposed to be authorized to do speak very guardedly, showing either that the programme is not fixed or that it is thought best not to take too many into their confidence. The democratic revolt against caucus dictation and against an investigation unless coupled with an assurance that there is no intention to question the validity of Hayes' title or unless the republican demand as embodied in Hale's resolution is conceded, has thus far amounted to little, practically. But it is believed a portion of the democrats, including Stephens, Mills, and Morse, will stand firmly against all efforts to unseat Hayes, should such be made, even to the extremity of ex-communication as heretics.

It is said a report by Ellis from the committee on elections will favor the expulsion of Rainey (colored) now holding the Representative's seat in the House from the 1st South Carolina District, and that it be decreed to Richardson, democratic contestant, on the ground that his (Rainey's) election was null because soldiers were at the polling places, though the majority was above 6000! To an impartial observer it would look as though the democrats had about load enough to carry in their investigation without further challenging public criticism by such a move on Rainey.

Though Mr. Evarts recomends an appropriation to pay the Halifax award, his way of putting it will likely encourage those oppressed to free their minds; and the ears of John Bull and his Blue-Nose offspring will doubtless be made to tingle and burn by the tone of the discussion sure to be around when the proposition comes before Congress. KNOX.

Political.

John Sherman is an abrupt and uncomfortable sort of a man to have around. The Potter committee appointed by the "democratic House" to Mexicanize this country had not even time to meet and organize, before its chairman received a letter from Hon. John in which he plainly calls the lying preamble to the revolution resolutions by its right name, tells the chairman that the letter bearing his (Sherman's) pretended signature is a forgery and is known to be so by the men who are using it, as he is ready to prove, and says lots of other unpleasant things. Such talk as this, to a patriotic committee appointed to overthrow the government of the country, is proof that all the fight in the Sherman family isn't carried 'round by the general of the army.

Another victory for "democratic economy." For the second time the miserably insufficient appropriation for printing in the patent office has run out, and the work of issuing patents has stopped, and cannot be resumed till the beginning of the new fiscal year unless the democrats in the House can be induced to pass another deficiency bill.

Themas Egan, democratic supervisor of Rensseler county, New York, is on trial for malfeasance in office in auditing fraudulent bills; and C. Reynolds, ex-clerk of the county, and candidate for the democratic nomination for sheriff, has cleared out because a note which he sent to one of the jurymen, informing him that "this is a political fight—stand for the party," fell into the hands of the Judge.

The Republican State Convention of Vermont evidently did its work well; the Bourbon press is very much dissatisfied with the platform adopted.

—Men, like books, have at each end a blank—childhood and old age.

—Beer fills many a bottle, and the bottle many a bier.

SULPHUR BATHS

SURPASS every other Remedy for the cure of Rheumatism, Neuralgia, Humors of all kinds, Asthma or Phthisic, Piles, and simple and implicated diseases generally. Sulphur is known to be one of the greatest Remedies the world has ever produced. The manner of applying is now simple, pleasant and very effectual. It penetrates the whole system by Fumigations. The cure of obstinate cases is truly surprising as very many can testify. Come and be cured while you have a chance. This is no humbug. Prices Reasonable.

Rooms in the Old Post Office.

Rooms open day and evening, for ladies and gentlemen.

MEMORIAL DAY.

INFORMATION regarding the location of graves of ex-service men of the war of 1861-65 will be thankfully received by Robert E. Rich at the Library of the Athenæum.

PORTSMOUTH

E. G. PIERCE, JR., P. M.

THE CITY.

Mr. Enoch J. Connor has been appointed a watchman at the navy yard.

The Eldredge Brewing Co. on Friday paid the monthly salaries of the men in gold.

The Strafford Guards, of Dover, Capt. Joseph F. Abbott, have accepted an invitation to parade in this city on Memorial day.

The Carleton Opera Company had a moderate audience, but an audience select and appreciative too, at Music Hall on Friday evening. Their efforts merited a *crowded* house, for the encomiums of the press of other cities where they have played were fully justified. The Carleton Opera Company is the best English opera organization in the country.

Services at St. John's church to-morrow will be as follows: at 10:30 o'clock, A. M., morning prayer, Litany and Holy Communion, with sermon by the Bishop of the Diocese; at four o'clock, P. M., children's choral service, with public catechizing and the baptism of adults; at 7:30 o'clock, P. M., evening prayer, after which the rite of confirmation will be administered.

This evening, at Music Hall, Eliza Weathersby's Froliques will give an entertainment that, unless the papers lie shockingly, will be greatly enjoyed. The Buffalo *Courier* says of this entertainment as given in that city: "'Hobbies' represents the frolics and amusements indulged in by the young folks while the parental authority is off visiting, and resembles the 'Belles of the Kitchen' of the Vokes Family. Every point was taken advantage of by the company, and the result was an evening of rare pleasure and enjoyment. The piece afforded the ladies an opportunity to display elegant costumes, which they improved. The bright witticisms, puns, funny sayings and ludicrous situations with which the piece abounds, kept the audience in a continual roar, and the climax was reached when Mr. Goodwin gave his imitations of celebrated actors, which were remarkably accurate, and the audience showed a just appreciation of the versatility displayed in their portraiture by repeated applause. The company is strong in talent, and the play which they present possesses many attractive features." Tickets at Preston's. See advertisement.

ROBERT HARRIS' RETIRACY.

The current number of the *Railway Age* thus refers to the retirement of Col. Robert Harris, formerly of this city, from the presidency of the Chicago, Burlington & Quincy Railroad:

We are able to announce, on authority, that it is the present intention of the directors of the Chicago, Burlington & Quincy Railroad company to remove the office of the president to Boston, and that it is the expectation of Col. Robert Harris to retire from the presidency on the 25th inst., when the matter will be acted upon in that city. In that event Mr. J. M. Forbes will, as we are informed, take the office. Col. Harris has, we understand, made no other connection, the condition of his health imperatively demanding rest, and it will be some months before he will take up active work, as he has a trip to Europe in contemplation.

After giving a brief account of his career as a railroad man, the *Age* concludes:

We know that we express the general sentiment in saying that the loss of Robert Harris from Chicago and its railway interests, if it should occur, would be a serious one. A man of remarkable intellectual strength and acquirements, and of singular executive and administrative abilities, he is equally notable for his commanding sense of justice. In his mind the idea of doing anything for the sake of expediency, that is not based upon right and honor, does not seem to have any place. He does not adopt a course because it is a smart thing to do so; he does not study how to take advantage of the other man or the other company; he philosophizes, he ponders: "What is the course that is founded on the immutable principles of truth and justice?" "What, temporary advantages aside, is the wisest and best thing to do, in the long run?" But he reasons rapidly, and arrives at his conclusions with as much positiveness as if he did not look beyond the immediate results. To these characteristics we may add a genial and generous nature—for an inflexible sense of justice if not always joined to generosity and kindliness—and a public spirited participation in the interests of others. A man, who to great mental powers adds positive moral qualities like these, honors and elevates the profession of railway management, and it is certainly to be hoped that the retirement of Col. Harris from that profession will be brief. Its length will depend only upon his health and inclination.

NEW ODD FELLOWS' HALL.

The Odd Fellows of this city have under advisement a proposition for the erection of an Odd Fellows' Hall, on the "Melcher lot," corner of Congress and Chestnut streets, the building to be of brick, three stores high, with slated roof, the first floor to contain three stores, the second floor to be let for offices, and the third to be used by the various lodges of the order, with a banquet room in the rear.

The committee in charge of the matter have a refusal of the lot at $8000, and have specifications for a building to cost about $15,000. In addition, it is proposed that the various lodges of the order shall contribute about one-half of the expense, Piscataqua lodge to pay in $5000, New Hampshire lodge $3000, Osgood lodge $1000, Strawberry Bank encampment $1000, Mt. Sinai encampment $1000; making an aggregate of $11,000 to be contributed by the organized bodies of the fraternity, the remainder to be divided into shares of stock at $50 each, to be subscribed for by members of the order.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this vicinity have been recorded in the office of the Register of Deeds:

PORTSMOUTH.

Andrew J. Smith, of Portsmouth, and Sophronia L. Harmon, of Exeter, et als., to John Woods, of Portsmouth, land and buildings on Jackson street, $800.

Thomas M. Lang, of Portsmouth, to Burleigh T. Chamberlain, of Lowell, Mass., and Charles T. Lang, of Portsmouth, land and buildings, $2200.

RYE.

Warren P. Webster and Mary A. Webster, of Portsmouth, to John O. Foss, of Rye, land and buildings, $400.

NORTH HAMPTON.

Moses Brown, of Rye, to Eunice A. Wolcott, of Rye, field land, $450.

Edward Wolcott, of Portsmouth, to Alfred V. Seavey, of Rye, field land, $400.

HAMPTON FALLS.

John H. Gove, of Hampton Falls, to Harriet P. Dodge, of Hampton Falls, land, $200.

SOUTH HAMPTON.

Arthur Robertsban, of Amesbury, Mass., to Samuel Hormer, of Newburyport, Mass., land and buildings, $1500.

Samuel Hormer, of Newburyport, Mass., to Jane Robertsban, of Amesbury, Mass., land and buildings, $1500.

SEABROOK.

John E. Chase, of Seabrook, to Stephen W. Chase, of Seabrook, land and buildings, $100.

GREENLAND.

John S. H. Frink, of Greenland, to Charles Foss, of Greenland, land, $686.

STRATHAM.

Henrietta B. Perry, of Concord, to William W. Stickney, of Exeter, land, $1.

NEWMARKET.

Orissa J. Murray, of Newmarket, to John W. Wiggin, of Newmarket, land and buildings, $3000.

EPPING.

Nathan Blake, of Epping, to John Willey, of Epping, land, $450.

John S. Ladd, of Cambridge, Mass., to Samuel Haley, of Epping, land, $1000.

THE VICINITY.

The phonograph was on exhibition in Biddeford on Thursday and Friday.

Rev. Mr. Bowdish, recently pastor of the Christian church in Rye, has been called to the pastorate of the church in Kittery.

A Biddeford cat, having been bereaved of her family of four, went off and stole a kitten from another cat, and carrying it home tenderly nursed it.

Miss Vesta Bean, of Portsmouth, is teaching the school in Dist. No. 3 of Seabrook. Every school in Seabrook has an out-of-town teacher for the present term.

Mr. Hosea Miles, of Epping, while at work in a mill sawing shingles recently, struck his left hand against a circular saw, which cut off the first joint of the second and third fingers and badly mangled the other two.

The ladies of Hampton Falls recently presented the new Odd Fellows Lodge in that town an elegant Bible, with "Rockingham Lodge, No. 22, I. O. O. F., presented by ladies of Hampton Falls," inscribed on its covers.

A fire in Charles Batchelder's large boarding-house at North Hampton, Friday morning, was occasioned by a defective chimney. It was soon extinguished, but considerable damage was done by smoke and water.

All the catch-penny shows that have been in this city recently have since been in Biddeford. The *Times* of that city says: "For a week or two past we have had lots of puppet show hereabouts. First came the loafing 'ranger' crowd with their soft speeches, soap and patent medicine. Then Punch and Judy, delighting the children; 'Prof. Dare' then put in an appearance. For a day or two past an Italian has been about town exhibiting trained white rats and mice, which he appears to carry about in baskets, his pockets or bosom."

More Bonds Called In.

The Secretary of the Treasury has issued the fifty-eighth call for the redemption of 5-20 bonds of 1865 and consols of 1865. The call is for $5,000,000, of which $2,500,000 are coupons and $2,500,000 are registered bonds. The principal and interest will be paid at the Treasury on and after the 22d of August, and interest will cease that day. The following are the descriptions of the bonds:

Coupon bonds, dated July 1st, 1865.

$50, Nos.	56,001 to 59,000,	both inclusive.	
$100, "	99,001 " 191,000,	"	"
$500, "	66,001 " 69,000,	"	"
$1000, "	120,001 " 135,000,	"	"

Registered bonds, redeemable at the pleasure of the United States after the 1st of July, 1870:

$50, Nos.	1,951 to	2,050,	both inclusive.
$100, "	15,181 "	16,000,	" "
$500, "	9,351 "	9,760,	" "
$1,000, "	30,901 "	32,200,	" "
$5,000, "	8,451 "	8,700,	" "
$10,000, "	15 781 "	16,250,	" "

Total registered bonds, $2,500,000.

Aggregate $5,000,000.

— "Nothing succeeds like success," it used to be said; but in these days nothing succeeds like failing.

—Frank Mayo intends taking his play of "Davy Crockett" to England this summer. Nothing like it has been seen there, and there is every probability that it will prove as attractive there as it has in this country.

—A good story is told of a Rochester, (N. Y.) deacon, who thought he recognized a young lady friend leading a little boy up the street, and stepping up to her side he asked: "Why, Mary, where did you get that child?" The scarlet face instantly turned to his was that of an entire stranger and her quick reply fully satisfied him. "I came by it honestly," was all she said, and the good old man had something to think about all the way home to dinner.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7.30. Service of song to-morrow afternoon at 2:45. All are welcome.

At the Congregational church, Rev. James W. Hubbell, pastor, services at 10:30 A. M. and 3 P. M.; prayer meeting at 7:15 P. M.

At the Advent church, services at 10:15 A. M., 2:15 and 7:30 P. M. Elder E. B. Wells will preach to-morrow.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7:30; Sunday school at 2:45 P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

Mission services: William A. Loye, Volunteer Missionary. Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30; at the County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

Reform club meeting in Mechanic's Hall at four P. M. Speaking by Rev. C. B. Pitblado, Rev. John A. Goss, and others.

Out of Tune.

When the tones of a musical instrument become harsh and discordant, we say it is "out of tune." The same may be said of that far more wonderful and complicated piece of mechanism the human structure, when it becomes disordered. Not only actual disease, but those far more common causes, overwork, mental anxiety, and fast living, may impair its vigor and anxiety. The best remedy for a partial collapse of the vital energies, from these as from other causes, is, Hostetter's Stomach Bitters, which is at the same time as agreeable and mild cheering cordial, and the best possible invigorant in all cases of debility. It is an incomparable stomachic and antibilious medicine, eradicates fever and ague, and prevents subsequent attacks. It remedies with certainty and thoroughness bowel and kidney complaints, dyspepsia, nervousness, rheumatic troubles, and many other bodily ailments. It also counteracts influences which predispose to disease.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 35cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the fashionable Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsep15 7

—It was a Baltimore boy who scratched a pistol cartridge with the point of his knife to see if it would explode. He will now handle his table knife with three fingers.

—A pompous manner and a heavy voice with a few other equally tremulous accomplishments, have a great effect on the vulgar, and when added to the title of attorney-at-law, they may sway a village, a city or even a nation.—*Louisville Courier-Journal.*

—Mother, to sixteen-years-old daughter—"So you enjoyed your walk, Kate. Did you go all that distance alone?" Daughter—"Oh yes, mamma, quite alone." Objectionable younger brother—"Then how is it, Kit, that you took out an umbrella and brought home a walking-stick?"

Portsmouth Chronicle

A Campaign Slander.

When Dr. R. V. Pierce was a candidate for State Senator, his political opponents published a pretended alnalysis of his popular medicines, hoping thereby to prejudice the people against him. His election by an overwhelming majority severely rebuked his traducers, who sought to impeach his business integrity. No notice would have been taken of these campaign lies were it not that some of his enemies (and every successful business man his full quota of envious rivals) are republishing these bogus analyses. Numerous and most absurd formulas have been published, purporting to come from high authority; and in a significant fact that no two have been at all alike—conclusively proving the dishonesty of their authors.

—A singer as an aid to the evangelist is now outdone by Rev. Mr. Ferris of Brooklyn, who delivered a "chalk sermon," in which, as the notice ran, he was "assisted by Frank Beard, Esq., artist."

—Mr. Sawyer, of Starks, Me., has a set of coat buttons which he has worn upon all of his coats for about fifty years. They are large white pearl, are valued at five dolars each, and were brought from Italy upon an old surtout many years ago.

—The old State Prison at Charlestown, Mass., has received nearly 10,000 prisoners during its seventy years' history, of which number a little over 400 were sent there for life. Astounding as it may seem, the average term served by prisoners with life sentences has been only six years; allowing, that is, for pardons and deaths.

—The little daughter of a St. Paul (Minn.) clergyman discovered on a recent Sunday that several of the buttons on her best boots were missing. Her mother proposed to sew them on, but the young lady had too much respect for the fourth commandment to allow it. However, as the alternative was to stay away from Sunday School or sew on the buttons she at last made a compromise with her conscience by saying to her mother, "Well, mamma, you sew and I'll pray," and pray she did, kneeling by her mother's side until the buttons were on.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embed ed in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment rooms are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79

FRANK THOMSON, General Manager. L. P. FARMER, Gen. Passenger Agent.

DR. PIERCE'S

STANDARD

REMEDIES

Are not advertised as "cure-alls," but are specifics in the diseases for which they are recommended.

NATURAL SELECTION.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes life and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. By reason of superior merit, Dr. Pierce's Standard Medicines have outrivaled all others. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred thousand more. No business could grow to such gigantic proportions and rest upon any other basis than that of merit.

Catarrh Remedy

Cures "Cold in Head" and Catarrh, or Ozæna.

AN OPEN LETTER.

It Speaks for Itself.

ROCKFORT, MASS., April 2, 1877.

MR. EDITOR:—Having read in your paper reports of the remarkable cures of catarrh, I am induced to tell "what I know about catarrh," and I fancy the "snuff" and "inhaling-tube" makers (some dollar-grabbers) would be glad if they could emblazon a similar cure in the papers. For 26 years I suffered with catarrh. The nasal passages became completely closed. "Snuff," "dust," "ashes," "inhaling-tubes," and "sticks," wouldn't work, though at intervals I would sniff up the so-called catarrh snuff, until I became a valuable tester for such medicines. I gradually grew worse, and no one can know how much I suffered or what a miserable being I was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most intense pain, which at one time lasted continuously for 18 hours. All sense of smell and taste gone, sight and hearing impaired, body shrunken and weakened, nervous system shattered, and constitution broken, and I was hawking and spitting seventeen hours of the time. I prayed for death to relieve me of my suffering. A favorable notice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Pierce's Nasal Douche, which applies the remedy by hydrostatic pressure, the only way compatible with common sense. Well, Mr. Editor, it did not cure me in three-fourths of a second nor in one hour or month, but in less than eight minutes I was relieved, and in three months entirely cured, and have remained so for over sixteen months. While using the Catarrh Remedy, I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative Pellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose. Yours truly,

S. D. REMICK.

A CLOUD OF WITNESSES,

The following named parties are among the thousands who have been cured of catarrh by the use of Dr. Sage's Catarrh Remedy:

A. F. Downs, New Geneva, Pa.; D. J. Brown, St. Joseph, Mo.; E. C. Lewis, Rutland, Vt.; Levi Springe, Nettle Lake, Ohio; Chas. Norcrop, North Chesterfield, Mass.; John Jones, Lansing, N. Y.; J. E. Golden Medical Discovery

Is Alterative, or Blood-cleansing.

Golden Medical Discovery

Is Pectoral.

Golden Medical Discovery

Is a Cholagogue, or Liver Stimulant.

Golden Medical Discovery

Is Tonic.

Golden Medical Discovery

By reason of its Alterative properties, cures Diseases of the Blood and Skin, as Scrofula or King's Evil; Tumors, Ulcers or Old Sores, Blotches, Pimples; and Eruptions. By virtue of its Pectoral properties, it cures Bronchial, Throat, and Lung Affections, Incipient Consumption, Severe Coughs; and Chronic Laryngitis. Its Cholagogue properties render it an unequaled remedy for Bilious Cases, Torpid Liver, or "Liver Complaint;" and its Tonic properties make it equally efficacious in curing Indigestion, Loss of Appetite, and Dyspepsia.

Where the skin is sallow and covered with blotches and pimples, or where there are scrofulous swellings and affections, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from "Torpid Liver," or "Biliousness." In many cases of "Liver Complaint," only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as its effects perfect cures, leaving the liver strengthened and healthy.

The People's

MEDICAL SERVANT

DR. R. V. PIERCE is the sole proprietor and manufacturer of the foregoing remedies, all of which are sold by druggists. He is also the Author of the People's Common Sense Medical Adviser, a work of nearly one thousand pages, with two hundred and eighty two wood-engravings and colored plates. He has already sold of this popular work

PATENTED APRIL 10, 1877.

THE *simplest* and *best* article for **Cooking Beefsteak** *ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the *juices* and *flavor* are retained.

DOES not get *ashes* or *coal* on the meat DOES not let *smoke* and *gas* out of the stove, nor let out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fitchburg, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that has been established is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Cough, and serious Lung Diseases follow in its train, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

[T can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, encrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy to relieve me before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Cure on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made me familiar with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Political.

Democratic "economy" in Congress consists in saving hundreds of dollars by cutting down the wages of the laborers employed by the Senate, and stopping the issuing of patents and attention to pension cases by making insufficient appropriations for the work, and then paying thousands of dollars for "champagne, extra quality cigars and Old Stag whisky" for the bummers and dead-beats of democratic "investigating committees."

Congressman Goode, of Virginia, who voted for the resolution to Mexicanize the country, though he was at the time paired with Loring of Massachusetts, had his "honah, sah!" touched by certain strictures of the Washington *Republican*, and with a friend went into the *Republican* office to bounce the editor with a declaration that personal abuse of him had got to be stopped, or he would hold the editor responsible. The editor didn't scare worth a cent. He told the blustering bully who hadn't "honah" enough to keep his word when King Caucus ordered him to break it, that in the future as in the past the *Republican* would criticise the public acts of public men, temperately but fearlessly, whether they liked it or not. Mr. Goode took his "honah" away with him, and the editor immediately proceeded to "write him up."

The Denver (Col.) *Tribune* says: "The feeling that Gen. Grant will be the man for the republicans to nominate for President in 1880 is growing and extending. Unless something happens it will become before two years have passed a fixed and settled conviction. And if Gen. Grant is nominated he will be elected." That's so; and if he is not nominated it will not be the fault of the men who are now trying to Mexicanize this country in the interests of the old fox of Gramercy Park.

During the long time which intervened between the introduction and passage of the Potter resolution, it was whispered about Washington that the Southern democrats were being bought over to the support of the revolutionary schemes of Potter and Company, by promises that they should in return be given the solid vote of the northern democrats in their efforts to secure liberal appropriations for their section, and no sooner was the Potter resolution adopted than Hewitt, of Alabama, introduced a bill appropriating *one hundred and eighty-nine million dollars* for canals and other public works.

Glover goes on with his investigation. The affairs of the Commission to Louisiana do not show remarkably clean. Several little vouchers have been found which have proved counterfeits. Mr. Donavin, of Ohio, figures unpleasantly in the mess. John G. Thompson, our correspondent says, was imposed upon, but had no hand in the ugly work. When *will* Mr. Glover catch a republican?—*Cincinnati Enquirer, dem.*

New Hampshire Items.

Michael McCarty, an employe in the Sugar River paper mill, at Claremont, got caught in the elevator while in motion, Friday, and had three of his toes cut off and the rest broken.

John E. Day of Nashua, aged 38, committed suicide by shooting himself through the heart Friday evening, at the stationhouse, where he applied for a lodging. He leaves a wife and one child.

Manchester has ordered a census taken, at an expense of not more than $300.

Frank Pike's store at Harrisville, in Keene, was damaged by fire to the amount of $1000, Thursday night.

Col. Clough, mail agent between Lancaster and Boston for twelve years, has resigned on account of ill health.

David Evans of Branch Hill farm, near Milton Mills, celebrated his 100th birthday Wednesday, and thinks he is good for some years yet.

There are indications of some lively skirmishing on railroad matters at the coming session of the legislature. The Portland & Ogdensburg railroad will make another attempt to get their charter so amended that they can complete their route without passing through the town of Littleton. What that corporation desires is an independent track from Fabyans to Dalton, this State, where they now run over the iron of the Boston, Concord & Montreal line. It is reported that there will be a movement to secure a charter for a narrow-gauge road from North Stratford, on the Grand Trunk line, through Columbia, Coldbrook and Canaan, Vt., to the Canada border, in opposition to the contemplated extension of the Montreal road. Notice has been given of intention to ask for a charter for a narrow-gauge railroad either from Littleton or from Bethlehem to the Profile House.

Daily Chronicle

MONDAY, MAY 27, 1878.

What They Mean.

The 45th Congress has been in session about seven months. During this time it has not only done no good, but it has been constantly disturbing and alarming the country, obstructing the revival of business and preventing labor from being employed. It is now apparent that the democrats in the House intend to inaugurate a second revolution. Will any man of common sense believe, while the country is so alarmed by the appointment of the Potter committee, that they would have defeated Harrison's resolution if they did not intend to drive the President from his position? The Democratic National Committee has been in session at the seat of government. They passed a resolution approving the appointment of the Potter committee, but refused to say that their plan is not revolutionary. When the whole country is wishing for quiet, and hoping for prosperity, the democratic Congressmen would not interrupt and neglect the public business, demanding immediate and constant attention, to alarm and distract the country, if they did not mean revolution. The truth is, the democratic leaders are afraid of the revival of prosperous business and the steady employment of the people. If the hoarded money of the country were utilized, as it will be as soon as it can be done safely; if labor were constantly employed at fair pay, the laborer could not be coaxed into revolution. But so long as the unemployed can be made to believe that all their ills are to be cured by a bad currency instead of utilizing a good one, so long such mistaken men will be in the hands of demagogues. Nothing short of an unmistakable rebuke from the best men of the democratic party throughout the country can restrain the leading democrats from inaugurating a revolution, to be led by the same party, and to a considerable extent by the same men, who inaugurated and sustained the rebellion.

The evening concerts at Gilmore's garden commence for the summer on Saturday.

Aimee is playing her farewell at the Park Theatre this week. Then she hies to Paris. All America seems going there also. If O'Leary would only "bu'ld" that "brudge!"

The dog-show is over. Only a thousand yelpers on exhibition. The "pugs" with Irish faces and black noses are now the rage. No Spitz need apply. Scotch and Skye terriers were a great attraction.

"Puck," a weekly pictorial, said to be issued by Leslie, is forcing itself into public notice. It isn't over chaste, but has capital caricatures.

'Tis rumored that Tom. Edison is at work inventing a new attachment to the Phonograph, on behalf of Theo. Tilton, to register Henry Ward Preacher's thoughts during his absence.

Speaking of Phonographs—they are out. Territory has been assigned by James Redpath, the "territorial manager" of the Co., and fifty machines have a monopoly in the show business until Oct. 1st. The Company demand a royalty of 25 to 30 per cent. of the gross receipts. Doubtless these fifty are the only cylinderical machines that will be made, as Prof. Edison proposes to put circular plates on the machines to be issued after Oct. 1st. He has two now finishing for the Paris Exposition. Mr. Charles A. Cheever, the manager of the Edison Phonograph and the Telephone, is a relative of several Portsmouth families.

The President of the United States seems to have use for the republican party again! "A friend in need," you know! There is no knowing when the investigation match kindled by Congressman Potter will burn itself out. It might flame into revolution and get out of the control of its progenitors. The alacrity with whih the democratic party flies to irregular measures should convince all thinking men that it is not fit to be trusted with unlimited power. Business men are getting alarmed, and business must eventually languish if the foolish Tilden politicians plunge the country into more anxiety. The result will be a republican House of Representatives in the next Congress.

It is astonishing and gratifying beyond measure to witness the concentration of feeling in the republican ranks in favor of ULYSSES S. GRANT as the most available Presidential candidate for 1880. The Ex-President's tour abroad has shown how highly his deeds as General and as National Executive have been appreciated, and even the democrats in Congress pay willing tribute to his worth and abilities. His return will be like that of a conquering hero, and although we are two years from a Presidential nomination the desire among the republican rank and file that he be selected is growing with a great growth. It is a sentiment of the people, spontaneous and irresistible.

The South Carolina republicans propose to go into the coming campaign principally to elect Congressmen. It will afford a capital opportunity for viewing the effects of the conciliation policy of forgetting one's friends and bribing one's enemies.

Building in this city has been brisk. The block on Broadway next to the Trinity building has been torn down to make room for a fine new one for the branch Bank of Nevada, recently established on Wall street.

Memorial Day seems to have discounted the Fourth of July in New York. All the militia will parade again this year on the 30th, and business will be suspended.

The recent cold weather it is said has not injured the growing crops in western New York, but has checked too rapid development.

Hon. S. Marshall Paul, one of the Centennial Commissioners of Colorado in 1876, died suddenly in Central Park on Sunday evening. He was the owner of the "Printer Boy" mine in Colorado, and leaves $400,000 worth of mining property. He refused in 1876 to be a candidate for the republican nomination for Governor of Colorado, and was looked upon as a coming United States Senator. He was 37 years of age.

The four per cent. bonds promise to rival in popularity that of the four-and-a-half per cents. It is hoped that the proposed Congressional excursion to Paris may temporarily rid this country of a few score demagogues whose absence is very desirable for business purposes.

At the Sabbath School anniversary in Brooklyn yesterday, 40,000 children paraded. The girls were dressed in white and the boys in new suits.

The New York "Sons and Daughters of Portsmouth" are keeping a weather eye on the not far distant reception, when they "return" again in 1883—and they want to remind the whole-souled Ex-Governor Goodwin that they propose to be on time, and hope he will be. What are five years among so many?

That quiet town, Baltimore, must be a monument of innocence! There was your correspondent "Nat," who escaped from there last week and was taken in by that hospitable trio who so successfully manage the St. Cloud Hotel, the Rand Bros., who occupy the front rank in hotel keeping. "Nat" should learn more fully of the ill effects of the use of tobacco in smoking, and of the telephone as a base of operations, ere he again encounters the wit of those who regularly assemble at the St. Cloud. G.

Congress.

In the Senate, Friday, Mr. Kellogg introduced a bill to restore to the pension rolls the names of certain soldiers of the Mexican war. It proposes that action in regard to all persons whese names were dropped in pursuance of the act of February 4th, 1862, and the joint resolution of March 2d, 1867, on the ground that they encouraged the rebellion or were not known to have been opposed to it. The bill also applies to the surviving widows of all such persons, but provides that no money shall be paid on account of pensions for the time during which the names remained stricken from the rolls.

Senator Thurman presented the petition of 1100 naturalized citizens of Rhode Island, complaining that the laws of that State only allow freeholders to vote, and asking a Constitutional Amendment to alter such a state of affairs.

A bill was introduced by Mr. Merrimon of North Carolina relative to elections in North Carolina and New Hampshire, which provides that the next Legislature of the State of New Hampshire shall elect a Senator for the term commencing March 4th, 1879, and that the election in North Carolina for Representatives to the Forty-sixth Congress shall be in accordance with the laws and regulations of that State, except that it shall be held at the time designated by the general act of Congress.

The committee on education and labor reported adversely on the House joint resolution to provide for the enforcement of the eight-hour law, and on the Senate bill to regulate the hours of labor.

Business men will be glad to learn that there is a reasonable prospect of a speedy ending of tinkering with financial questions by Congress. It is stated positively that the Senate will pass the House bill forbidding a further retirement of legal-tender notes, and that the opponents of resumption will thereupon cease their efforts to prevent the resumption of specie payments January 1st, 1879.

The House on Friday passed bills providing that persons deprived of their pensions from March, 1865, to June, 1866, by reason of their being in the civil service, shall be paid their pensions for that time; repealing the section of the Revised Statutes which provides that no claim for a pension not prosecuted to successful issue within five years from the date of filing the same, shall be admitted with record evidence from the War or Navy Departments; increasing to $72 a month pensions paid soldiers or sailors who have lost both arms, both legs, or the sight of both eyes; granting a pension of $37.50 a month to every pensioner who has a leg amputated at the hip joint; making it unlawful for an attorney or claim agent to demand or receive for his services in pension cases a greater sum than $10.

Naval Affairs.

The orders of Lieut. E. H. Taunt to torpedo instruction at Newport are revoked, and he is continued on duty at this naval station.

By the retirement of Major Fendall, 1st Lieut. L. E. Fagan will be promoted to captain in the Marine Corps.

Medical Inspector A. L. Gihon has been appointed president of a board for the physical examination of candidates for admission to the Naval Academy.

The U. S. S. Monongahela arrived at Shanghai April 9th, from Hong Kong.

Carpenter George E. Anderson is detached from the U. S. S. Swatara and placed on waiting orders.

Commander Henry Erben has petitioned Congress requesting that he may be allowed to appear before the proper board for examination for promotion; the petition was refered to the House committee on naval affairs.

News and Notes.

It is stated that a messenger from Sitting Bull has reached Gen. Miles with a proposition for his surrender and a treaty providing for the peaceable return of the refugee Indians from the Dominion to American territory. The reports sent regarding the desire of the fugitive Nez Perces to return receive confirmation in various ways.

The Leyland steamer Iberian, which sailed from Boston on Saturday, took 450 live cattle, 50,000 bushels of wheat, 600 tons of provisions, 600 bales of cotton and 500 packages of leather. The Cunard steamer Atlas took 450 live cattle, and 27,220 bushels of grain.

Harry Josephs, the well known actor, previously reported as being hopelessly insane, is all right, and playing as usual.

The property of the defunct Worcester *Press* was sold at auction, Thursday, and brought a total amount of $1410, a shrinkage of over 75 per cent. on the first cost, $4575.

Details of the tornado in Wisconsin, Thursday, add to the horrors of the story as first received. The track of the tornado is from half a mile to a mile in width and twenty-five miles long, in which everything was demolished. A window shutter from Mineral Point fell twelve miles away. Two horses were caught up hundreds of feet in the air, and carried fifty rods. Buildings were carried off, leaving no trace of their previous existence. Twenty deaths are already reported.

The English strikers have voted to adhere to their terms, and the strike will be prolonged indefinitely.

While a man employed at the Roxbury Carpet Factory was shovelling coal recently, he found a round tin box, about three and a half inches in diameter, and one inch in thickness, among the coals. He showed it to the fireman, who concluded to smash it with a sledge hammer, but accidentally the lead strap that bound the cover to the box parted, and the man desisted from his attempt. Henry Kennen, the engineer, soon discovered that the box was pressed full of some strong explosive compound resembling meal powder. Three percussion caps were soldered to the bottom, on the outside. Had the box been put into the furnace, the boilers would have undoubtedly been blown to pieces. Whether the box was placed there by design, or is some kind of a cartridge used in the mines, is unknown.

The Russian officers on the steamer Cimbria are leaving, and now freely state that they came to America to man three fast vessels, to be purchased and converted into Russian cruisers, and that two have already been purchased and are now in Philadelphia.

Mr. Henry E. Pond, station master on the New York & New England Railroad at Franklin, Mass., and an ex-member of the Legislature, has been suspended from his position and an investigation into charges of forgery is in progress.

Kohn's block, Hartford, Conn., occupied as a silk factory, was burned on Friday. Three firemen were instantly killed by a falling wall thrown down by an explosion, and a fourth died in a short time; another is fatally and several severely hurt. Loss on building, $60,000; on stock and machinery, about the same.

In the Sophomore class at Dartmouth College is a young man whose father owns a milk route, and in fitting out his son for college last fall he gave him a large amount of five-cent pieces, which in paying his tuition he tendered to the College Treasurer to the amount of five dollars. They were refused. Since that time the passage of the silver bill has induced him to get together a similar amount of the old-fashioned three-cent pieces, which he tendered at the opening of this term, and being again refused he kept them in a little bag at his room, while the Treasurer understands that the balance of this young man's tuition fees will be paid when he concludes to accept the tendered specie.

STATED MEETINGS.

CITY GOVERNMENT.

In City Building, Market Square.

BOARD OF MAYOR AND ALDERMEN—Thursday evenings.

COMMON COUNCIL—Thursday evenings.

BOARD OF OVERSEERS OF POOR—Tuesday evenings.

BOARD OF INSTRUCTION—First Wednesday in each Month.

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PIERCE, JR., P. M.

THE CITY.

Hon. Daniel Marcy was on Saturday notified of the death at New Orleans, after a brief illness, of the wife of his brother, Hon. Peter Marcy.

The printing, graining and glazing of the new business block in Dover in process of erection by Mr. J. Albert Walker, has been awarded to Willard J. Sampson & Co., of this city.

The Same Old Game and Resolute base ball clubs had a match game at the Plains on Saturday, which was won by the Resolutes by a score of twelve to ten. Four innings only were played, when the rain put a stop to the game.

One of the big new six-drive-wheel locomotives of the Eastern Railroad ran off the track at the western end of the depot in this city on Friday evening, at a bend in the track. No harm was done, beyond the trouble caused in putting her on the rails again.

The spring arrangement on the Eastern Railroad goes into effect this morning. The only change of importance is in the time of leaving of the Pullman train from the eastward, which starts from here at four o'clock in the morning instead of 4:25 as heretofore, and arrives in Boston at 6:05 instead of seven o'clock.

There will be a meeting of ex-soldiers and sailors in the Common Council Room at half-past seven o'clock this evening, to form an organization to parade on Memorial Day. As far as possible each veteran has been notified by postal card, but the list in the hands of the committee being incomplete, it is probable some have been overlooked. All such will please regard this notice as an invitation to be present.

We were visited by quite a little thunder-shower, Saturday afternoon, the rain falling cheeringly for an hour or two. The rain was needed, and some of the thunder was of very respectable quality. There were other smart showers in the evening and along through the night, though the thunder was all used up before nightfall. Sunday gave us a number of warm showers; a gentle breeze went clear around the compass several times, and the weather tried hard to settle itself down for a steady rain-storm, but the attempt was a failure, for the sun shew himself conspicuously in the afternoon.

NEW ROUTE FROM THE WEST.

The latest arrival of corn from the west by way of Ogdensburg, came by the new connection of the Portland & Ogdensburg and the Portsmouth, Great Falls & Conway Railroads last week. The corn comes by steamer to Ogdensburg and thence by the new line, and was received by Joshua Brooks & Co. With this line opened and in successful operation, as well as the old line via Central Vermont, it would seem that corn could be supplied as cheaply at Portsmouth as anywhere in this region, even as in days when every bushel came by vessel.

POLICE COURT.

SATURDAY, May 25; *Batchelder, J.*

The only culprit before the Court today was a lad brought up on a complaint charging him with having on the night of May 16th broken into the Advent chapel and stolen $4.50 from a contribution box. The accused pleaded guilty, and was ordered to furnish sureties in $300 for his appearance at the October term of the Supreme Court, which he did. We are informed that the boy has previously borne a good character, and for this reason we accede to a request not to publish his name.

TWO GOOD SHOWS.

The Carleton Opera Company, that on Friday evening gave in Music Hall the best English opera entertainment we have attended for many years, had just $2.13 left from the sale of tickets after paying their bills, the proprietors of the hall having made a liberal reduction in the price, at that. It was no doubt a satisfaction to this excellent organization to be so heartily appreciated by those who did attend, as was shown to be the case by the extravagantly generous (for a Portsmouth audience to give) applause; and it is by no means the first time a really first-class entertainment has failed of securing here patronage that was well deserved. We remember that not long ago the Berger Family gave an excellent performance at Music Hall, to an audience so small that if the performers had depended solely on the proceeds of that evening they would have had to have gone without their dinners for the next month; but a variety show—and one anything but refined—the following evening, drew a full house.

Eliza Weathersby's Froliques occupied Music Hall stage Saturday evening, and as they had promised, gave the audience several hours of uproarious, harmless mirth. Each individual "Frolique" is good; the three ladies are very pleasing, and Manager Goodwin is immense. The attendance was small, the heavy showers shortly before the hour of commencing, and the still threatening appearance of the weather, no doubt causing many to lose an evening's glorious fun. The first piece, "The conjugal lesson," was good, but the small audience—numbering not over two hundred persons, we should think—seemed chilled by its own diminutiveness, and responded but feebly to the many good points made. Then came "Hobbies." Soon the audience partially thawed, and several bold persons laughed; then others took it up; and then for two hours or so that small audience shouted with laughter and clapped its hands and held its sides, and made noise enough for a big crowd, till the curtain fell. The fun of the piece is not due to offensive *double entendres* or thinly disguised obscenity, for there is nothing in it to crimson the purest cheek; it is simply a mass of ridiculously-comical "situations" and mirth-provoking nonsense, with a little good singing and wonderful "dancing" mixed in. The first reception of the "Froliques" here will hardly induce them to call again; but should they do so before the memory of Saturday evening's fun has died out, we believe they would have no occasion to complain of the size of their audience.

This evening the Froliques appear at the Globe Theatre, Boston.

THIEVES CAUGHT.

Sheriff Kent has done another job of detective work well and quickly. Last Thursday afternoon the summer residence of Messrs. Morgan and Hobbs, of Manchester, at Hampton Beach near Boar's Head Hotel, was burglariously entered and robbed. The different rooms and closets in the house were separately locked, and were each broken open and thoroughly ransacked. The Sheriff was notified of the robbery Friday afternoon, and upon visiting the premises with Joseph W. Dow, a neighbor who has the care of the place, found it to be a bungling job. He also located John Lyman Lamprey of Hampton as one of the guilty parties, and Lamprey "squealed" and turned up some of the stolen goods, which were hidden under a barn in the neighborhood. Charles William Clements and William Ellsworth Butler, both of Hampton, were subsequently caught by the Sheriff and Deputy T. B. Hoyt, and another collection of property recovered, part of it being hidden in a stone wall. On Saturday afternoon a preliminary examination of all three of the parties was had at Whittier's Hotel at Hampton, before Police Justice Charles Lamprey, County Solicitor Harriman appearing for the prosecution, at which the three pleaded guilty to charges of breaking and entering, and robbery. They were held in $500 bail, in default of which they were committed to Portsmouth jail to await trial. Morgan and Hobbs telegraphed the Sheriff on Saturday as follows: "Give 'em the extent of the law." The house was much damaged and everything in it left in a state of utter disorder. The tool with which the doors were broken in was found by the officers.

THE VICINITY.

Lewis Gowen, a Dover teamster, while unloading stone Friday afternoon, fell into a cellar, receiving serious internal injuries.

The members of the Congregational church at Greenland have pledged the sum of $1200 toward improving their house of worship. Thirteen hundred dollars more are required.

The Genic Mill (fancy cassimeres) is to be closed July 1st for an indefinite period. This is the chief industry of the place, and the suspension of work will be a severe blow to that section of the town of Rochester.

The report of the County Treasurer shows an increase of the debt, of $3012.71. The amount expended for the completion of the new asylum, $3644.49, accounts for the increase of the debt, which is now $102,068.

At the auction sale of stocks in Boston on Saturday, Great Falls Man. Co. brought $94.50; Manchester & Lawrence Railroad (dividend off) $130; Eastern Railroad $8.50; Eastern Railroad new 3 1-2 per cents $63.50; Boston & Maine Railroad $103.50; Cocheco Man. Co. rights $35 and $35.50.

Many of the cottages at Old Orchard Beach have already been rented for the season, at fair prices, and the demand is quite lively. The Boston & Maine Railroad is putting up a freight house at Old Orchard. Considerable building is going on. The Traynor House was sold at auction on Saturday.

At a meeting of the 2d Methodist Episcopal society of Kittery (at the Foreside) on Friday evening, a vote of thanks to Col. Charles E. Littlefield was unanimously passed for his generous and efficient assistance in conducting the musical part of the church entertainments, concerts in aid of the church, etc., for several years past.

In the list of jurors in attendance at the Maine Supreme Court at Alfred, we find the names of Leonard C. Cook of York and George Manent of Kittery, on the grand jury; Andrew P. Fernald of Eliot on the first traverse jury; Leonard McIntire of York, Owen E. Pettigrew of Kittery and Howard W. Littlefield of Wells on the second traverse jury; Woodbury Wilson of York and Albert J. Winn of Wells, supernumeraries.

The Dover *Democrat* says that at the inauguration of the big temperance campaign tent in that city on the evening of the 22d inst., "while the meeting was going on inside some contemptible two-legged puppy cut one or two of the guy-ropes of the tent, probably thinking the whole thing would collapse and fall." The *Democrat's* large and well-selected stock of adjectives comes in play nicely when speaking of a fellow who would attempt to throw a tent down on a promiscuous gathering of men and women, or even men alone.

The Great Falls *Journal* says a seventeen-years-old girl was enticed from that place last week by a female "friend," to Boston, where she was taken to a brothel. On discovering the character of the den into which she had been decoyed the girl attempted to leave, but was kept prisoner for two days and nights by the hag in charge; she was finally released through the intervention of a young man who knew her and invoked the aid of the police, and was soon restored to her mother's home in Great Falls. Her infamous "friend" has not been seen since.

MARRIAGES.

WEEKS—ROBINSON. In Epping, May 22, Mr. George B. Weeks of Greenland, and Miss Sarah L. Robinson of Exeter.

Sch Triton, Frisbee, cld at Bangor 24th inst for this port.

Sch T T Tasker passed Alexandria 22d from Georgetown D C 21st, for this port.

A Manifest Absurdity.

It is manifestly absurd to claim for a mere stimulant, tonic and alterative properties. Yet this is what is daily done by the vendors of cheap local bitters, colored to make them look attractive, and agreeably flavored, but the alcoholic basis of which is of the vilest and most hurtful description. The transcendent success of Hostetter's Stomach Bitters, the leading alterative tonic of the United States, has induced many of these compounders of drams in disguise, to attempt the counterfeiting of this standard medicine, but their efforts have never proved successful on a large scale, and they have themselves in many instances notoriously "come to grief," through the instrumentality of the law.

The genuine Bitters have, indeed, a spirituous basis, but they are emphatically a medicine, since their botanic ingredients are signally efficacious in overcoming and preventing chills and fever, dyspepsia, liver complaint, constipation, and many other disorders.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $200. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 35cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the Colonnade Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been Customary to old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy for teething. The **Castoria** is pleasantly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable, and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil* renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. R. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. tuug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED. The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not duly neglected.
NERVOUS DISEASES—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patient.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished surgeon being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Mr. Rochester, Agent, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once.
H. HALLETT & Co., Portland, Maine. ol|y29 78

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cases effected by it are on record.
Sole Eastern Agency, 304 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodtnov11

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. Its
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Ag't.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

DOCTOR PIERCE'S
ALT. EXT. OF
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer boldly claims that he has succeeded in bringing to Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most decided cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed those dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

THE STANDARD BROILER.

PATENTED APRIL 16, 1877.

This simplest and best article for Cooking Beefsteak ever invented.

Can be used over either a Coal or Wood fire.

Cooks Steak so quickly that all the juices and flavor are retained.

Does not get ashes or coal on the meat does not let smoke and gas out of the stove. Does not put out the fire.

Ask your Dealer for the STANDARD BROILER, it is just what you want. The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., - Fitchburg, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humers in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and cools the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

It can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membranous lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison,* the destructive agent in catarrhal disease.

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through the nostril. I had dropings in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it would keep me from sleep; I had a dull pain and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored; I have no asthmatic symptoms, no cough, no dropings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Cures on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my interview with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

The United States Senatorship.

Hon. H. W. Blair has recently written a long and elaborate opinion on the question whether the legislature to assemble in June can safely and legally elect a United States Senator to succeed Mr. Wadleigh. Mr. Blair is very pronounced in favor of an election this summer, holding views directly opposite to those of Senator Wadleigh. After refering to the question generally, he argues his side of it first, constitutionally, quoting the provisions of the constitution in regard to the election of Senators, and coming to this conclusion: "To fill this vacancy at the proper time so as to preserve our representation and the entirety of the Senate is a matter of duty and not of choice, and, even in case of doubt, we should be diligent to lose nothing by neglect, but give the benefit of all reasonable doubts in favor of the right of full representation." Referring then to the law of Congress on the subject, he says:

The statute is as follows:

"The legislature of each State, which shall be chosen next preceding the expiration of the time for which any Senator was elected to represent said State in Congress, shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator so going out of office."

Now what does that statute require? Just two things. First, that the vacancy shall be filled. What in this case is the vacancy to be filled? It is the regular term of six full years, and not five years and nine months. That is the principal thing. It requires the States to keep their representation full and the Senate numerically complete. It reiterates the Constitution.

The next thing is that it requires the *last legislature* chosen before the expiration of the term to fill the vacancy,—to fill the *whole* of it, for a part of the vacancy is not *the vacancy* or "place" created by the expiration of the term. But it is impossible for a legislature to fill the place which the constitution requires to be always full, (subject only to inevitable accident which human laws cannot prevent) unless it has power to assemble as such with the preceding term. The legislature to be chosen next November cannot be called together even in extra session until June, 1879.

Now the statute must be construed by the rules of common sense and in connection with the Constitution itself, and so as to harmonize with its provisions if possible. That is a rule of construction. The law, like the constitution, was made to keep the Senate full.

Then it contemplates from necessity the action of a legislature during the existing term, and it has by necessary implication just the same meaning as though the words "and organized" were written into the body of the statute so that it would read "chosen *and organized* next preceding the expiration of the time," &c., because only an *organized* legislature can perform the act which it is the chief purpose of the statute as of the constitution to have done. Unless the statute is thus reasonably construed it is unconstitutional and void, because no statute can be permitted to destroy the constitution and the government created by it.

Mr. Blair then alludes to the case of Blodgett vs. Norwood, cited by Mr. Wadleigh as one which grew out of facts similar to those which now exist in New Hampshire, which was so decided as to form a predecent fatal to the claim of any man seeking a seat in the Senate by virtue of an election by the present legislature. This case, as stated by Mr. Blair, is very different from any that can possibly arise in this State; and, as he is supported in his view of it by Hon. Matt. Carpenter, who was chairman of the election committee when it was decided, he certainly has the balance of testimony in his favor.

How Hayes Can Popularize Himself.

The outburst of loyalty shown by the German people in their joy at the escape of Emperor William from the pistol of the assassin, must have suggested to Mr. Hayes how desirable it would be to have somebody arrested for carrying a horse-pistol or blunderbuss with malicious intent around the White House. If he could induce Mr. Madison Wells, or Mr. Donn Piatt to effect an entrance into the Executive mansion, and draw a large and attractive bead on him as he sits singing hymns in the evening, and miss him, perhaps there would be an outburst of loyalty. It is perfectly clear that something must be done, and experience has shown that an assassin foiled in his bloody work is a good thing to have about the house in times of trouble.—*Baltimore Gazette.*

I cut this from the Portsmouth *Daily Times* of May 17th. That eminent democratic politician J. Wilkes Booth tried this recipe on one Abraham Lincoln some years ago, and doubtless the *Times* crowd would like the same result in the matter of Hayes vs. Potter Investigation Co.

Ex.

Dr. Pierce's Golden Medical Discovery will cure a cough in one-half the time necessary to cure it with any other medicine; and it does it, not by drying it up, but by removing the cause, subduing the irritation, and healing the affected parts. Sold by druggists.

Daily Chronicle

TUESDAY, MAY 28, 1878.

The Democratic Revolution Conspiracy.

The present is a good time for the American people to remember that the Electoral Commission was a democratic measure; that a majority of the signers of the joint committee that reported it to Congress were democrats; that eighty-eight per cent. of the democratic members of both Houses voted for it, and sixty-four per cent. of the republicans against it; and that at the time the democrats supposed — and the republicans feared—they had got the Electoral Commission fixed so that it was sure to decide for the democratic side, the democratic leaders and conventions asserted in the most solemn manner that its decision would be final, and that only traitors and reckless disorganizers would question it.

It is also well to remember that the 44th Congress, the only body having jurisdiction over the question under the Constitution, declared Hayes and Wheeler elected President and Vice President of the United States; that they have taken the required oaths and exercised the duties of their offices; that the Constitution provides only one way for their removal — impeachment for and conviction of high crimes and misdemeanors in office committed by themselves; and that they can otherwise be removed only by murder, or a revolution that shall entirely subvert the form of government under which the Nation has up to the present time existed.

And that such a revolution was intended by the promoters of the fraud conspiracy is more and more evident. Speaker Randall at the outset ruled that the fraud resolutions were privileged, *because* they questioned the President's title. The democrats of the House, who passed the fraud resolutions, refused to pass Carter Harrison's resolution declaring the movement free from revolutionary design—the republicans of the House very properly refusing to vote, as it would have been manifestly absurd for the republicans to declare that the democrats do not mean to overthrow the goverment, more particularly as the republicans are satisfied that that is just what the fraud democrats do mean to do. More significant still, the Democratic National Committee, the chosen managers and leaders of the party, refused to pass a vote that the fraud movement is not aimed at the President's title, but did pass a vote approving the movement. Not a few of the bolder spirits among the fraud editors declare that the movement means the overthrow of the present Constitutional government, and the seating of Samuel J. Tilden; the democratic State convention of Pennsylvania unanimously denounced any such attempt as "dangerous to our institutions;" and Wade Hampton —good democratic authority on revolutions and rebellions — declares any attempt to invalidate Hayes' title "revolutionary."

On the other hand, it must be acknowledged that not a few of those who yelped loudest that "Hayes will have to go" when the fraud resolutions were first passed, have taken warning from the storm of indignation aroused all over the Union, and the sudden closing up of divisions in the republican ranks in view of the imminent peril to the nation, and now "rear you as gently as any sucking dove," protesting that the sole object of the movement is "to vindicate history" by showing up certain election frauds by which they claim Tilden was cheated out of an election. This plea, in the language of the day, is "too thin." That the truth of history and the prevention of fraud are not the objects aimed to be attained is shown by the persistent refusal of the fraud managers to enquire into the Oregon bribery by Tilden's agents, the revolutionizing of Mississippi with the democratic shot-gun, the South Carolina violence and Ohio and Indiana frauds, or into anything else that does not "involve the title to the Presidency" or that does promise to show up democratic scoundrelism.

And if—which we do not admit nor believe—if the fraud conspiracy was and is intended only to make political capital for the democratic party in the coming Congressional elections, its planners and abettors stand convicted of a willingness to still further depress the struggling business interests of the country and thereby add additional weight to the burdens already borne by the laboring classes, and to spend many thousands of dollars of the people's money, for purely partisan ends. Let them take which horn of the dilemma they will—daring treason or reckless and unscrupulous partisanship —and the patriotism and common sense of the people are sufficient to provide a fitting rebuke to their demagogism.

News and Notes.

Pretty Melissa Smith, the belle of Hatteras Island, was the daughter of a lighthousekeeper and was to have been married on Wednesday last. But on the previous Sunday night, just after she had left her lover and was going to bed, she opened the door at her room in the lighthouse to enjoy the sea breeze, and her pillow fell upon the stairway outside. Attempting to recover it, she slipped and fell, striking her head on the iron steps and sinking into the water. She gave three piercing screams, and was carried away by the surf just as her father appeared in the doorway.

Sam Carney, of Arlington, Ill., having had his suit refused by Miss Cullenbine, on Sunday cut her throat with a razor and then shot her, shot her father in the hip, cut her mother with a butcher knife, and then cut his own throat. The murderer and the young girl died immediately; the parents will live.

Spingfield mechanics are getting jobs down the Connecticut river and around Hartford in a way that disturbs the Hartford serenity. A prominent Winsor citizen says it is because Springfield men will work for long time and small profits, while Hartford wants big profits and short jobs. Then the average Hartford mechanic would prefer to be a president of an insurance company rather than to tax his muscles too severely at his trade.

Stewart's Woman's Hotel in New York is a failure. A bar is being put in, and, with a few other alterations, it will be opened in a few days as a hotel for mankind generally.

A boy named Gibbs, fourteen years old, shot and killed a man in Jefferson, Ohio, in a quarrel on Saturday.

Sunday afternoon seven men were preparing to have a fish fry on an island in the Waterman reservoir at Smithfield, R. I., when a shower came up and lightning struck the party. William Colain of Scituate and Daniel Knowlton of Greenville, who were standing back to back under a tree, were killed. Eugene Knowlton, a brother of Daniel Knowlton, and Jeremiah Angell, his hired man, were injured, their boots being stripped off, their feet burned and limbs partially paralyzed. The other three were stunned, but not seriously.

A young lady in Baltimore attempted suicide Saturday because of a practical joke by a female friend, who told her that her affianced lover was engaged to another woman.

Mrs. Folds and two children were burned to death Saturday in Merriweather county, Ga., by the explosion of a kerosene lamp.

The list of persons killed by the Wisconsin tornado, as far as reported up to Sunday night, numbered thirty, and between fifty and one hundred were badly injured.

New Hampshire Items.

Thomas W. Cavanaugh, an ex-policeman, was arrested in Manchester last week on a charge of forgery of a note with "Nathaniel" Head's name appended as surety. He had spelled the Ex-Adjutant General's surname "hed." But he is by no means the first ex-officer-holder in Manchester who has tried by a bad spell of Natt's name to make a raise. The Hooksett brickmaker's name seems to be such a difficult one for the democrats to get over, that perhaps the republicans may incline to place it at the "head" of their ticket.

About twenty deaf mutes from various parts of the State held a meeting at Concord, Saturday night, and formed an Association named the Granite State Deaf Mute Mission. The following officers were elected: Chairman, Thomas Brown of Henniker; Secretary and Treasurer, Mr. Head of Hooksett; Executive Committee, Messrs. Wright of New Boston, Smith of Nashua, and Allison of Concord. Rev. Thomas Gallaudet of St. Ann's Episcopal Church, New York, was present at the meeting, and Sunday held special services for the deaf mutes in St. Paul's Church.

The house and barn of Gardner S. Abbott, in Northfield, near Tilton village, were burned on Saturday night. Loss $2000; insurance $1000. Cause, lightning.

A barn belonging to the Fisher estate, in Nashua, was destroyed by fire Saturday morning, together with its contents. Loss on the barn, contents and adjoining buildings, $1500; insured $500. It was probably the work of an incendiary, as the barn had been used for storing liquor casks. It was probably thought there was considerable liquor there at the time, which could be destroyed by taking this course.

The annual report of the Insurance Commissioners of New Hampsire contains abstracts of the doings of seventeen town mutual fire insurance companies, having at risk some $8,500,000. The average cost of this insurance during 1877 was 26 cents per $100, or more than the charge of first class stock companies. It also contains statements of fire State mutals having at risk some $12,000,000. Fortune does not appear to have favord this class of companies in New Hampshire, and the few that remain have absolutely nothing left for future reliance but their premium notes. This exhibit is of great importance to insurers.—*Boston Post.*

Political.

The indignation of the people in general at the attempt of the Tilden plotters to subvert the government is fast convincing the weak-kneed democratic Congressman who were whipped in to the support of the Potter resolution that they were made accessory to a great national crime; the sudden closing up of the republican ranks has already convinced them that the movement was what in their eyes is even worse than a great crime—a great political blunder.

There are signs that the democratic investigators are halting in the conspiracy, for several good reasons. The republicans have a notion that they can expose Sam Tilden's hand in procuring the "new evidence" with money. Then there appears to be a growing doubt whether, after all, the evidence amounts to anything. The Washington correspondent of the Boston *Post* telegraphs that one "cause of the committee's delay is the absence of Dennis, 'the Dittle Giant of Alachua,' who was here recently and gave Mr. Finley and Mr. Springer to understand that he was in possession of information which would completely demolish the republican claims of a fair count in Florida. Mr. Dennis left the city a few days ago quite mysteriously, and it is believed that he either *purposely misled Messrs. Finley and Springer*, or has been seen by the republicans, and in consequence is trying to elude the investigators."

There is said to be no opposition in South Carolina to Wade Hampton's renomination for governor. The republicans will put no State ticket in the field.

Alexander H. Stephens has announced himself as a candidate for re-election to Congress.

Goode, of Virginia; Banning, of Ohio; Patterson, of Colorado, three democratic Congressmen who hold their seats through the most outrageous and clearly-proven frauds, are a sweet trio to vote for investigating "fraud" in Florida and Louisiana.—*N. Y. Freeman.*

GEN. G. T. BEAUREGARD:

DEAR FRIEND:

In response to your inquiry as to the time I shall arrive in New Orleans to assist you in superintending and drawing the Grand Drawing of the Louisiana State Lottery, to take place on Tuesday, June 11th, I would reply that I shall leave here so as to arrive in your city by the 21st inst., which will give us ample time to fulfill the duties required of us.

Your Friend,

JUBAL A. EARLY.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

We have given *Adamson's Balsam* a thorough trial, and have no hesitation in recommending it to our readers as a safe and efficacious remedy for coughs and colds. Price 35cts.—*Ed. Kendall's Mills Chronicle.*

Unequalled in its location, and unsurpassed in its arrangements, for the convenience and comfort of the travelling public, the Colonnade Hotel on Chestnut Street, Philadelphia, holds the highest rank.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&ctsept157

E. G. PIERCE, Jr., P. M.

THE CITY.

The Texas Jack Combination and Bryant's Minstrels, both announced to play here, have disbanded.

The game of base ball at the Plains on Saturday was won by the Same Old Game club, their score being twelve to the Resolutes' ten.

The wardens of the South Parish have engaged as soprano for the current year Miss Boynton, the lady who has so acceptably filled that position in the choir for the last two Sabbaths.

Rev. Charles A. Holbrook baptised seven adults at St. John's church on Sunday afternoon; in the evening the rite of confirmation was administered to nineteen persons by Bishop Niles.

Schooner Lizzie Wilson arrived off the navy yard from Providence, R. I., on Sunday, with new boilers for the U. S. S. Omaha. She was berthed by the tug Clara Batemen, Monday. She should have brought a new bottom for the Omaha, while she was about it.

Carleton's English Opera Company are to return to this city Friday evening, and play either Il Trovatore or the Bohemian Girl. They will not have to look at so many empty seats as they did before when they were here; their splendid performance of Fra Diavolo will make all who saw and heard it attend the coming entertainment, and scores of others who were angry with themselves because they did not attend that opera will not miss this one.

Prof. Edison's telephone, the machine with which you can bottle up language, hand-organ music, thunder or any other kind of noise, is to be put on exhibition in Mechanics' Hall to-morrow (Wednesday) afternoon at four o'clock, the exhibition to continue until ten o'clock in the evening. Admission twenty-five cents. As the phonograph will remain here but one day, those who wish to witness the workings of this wonder of the age will need to be on hand promptly.

The hour for the Sunday meetings of the reform club has been changed from half-past seven o'clock in the evening to four o'clock in the afternoon, so as not to interfere with the services at the various churches. The spring arrangement went into effect on Sunday last, when Mechanics' Hall was crowded, Rev. C. B. Pitblado and Rev. John A. Goss addressing the audience. Considerable enthusiasm was manifested, and it is evident the new departure will be of benefit to the cause whose interests the club seeks to promote.

The directors of the Chicago, Burlington & Quincy Railroad held a meeting at Boston on Saturday, when the resignation of Col. Robert Harris as President was accepted. Hon. John M. Forbes was then unanimously chosen his successor. Ex-President Harris continues on the Board of Directors, and was elected Consulting Engineer. He arrived in Portsmouth on Saturday afternoon, and intends to remain here in the laudable endeavor to recruit his health upon his native heath, a result that the many friends of his childhood, as well as those of maturer years, earnestly hope for.

A cavalry brigade of the tramp army was encamped on Market square a portion of the day on Monday. They had four big covered wagons, one of them packed full of children, and seemed to be ready for almost anything "from pitch and toss to manslaughter." The men did a little business in the way of trading horses, swapping watches, etc., the women selling baskets, tapes and trimmings, and other notions; at about three o'clock the caravan again took up its line of march, going over the bridge into Maine. They said they were from New York State and bound as far east as Bangor. Some folks called them gypseys; they appeared to be well-to-do vagabonds, lazy, happy and not squeamishly clean.

POLICE COURT.

MONDAY, May 27; *Batchelder, J.*

George W. Otis was arraigned for stealing a buffalo robe from Rev. Mr. Ruland, of Greenland; he pleaded guilty, and was sentenced to thirty days in jail, and to pay costs, $8.52.

MEMORIAL DAY.

The citizens' committe on Memorial Day observances request the contribution of flowers for the decoration of the soldiers' and sailors' graves. Flowers may be left at Franklin upper hall (entrance on Fleet street) on Wednesday, and on Thursday up to noon. Wreathes, bouquets or other decorations for any particular graves, if properly marked and left at the hall, will be placed where directed.

Miss Edith Wendell has been engaged to sing at the Memorial exercises in Music Hall in the evening. The New England Glee Club, with a special chorus, are also secured, the music being in charge of the club.

The citizens' general committee, to secure Music Hall for the evening services, were required by the owners to issue no more than twelve hundred slips, which is the comfortable seating capacity of the hall, and to admit none except by tickets, this being necessary to avoid a jam, not only to the possible damage of the elegant hall, but to avoid any disturbance at these Memorial services.

There was a very large and spirited meeting of war veterans at the City Rooms, Monday evening, Adolph Nelson in the chair. It was voted to dispense with the regulation hat and belt, and appear in dark clothes, dark felt hat and white gloves; and to meet at 2:30 P. M., Thursday, in upper Franklin hall. D. Webster Barnabee was unanimously chosen Captain; John Moore 1st Lieut.; Benjamin F. Winn 2d Lieut. Voted that the company parade with flag on which battles are inscribed, James R. Eaton to carry colors; Harry S. Lombard and Alfred M. Lang, Color Guard. Invitation from general committee to march to Music Hall in the evening and take seats on the stage, was accepted.

The general committee are obliged to suspend the issue of tickets to-day, owing to the unexpectedly large number of soldiers and sailors at the meeting.

A meeting of the citizens' geneeral committee is called for this evening, at the Common Council Room.

A VETERAN GONE.

Mr. Joseph Coleman died at the residence of his son, Wiley Coleman, on Water street in this city, on Sunday forenoon, at the age of eighty-seven years.

Mr. Coleman was a native of Newington, and learned the trade of a joiner. In the war of 1812, while at work upon barracks building at the navy yard, Mr. Coleman on the 26th day of September, 1814, was drafted to serve in Capt. Jacob Dearborn's company of the New Hampshire militia, commanded by Col. Edward Sise, ordered for the defence of the harbor of Portsmouth. Mr. Coleman was a good mechanic, and his presence at the navy yard was desired, but Capt. Dearborn insisted that if the United States had a better claim to his services than had the State of New Hampshire they must show it. The result was that Coleman laid down the broad axe and shouldered his musket, serving until his discharge on the tenth day of November of that year. He became entitled for this service to a pension under the recent act of Congress, to obtain which he made a declaration on the sixteenth day of March last.

Mr. Coleman was noted for his kindness of heart, his amiable disposition, his consistent Christian life and evenness of temper. He always seemed to be at peace with all the world. He went through life wearing a pleasant smile that seemed to lend a cheerful and genial light to all who met him.

His first wife, the mother of his surviving children—Olive Adams, daughter of Samuel Adams, a former town clerk and prominent resident of Newington—died twenty-nine years ago. He again married, his second wife having died eight years since.

In declining years his mental faculties were well preserved, the cheerfulness of his disposition rendering him a most agreeable old gentleman. He was a constant reader of the Bible, always ready to converse upon religious subjects, and throughout his life had never omitted to practice the precepts he professed to believe requisite to happiness here and hereafter. He was a man who seemed to enjoy religion to the fullest extent, and from his life of purity and fidelity to have merited the award "Well done, good and faithful servant, enter thou into the joy of thy Lord."

NO. FOUR'S HALL.

We are always pleased to note any improvements in their surroundings made by the members of the Fire Department, and there are many such made. Some two years ago the engine house on Court street occupied by steamers Kearsarge No. 3 and Moses H. Goodrich No. 4, was repaired by the city, and much improved; a new brick floor was laid, with granite wheel-ways, which makes the starting of engines and hose carriages much easier than from a wooden floor; and other improvements have from time to time been made, and proved of great benefit to the department. Since that time the two companies occupying the building have fitted up their halls in very handsome style and at large expense, and we question if any other two companies in New Hampshire can now show more creditable-appearing quarters. The hall of the Kearsarge company was fitted up some time ago, and a description of it given in the papers at the time; the Moses H. Goodrich company have just finished theirs, and have spared no expense to make it equal to if not better than any other engine company's hall in the State, and the members feel justly proud of the success of their efforts. The walls of the hall have been newly painted, and a gilt moulding run around near the ceiling. The floor is covered with a handsome Brussels carpet, one hundred yards of which was required. The windows, of which there are five, are shielded by painted curtains, with very handsome lace curtains and lambrequins on the inside. The furniture is of the latest pattern, and was made in New York expressly for the company. There are three sofas and ten chairs, covered with the finest haircloth; one easy chair (for the foreman) covered with figured rep; three camp chairs; two marble top tables; and a black walnut desk for the clerk—all of the handsomest description. A fine mirror hangs at the head of the hall, and a large number of pictures on the walls. There is a large room in the rear of the hall which is used for holding the ordinary company meetings.

The hall will be open for the inspection of visitors on Thursday, and the members of the company will be pleased to show around all who may call.

SUNDAY'S STORM.

The showers of Sunday, which were so gentle in this city, did considerable harm in some of the neighboring towns.

At Exeter they had a half-hour's hailstorm, said to have been the most severe one ever experienced there, with much lightning and heavy thunder; a large quantity of rain also fell. Great damage was done to fruit trees and crops, and considerable window glass was broken in the town. Hailstones the size of a robin's egg, and larger, lay in drifts from four inches to a foot deep around buildings some time after the storm. During the storm leaves were falling in clouds from the trees, and the ground was thickly covered with tattered leaves and twigs. Three hundred panes of glass were broken in one hot-house.

At Hampton the storm was severe, there being a terrific hail-storm. The road was covered to the depth of fully an inch with stones nearly as large as marbles. Early vegetation suffered severely.

Newington also had a hailstorm, the stones being as large as or larger than pigeons' eggs. Here too, the crops and trees suffered some, though less than in Hampton and Exeter, the fall of hail being much lighter.

The storm swept a number of acres of forest down in Kensington. There were heavy hail storms in Hampton Falls and Stratham, and rain fell in torrents for a short time.

Hailstorms are reported to have occurred as far back in the state as Concord, and also throughout northern Massachusetts and southern Vermont; and altogether Sunday seems to have been a very good day for hail.

THE VICINITY.

The catamaran Hulda, of Newmarket, in a trip on Great Bay, Friday, sailed five miles in twenty-two minutes. A race has been arranged for her and another similar craft for the 17th of June, for a set of colors.

Col. Charles M. Murphy, who has been appointed Consul at Moscow, is a prominent, influential and wealthy citizen of Dover, and President of the New England Dental College. There are doubts if he accepts.

Savage, the confessed murderer of Rose Vincent at Saco, April 8th, was arraigned before the Supreme Court at Alfred, on Saturday, Barrows Judge, and pleaded guilty. Witnesses were called by County Attorney Burbank to determine the circumstances and degree of the crime. The evidence shows nothing different from the statements already made public. The prisoner waived entirely his privilege to question witnesses, or to make any oral or written statement to the Court in his defence. The Judge withheld his decision, taking the matter under advisement.

The valuation of Dover this year for taxation purposes is seven millions, six hundred and forty-three thousand, four hundred and eighty-eight dollars, ($7,643,488,) which is eighty thousand dollars higher than ever before, notwithstanding taxable property has materially decreased in actual value. The cause of this increase in the sum total of the valuation, is the new mill of the Cocheco Manufacturing Co. This mill, which everybody supposed to be exempt from taxation for ten years, is taxed this present year on a valuation of about $800,000, the understanding being that the exemption does not take effect until the mill is all completed and in running order. It is fair to presume, perhaps, that the total valuation next year will be decreased by about the amount put upon the new mill the present year, because that concern will be all completed and all exempt.—*Democrat.*

—Be careful how you carry your revolvers, Charles L. York, of Portland, Maine, carried his in his vest pocket, and the other night, when pulling out his eyeglasses, the string caught the revolver's hammer and the weapon was discharged, the ball entering Mr. York's head and killing him instantly.

REAL ESTATE AT AUCTION.

Will be sold to the highest bidder, in order to settle the estate,

ONE DWELLING HOUSE No. 1 Charles street,
Also, LOT OF LAND on Charles street.

Both of which will be sold as above on

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir*,—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable, and agreeable medicine. It is particularly adapted *to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms ear Stomach and Disordered Bowels, there is nothing like Castoria. tuwg

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical, treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedies, means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and stimulate the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the circulation of the blood in the system, and thus promote recovery, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, to which the greatest skill is added, and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to both physician and patient.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the Hotel.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. If in easily accessible by carriage, omnibus, or street cars. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to carry passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. ctjy2878
H. HALLETT & Co., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodtuwlyll

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. ufeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

DOCTOR PIERCE'S
ALT. EXT. OR
Golden Medical Discovery

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer has combined the most valuable remedying more Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and a vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has been found as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

NEW FOUR PER CENT
GOVERNMENT BONDS.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as **Ayer's Cherry Pectoral.** It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most decided cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine. No. 1

GLENN'S

SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, felons, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Pilers—25 and 50 Cents per Cake; per Box (3 Cakes), 50c. and $1.20.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potassa and Iron, makes a most efficacious cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leuchorrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and nostrums without relief, may well question the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent, and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, Consumptions and frequently fatal affections of the lungs follow, in many instances, a case of simple or neglected Catarrh. Other sympathetic affections are deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

I can be cured. There is no doubt about it. The immediate relief afforded by BAXTER'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard, acrusted matter that has lodged in the nasal passages is removed, with a few applications; the ulceration and inflammation subdued and healed; the entire membrane lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison*, the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the throat, a very bad cough, which has led me to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to go several times during the night to clear it out and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of BAXTER'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could tell the effects of the Cure on my appetite, on my kidneys, and, in fact every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with his case. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

Hon. Matt. Carpenter's Opinion.

Hon. H. W. Blair has obtained in support of his own view of the case the opinion of Hon. Matt. Carpenter, ex-Senator from Wisconsin, and at one time chairman of the Senate committee on elections, upon the question of the election of a United States Senator in this State next month. It reads as follows:

WASHINGTON, May 14, 1878.

HON. HENRY C. BLAIR, M. C.:

Dear Sir:—Yours of the 10th inst., requesting my professional opinion as to whether the legislature of New Hampshire which is to meet in June next can elect a Senator of the United States for the term commencing on the 4th of March next, was duly received, and in reply I have to say:

I understand the case to be this: On the second Tuesday of March, 1878, under the constitution and laws then in force a legislature was duly elected for the term ending June, 1879. That your constitution having been lately amended, the amendments, however, as a whole not to take effect until June, 1879, an election is to be held in November next for the legislature whose term of office will commence in June, 1879. The legislature which was elected in March 1878 will hold its regular session in June next. And the question is whether the legislature at that session will have the power to elect a Senator for the term commencing on the 4th of March next, that being the time when the term of the present incumbent will expire. If they have the power, then, of course, it will be their duty to make that election.

The question of power depends upon the construction of the act of Congress of July 25th, 1866 (14 Stats. at large, p. 243, being sec. 14 p. 3, Rev. Stats.) conceding it to be constitutional, which provides as follows:

"The legislature of each State which shall be chosen next preceding the expiration of the term for which any Senator was elected to represent said State in Congress shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress in place of such Senator so going out of office."

Every statute must be so construed as to give effect to the intention of the lawmakers. And to ascertain that intention inquiry must be made as to the law as it stood when the statute was enacted, and the evil intended to be corrected. Prior to this statute it frequently happened that vacancies would exist in the Senate for a considerable time. It was to correct this evil and keep the Senate constantly full that the act was passed, providing that the legislature which should be chosen next preceding the expiration of the term should fill the vacancy.

The spirit of this act is that no vacancy in the Senate shall exist for a longer period than is necessary. And, when the legislature of a State is in session and knows that a term in the Senate will expire during the life of such legislature, I think the power is given to, and the duty is cast upon, such legislature to elect the successor.

No State can have at the same time more than one legislature. And when the present legislature shall convene in June next and find that a term in the Senate will expire within the life of such legislature, I think it is their duty to elect a successor.

In reply to this it is said that a new legislature will be elected in November next; but it is admitted that its term of office will not commence until June 1879. I think the error of this position is that the persons to be elected in November are not after their election and before June, 1879, a legislature at all. The persons who will constitute the legislature of the State after June, 1879, will not be in June next members of the legislature of New Hampshire. And, therefore, the legislature to meet in June next will, at that time, be the legislature last chosen prior to the expiration of the term. Otherwise it would follow that a vacancy in the Senate would exist for several months during which Congress might be in extra session. Until the new constitution goes into effect it can have no influence upon this question.

Suppose some emergency should compel the governor to convene the legislature in extra session on the 4th day of March next. It is conceded that the old legislature would assemble and might remain in session until June. This precludes the idea that the persons to be elected in November next are to be regarded in any sense as the legislature of the State prior to June, 1879.

It generally happens that new States intending to apply for admission into the Union elect their senators prior to such application. When the State is admitted, the election of such senator is thereby accepted by Congress; but such election has no effect until the State is admitted. So the election in November next of persons to be a legislature from and after June, 1879, has no effect until the commencement of their term under the new constitution. From that time on by force of the new constitution, they enter into office in pursuance of the previous election.

The report of the committee on privileges and elections in the contest between Blodgett and Norwood for a seat in the Senate has no application to this case, because it was based on a totally different state of facts. Then, there was no change of constitution. But, under the constitution and laws of Georgia, in force on the 16th of February, 1870, when Mr. Blodgett claimed to have been elected, the legislature then in session was elected in April, 1868. And, by the same constitution and laws, it was provided that another legislature should be elected in November, 1870, to meet and organize in Janu-

ary, 1871, prior to the expiration of the term in the Senate. In that case it was clear that the last legislature, which elected Norwood at their January session in 1871, was the legislature which under the act of Congress was to elect a senator. To make the cases parallel, it should be shown that the persons to be elected in November next are to be organized as a legislature before the expiration of the existing term. In other words, the Georgia legislature which elected Blodgett knew that they were not the legislature last elected prior to the expiration of the term, because they knew that another legislature would be elected and organized after their term of office would expire, which would be the legislature *de facto* and *de jure* before the expiration of the senatorial term. But in this case the legislature in legal session in June next will be the only *legislature* which will exist *de jure* or *de facto* prior to the expiration of such term. Therefore they will be the last *legislature* prior to the termination of the senatorial term; and, consequently, the legislature last elected before the term will expire.

You also inquire whether, in case the legislature in June next should elect a senator, and the next legislature in June, 1879, should elect the same person over again, the fact of such double election would injure his title, or embarrass his obtaining his seat in the Senate; to which I reply—that it is clear that such senator would be duly elected, no matter which legislature should be considered by the Senate as having power to make the election. No senator could be refused a seat who had two titles thereto, one good and the other bad, any more than a plaintiff in ejectment could be defeated upon a valid deed, because he also possessed an invalid deed covering the same premises. If the legislature in June next should elect one man, and the legislature in June, 1879, should elect another man, then the Senate would have to decide which was entitled to the seat; and I have no doubt they would seat the one elected in June next.

MATT. H. CARPENTER,
Counselor at Law.

Daily Chronicle

WEDNESDAY, MAY 29, 1878.

The Tax Commission.

The Commissioners appointed to devise a scheme of taxation that will be just to everybody, have issued a report which makes nearly 250 pages of printed matter. The report shows, among other things, the complicated manner in which the tax is assessed upon the railroad property of the State, some of which by means of its alleged indebtedness escapes taxation practically. It points out the inequality of various exemptions, such as those founded by special enactments, church property, etc. The variety of valuation is also shown by tables which discover the average value of a horse in this county, where 7466 are owned, to be $67.08, while Hillsborough keeps 8514 at an average value of $74.77. Rockingham keeps 7395 sheep and hogs valued in the average per head at $4.49, far higher than any county in the State, while we have 18,485 cows and oxen with an average value of $43.32, and in excess of most of the counties.

The Commissioners in three hearings seem to have developed a formidable opposition from the railway and manufacturing interests; the express companies do not want to be taxed; indeed this Commission with all its ability seemed to have failed to discover the interest or class that insists upon bearing a heavier burthen.

The great study of the next session will be how to place the burthens of taxation upon others' shoulders. The Commissioners recommend certain enactments, but these will receive very severe pruning at the hands of the legislators, as some of them, if enacted in the form submitted would cause double taxation. Telegraph lines are to be valued by statute at three hundred dollars a mile, a process novel in its nature and perhaps unconstitutional in its effect. But the law makers will find scope for their labors, and the Legislature of 1878 promises, with this measure and others of importance, to have a broad field for labor.

Another Fire at Suncook.

Suncook had another fire Tuesday afternoon. How severe this one was we were unable to learn; but our informant saw three houses on fire at once as he passed through on the last train down.

Railroad Meetings.

The thirty-second annual meeting of the stockholders of the Boston, Concord & Montreal Railroad was held at Plymouth on Monday. S. N. Bell of Manchester was chosen chairman, and the following Board of Directors unanimous-elected: Joseph P. Pitman of Laconia, Peter Butler of Boston, S. N. Bell of Manchester, J. Thomas Vose of Boston, Joseph A. Dodge of Plymouth, John P. Spaulding of Boston, Warren Daniell of Franklin. The last three are new ones. The Board of Directors met and elected J. Thomas Vose of Boston President, and Joseph A. Dodge General Manager. The meeting then adjourned.

The annual report of the Directors of the Manchester & Lawrence Railroad shows the total receipts of the road during the year ending March 31st to have been $171,777.05, and the expenses $71,318.51; leaving $100,458.54 as the net earnings. Two dividends amounting to $100,000 have been paid during the year. The report was submitted on Monday, at Manchester.

Congress.

The Senate on Monday, by a vote of twenty-eight to twenty-six, agreed to immediately dispose of the House bill to forbid further retirement of legal-tender notes. The vote was understood to be a test, and indicates that the bill is sure to pass. The bill to provide a permanent form of government for the District of Columbia was passed.

In the House the democrats succeeded in passing the bill to reduce the army to 20,000 men. The amendment transferring the management of Indian affairs to the War Department was adopted; also one prohibiting the use of the army or any part thereof to put down communistic riots, or to aid the internal revenue officers in capturing "Moonshiners" in Kentucky and illicit distillers in North Carolina or elsewhere. The last amendment was proposed by Proctor Knott, of Kentucky. The bill as amended was passed by a vote of 120 to 112, all the republicans voting against it, with all the democrats from Texas except the ex-rebel Postmaster-General Reagan, Patterson of Colorado, who occupies the seat to which Belford was elected, Wigginton of California, who occupies the seat to which Pacheco was elected, and Williams of Michigan. It has been asserted all along that the crippling of the army was one part of the plan of the democratic revolutionists; and it seems the caucus has been able to whip in enough of the conservative democrats to carry out this part of the programme, so far.

New Hampshire Items.

Parker Demick, an employe in the mill of L. D. & L. I. Hazen in Whitefield, was seriously if not fatally injured, Monday, by a board thrown by a belt striking him on the head. The sight of one eye was entirely destroyed.

J. M. Thompson's steam saw-mill at Warren Summit, near Plymouth, was totally destroyed by fire early on Sunday morning. Loss $6000; no insurance. The fire was incendiary. This mill was burned a few years ago, a long litigation ensuing, as it was claimed an engine on the railroad set it on fire.

George B. Elliot, of Keene, and Dr. J. A. Blake, of Walpole, were passengers or board steamer Mississippi, which arrived at New Bedford on Sunday from Fayal, Western Islands.

News and Notes.

The details of the Wisconsin tornado get worse and worse. It is now said fifty persons were killed and 250 injured by it.

The Cuban insurrection seems really to be at an end this time. Another detachment of rebels, including 117 officers, 200 men and 200 women and children, has surrendered to Martinez Campos. The patriot army seems to have been well provided with officers.

On Thursday night of last week a train on the Kansas Pacific Railroad went through a trestle, the engine and eighteen freight cars going into the river. The bridge had been weakened by a flood, which swept the train down with it; one car was found six miles below the bridge, but the locomotive has not yet been discovered. Three men went down with the engine, and no traces of them have since been seen.

Pope Leo is reported to be seriously ill.

From Chicago come accounts of unprecedented activity in grain. Last week more corn and wheat was received and despatched than ever before in one week, in Chicago or any other city, the receipts being 3,690,871 bushels, and the shipments 3,105,223 bushels; receipts of flour, 48,172 barrels; shipments of flour, 49,626 barrels. This vast movement in grain is regarded in the west as an indication of a great revival in business, and at once.

William Day, fifteen years old, of Taylorville, Ill., on Sunday found Mrs. Hamilton, the aged and paralyzed wife of his employer, asleep on a sofa, and getting an axe chopped her to death. His motive was revenge, Mrs. Hamilton having reproved him for some misconduct the day before. Poor little tempted boy; he couldn't help it.

The vacancy in the Lighthouse Board, created by the death of Prof. Henry, has been filled by the appointment of Prof. Henry Morton of the Stevens Institute of Technology of Hoboken.

Gen. John A. Bolles, Naval Solicitor-General, died in Washington on Saturday evening, aged 69 years. He was born at Eastford, Conn.

Political.

The New York *Express*, Tammany organ, notifies the National Democratic Committee that its first duty "is to politely request its present chairman, Senator Barnum, of Connecticut, to resign; and that its second duty is to choose an honest and able man for the position that Senator Barnum does not fill." It gives two reasons for this demand, namely, Mr. Barnum is mixed up with transactions and scandals that unfit him for the place, and occupies a place in the United States Senate which was obtained by mysterious agencies.

Oregon has an election June 1st, to choose a governor for four years, and a legislature that will choose a successor to United States Senator Mitchell. There are three tickets in the field, the third party being the greenbacks. The latter held their convention first, and the demagogues of the democratic convention when they met adopted the greenback platform. The thin veil between the old "mint-drops" democracy and the new "absolute-money" repudiationists is rapidly being torn asunder.

Clarkson N. Potter, the engineer of the fraud resolutions through the House, comes to the front with a solemn declaration that the fraud democrats do not mean revolution. The country would rather have a decent post and rail fence between it and anarchy, than the solemn declarations of Clarkson Potter and Sam. Tilden both put together.

Don Santa Anna Pottero is what they call him now, since the success of his first move toward Mexicanizing this country. The Burlington *Hawkeye* calls him Potter Pacha; but Don Pottero is more truly expressive of his aims and character.

—"Your Honor," said the counsel in a case before Judge Donohue, "the plaintiff and defendant are neighbors, residing within sixty-five miles or so of each other in Colorado."

—"How did you come to know her?" asked a mother of her little girl, as she saw her bidding good-by to a poorly-dressed child at the church door. "Why, you see mamma, she came into our Sunday School alone, and I made a place for her on my seat, and I smiled, and she smiled, and then we were acquainted."

—Not wishing to grace the rogues' gallery, John Bradel, a Baltimore hotel thief, screwed his face out of shape and made it impossible to take his photograph. To bring him to his senses he was placarded in front and behind in large letters as a thief, and marched between two policemen through the crowded streets to the city hotels, until he broke down and had his picture taken.

A Manifest Absurdity.

It is manifestly absurd to claim for a mere stimulant, tonic and alterative properties. Yet this is what is daily done by the vendors of cheap local bitters, colored to make them look attractive, and agreeably flavored, but the alcoholic basis of which is of the vilest and most hurtful description. The transcendent success of Hostetter's Stomach Bitters, the leading alterative tonic of the United States, has induced many of these compounders of drams in disguise, to attempt the counterfeiting of this standard medicine, but their efforts have never proved successful on a large scale, and they have themselves in many instances notoriously "come to grief," through the instrumentality of the law.

The genuine Bitters have, indeed, a spirituous basis, but they are emphatically a medicine, since their botanic ingredients are signally efficacious in overcoming and preventing chills and fever, dyspepsia, liver complaint, constipation, and many other disorders.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Brotherham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

The Colonnade Hotel, Philadelphia, Pa., endorsed by eminent and distinguished visitors as a model establishment, will be an exception hereafter to the general complaint of high prices.

No person ever used *Adamson's Balsam* without being able to speak in its favor. Its magical effects affording almost instant relief in the most stubborn cases has won for it a reputation as a remedial agent for coughs and colds, for which the proprietor may well be proud. Price 35cts.—*Boston Advocate.*

It appears that Generals G. T. Beauregard and Jubal A. Early will personally supervise the Semi-annual Drawing of the Louisiana State Lottery Company to take place on the 11th June, at the City of New Orleans. This, of course, assures perfect fairness to all the ticket holders, among whom, as will be seen from the advertisement of the Company in another column, an enormous sum of money is to be distributed in the form of prizes. The Company was chartered in 1868 by Act of the Legislature.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&ctsept157

Notice to Pensioners.

JOHN P. COOPER would inform Pensioners that he will attend to executing and forwarding Vouchers at the Office of W. H. Rollins, Esq., on June 4th, and eight or ten days thereafter.

Piano Tuning.

FERNANDO DE ANGUERA, of Boston, Piano and Organ Tuner and Repairer, will shortly send Mr. A. MIRAULT, one of his very best workmen, to this city for a few days, to attend *only* to the orders left at Preston's Drug Store.

PROPOSALS FOR SUPPLIES.

NAVY PAY OFFICE,
BOSTON, MASS, May 22, 1878.

SEALED PROPOSALS will be received at this office until 12 o'clock, on the 10th of June, 1878, for supplying such quantities of Fresh Beef and Vegetables, Fresh Bread, Water, and for Baking Bread, as may be required at the Navy Yard and Station at Charlestown, Mass., during the fiscal year ending June 30, 1879.

Blank forms of offer, and all necessary information as to specifications and the quantities required, can be procured by applying to the Inspector of Provisions and Clothing at the Charlestown Navy Yard.

C. J. EMERY,
m29-30jo5-6 Pay-Director U. S. Navy.

MEMORIAL DAY.

INFORMATION regarding the location of graves of ex-service men of the war of 1861-65 will be thankfully received by Robert E. Rich at the Library of the Athenæum.

THE CITY.

C. Sullivan & Co. are selling fresh Penobscot river salmon at thirty cents a pound.

The proposed Odd Fellows' Hall on the Melcher lot is flattened out. On Monday evening Piscataqua Lodge sat down on it.

The department of construction and repair at the navy yard has suspended operations until June 1st; cause, lack of funds.

The schooner Grace Choate arrived in the lower harbor on Tuesday with 35,000 pounds of split fish. She will take them to the Gloucester market.

Mr Josiah H. Morrison is reported to be seriously ill in Florida. Mrs. Morrison, on account of whose feeble health Mr. Morrison took his family south, is improving.

The Rochester base ball club have accepted the challenge of the Granite States of this city and will play a game of base ball at the plains on Memorial Day, to commence at one o'clock.

Mr. Fernando de Anguera, the well known piano tuner, in another column announces that he will shortly send to this city a competent tuner to attend to all orders left at Dr. Preston's drug store, and to such orders *only*.

The boilers intended for the Omaha were hoisted from the deck of the schooner Lizzie Wilson, lying under the sheers at the navy yard, on Tuesday. Ox-power was used. The boilers were made at Providence, R. I., and are four in number.

At Concord Railroad wharf, Monday, the best day's work yet at handling coal was done. The men at work discharging the cargo of the steamer Williamsport commenced taking coal from the hold of that vessel and loading it on the cars at seven o'clock in the morning, and when their ten hours were finished one hundred and eleven cars had been loaded and there was about five tons on another car. A car load is ten tons.

A small yellow dog of full cur breed bit a child of Mr. Archie McKowen Tuesday morning at Kittery Foreside. The dog was supposed to be mad, chase was given, and the canine was wounded in the leg. He then ran across the bridge to the navy yard, and as he was not wanted there and his name did not appear on the books of the yard a "still hunt" was instituted; and up to the middle of the afternoon he was still stowed away somewhere on Seavy's island, with two marines armed with sticks and a watchman with a gun in close pursuit, with a fair prospect of killing him if they got a good chance.

The phonograph will be on exhibition this afternoon at four o'clock at Mechanics' Hall, the exhibition continuing until ten o'clock. As a very large number of people will doubtless want to see the wonderful yet simple machine which can whistle, talk, sing hymns or swear, and in fact accommodate itself to any kind of company, and this is the only opportunity likely to be offered for its inspection in this city, the hall will probably be well filled. The machine has recently been on exhibition in Biddeford, and the people there were equally surprised, pleased and amused to hear the junk of iron singing soprano, tenor and bass solos, with the precise accent and tone and quality of voice in which it had been sung to. The admission fee is twenty-five cents.

Mr. W. C. Coup, well known from his former connection with Barnum's circus as business manager, has now a show on the road himself, which he calls the Equescurriculum. It has been exhibiting in Rochester, N. Y., and the *Express* of that city calls it a "grand improvement on the old circus," far more interesting and amusing. A herd of once wild horses—"bronchos" from the plains of Colorado—do everything but talk; and groups of trained dogs, and monkeys and Rocky Mountain goats, also perform wonderful tricks. The huge devil fish captured at Newfoundland some time ago is one of the exhibits, and creates much wonder if not much admiration. There are other attractions in the show, which the *Express* endorses as "one that has not been equalled in Rochester" and "can conscientiously recommend to the people's favor wherever it goes." Mr. Coup expects to set up his "Equescurriculum" in this city some time during the season.

MEMORIAL DAY.

The Memorial Day procession will form on Market square at a quarter past three o'clock P. M., and move promptly at half past three o'clock, in the following order:

City Marshal.
Platoon of Police.
Chief Marshal J. Horace Kent.
Aids: Adolph Nelson, Edwin H. Leslie, Jerome C. Butler, C. S. Robinson, L. B. Marden.
Lieut. Col. Thos. Y. Field, U. S. M. C., Com'd'g.
Dover Cornet Band,
Ralph L. Rennwald, Leader.
First Company U. S. Marines,
Lieut. David Whipple, Com'd'g.
Second Co. U. S. Marines,
Lieut. Randolph Dickins, Com'd'g.
Veterans,
Capt. D. Webster Barnabee, Com'd'g.
Portsmouth City Guards,
Capt. J. Edward Ford, Com'd'g.
Flute and Drum Band,
A. Kay, Leader.
Portsmouth Heavy Artillery,
Capt. Shirley B. Cunningham, Com'd'g.
Strafford Guards, of Dover,
Capt. J. S. Abbott, Com'd'g.
Portsmouth Cavalry,
Capt. Elbridge G. Peirce, Jr., Com'd'g.
Disabled Veterans in Carriages.
Decoration Carriage.
Invited Guests in Carriages.

The route of the procession will be as follows: Through Market and Deer streets to Union Cemetery on Elm street, halting here to allow decoration of graves. Thence through Vaughan, Congress, Islington, Cabot and Middle streets to State, through State, Pleasant and South streets and Sagamore road to the further entrance of the South Cemetery, proceeding through the same to lawn near the soldiers' monument, where the procession will be formed in square, when will take place the following

MEMORIAL EXERCISES.

Selection, Dover Cornet Band.
Prayer, Chaplain Rev. C. A. Holbrook.
Quartette, Chant, "Our days on earth are as a shadow," Male Voices.
Reading of General Order, Comrade James R. Morrison.
Decoration of Graves.
Recall of Procession at sound of bugle.
Volley by Heavy Artillery.
Hymn "America" (one verse) Audience, with Band accompaniment.
Benediction, Chaplain Holbrook.

At the close of the exercises the procession will proceed through the main avenue of the cemetery, and down Richards avenue, thence through Middle and Congress streets to Market square, where a dress parade will take place, Lieut. Col. Field, U. S. M. C., Commanding; Lieut. Andrew P. Preston, Adjutant.

The members of the military companies are requested to appear at the evening Memorial exercises in Music Hall in full uniform, the officers taking seats on the stage.

HIGH SCHOOL REUNION.

At a meeting of the officers of the High School Association on Monday evening, the preliminary arrangements were made for the fourth reunion of the alumni and reception by the graduating class, at Franklin Hall, early in July. The literary committee are perfecting an interesting programme for the first part of the evening; a graduate of the school has been invited to prepare a poem, and other graduates are to furnish the literary and musical entertainment. The music for dancing will be by Harlow's Orchestra. At the Association meeting last year an amendment to the constitution was adopted fixing the membership fee at one dollar. Any person who has ever attended the high school can obtain a certificate of membership of George E. Hodgdon, Esq., or Mr. C. A. Hazlett. This certificate will entitle the member to tickets of admission to the hall each year, but in order to obtain admission this year the certificate *must* be procured on or before the 28th of June. The number of complimentary tickets has been strictly limited by the officers, and the balance will be equally divided among the certificate holders on the 29th of June.

[Communicated.]

CATS.

These animals well repay kind and proper treatment, but if they are starved and allowed to become bony and slab-like, voracious and ravenous, they make objects very painful to behold, and cannot be otherwise than dangerous to children in a bodily sense, but more particularly as regards those refinements and sensibilities which distinguish mankind. Either feed them properly, or dispose of them to nutrify your grape vines and fruit trees. A. J. PENHALLOW.

THE VICINITY.

The annual meeting of the stockholders of the Portland, Saco & Portsmouth Railroad will take place next Monday in the railroad building at Kittery.

One of Sunday afternoon's showers passed over Biddeford. There was a heavy rain, accompanied by thunder and lightning and hail, but no damage was done.

Russ B. Walker, Esq., of Boston, proprietor of "Star Cottage" at Fortune's Rocks, near Old Orchard beach, caught the first cunners of the season at that point on the morning of May 27th.

Charles Herbert, of Rowley, Mass., for twelve years clerk at the United States Hotel, Boston, and two years clerk of the St. James, has been engaged in the same capacity for the Sea View House at Rye Beach.

RYE LETTER.

RYE, May 25th.

The reform club gave a very successful literary entertainment on Wednesday evening last at the Town Hall, which was filled with an interested audience. The exercises were directed by Pres. Leavitt of the club. The Rye Cornet Band aided much in the success of the affair, and opened the entertainment by a tune, which was followed by a prayer by Rev. Mr. Jones. Then came a declamation by Master H. Craig Bowdish, "Take a little," followed by Mrs. Bowdish reading "The lips that touch liquor shall never touch mine." Isaac D. Foss recited "When daily I kneel down to pray;" and "Civilization against alcohol" was given by Freeman Marden. A song, "When tempted to wander, in answer say no," was then sung by Misses Ella Philbrick, Zetta E. Bunker, Vina Leavitt, Augusta Drake and Alice Foss, and Messrs. S. W. Foss, C. W. Rand, G. S. Bunker and J. E. Leavitt; F. B. Jenness gave a dulcimer solo; Miss Ida Philbrick recited "A temperance story," Master Wilmer Hall "Go speak to the drunkard," Miss Carrie Keene "The venomous snake in the glass," and Mrs. Hosea B. Philbrick "A vision of drunkenness." The choir then sang "Sign the pledge," Miss Z. E. Bunker accompanying on the melodeon; Miss Estella Foss recited "Somebody's darling's in danger," and Miss Minnie Foss "Star of the temperance banner," which was followed by a dialogue, "Taking the census," by Masters C. Leavitt Jenness and Joseph Philbrick, and Misses Estella Goss and Innia Marston. Another song by the choir was given; then a declamation by Master Fred Delany, "What! rob a poor man of his beer?" and the exercises closed with music by the band. The pledge book was then circulated and a number of new names were added to the list.

Mr. George G. Lougee, proprietor of the Sea View House, is having the roof of his hotel covered with Knoxen & Co.'s patent roofing paint, and Mr. J. Disco Jenness is serving his buildings the same way. The large addition to the Farragut House is about finished, and ready for guests. Mr. L. S. Sanborn's new cottage is nearly completed, and is already rented for the summer by Col. Robert Lincoln and family. Mr. C. S. Jones has a new barn under way on the South road, Charles A. Dearborn and Charles Marden of Greenland being the carpenters.

A rabid dog belonging to the Farragut was killed on Friday of last week by some person whom he attempted to bite. He had previously tried to bite a number of citizens, but his owner refused to have him killed. SCRIBE.

—A fool and his father's money are soon parted.

—A French scientific authority states that the ordinary rate of a man's walking is four feet per second; of a good horse in harness, twelve; of a reindeer on a sledge on the ice, twenty-six; of an English racehorse, forty-three; of a hare, eighty-eight; of a good sailing ship, fourteen; and of the wind, eighty-two.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

REAL ESTATE AT AUCTION.

Portsmouth Chronicle

—That May-Bennett duel was a sad affair. It is now proved that they fought with cannon at ten paces, which accounts for the shower of fresh meat that fell in Kentucky some time previously.—*Graphic.*

—Scene in a horse-car. Seats all occupied. Enters a person dressed as a lady. Bright little boy rises and offers his seat. Lady drops into it, with an air of slight disdain. Boy—"O, I beg your pardon; did you speak?" Lady—"No, I didn't say anything." Boy—"O, ex cuse me; I thought you said thank you." Lady, in high dudgeon—"You may have your seat." Boy (resuming it)—"Well, I'll thank *you*." Passengers convulsed. Lady disappears at next street-crossing.—*Boston Transcript.*

—Sensational stories are not the exclusive production of American writers. In a tale published in England there is a climax in this piling up of horrors which should freeze the blood of the reader. The criminal on trial "vaults over the dock's high railings, descends to the barrister's table, skims its surface like a swallow," and clutches at the sheriff's collar. The sheriff stabs him with a dagger, and the ruffian glares at him for a moment, and then, lifting his heavily ironed hands, brings them down on the other's head with terrible force. The Sheriff falls. The judge faints. The hangman seizes the culprit—and the court adjourns.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Sprains, and any fresh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. taug

INVALIDS' HOTEL.
The very large number of invalid people who daily visit Buffalo from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, the widely celebrated Chief Consulting Physician in Medicine and Surgery associated with him, rendered it necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.
ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.
CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialties.
DISEASES OF WOMEN.—Especially are the facilities of this infirmary of a superior order as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and the hypochondriac fancies, are not neglected.
NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, by which the greatest skill is attained and the most happy results secured.
LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated in this department, and with results which have been highly gratifying to the patients and friends.
EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.
Invalids arriving in the city and desiring to consult us, should come directly to the Hotel. It is easily found, being on the corner of Main and Court streets. MILLER'S Omnibus Agents, on all incoming trains, can be relied upon to deliver passengers and baggage with security and dispatch.
☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. 6Uyr2578
H. HALLETT & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M.; 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodtuoyl1

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE
LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the traveling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy cross ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1Ueb20 79
FRANK THOMSON, L. P. FARMER,
General Manager. *Gen. Passenger Agent.*
C. S. HALDEMAN, New England Agent,
203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 8 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.

DOCTOR PIERCE'S
ALTERATIVE
Golden Medical Discovery
CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are given a positive relief, the discovery of medicines has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most constitutional diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness"** in many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable after July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words in old words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has only robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should lavish in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

ANTI-FAT
The GREAT REMEDY for
CORPULENCE.
ALLAN'S ANTI-FAT
is purely vegetable and perfectly harmless. It acts upon the food in the stomach, preventing its being converted into fat. It does away with all inconveniences with all corpulent persons, and reduces a fat person from two to five pounds per week.
"Corpulency is not only a disease itself, but the harbinger of others." So wrote Hippocrates two thousand years ago, and what was true then is none the less so to-day.
Sold by druggists, or sent, by express, upon receipt of $1.50. Quarter-dozen $4.00. Address,
BOTANIC MEDICINE CO.,
Proprietors, Buffalo, N. Y.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60; and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 2 cents extra for each Cake.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potassium and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Boils or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness; and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation for its intended purpose.*"

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

CATARRH

IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitis, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, in many instances, a case of simple but neglected Catarrh. Other sympathetic affections, such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as minor but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

IT can be cured. There is no doubt about it. The immediate relief afforded by SANFORD'S RADICAL CURE FOR CATARRH is but a slight evidence of what may follow a persistent use of this remedy. The hard incrusted matter that has lodged in the nasal passages is removed with a few applications; the ulceration and inflammation subdued and healed; the entire membrane lining of the head are cleansed and purified. Constitutionally its action is that of a powerful purifying agent, destroying in its course through the system the *acid poison,* the destructive agent in catarrhal diseases.

A COMPLICATED CASE.

Gentlemen,—My case is briefly as follows: I have had catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had dropping in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy or it is alleged I would be unable to do my work and sleep, and a constant dull pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of SANFORD'S RADICAL CURE. My hearing is fully restored. I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the CURE on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the RADICAL CURE.

Very respectfully, C. H. LAWRENCE.

FITCHBURG, Oct. 14.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the RADICAL CURE of me, and from time to time made my familiar with its success. I believe his statement to be true in every particular. JAS. P. DERBY.

FITCHBURG, Oct. 14.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price, $1. For sale by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

Daily Chronicle.

KITTERY CHURCHYARD.

BY CELIA THAXTER.

Crushing the scarlet strawberries in the grass,
I kneel to read the slanting stone. Alas!
How sharp a sorrow speaks! A hundred years
And more have vanished, with their smiles and tears,
Since here was laid, upon an April day,
Sweet Mary Chauncey in the grave away.
A hundred years since here her lover stood
Beside her grave, * * *
I look away
From the dark stone; how brilliant shines the day!
A low wall, over which the roses shed
Their performed petals, shuts the quiet dead
Apart a little, and the tiny square
Stands in the broad and laughing field so fair,
And gray green vines climb o'er the rough stone wall,
And all about the wild birds flit and call,
And but a stone's throw southward the blue sea
Rolls sparkling in and sings incessantly.
Lovely as any dream the peaceful place,
And scarcely changed since on her gentle face
For the last time on that sad April day
He gazed, and felt, for him, all beauty lay
Buried with her forever. Dull to him
Looked the bright world through eyes with tears so dim!
"I soon shall follow the same dreary way
That leads and opens to the coasts of day."
His only hope! But when slow time had dealt
Firmly with him and kindly, and he felt
The storm and stress of strong and piercing pain
Yielding at last, and he grew calm again,
Doubtless he found another mate before
He followed Mary to the happy shore!
But none the less his grief appeals to me,
Who sit and listen to the singing sea
This matchless summer day beside the stone
He made to echo with his bitter moan;
And in my eyes I feel the foolish tears
For buried sorrow, dead a hundred years!

Washington Correspondence.

WASHINGTON, D. C., May 27th.

The political atmosphere has cleared sufficiently since the passage of the Potter resolution to enable the average democratic mariner to take an observation and get his bearings; and he is a good deal surprised and not a little frightened to find himself heading straight for the breakers instead of having the abundant sea-room he supposed he was making through the adoption of that revolutionary measure. The regret of many whose judgment and better impulses condemned the scheme from the first, but who allowed themselves to be bullied into a seeming endorsement or were swept from their moorings by the flood-tide of party feelings, becomes more and more apparant. They are on record as guilty of a willful violation of the spirit of their pledge to cheerfully acquiesce in the decision of their own tribunal for the final settlement of a matter they have deliberately voted to re-open. They stand self-convicted as well, of the meanest ingratitude toward the Administration. No explanation can relieve them of the odium of having placed themselves in the attitude of disturbers of the public peace. They just begin to realize that hundreds of thousands of men vitally interested in the revival of business will hold them to a strict accountability for its postponement and the aggravation of present suffering and distress, just to the extent these result from their ill-advised partisanship. Altogether their present position is not an enviable one. They find themselves confronted, whichever way they turn, with consequences of the most serious import. Just as they were felicitating themselves on a probable return to national control, they yield the reins to a handful of Tilden incendiaries, who, forgetting all the bitter lessons of their long sojourn in the wilderness, uncover their cloven hoofs, and dreams of the "flesh pots" vanish in thin air. As if to make matters worse and confirm the suspicions they have aroused, the members of the Democratic National Committee add the weight of their approval to the scheme to Mexicanize the country. The expose has come at a good time. However anxious we have been to believe the South perfectly conciliated the recent events have forced us to drop sentiment and look the situation squarely in the face. We find ourselves without the shadow of an assurance that the democratic party is now one whit more to be trusted than it was when forced from the seat of power in 1861. No one conversant with the past history of parties in this country has forgotten with what a small show of reluctance and with what unanimity the representatives deliberately violated the Missouri compact, when they fancied it was more to their advantage to break rather than keep it; and we still remember how the overt act of treason in the late war was fittingly preceded by wholesale perjury on the part of the men who deserted their seats in Congress to plunge into the maelstrom of rebellion. The efforts of Mr. Stephens, and of a few others too conscientious or honorable to yield to the threats to arraign them as traitors to their party and procure their excommunication as heretics if they dared oppose, have had no effect in diverting from

their purpose the conspirators against the country's peace. Their appeals to be heard were howled down, and their protests have been greeted with angry denunciations, derision, or the most contemptuous indifference. Carter Harrison was brow-beaten and bullied into a deprecating explanation of and a hasty withdrawal of his resolution declaring it no part of the programme to assail the Presidential title. The statement recently current here that the President had urged republicans to accept the terms offered by Stephens and his little handful of democrats as the price of his aid in holding him in his seat has been denied. The President is reported, however, as a good deal disturbed over the situation, and does not hesitate to denounce "conciliated" democrats for their ingratitude. Mr. Sherman, at no time probably a very ardent conciliator, has practically repudiated that whole miserable business. He tells them they are bull-dozers and liars, and flings in their faces charges of the most shocking atrocities, and offers to prove them if they dare give him the opportunity. He fairly puts them on the defensive, and defies them to do their worst. The republicans refused to vote on the Wilson amendment because from its very wording they were satisfied it was not offered in good faith. They mean the conspirators shall bear all the odium they have earned by refusing to allow rebutting testimony against the *ex parte* statements of their witnesses now here and being instructed in their parts. The composition of the republican part of the committee is satisfactory. The appointment of Reed, a new member from Maine, was due to the reputation he has already made as a man of exceptional ability. His one speech on Goode's proposition to endow the rebel college in Virginia gave him a more enviable reputation than many gain by all the speeches of a lifetime, almost, in Congress. KNOX.

Daily Chronicle

THURSDAY, MAY 30, 1878.

Throwing off the Mask.

The minor fraud organs and some of the prominent fraud leaders, astonished and alarmed at the insight obtained by the republicans into the purposes of the fraud movement, and its exposure to the people by the republican press, have attempted to break the force of the public indignation by either denying that the fraud democrats mean the Mexicanization of the country, or feebly affecting to laugh at the apprehensions of all upholders of the American form of government. But the Washington *Post*, the recognized central organ of the democratic party, says:

No attention will be paid to the radical yell of "revolution." Revolution means shooting and throat-cutting. We propose nothing of this order except in self-defense. Again we assert that the democratic party is entitled in law, equity and morals to control of the government, *and means to have it*. That ought to be an intelligible declaration. It certainly is a pacific declaration, and one that we shall stand to.

That is certainly an "intelligible declaration." The *Post*, more than any other paper in the country, is the acknowledged exponent of democratic principles and creed; and this central organ plainly declares that the fraud movement is intended to effect a revolution—for its talk about revolution not being revolution at all unless it is accompanied by plenty of murder, and about the democratic conspirators not proposing to shoot or cut the throats of the supporters of the American system of government unless the latter oppose their treasonable schemes, amounts to nothing.

But an authority even higher than the Washington *Post* also declares the purpose of the fraud democrats to be to overthrow the government, either with or without the sanction of the law. Clarkson N. Potter, the chief marshal of the movement of which Tilden is the consulting engineer, who introduced the fraud resolutions in the House and is chairman of the fraud committee, has published a long letter—ostensibly to "a friend" but really to the public—in which he seeks to allay the public apprehension of another democratic revolution by saying:

You suggest that to raise a question about the last Presidential election will bring on a disturbance or revolution. Not at all. About that possess yourself in peace. There is not the slightest chance of a revolution or disturbance. When the whole country was at fever heat on the subject of election, a way was found to establish a tribunal to pass upon the election, and every one submitted to that determination. The President's title rests upon that. If now it should appear that there was fraud, which palpably affected the Electoral vote, and which the Commission did not notice, and if a legal remedy exists for correcting the error, you cannot believe such a proceeding, under the law, could lead to a disturbance. *If there be no such legal remedy* existing and Congress should hereafter by the approval of the President, or by a vote of two-thirds of both houses without that approval, provide one, why should the legal determination thereafter had any more produce disturbance than the decision of the Electoral Commission did?

In the preceding paragraph Potter fully acknowledges all that has been imputed to him and the other originators of the fraud committee by the republicans. Why he wrote the letter is hard to discern, unless he hoped to convince the American people that they desire the Mexicanization of their country, and would rather enjoy a revolution than otherwise if only they were not murdered while it was in progress. He clearly enough declares that his party means to reject the decision of the Electoral Commission which his party established, and to annul the action of Congress under the Constitution. "If there be no *legal* method of turning out Hayes," he in substance says, "and Congress should still decide to turn him out, why should such a little thing as that produce a disturbance?" The only reason is that such a course would be revolution, absolute and complete, and the utter destruction of popular government; and it would make no difference whether the crime was accomplished without bloodshed, or cost thousands of lives. If the Constitutional method of electing President is thrown aside and a President not so elected is seated by a mere act of Congress, passed "with or without the President's approval," it will not be long before a candidate's power to control the army will have more influence on his election and subsequent retention of office than all the votes in the country. Not even to please Mr. Tilden, we fancy, are the American people yet ready for government of this kind.

Portsmouth, Great Falls & Conway Railroad Bonds.

The President of the Eastern Railroad makes the following announcement to the bond holders of the P., G. F. & C. R. R.:

The Directors of the Eastern Railroad Company regret to announce that, though the question of their power to pay the interest on the bonds of the Portsmouth, Great Falls & Conway Railroad Company was submitted to and argued before the Supreme Judicial Court with all possible despatch, no decision has yet been rendered; if no decision should be reached by June 1st, they will repeat their former action, and, as security for the bondholders, will set aside a fund equal to the interest accruing June 1st, 1878, and to be appropriated solely to paying that interest, should the Court decide in favor of the right of the Company to pay it.

The case in Massachusetts has not been decided as yet. Should it be decided adversely to the bondholders the matter is likely to come before the courts of this State in an action now pending involving the determination of the same question.

Concord Railroad Meeting.

The annual meeting of the stockholders of the Concord Railroad was held in Concord on the 28th inst., Hon. Onslow Stearns, President of the road, presiding. Hon. Daniel Barnard of Franklin moved that the report of the Directors be accepted and placed on file. John H. Pearson moved that the report lie upon the table, as he had some questions to ask in relation to the report. A motion to substitute Pearson's for Barnard's motion was carried. A motion to ballot for the Board of Directors for the ensuing year passed, with the following result:

Onslow Stearns of Concord	16,520
James W. Johnson of Enfield	16,492
Frederick Smyth of Manchester	16,520
Joseph P. Pitman of Laconia	16,520
John A. Burnham of Boston	16,530
Samuel N. Bell of Manchester	16,530
J. Thomas Vose of Boston	16,530
Nathan Parker	10
John H. Pearson	100

Mr. Pearson, who bought stock in the road with a ring, the others of which sold out before he had a chance, made his annual grumble as to the management of the road, and offered the customary resolutions for an investigation by a committee of his own selection. He seems unwilling to see that his former co-workers having sold out to the managers of the Northern and the Boston, Concord & Montreal railroads there is nothing for him to do but to acquiesce. Having delivered himself of his opinion of Gov. Stearns and the late Mr. Lyons, Mr. Pearson subsided. Col. George then rattled around his ears sufficiently to convince him that he was in a weak minority, consisting of himself, and the resolutions were put on the table, the meeting then dissolving for the more inviting exercise of dinner.

Congress.

The Senate on Tuesday, May 28th, passed the House bill forbidding the further retirement of legal tenders. This is expected to end financial legislation for this session.

The House concurred in the Senate amendment to the House bill repealing the bankrupt act, and the bill now goes to the President for signature.

The House on Wednesday passed a resolution fixing the time of adjournment at the 17th of June.

Hon. Frank Jones has introduced a bill for the relief of Tappan S. Carter. We believe Mr. Carter was a Postmaster at Hampstead and that he figures his commission one way and the Post Office Department have another way and have seized his bond. Mr. Jones has also presented the petition of sixty book-binders, paper-makers and others against allowing the tariff on books and the materials of which they are made.

News and Notes.

Earl Russell died on the night of May 28th, at his residence at Richmond, near London.

Waterman, the embezzling paymaster of the Pacific Mills at Lawrence, has been sentenced to twelve years in State prison. A few more such just sentences will tend to put a check on high-toned thieving by wholesale.

The Salisbury Mills property in Amesbury and Salisbury, Mass., was sold at auction on Wednesday to John Gardner of Boston for $160,000. The property comprises nine mills, the water power and gas works of Amesbury and Salisbury, 180 tenements, 26 stores, of which the rental is $15,000 and over a year, besides 200 acres of land, 3000 acres of reservoirs and a magnificent water power. It cost nearly a million and a half dollars.

To Jan. 1st, 1878, there were 7603 bankrupt cases in Massachusetts, of 9878 persons. The House has passed the Senate bill, and no more of this after Sept. 1st will be seen.

The movement of grain at Chicago on Tuesday, May 28th, was heavier than ever before. Counting flour as wheat the total receipts were 997,674 bushels, and total shipments 741,072 bushels, making an aggregate of 1,738,746 bushels.

A new weekly paper has been established in Warner named the "Kearsarge Mountain Telephone and National Plaindealer." If items are even taken from its columns by other papers they will be stolen. for no country office has enough italic type to give credit to a paper with a name like that.

Naval Affairs.

The Navy Department is informed that the Tennessee, late flagship of the Asiatic station, was at Ville Franche May 1st on her return to the United States.

Pay Clerk Warner, who was removed by Com. Nicholson of the Brooklyn navy yard at the request of Pay Director Eldredge, because he testified before a Congressional committee, has been reinstated by the Secretary of the Navy. A report to the Senate states that Paymaster General Cutter had nothing to do with the removal.

Political.

In Boston, May 28th, John P. Spaulding, republican, was chosen alderman to fill the vacancy caused by the death of Samuel C. Perkins.

It is reported from Washington that negotiations are in progress by which all prosecutions in South Carolina of republicans for swindling and stealing, and of democrats for political murders and violence, are to be mutally stopped.

When Don Pottero's revolutionary junta was first appointed the democrats announced that "all the meaty evidence can be formulated and given to the country in fifteen days." The time set is nearly up, and not a single pronunciamento has yet been issued.

McLin of Florida having disappeared, a trusted agent of the Tilden fraud party has been sent to Florida to catch him and quicken his conscience some more.

What is to hinder the Senate from starting an investigation? It might begin with the Gramercy Park dispatch—"If you make obligation contingent on result in March, it can be done and incremable slightly."—*Cin. Gaz.*

The greenback infatuation is like the measles—it goes through the family. Maine is suffering from an attack now. It will be New Hampshire or Massachusetts next. The Western States have passed through its different phases, and are returning to sound ideas on the subject of the currency.—*Cin. Com.*

The sale of Sarsaparillas for blood and liver medicines is almost entirely superseded by the introduction of Dr. Pierce's Golden Medical Discovery, which far surpasses in efficacy these old-time medicines.

AT AUCTION.

On Saturday, June 1st,

At 10 o'clock, A. M.,

House cor. Union and Austin Streets.

☞ It is in complete repair, and contains nine rooms; has a good STABLE, and 81 feet of LAND running on Austin Street. A choice lot of Pear, Apple and Cherry TREES, all bearing, goes with the Property.

GEORGE T. VAUGHAN.

Tax Notice.

NOTICE IS HEREBY GIVEN that property on which the Taxes for the year 1877 are not paid on the 31st inst. must be advertised to be sold, to pay the same, with incidental expenses.

JAMES MOSES, Collector.

May 28, 1878.

THE

BUCKEYE

Mowing Machine.

Continues to be the model of perfection, so that almost every manufacturer strives to pattern after and to equal it if possible. It has been and is still the aim of its manufacturers to apply every useful improvement and to reject everything that might detract from its merits. This rule has enabled them to produce a machine of wonderful simplicity and of great durability, coupled with remarkable ease of draft and of management. The fact that any piece that may be desired for any machine manufactured by this company for more than twenty years past, can readily be obtained, is a sufficient guaranty for a future supply. This combination of merits should convince all farmers that this is the most profitable and satisfactory mowing machine for them to buy. The prices are also made to meet the demands of the times, and parties are invited to examine these machines before purchasing elsewhere.

— ALSO FOR SALE —

SECOND-HAND MACHINES,

Of various makes for from $10 to $20 each.

The above machines, with repair pieces, for sale by 6jy28

E. B. PHILBRICK, Agent, *Rye Beach, N. H.*

E. G. PIERCE, JR., P. M.

THE CITY.

Steamer Appledore will make a trip to Boston between the 5th and 15th of June.

To-day being Memorial Day and a legal holiday, no paper will be issued from this office to-morrow.

The post office delivery hours to-day will be from 8 to 11:30 A. M. and 5 to 6 P. M. Box office open all day.

Mr. Wm. B. Lowd has removed his book store and book bindery from Exchange Building to No. 22 Daniel street.

Paymaster George R. Watkins, who came to this naval station on the U. S. S. Omaha, is so well pleased with our city that he has, with his family, taken up residence in our midst.

The survey of the narrow-gauge railroad from Brattleboro', Vt., to South Londonderry, is begun. Mr. W. A. Haven, of West Rochester, N. Y., a native of this city, has been appointed engineer of the road.

We would call attention to Mr. George T. Vaughan's advertisement of the sale of his house at auction on Saturday next. It offers a rare chance to secure a pleasant home in the most beautiful part of the city, or a desirable house for rental.

Among the recent improvements made in their places of business by the merchants of the city is the refitting of the store corner of Market and Bow streets, by C. Sullivan & Co. They have completely renovated it; the walls have been painted, wood work grained, and everything possible done to facilitate business and insure freshness of provisions to customers. Meat, vegetables and fish of all kinds will be kept on hand, the fish department to be run by Mr. Oliver Downs, while the other provisions will be served out by Mr. John Holland, formerly with Mr. Elihu Dennett.

MEMORIAL DAY.

Some changes having been made in the programme for to-day, we republish the official order, corrected:

The Memorial Day procession will form on Market square at a quarter past three o'clock P. M., and move promptly at half past three o'clock, in the following order:

City Marshal.
Platoon of Police.
Chief Marshal J. Horace Kent.
Aids: Adolph Nelson, J. P. Tibbetts, J. C. Butler, O. M. Knight, C. S. Robinson, L. B. Marden.
Lieut. Col. Thos. Y. Field, U. S. M. C., Com'd'g.
Dover Cornet Band,
Ralph L. Remwald, Leader.
First Company U. S. Marines,
Lieut. David Whipple, Com'd'g.
Second Co. U. S. Marines,
Lieut. Randolph Dickins, Com'd'g.
Veterans,
Capt. D. Webster Barnabee, Com'd'g.
Portsmouth City Guards,
Capt. J. Edward Ford, Com'd'g.
Flute and Drum Band,
A. Kay, Leader.
Portsmouth Heavy Artillery,
Capt. Shirley B. Cunningham, Com'd'g.
Strafford Guards, of Dover,
Capt. J. S. Abbott, Com'd'g.
Portsmouth Cavalry,
Capt. Elbridge G. Peirce, Jr., Com'd'g.
Disabled Veterans in Carriages.
Decoration Carriage.
Invited Guests in Carriages.

The route of the procession will be as follows: Through Market and Deer streets to Vaughan, where the procession will halt to allow time for a detail to decorate the graves in Union Cemetery. Thence through Vaughan, Congress, Islington, Cabot and Middle streets to State, through State, Pleasant and South streets and Sagamore road to the further entrance of the South Cemetery, proceeding through the same to lawn near the soldiers' monument, where the procession will be formed in square, when will take place the following

MEMORIAL EXERCISES.

Reading of General Order, Comrade James R. Morrison.
Selection, Dover Cornet Band.
Prayer, Chaplain Rev. C. A. Holbrook.
Quartette, Chant, "Our days on earth are as a shadow," Male Voices.
Decoration of Graves.
Recall of Procession at sound of bugle.
Volley by Heavy Artillery.
Hymn "America" (one verse) Audience, with Band accompaniment.
Benediction, Chaplain Holbrook.

At the close of the exercises the procession will proceed through the main avenue of the cemetery, and down Richards avenue, thence through Middle and Congress streets to Market square, where a dress parade will take place, Lieut. Col. Field, U. S. M. C., Commanding; Lieut. Andrew P. Preston, Adjutant.

There have been at least twenty-five hundred applications for tickets for the Memorial exercises in Music Hall, but as the seating capacity is only twelve hundred, only that number of tickets could be issued, with some standing tickets. It was last Friday announced that the slips could be had on Monday, and those who did not apply early have only themselves to blame for their disappointment. The committee in charge of tickets are certainly not to blame. Every soldier and sailor of the late war and veterans' widows and orphans have been furnished with tickets in every instance where applicants made such facts known. Positively no children will be admitted to Music Hall unless accompanied by their parents, and no person can gain admission without the necessary ticket. The exercises are to commenced promptly at eight o'clock. The doors will be opened at 7:15 precisely.

Citizens are requested to leave loose flowers and special decorations (the latter properly marked with the name and location of the grave) at upper Franklin hall, as early as possible to-day.

Residents along the route of the procession are requested to display flags, and also to supply water for the benefit of the soldiers in line.

POLICE COURT.

WEDNESDAY, May 29; *Batchelder, J.*

George Tighe, charged with drunkenness, acknowledged that the charge was correct, and was ordered to pay $9.90, fine and costs. He appealed, and was given one day in which to procure sureties in $50 for his appearance at the higher court.

THE GREENBACKRACY.

A Greenland subscriber writes us, propounding the following hard conundrum:

Mr. Editor: In my GAZETTE of May 16th I find an article on "The greenback party," but after careful reading of the same more than once I am unable to decide whether you consider that party a veritable cave of Adullum, or a skillfully contrived flank movement of the democrats, led by their ablest and most trusted managers. Which view do you take?

INSPECTOR.

We have no particular views, either way; we are almost as much puzzled to understand why and how the new party has sprung up here as we are to understand its platform, and it seems as just hard to find out about one as about the other; and how difficult it is to arrive at an understanding of the platform will be recognized when we say that a couple of brief queries which we put to the greenbackers, as to what need there was of "the credit of the people" or any other credit being behind an irredeemable and consequently worthless currency, and as to the propriety of taxing the people for the expenses of the government when the government can make millions of dollars of "absolute money" by the mere revolutions of a printing press, were answered by one of our greenback friends in a two-column letter—in which he did not in even the most remote degree refer to the questions we asked!

As it is quite possible that some of our readers, not so well posted in sacred history as "Inspector" and ourself, may not understand his allusion to the cave of Adullam, we will explain that many years ago, in another land and under another form of government, a leading politician of the day, dissatisfied with his treatment by the head of the administration, started a new party and rented the cave of Adullam for headquarters, where "every one that was in distress, and every one that was in debt, and every one that was discontented, gathered themselves unto him; and he became a captain over them." That does look a good deal like a pen-portrait of the greenback party, at the first glance, and no mistake; but some few of the recruits to that party are neither badly distressed, nor over head and ears in debt, nor politically disgruntled, so far as we are aware.

Take the "Sheldon boys," for example. They have always been industrious and thrifty, and never "asked anything of the party" though always earnest in its support. We place no faith in the base slander which says that our friend Stewart A. Sheldon once lost the cigars on a bet that he could repeat the ten commandments, by reciting without the omission of a single word the long-winded platform of the Democratic National Convention at which John Morrissey nominated Tilden; but the democracy of the Sheldon boys was always way up above par. Yet now they are leading men in the new party, and actually voted for its candidates at the last election.

Then there is Col. Nat. Wiggin. He has always been a republican, is in good circumstances, and we don't think can be classed with the political screheads; but he too has wandered from the path of virtue in search of strange gods, and joined the greenbackers. Nat's prompt nomination for office by his new party friends gives color to the suspicion that greenbackism is but a democratic flank movement on the republican position.

Howe Call, Esq., was a trusted and honored democratic leader until he either went over of his own accord, or was sent over by the inner ring of democratic managers as a trusty agent of the party, to lead the greenback hosts. There are not wanting those who believe Mr. Call is still much nearer the heart of the central democratic ring than are many of his denounces among the would-be local democratic leaders. And won't the latter look askance when they see Mr. Call running for Congress, and drawing very heavily on the democratic ranks for votes to send him there?

George E. Hodgdon, Esq., late delegate to the Greenback National Convention, the democrats assert to be a true Adullamite. They say he wanted to be harbor master or United States Senator, or something of the kind, and when he didn't get the coveted position he "soured on the party." What wonder? Mr. Hodgdon was the inventor of "old ward six," where the marine barracks at the navy yard, the Gloucester fishing fleet and the Cambridgeport iron foundries all lent a hand at rolling up democratic majorities, and where it was demonstrated that the count is mightier than the ballot. If such a benefactor of the party could not get anything he chose to ask, it was quite proper for him to be indignant. But his old party associates had some excuse for not giving him high office, notwithstanding his able service in the gerrymander days, for they remembered that his patriotism once rose above party, and that he went to the front to help prevent his party destroying the Union. Our decision in his case is that he properly belongs in the cave of Adullam.

As to the greenback candidates for Governor and Railroad Commissioner at the last election, Samuel Flint of Lyme and Lemuel P. Cooper of Croydon, they have been Adullamites—in the interests of the democratic party—ever since we can remember. They have always been "discontented," and always travelling with side shows. Mr. Flint was the labor reform candidate for governor in 1870, and Mr. Cooper was nominated by the same party in 1871 and '72. They are entitled to a place in the cave of Adullam by preemptive right.

There. That's all we know about the greenback party. We cannot understand—few newspaper men can—how untold wealth can be ground out of a printing press; neither can we understand how the "credit" of any man, or party, or nation, that with abundant ability to pay all honest debts refuses to pay any of them, and yet talks magnilloquently about "honor," can be of any value whatever. If "Inspector," after reading the foregoing, should find that he understands anything about the want of principles of the greenback party, we wish he would accord us an hour's interview.

THE VICINITY.

A trout nineteen inches long and weighing three pounds was dipped up below the Cataract falls in Saco one morning this week, by a young man who was dipping for alewives.

The Dover *Democrat* reports that a willow tree in that city, and the barn of Charles Hayes in Rollinsford, were struck by lightning during one of the showers of the 26th inst. No great damage was done to either.

Deputy Sheriffs Hanson and Grant made a large seizure of liquors at the Eastern depot in Saco about three o'clock on the morning of May 28th: In a small room of the depot they captured sixty-five gallons of liquor. There were six ten gallon kegs and one five gallon keg.

MARRIAGES.

HOXIE—REAM. In Washington, D. C., May 28, Lieut. R. L. Hoxie, U. S. A., and Miss Vinnie Ream.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

New Hampshire Items.

The fire at Suncook on the 28th inst., already reported, destroyed three buildings, one of them a five-tenement block tenanted by five French families, who lost from $300 to $500 each on furniture. The total loss was $10,500, with $4600 insurance. Fire incendiary.

John Pass, a driver of an Eastern Express wagon at Great Falls, was thrown from his carriage on the 28th inst., receiving injuries which, it is feared, will cause his death. The accident was caused by a broken bit, the horse running away.

There is no essential improvement in the condition of Rev. Nathaniel Bouton, the State Historian, who has been ill for some weeks. He is said to be failing each day.

According to previous notice a cut down, or rather averaging of wages, on the Amoskeag, Stark, Langdon and Manchester corporations took place at Manchester Tuesday. No strike was apprehended and none occurred.

Mrs. Polly Hutchinson, the oldest inhabitant of Gilmanton, widow of the late Capt. William Hutchinson, who served in the Revolution, died May 24th, aged 96 years.

A Manifest Absurdity.

It is manifestly absurd to claim for a mere stimulant, tonic and alterative properties. Yet this is what is daily done by the vendors of cheap local sitters, colored to make them look attractive, and agreeably flavored, but the alcoholic basis of which is of the vilest and most hurtful description. The transcendent success of Hostetter's Stomach Bitters, the leading alterative tonic of the United States, has induced many of those compounders of drams in disguise, to attempt the counterfeiting of this standard medicine, but their efforts have never proved successful on a large scale, and they have themselves in many instances notoriously "come to grief," through the instrumentality of the law.

The genuine Bitters have, indeed, a spirituous basis, but they are emphatically a medicine, since their botanic ingredients are signally efficacious in overcoming and preventing chills and fever, dyspepsia, liver complaint, constipation, and many other disorders.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $400. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

The Colonnade Hotel, Philadelphia, Pa., endorsed by eminent and distinguished visitors as a model establishment, will be an exception hereafter to the general complaint of high prices.

No person ever used *Adamson's Balsam* without being able to speak in its favor. Its magical effects affording almost instant relief in the most stubborn cases has won for it a reputation as a remedial agent for coughs and colds, for which the proprietor may well be proud. Price 25cts.—*Boston Advocate.*

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&eltsept15 7

Centaur Liniments.

More than 1,000,000 bottles of the new celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tasg

INVALIDS' HOTEL.

The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. Pierce, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered necessary that the founder of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.

ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.

CHRONIC DISEASES of all forms, whether requiring medicinal, surgical, or mechanical treatment, come within the province of our several specialties.

DISEASES OF WOMEN.—Especially are the facilities of this institution of a superior order, as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to enliven and arouse the sluggish circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the apartment, the cheering influence of music, social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from despondency, and thus promote recovery, are not neglected.

NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, receive the attention of an *expert* in this specialty, by which the greatest skill is attained and the best results secured.

LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of eminent skill and success. Bronchial, Throat, and Lung Diseases are very largely treated by this department, and with results which have been highly gratifying to both physician and patients.

EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.

Invalids arriving in the city and desiring to consult us, should enquire directly to the Hotel. It is easily accessible by carriage, omnibus, or street cars. Mr. DENNIS SHEA, and his celebrated Hotel Omnibus are relied upon to deliver passengers and baggage with security and dispatch.

☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $30 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, G&y3&78
H. HALLETT & CO., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases not all blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnov11

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are based on a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed:
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 10&30 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Complete in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these Floating Palaces at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route.
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 25, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.

CURES DISEASES OF THE
THROAT, LUNGS, LIVER & BLOOD.
In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer, in the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.
If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.
SOLD BY DRUGGISTS AT $1 PER BOTTLE.
Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale such receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of **$50, $100, $500** and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind, become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as
Ayer's Cherry Pectoral.
It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most efficacious cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Keep your system free from disease, and give the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely precaution. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine. No. 1

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most efficient cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leuchorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, thereby the essential medicinal principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all south are insoluble compounds of woody fibre; all therefore, astringent solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation; thus simple inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while traveling with Father Kemp's Old Folks Concert Troupe as a juvenile singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I had already suffered severely from, and for weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had injured my throat and thereafter a cold that had the slightest cold would bring on a fresh attack, leaving me prostrate. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I discovered the severest pain in my head, which so frightened me that I scarcely dare to speak, and coughed incessantly. I thought I was in the quick consumption, and I firmly believe that had these symptoms continued without relief they would have reduced me as many victims. When, in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE, and, I am happy to say, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief, it is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly in consequence of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and was enabled to sing the same evening, since, I have entirely free from Catarrh, for the first time in years.

Respectfully yours,

GEO. W. HOLLINGER.

VERGENNES, Mass., Jan. 8, 1876.

Purchased the Remedy of Mr. Cole, Druggist, Bangor, Maine.

Each package contains Sanford's Improved Inhaler, four bottles with full directions for use in all cases. Price, $1. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. Wholesale Depot, 170 Fulton St., General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a Medicated Plaster containing the most medicinal Gums and Balsams in the Pharmacopœia.

[illegible] before the [illegible] of Collins' Voltaic Plaster, [illegible] extensive [illegible] and extraordinary publicity, they have steadily increased in favor and in the demand for it, until it is now in universal use throughout the United States, and wherever it is introduced it is [illegible] to be the best and most [illegible] remedy for pain, lameness, and all kindred ailments. Many other plasters have been made, it is conceded by all, to resemble it in appearance, but it is universally acknowledged that it is the only one that is perfect in every respect, that it is the *plaster* of the world, and that it has no equal. Its extraordinary [illegible] and its [illegible] prices place it within the reach of all, and we caution the public against worthless imitations and the efforts of unprincipled persons who, for the sake of a little more money, may attempt to palm off some other article as the best plaster in the world for the least money, any similar remedy can be bought, from time to time, dealers will be found ready to misrepresent them for the sake of a little more profit, and to substitute other. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by Weeks & Potter, Proprietors, Boston, Mass.

No. 3 BOW STREET.

Daily Chronicle.

Two Ex-Rebels Speak Out.

In lieu of personal answer to many letters from friends in the South disclaiming sympathy with any effort to unseat President Hayes, Postmaster-General Key has written a letter to the people of the South. He says:

The circumstances attending the passage of the Potter resolutions to investigate the alleged frauds in the Presidential election of 1886 in the States of Louisiana and Florida, together with the subsequent declarations of many influential democratic politicians and journalists, is evidence that if both houses of the Forty-sixth Congress are democratic the majority intend to oust President Hayes and inaugurate Mr. Tilden. The title of President Hayes was settled irrevocably by he Forty-fourth Congress in the act creating the Electoral Commission, under which he was legally declared elected and legally inaugurated. The Forty-fifth Congress has no more right to dispute his election than he has to question the title of any victorious contestant to his seat in that body. The Forty-sixth Congress will have no more right to ignore him and recognize his defeated contestant (Mr. Tilden) than Mr. Hayes would have to send a file of soldiers to the House of Representatives to unseat a democrat whom he might consider to have been wrongfully seated or fraudulently elected. The leaders in this desperate attempt to Mexicanize our institutions confidently depend upon the "solid South" to furnish the bulk of the democratic majority in the next House of Representatives, the Senate being already secured. Remembering the encouragement which Northern democrats in 1860 and '61 extended to the Southern States to secede and the manner in which their promises of aid and comfort were fulfilled, can the Southern people afford to join this revolutionary movement, with the certainty that when the inevitable hour of peril comes they will again be left unassisted and alone to meet the storm from the North, once more united by this attempt to revive an issue whose settlement was forced by public opinion upon an unwilling Congress? In the dark days of February, 1877, when a civil war over the disputed election was imminent and patriots trembled for the safety of republican institutions, the Southern members of Congress averted the danger by compelling the completion of the electoral count under the law which both parties in Congress had enacted, but now the Representatives from the Southern States, with very few exceptions, have joined a movement to subvert the results of their former patriotic action, and to remand the country to that anarchy from which, less than two years ago, it was saved by their efforts. Grant that in permitting the autonomy of all the States and appointing citizens to office in the South instead of strangers, President Hayes has but discharged his constitutional duty, does that excuse the Southern Representatives for attempting to invalidate his title, which they established? Or will it justify them in bringing the country again into danger of a civil war in an effort to unseat him and inaugurate Mr. Tilden? The South must now face the most momentous crisis in its history since 1861. To endorse the recent conduct of their Representatives is to admit the truth of the charge that the people of the South care nothing for the welfare of the Union, desire the downfall of the Republic and would rejoice to see it again involved in a civil war. If their Representatives have not reflected their sentiments, as I believe to be the case, the people of the Southern States should take care that in the Forty-sixth Congress they are represented by men who will defeat the disturbers of public peace and prevent the Mexicanization of our institutions. To do this they may be compelled to act independent of the democratic party. Recent events have demonstrated the inability of the democratic members of Congress to resist the mandates of the caucus and the terrors of the party lash, the one wielded and the other inspired by men who seem willing to endanger the welfare of the country and stability of republican institutions for the sake of revenge on their political opponents and in the hope of dividing the spoils of victory. The democratic Representatives of the South could not resist the caucus command to pass the Potter resolution unamended and without debate. How will they be able in the Forty-sixth Congress to resist a similar command to ignore Mr. Hayes as President, and recognize Mr. Tilden? It is therefore the duty of the Southern people to afford a crowning evidence of their renewed devotion to the Union, in which they now enjoy every right of citizenship, and are subjected to no restrictions not laid upon every citizen, by sending Representatives to the

Forty-sixth Congress, pledged to resist at all hazards, revolutionary schemes of mischief-makers who seem to have gained control of the House of Representatives of the Forty-fifth Congress. To this end the people in every district should meet and publicly organize and resolve to support no person for Congress who has given aid to this movement, and who will not pledge himself to sustain the title of President Hayes during the term for which he was elected against all attempts at its overthrow. Only in this way can a grave danger to the Republic be averted, and convincing proof be given that the confidence was not misplaced which President Hayes manifested in the South when he withdrew the troops from the State House of South Carolina and Louisiana. I have spoken plainly and earnestly, for I feel that I should be unworthy to represent the South in the Administration were I to remain silent now. Invited to the Cabinet as a Southern man to see that justice was done to the South, required neither to apologize for my record nor to disown my political principles, it is my duty now to warn the people of the South of the danger which threatens the country. No man need hope that the schemes of the men who have engineered the movement to unseat President Hayes can be carried on without a bloody civil war. To avert this danger, I confidently rely upon the patriotism and honor of the people of my native section.

(Signed) D. M. KEY.

Alexander H. Stephens, Ex-Vice President of the Southern Confederacy, and a man as well posted as any other human being as to the way in which the previous democratic rebellion was initiated, has written an open letter to Senor Pottero, in which he says: "I look upon the whole of this proceeding, concocted as it was, conducted as it has been, as most unwise, most unfortunate, and most mischievous. Its effects will be to disturbe the peace, harmony and quiet of the country. Neither Potter nor anybody else can prevent, and I say to him most respectfully, that nothing short of an immediate, general and firm concert of action of law-and-order-abiding people of all parties, republicans and democrats, throughout the Union, in reprobation of this investigation proceeding any farther with a view to disturbe the Presidential title, such as announced by the Pennsylvania democracy in their convention a few days ago, can arrest the most fearful consequences. Those who have, though innocently, sowed the wind, will reap the whirlwind. My own opinion is, as I have repeatedly said, this affair will prove in the end *either a contemptible farce or a horrible tragedy*. Whether it will lead to the Mexicanization of our Federal Republic the result must show. But I say that all soft words instilling in the minds fo the people of this country the idea that Mr. Hayes can be peaceably unseated by Congress are as delusive and as guileful as the whisperings of the great arch fiend in the ear of Eve, from which sprung all our woes."

Daily Chronicle

SATURDAY, JUNE 1, 1878.

Terrible Disaster.

The German iron-clad Grosser Kerfurst was run down and sunk in the British Channel off Dover on Friday, by her consort, the Koenig Wilhelm. She sunk almost immediately on being struck, her boilers exploding as she went down. Of 460 officers and seamen on board only eighteen were reported saved.

Railroad Meetings.

The annual meeting of the Nashua & Lowell Railroad was held in Nashua on Wednesday, the 29th ult. The old board of directors was re-elected, with the exception of Mr. Richardson of Lowell, who was replaced by H. P. Watts of Manchester. This makes the board opposed to renewing the lease of the Nashua & Lowell to the Boston & Lowell road. O. C. Moore of Nashua was chosen corporation clerk.

The Concord & Claremont Railroad meeting took place in Concord on Wednesday. Onslow Stearns was chosen President.

The Wilton Railroad meeting was held in Concord on Wednesday. A resolution was passed aiming at an amendment of the lease of the road to the Nashua & Lowell road.

The meeting of stockholders of the Northern Railroad was held in Concord on Thursday, Hon. Onslow Stearns presiding. The report of the directors was accepted and placed on file. Charles F. Choate of Boston declined to serve longer as a director. The following-named gentlemen were unanimously chosen directors for the ensuing year: Onslow Stearns, Concord; John A. Burnham, Boston; George W. Nesmith, Franklin; Uriel Crocker, Boston; Josiah Minot, Concord; Edward Lawrence, Boston; Francis B. Hayes, Boston. Mr. Stearns was elected President, and Joseph W. Fellows, of Manchester, Clerk.

The annual meeting of the Nashua & Rochester Railroad was held in Nashua on Thursday, and the following gentlemen elected directors for the ensuing year: F. H. Kennicut of Worcester, C. H. Waters of Groton, N. V. Whitehouse of Rochester, J. C. Eastman of Hampstead, F. A. Dewey of Worcester, C. E. Whiting of Northbridge, E. B. Stoddard, C. W. Smith, C. S. Turner of Worcester, A. W. Sawyer, A. H. Dunlap of Nashua, George P. Wescott of Portland, J. C. Burley of Epping, E. Wallace of Rochester, and W. H. Cook of Nashua. A. F. Stevens of Nashua was chosen Clerk.

The annual meeting of the stockholders of the Manchester & Lawrence Railroad was held at Manchester on Friday. The following named gentlemen were elected Directors by a nearly unanimous vote: Ezekiel A. Straw, Manchester; Nathan Parker, Manchester; Edward A. Abbott, Concord; Benjamin F. Martin, Manchester; George R. Fowler, Boston; Joseph W. Smith, Andover, Mass.; William A. Tower, Boston. The Directors organized and re-elected Hon. E. A. Straw President, and Samuel N. Bell, clerk.

They "Love Darkness Better," Etc.

The revolutionary junta under Don Pottero's control will hold their partisan meetings in the interest of disorder, in secret, with the evident object of smothering evidence unfavorable to the democracy, and enabling the revolutionists to send forth to the country garbled and untruthful statements as to what is "proved" in the Star Chamber sessions. It is announced that no counsel will be allowed to any person accused, and that there is no probability of the junta taking advantage of the permission granted them by Congress to inquire into charges of democratic fraud if they desire so to do. The junta, of course, won't desire to do anything of the kind, being satisfied that there was no purchase of "mules" in Banning's district in Ohio, no wholesale murdering and terrorizing of republicans in Mississippi, Louisiana and South Carolina, and nothing corrupt hidden under the queer phraseology of the "Gobble" correspondence between Oregon and Gramercy Park, relative to the purchase of a republican elector "to act with and recognize democrats."

Political.

Postmaster-General Key's open letter to the democracy of the South has more of anti-Mexicanization and loyal submission to the Electoral-Commission compromise in it than anything that has yet been made public from any opponent of the Mexican movement up to the present date. His arraignment of the northern copperheads savors a little of revengeful feeling toward a class of cowards who aided in betraying the South into secession. Otherwise it is as clear a defense of President's Hayes' title as the undoubted justice of the case will admit. It is printed elsewhere, and will repay perusal.

We hope to hear no more sneers at the wretched incompetence and inefficiency of the "democratic House." It has effected what all the republican leaders had utterly failed to accomplish, the cordial reuniting of all the divisions of the republican party. There is no longer a Hayes or an anti-Hayes wing, but one homogeneous organization of men who prefer American to Mexican institutions.

New Hampshire Items.

The buildings of John Dixon in North Munroe were burned Wednesday night, with about five tons of hay, household goods and provisions. Loss about $3000; small insurance. Supposed to be incendiary.

By unanimous vote of the Directors of the Manchester Base Ball Association, Thursday evening, John Leary, pitcher for the Manchesters, was expelled for violation of his contract and drunkenness on the ball field Thursday afternoon.

P. J. McElroy, aged about forty-five years, was almost instantly killed Thursday at P. C. Cheney's paper mill in Manchester by being drawn into the paper machine. He went to Manchester four weeks ago, and leaves a widow and six children in Lawrence.

A greenback club was formed at Exeter, Wednesday evening, with the following officers: President, Oliver L. Giddings; Vice President, George W. Wadleigh; Secretary and Treasurer, A. J. Hoyt.

The publication of the Concord Daily *Patriot* will be resumed June 5th, and continue during the session of the Legislature.

Col. Samuel Webber and Luther Hayes of the New Hampshire Fish Commission, together with E. A. Brackett, the originator of the Brackett plan for fish-ways, with Col. John McNeil of Winchester, Mass., and Hon. Joseph Kidder of Manchester, are making a careful examination of Amoskeag Falls at Manchester, with a view of putting in a new and improved fish-way of the Brackett pattern.

A Logtown Irishman was in Amherst lately, trying to obtain authority to have a neighbor's dog killed that had bitten his child, given the reason that he wished the child to eat the dog's heart and liver to prevent hydrophobia.

The valuation of Manchester is $15,974,322, an increase from last year of $664,974. The poll tax is $1.74.

SUNDAY SERVICES.

At the Court street (Christian) church, Rev. John A. Goss, pastor, preaching at 10:30, A. M., and 2:45 P. M.; prayer meeting at 7:30. Service of song to-morrow afternoon at 2:45. All are welcome.

At the Congregational church, Rev. James W. Hubbell, pastor, services at 10:30 A. M. and 3 P. M.; prayer meeting at 7:15 P. M. Subject of afternoon discourse, "War as a civilizer."

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M.

At the Freewill Baptist church, on Pearl street, Rev. E. Owen, pastor, services at 10:30 A. M. and 2:45 P. M.; Sabbath school at 11:30 A. M.

At the Methodist church, Rev. C. B. Pitblado, pastor, preaching at 10:15 A. M. and 2:45 P. M.

At the Universalist church, Rev. E. M. Grant, pastor, services every Sunday at 10:30 A. M. and 7:30 P. M.; Sunday school at 2:45 P. M. A cordial welcome to all.

At the South Parish, Rev. James DeNormandie, pastor, morning service at 10:30, vespers at 7:30; Sunday school at 2:45 P. M.

At St. Mary's (Catholic) church, Rev. E. M. O'Callaghan, pastor, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday school at three o'clock, P. M.

At St. John's (Episcopal) church, Rev. Chas. A. Holbrook, rector, services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public catechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

Mission services; William A. Loyne, Volunteer Missionary, Residence at Faith Home, 16 Deer street. At home daily from 8 to 10 A. M. and 12 to 2 P. M. Services every Sabbath at the Alms House at 10:30 A. M.—County Jail at 12:30. Consecration Meeting every Monday evening at the Home.

At the Middle street (Baptist) church, Rev. W. H. Alden, D. D., pastor, services at 10:30 A. M. and 7:30 P. M.; Sunday school at the church at 2:45 P. M.

Reform club meeting in Mechanic's Hall at four o'clock P. M.

E. G. PIERCE, JR., P. M.

THE CITY.

The Heavy Artillery voted on Thursday evening to go to Concord on the 6th inst., "election day."

The new river steamer James Sampson came down from Dover on Thursday with a party of excursionists.

There is to be a good take-on in the Bureau of Construction and Repairs at the navy yard this morning.

Rev. C. B. Pitblado will lecture in the Methodist church Sabbath evening, at 7 1-2 o'clock. Subject, "Watches."

Mr. Andrew P. Wendell burned his hands severely on Thursday, in endeavoring to move a barrel of benzine from danger at the time of the fire in his store.

Rev. H. L. Hastings, of Boston, will speak in Franklin Hall on Sunday afternoon before the reform club. Praise service at 4:15; speaking at 4:45; admission free.

It is reported that Hon. Daniel Marcy and others are immediately to build another big ship at Neil's yard in Kittery—a 2500-ton three-decker. Hope the report is true.

This (Saturday) morning at ten o'clock, the auction sale of Household Furniture at house No. 66 Islington street will be continued, and all the goods positively disposed of to the highest bidder.

Rev. N. Medbury, formerly for several years City Missionary of Portsmouth, died at his residence in Dover, Mass., at one o'clock on the morning of May 30th, at the age of seventy-seven years.

Among the out-of-town visitors to this city on Memorial Day were the City Marshal and one police officer of Dover, who marched at the head of the procession in company with the Portsmouth police force.

Hunting lobsters at night is a popular occupation just now. On Tuesday evening, May 28th, two boats got over three hundred of the pugnacious crustaceans. The western shore is the favorite fishing ground.

Mr. Charles A. Sinclair's carriage was robbed of a grey woolen robe, green striped on one side, and a long white handled whip, while his team was hitched in front of the Rockingham House on Thursday night.

The janitor of Music Hall says that notwithstanding the vast audience of Thursday evening, the hall was never left in a better condition after an entertainment of any kind. This speaks well for the quality of the people attending the Memorial exercises.

A double-team was going up Middle street on Thursday at the time the procession was passing, when the horses became unmanageable, and ran the carriage to which they were attached against Mr. Frank Wells' buggy, taking off one hind wheel. No other damage was done.

Auction sales of real estate to-day: at 10 o'clock A. M., the house corner Union and Austin streets, with stable, garden, etc., attached. At 12 o'clock, noon, house No. 1 Charles street, and lot of land. See advertisments. Both sales will take place on the premises, and be without reserve.

The fishing schooner Celia, in starting out for a trip on Thursday morning at four o'clock, drifted ashore on the eastern side of Beacon ledge, and filled with the rise of the tide. The sails and running rigging have been removed, and we understand she will be raised by the navy yard workmen.

Lieut. David Whipple, who was in command of the first company of U. S. Marines on Memorial Day, was taken suddenly and severely ill at the South Cemetery during the memorial services, and was conveyed in a hack to the residence of a citizen, command of the company being assumed by 2d Lieut. Randolph Dickins.

As the memorial day procession was coming down Congress street to Market square, a man in a two-seated wagon with three women suddenly started up his horse from near Freeman's saloon, and whirled across the street directly through the Dover band, several of the members of which narrowly escaped injury. The fellow evidently acted thus with a purpose, and drove off over the square and down Market street at full speed. A mounted man was sent after him, but the contemptible scoundrel escaped.

POLICE COURT.

FRIDAY, May 31; *Batchelder, J.*

Katherine Reed was adjudged guilty of selling liquor on Sunday, and ordered to pay $5 fine, $5.76 costs, which she did.

John S. Banks was complained of for an assault on Jane Nugent, but the evidence for the prosecution showing the fault to be all on the other side, Banks was discharged.

Cyrus E. Smith, Albert Chamberlain and Robert Foster, all "simple drunks," all emigrated to Brentwood to work out $9.90 each.

Simeon Pickering, another simple drunk, went to the City Farm to earn $9.90.

Thomas Collins, a common drunkard, was sent to Brentwood for ninety days and ordered to pay $8.04 costs.

MEMORIAL DAY OBSERVANCES.

At two o'clock, P. M., the Aides met at headquarters and were assigned their duties by Chief Marshal Kent. The Heavy Artillery were detailed to receive the Marine Corps, and the City Guards to receive the Strafford Guards of Dover. The procession was formed in the order designated by the Chief Marshal, and moved promptly at the appointed time. The military made a splendid appearance; the citizens' military organizations that paraded turned out in good numbers, and showed by their marching and their proficiency in the manual of arms that they have made good use of the winter months. The marines, (two companies, commanded by Lieut. Col. Thomas Y. Field,) at the right of the line, drew especial commendation from military men and citizens generally, and by their precision of movement and fine bearing well merited the praise conveyed in the remark of a gentleman who has been in all parts of the world, as he looked at the procession, that the little marine corps of the United States navy, so far as drill and appearance are concerned, is excelled by no other organization; and the soldierly bearing of the veteran commanding officer certainly detracted nothing from the admiration bestowed on the corps. A noticeable feature of the procession was the large number of war veterans who turned out to do honor to the memory of their former comrades, there being more of them than on similar occasions for some years past.

After marching over the advertised route, the published programme of exercises was successfully carried out. The floral offerings were more abundant than heretofore, the early spring having made flowers more easily procurable than usual at this time of year. After the graves had been decorated and the procession reassembled, the Heavy Artillery fired three volleys in good style; one verse of the hymn "America" was sung by the audience, the benediction was pronounced by Chaplain Chas. A. Holbrook, and the line of march was taken up for Market square, where a dress parade of the military took place, Lieut. Col. Field, U. S. M. C., in command, and 2d Lieut. Andrew P. Preston of the Heavy Artillery as Adjutant. The dress parade was done in good style—remarkably so when it is considered that it was really a rehearsal for the militia companies, the various organizations never having had any practice at regimental dress parade—and was witnessed with admiration by a throng of ladies and gentlemen. At its close the different city companies went to their armories, the marine contingent took the steamer for the navy yard, and the Strafford Guards and Dover Cornet Band went to the Rockingham House and partook of a collation, after which they took the cars for Dover.

A number of distinguished officials and citizens rode in carriages in the procession, among them Ex-Gov. Goodwin, Hon. N. B. Bryant, the orator of the evening, Mayor Broughton, Collector A. F. Howard, Commodore John Guest, commandant of the navy yard, Capt. Earl English, captain of the yard, Rev. Charles A. Holbrook, chaplain of the day, Col. Wm. H. Sise, Lieut. Comdr. Kellogg, Pay-Inspector May, Naval Constructor Wilson, and Major Haddock of the State militia.

The following order of Chief Marshal Kent was read by the Adjutant at dress parade: "As Chief Marshal of the afternoon exercises of Memorial Day, I extend my cordial thanks to the officers of the local companies and the men under their respective commands, to the officers of the Navy and Marine Corps for their attendance, to officers of the Strafford Guards and their command, and to all who in any manner assisted in the Memorial honors. For the hearty co-operation I have received at your hands, and which have so nobly contributed to the success of the day, Veterans, one and all, God speed you."

An unusual number of people from neighboring towns was in the city during the day, the Kittery, Eliot and Rye delegations especially being very large. The train from Dover with the troops and band brought a considerable number of other persons from that city, and a steamboat load came down the river.

The day was a most favorable one, the sky being overcast and the air cool, making the march a pleasant exercise rather than the exhausting labor it has sometimes been.

The following was the programme for the evening exercises at Music Hall:

Selections—Medley of National and Army Airs, Harlow's Orchestra.
Introductory Remarks, Hon. Ichabod Goodwin, President.
Solo and Chorus—"Star Spangled Banner." Solo by Miss Edith Wendell.
Prayer, Rev. C. B. Pitblado, Chaplain.
Song—"Rest, Soldier, Rest!" N. E. Glee Club.
Oration, Hon. Napoleon B. Bryant, of Boston.
Song—"Soldier's Farewell," Double Quartette
Reading—"How he saved St. Michel's," Miss Lizzie M. Varrell.
Finale—Song and Chorus, "Marching through Georgia." The burden of the song will be taken by the New England Glee Club and the orchestra; the audience will rise and join in the chorus.
Benediction, Rev. C. B. Pitblado, Chaplain.

In a few minutes after the hall was opened all the seats were occupied, and by the time the exercises commenced not less than sixteen hundred persons were in the building. On the stage were seated a large number of ladies, officers and prominent citizens. Harlow's orchestra first gave a medley of patriotic airs, which was warmly applauded, and then Col. Kent, in the absence of the chairman of the committee of arrangements, introduced Ex-Gov. Goodwin as the President of the meeting. Gov. Goodwin made a brief address, paying a glowing tribute to the memory of the men who died for the Union. Miss Edith Wendell then sang the Star Spangled Banner, and was enthusiastically encored, the applause continuing until Col. Sise announced that later in the evening the lady would respond, which she did with an Italian air, when again the audience called for more, and she was fairly forced to sing a third time, giving Home, Sweet Home. This promising young vocalist may well be proud of her reception by such an audience, in her native city. After prayer by Rev. Mr. Pitblado, the New England Glee Club very finely sang Rest, Soldier, Rest. Hon. N. P. Bryant was then introduced as the orator of the evening by Gov. Goodwin, who mentioned that while he was Governor Mr. Bryant was Speaker of the House of Representatives, and was in hearty concord with him in responding to the Nation's call for troops. Mr. Bryant on rising was greeted with generous applause. In his remarks he paid a merited compliment to our honored townsman, the first War Governor of New Hampshire, and to others who took part in the suppression of the rebellion. He alluded to the part taken by the Kearsarge, and to Farragut as equal to any naval commander the world ever produced. His address occupied about an hour, and was well received. The double quartette then sang the Soldiers' Farewell in a very pleasing manner, the song being followed by Miss Lizzie M. Varrell's reading of How He Saved St. Michel's, which was received with a long round of applause, Miss Varrell responding with a humorous piece. Miss Wendell and Miss Varrell received handsome bouquets during the evening. Sherman's March was then sung by the audience, accompanied by the orchestra; and the benediction by Chaplain Holbrook closed the exercises of Memorial Day.

BASE BALL.

The game of base ball at the plains on Thursday between the Granite States of this city and the Blue Stars of Rochester was one of the best ever played in this city and was well contested by both parties. On the fifth inning the Blue Stars were six runs ahead; the Granite State boys then commenced to work in earnest, preventing their visitors from making a run, and on the ninth inning they stood (eight) even with them. The tenth inning brought in some fine play, each party struggling manfully for the victory, the game ending in favor of the Granite States. Mr. Frank E. Mack was umpire, and his rulings were satisfactory to all. The fielding of Rowe was excellent, he putting out two men and assisting a third in the tenth inning, and that of Walden was also very good. McClinchey's pitching and batting were more than creditable, and the catching and batting of Buckley were fine. Getchell injured his hand in the second inning, which prevented him from making his usual display. The Blue Stars played well, the victors winning by their heavy batting; the catcher and second baseman of the Blue Stars deserved especial credit for their excellent playing. Fewer errors were made by the Blue Stars than the victors. The game took two hours and a half, and the enthusiasm and interest of the five hundred spectators was kept up to the end. The following is the score:

Innings	1	2	3	4	5	6	7	8	9	10	
Granite States	0	0	1	0	1	0	1	3	2	4	—12
Blue Stars	4	1	0	0	3	0	0	0	0	3	—11

MIGHT HAVE BEEN WORSE.

At ten minutes past nine o'clock, Thursday forenoon, an alarm of fire was caused by the igniting of a measure of benzine in the cellar of the store of A. P. Wendell & Co. From Messrs. Wendell and their clerk, Mr. Henry Deering, we learn that the latter, who was drawing the benzine, had emptied one measureful into a can, drawn another and shut the faucet of the barrel, when he found the benzine in the measure had taken fire from some cause he cannot explain, he having no light with him, the daylight penetrating the cellar to all parts. As soon as the alarm was given Mr. A. P. Wendell ran into the cellar to remove the benzine barrel, but found it too heavy to be so shifted. The fire, which was confined to the cellars of Wendell & Co.'s and Butler & Laighton's places of business, having entered the latter with the oil which floated on top of the water in a drain, did some damage, but not nearly so much as was done by the smoke and water, the streams from the steamers knocking the shelf goods and lighter groceries in Butler & Laighton's about sadly, smashing bottles, and throwing their contents with other articles into the water which flooded the floor. The loss will be considerable, but cannot be even estimated until a careful investigation has been made. The Fire Department turned out in a hurry when the alarm was given, Sagamore, No. 2, having a stream going on the fire in ten minutes from the time the bell struck, and the other engines being close after her. It was well the fire was no worse, for there were "tremendous possibilities" in it when it first caught.

A CARD.

The subscribers take this method of extending their heartiest thanks to the Fire Department, for their prompt and efficient work in suppling the fire in our store on the morning of the 30th.

To the Chief Engineer and his Assistants, for the management of the affair, which prevented any damage to our stock above the cellar.

To the City Marshal and his aids, for guarding our doors and preventing any unnecessary removal of goods; which often occasions serious loss.

To all friends who rendered such valuable aid in protecting our goods and assisting in many ways.

ANDREW P. WENDELL.
HENRY WENDELL.

THE VICINITY.

Superintendent Furber of the Boston & Maine Railroad, M. G. Palmer of Portland, and others, are reported to be negotiating for the purchase of the Bay View House, at Ferry Beach, Saco.

The boat which was left at Brave-boat harbor, York, about two weeks ago, found an owner in Mr. Varney of South Berwick, Me. He says it was stolen by a man-of-war's man, and the two women who were with the man were "no better than they should be."

Mr. George B. Goodwin, of Biddeford, who was editor of the Biddeford *Post* during the brief but brilliant career of that paper, has received an appointment on the editorial staff of the Boston *Post*. Mr. Goodwin is a ready writer, and has a good deal of "spice" in him.

On Wednesday, 29th ult., the schooner John Bracewell, two hundred and twenty-four tons register, was launched from the yard of Goss & Sawyer at Portland, Me. She is owned in Dover, will be commanded by Capt. Constant W. Chatfield, and is intended for the carrying trade between Dover and other coastwise ports.

The adjourned town meeting at York, called by the selectmen to consider the alleged deficiency in the accounts of Mr. George F. Plaisted, late collector and treasurer of the town, was held Saturday, May 25th. No action was taken, and the meeting adjourned *sine die*. Mr. Plaisted some time ago published in this paper a card squarely denying any irregularity in his accounts as treasurer.

A bold attempt was made Thursday night to rob the Boston & Maine station at Salmon Falls. The watchman, on entering the depot after disposing of the midnight freight train, was accosted by two men, who immediately drew revolvers, requesting silence. He retreated, at the same time giving an alarm, which was responded to at once. The rogues fled without securing any plunder.

On Monday, as Mr. Edgar W. Berry, of York, was going from York to Kittery Point in a whaleboat, having his wife with him, the boat became unmanageable from the breaking of the mast, and Mr. Berry proceeded to fire a pistol to call the attention of other boats in the vicinity. The pistol was accidentally discharged so that the ball with which it chanced to be loaded was lodged in his knee directly beneath the knee pan. He was assisted home by Mr. Benj. Trafton, and attended by Drs. Stewart of York and Potter of this city, who did not deem it advisable to remove the ball at present.—*Journal.*

News and Notes.

The barn of Nicholas T. Pike, of East Salisbury, Mass., with five cows and other animals, was destroyed by an incendiary fire Thursday night. Loss $2000. On Friday E. P. Getchell of East Salisbury was arrested for the crime. His wife, the only daughter of Mr. Pike, was divorced last month, which may have been the cause.

Some unknown villians placed obstructions on the Coney Island and Prospect Park Railroad Wednesday night, causing an accident, by which six persons were killed and another fatally injured.

Portsmouth Chronicle

Peculiar People.

Old bachelors who never smoke.

People who will suffer from chronic indigestion, constipation, and torpid liver, or "biliousness," when Dr. Peirce's Golden Medical Discovery and Pleasant Purgative Pellets are known to be reliable and speedy remedies for these diseases.

Old maids who do not love cats.

People who have catarrh, annoying and disgusting every one around them, when Dr. Sage's Catarrh Remedy is known to be a potent remedy for this disease.

Women who do not love babies.

Women who will suffer from all those painful diseases to which the sex is heir, when Dr. Pierce's Favorite Prescription is admitted by every lady who uses it to be an efficient remedy for those maladies.

People who believe their progenitors were apes.

People who will read about "Helen's Babies," and "That Husband of Mine," and "That Wife of Mine," and "That Mother-in-Law of Mine," and "That Son-in-Law of Mine," and yet fail to read about *themselves* in "The People's Common Sense Medical Adviser."

Christians quarreling with each other on their way to Heaven.

People who will seek health at fashionable watering places, smothering at Saratoga or Long Branch, or sacrificing themselves to "Graham diet" at Water Cures and Health Institutes, when the magnificent Invalids' Hotel, at Buffalo, offers all the elegant comforts of the finest hotels, combined with the best sanitary advantages,—Russian, Turkish, and plunge baths, gymnasium, etc.,—and is situated in and near some of the finest natural scenery in the Empire State.

The most peculiar of all are the people who read these paragraphs and fail to profit by them.

A Manifest Absurdity.

It is manifestly absurd to claim for a mere stimulant, tonic and alterative properties. Yet this is what is daily done by the vendors of cheap local bitters, colored to make them look attractive, and agreeably flavored, but the alcoholic basis of which is of the vilest and most hateful description. The transcendent success of Hostetter's Stomach Bitters, the leading alterative tonic of the United States, has induced many of these compounders of drams in disguise, to attempt the counterfeiting of this standard medicine, but their efforts have never proved successful on a large scale, and they have themselves in many instances notoriously "come to grief," through the instrumentality of the law.

The genuine Bitters have, indeed, a spirituous basis, but they are emphatically a medicine, since their botanic ingredients are singularly efficacious in overcoming and preventing chills and fever, dyspepsia, liver complaint, constipation, and many other disorders.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $600. Name can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

The Colonnade Hotel, Philadelphia, Pa., endorsed by eminent and distinguished visitors as a model establishment, will be an exception hereafter to the general complaint of high prices.

No person ever used *Adamson's Balsam* without being able to speak in its favor. Its magical effects affording almost instant relief in the most stubborn cases has won for it a reputation as a remedial agent for coughs and colds, for which the proprietor may well be proud. Price 25cts.—*Boston Advocate.*

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&teep1357

INVALIDS' HOTEL.

The very large number of invalid people who daily visit Buffalo, from every quarter of the United States and Canada, that they may consult Dr. R. V. PIERCE, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that a large number of this institution should provide a place on a grand and commodious scale for their entertainment and comfort.

ADVANTAGES OFFERED.—The Invalids' Hotel is more complete in its appointments than any similar institution in the world. The building is located in one of the most healthful and desirable portions of the City of Buffalo, and commands a fine view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks. The Hotel is furnished with a patent safety passenger elevator, to convey patients to and from the different floors; is provided with all kinds of approved baths, and has also connected with it a well-appointed gymnasium and bowling alley to afford proper means of exercise.

CHRONIC DISEASES of all forms, whether requiring medical, surgical, or mechanical treatment, come within the province of one or several specialists.

DISEASES OF WOMEN.—Especially are the facilities of this Institute unequaled and unsurpassed as regards the remedial means and appliances for the cure of all those chronic diseases peculiar to females. The employment, in moderation, of tonic, chemical, electro-thermal, and other approved baths, is in many cases an invaluable auxiliary to the remedial means to which we resort in such cases. Dry friction to the surface, general shampooing, Swedish movements, and light calisthenic exercises, to relieve and equalize the circulation of the blood in the system, relieve congested parts, improve digestion, and strengthen the muscles, produce important beneficial results in all cases to which these means are applicable. No experimenting is resorted to in the treatment. The most approved medicines are carefully employed, and the judicious regulation of the diet, to suit the condition of the patient, the thorough ventilation of the sleeping apartment, the cheering influence of social intercourse, innocent games for amusement, and all those agencies which tend to arouse the mind of the patient from dependency, and thus promote recovery, are not neglected.

NERVOUS DISEASES.—Paralysis, Epilepsy (Fits), Chorea (St. Vitus's Dance), and other nervous affections, some of the most difficult cases to treat in this specialty, by which the greatest skill is attained and the most happy results are secured.

LUNG DISEASES.—This division of the practice in the Invalids' Hotel is very ably managed by a gentleman of matured judgment and skill. Bronchial, Throat, and Lung Diseases are very largely treated by this department, and with results which have been highly gratifying to both physician and patients.

EYE AND EAR.—Special attention is given to the delicate operations on the eye and ear, a distinguished oculist and aurist being under engagement to conduct this branch of the practice.

Invalids arriving in the city and desiring to consult, should report at the Hotel. It is easily accessible by carriage, omnibus, or street cars. Milton's Omnibus Agent, on all incoming trains, stands ready to deliver passengers and baggage with equity and despatch.

☞ Address R. V. PIERCE, M. D., World's Dispensary and Invalids' Hotel, Buffalo, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, oct29 78
H. HALLETT & Co., Portland, Me.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to completely eradicate either of these diseases and all Blood Poisons from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. eodnov11

Transportation.

PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
OF THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are bedded on a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the study only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is a comfortable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 79

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty-five years, by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should travel in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and who e substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhea arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing, and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while traveling with Barney Keeps's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N.J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a severe attack, leaving me prostrated. In this way I continued to suffer. The last attack, which occurred five days ago, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who had aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P. S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Stanford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and notwithstanding the unanimous number of testimonials in the form of Diplomas, letters, paragraphs, and ordinary praises, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many recent cures have been effected by the wearing of these Plasters in all parts of the United States, copies of which will be sent free of charge to anyone desiring them. Improvements, in many ways, have been made during the past year, by experience and use, until it is believed that they now perfectly satisfy every respect, and are the best article in the world of medicine. All we ask from our friends is a fair trial of the Plaster, when we feel sure that they will be satisfied that it is the best and most effectual remedy for the various complaints for which it is recommended. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

[Written for this paper.]

JUNE — THE BATTLE MONTH.

BY FRED MYRON COLBY.

June is called by the poets the Month of Roses, and it is a beautiful name for a beautiful month, but it quite as appropriately deserves another title, for it is the season in which some of the greatest battles of history have been fought, and in which were achieved many of its most memorable triumphs.

It is a time entitled to be called the Month of Conflicts, for though great battles have been fought in other months, in no other month were there so many decisive battles, or if not decisive in every instance they were of unusual proportions and importance. Every one of these fair days from the first to the thirtieth inclusive, is the anniversary of a battle which will have an enduring place in the memory of man. Ensanguined with gore they stand outlined on history's canvass, crowned rather with incarnadined steel than a garland of roses. Let us review the annals of the past and from thence select the battles in order as they occur through the blood-stained days of the battle month:

June 1st. The anniversary of two of the battles of our great civil war; those at Fair Oaks and Seven Pines, in the year 1862. In 1859 the battle of Palestro opened the great Italian war, which resulted in the regeneration of Italy. On that day in 1666 Prince Rupert and the Duke of Albemarle had an engagement with the Dutch fleet.

June 2d. Sir Eyre Coote defeated Hyder Ally near Arnee, in 1782. In 1864 occurred the battle of Cold Harbor, one of the most notable conflicts of the Rebellion.

June 3d. B. C. 490, the battle of Marathon was fought, which turned back the tide of Asiatic invasion, and while it humbled the Persian it lifted Greece to the highest pitch of greatness among the nations. In 1665 there was an engagement between the English and Dutch fleets. 250 ships were in the action. The Dutch were defeated.

June 4th. In 1799, the battle of Zurich occurred, in which the French under Massena defeated the Austrians under the Archduke Charles. In 1859 the great battle of Magenta was fought between the combined forces of the French and Sardinia ns, and the Austrians, terminating in the defeat of the latter.

June 5th. In 1794 the Russians defeated the Poles under Kosciusko, on the Vistula. In 1081 Robert Guiscard, the Norman conqueror of Sicily, won the battle of Dyrrachinne, over the Byzantine emperor, Alexius Comnenus.

June 6th. Forty-eight years before Christ the battle of Pharsalia made Julius Cæsar the master of the Roman world, and established the empire. In 1813 the battle of Stony Creek was fought between the Americans under General Chandler, and the British commanded by Lord Vincent, resulting in the defeat of the latter.

June 7th. In 1098 the sack of Antioch occurred on this day, being one of the important issues of the First Crusade. On this day in 1673 there was a naval action between the Dutch and the combined English and French fleets. In 1798 the battle of Chelon was fought between the Poles and Russians.

June 8th. The crusading forces under the command of Richard Plantagenet, King of England, won the battle of Jaffa over the Saracens, which paved the way for the re-seizure of Jerusalem in 1191. In 1807 Gudstadt was carried by assault by the French, the Russians losing several thousand in killed and captured.

June 9th. The battle of Siever hausen in 1553 between Maurice of Saxony and Albert of Brandenburg was lost by the latter, who had four thousand of his soldiers killed on the battle-field. On this date, also, the Boston Riot took place, that being the first instance of armed resistance made by the colonies against the crown.

June 10th. B. C. 371, Epaminondas gained the battle of Leuctra, which elevated Thebes to a first-class power among the Grecian States, and humbled Sparta, which had been paramount from the period of the Peloponesian War. In 1429 Joan of Arc defeated the English under Lord Talbot, at Patay. June 10th, 1800, was fought the action of Montebello in Italy, in which the Austrians were defeated by the French. June 10th, 1861, the battle of Big Bethel was fought between the Federal and Confederate forces.

June 11th. In 1488 James the Third of Scotland was defeated and slain by his rebel Lords at the battle of Sanchieburn, June 11th, 1798, Malta was captured

after a long siege by the English fleet.

June 12. B. C. 201, the battle of Zama was fought, which broke the power of Hannibal, and made Carthage tributary to Rome. In 1112, battle between the Almohades under Mohammed Abu Abdallah, and the Christians, resulting in a victory for the latter. June 12th, 1418, occurred the great riot and massacre of Paris.

June 13th. This is the anniversary of one of the greatest battles ever fought, as regards both importance and magnitude. Upon that day, A. D. 733, Charles Martel won a victory over the Moors on the field of Tours which saved France from the yoke of the Moslems, and effectually arrested their spreading dominions. Historians assert that more than three hundred thousand men perished in this battle.

June 14th. This was the lucky day of the Emperor Napoleon. On that day he won some of his greatest victories. June 14th, 1800, he being First Consul Bonaparte, he won the victory of Marengo, defeating the Austrians, and establishing his power. In 1807, he defeated the Russians in the great battle of Friedland. In 1809, on this day, his stepson, Prince Eugene Beauharnais, Viceroy of Italy, defeated the Austrians at the battle of Raab in Hungary. June 14th, 1645, Cromwell gained the battle of Naseby over the Royalists. The result of that battle proved fatal to the House of Stuart.

(Concluded to-morrow.)

Daily Chronicle

MONDAY, JUNE 3, 1878.

The Democracy Caught in a Contractor's Trap.

The contractors have come a neat little dodge over the ingenuous democracy of the House of Representatives.

A bill was recently introduced by Gen. Butler relating to government advertising. Under the guise of saving money paid to local papers, for advertising local wants, and giving information as to contracts for supplies required at different parts of the country, the measure provides that all proposals shall be advertised in a central government paper at Washington. The folly of this plan will be seen when it is considered that if the government should want a hundred tons of hay or a thousand bushels of charcoal, or any other small or large amount of material or supplies for the Portsmouth or Mare Island navy yard, the want would be known only to some contractor who might be on the watch for it, and who would receive the government paper. All competition would end; and proposals would come, not from local bidders for supplies at navy yards, forts, etc., but from the ring of contractors who would make a business of supplying the whole country.

The plausible manner in which the advocate for the ring smoothed the passage of the bill through the House has been enjoyed by the projectors. Whether the Senate will be alive to the consequence of such legislation will soon be seen. It takes with the democracy, who love to hear the word "economy" blended with everything said and sung about the government, and the specious and bland arts of the contractor properly exercised upon the heroic democrat in Congress, tell their tale. The measure, if it becomes a law, will only add to the power possessed by the grand army of the contractors to rob the government, and we hope Senators, when this bill comes before them, will have gumption enough to see the thing in a proper light.

Speak Out, Brethren.

The democratic members of the Tennessee delegation in Congress will not dignify Key's letter by an address solely in reply to it, but an address will be prepared affirming in effect that the House does not contemplate any attempt to oust President Hayes, and that the talk of civil war is nonsense.—*Boston Post.*

That will be fine. "The Tennessee delegation in Congress" may "affirm in effect that the House does not contemplate an attempt to oust President Hayes," but the House itself is on record as flatly refusing to "affirm" anything of the kind, and Clarkson N. Potter, Tilden's lieutenant in this business, the manager of the fraud movement and the chairman of the revolutionary junta, positively "affirms" that the democratic House *does* contemplate an attempt to oust President Hayes—which would be revolution, and lead to civil war as certainly as did secession.

The Fraud Committee

Commenced its partisan investigations at Washington on Saturday, James E. Anderson, late supervisor of registration in East Feliciana Parish of Louisiana, being the first witness. Several reporters are allowed in the room. Gen. Butler has his own stenographer in attendance. Anderson testified that John Sherman met him and Webber (afterward murdered by democratic bull-dozers) in a saloon, they being entire strangers to him, and entered into a conspiracy with them. Secretary Sherman is represented by Mr. Shellabarger as counsel, but he is not allowed to examine witnesses. Either Anderson is a liar or John Sherman is an idiot.

State Treasurer's Report.

The report of the State Treasurer, to be given to the Legislature on its assembling this week, makes the following financial exhibit: Receipts—Cash on hand June 1, 1877, $25,837.76; total receipts to May 31, 1878, $922,243.48; total, $948,081.24. Disbursements—Total payments during the year, $934,744.15; cash on hand June 1, 1878, $13,337.09; total $948,081.24. State debt liabilities June 1, 1877, $3,613,183.70; assets June 1, 1877, $36,792.83; debt June 1, 1877, $3,576,390.87; liabilities June 1, 1878, $3,544,508.24; assets June 1, 1878, $14,318.17; debt June 1, 1878, $3,530,190.07; reduction of debt, $46,200.80. Revenue: State tax, $400,016; railroad tax, $71,272.70; insurance tax, $8598.53; interest, $1538.09; miscellaneous, $15,039.49; total, $496,465.81. Expenses—Ordinary expenses, $177,367.50; extraordinary expenses, $48,195.80; interest, $214,701.71; total, $440,265.01. Railroad tax—Total tax assessed, $154,170.67; distributed to towns, $82,897.97; revenue to State, $71,272.70. Savings bank tax, total tax assessed, $303,183.21; distributed to towns, $274,514.93; to literary fund, $28,668.28. State tax, $400,016; credit to towns, savings bank tax, $274,514.93; literary fund, $28,749.80; railroad tax, $82,897.97; insurance tax, $1822.50; abatements, $616; bounty on wild animals, $620; total credits, $389,221.20; balance due State in settlement of State tax, $10,794.80. Six hundred and seventy-five thousand dollars of the present State debt matures within two years, and the report will contain a recommendation that the Treasurer be authorized to issue, under direction of the Governor and Council, such an amount of new bonds as may be necessary to provide for such portion of the debt as the ordinary revenues of the State will not cover.

News and Notes.

Later reports concerning the disastrous collision of the German iron-clads says they sheered in opposite directions to avoid a barque, and hit each other. The Grosser Kerfurst was the Admiral's ship; the Admiral was saved, and many more of the crew than at first stated; 300 or more were lost.

The Cimbria, at Southwest Harbor, was beautifully decorated with flags in honor of Memorial Day, and the Russians set the American flag at the main and mizzen.

A great crowd greeted Mrs. Southern, the murderess of Kate Cowart in a ballroom, on her arrival at Atlanta, Ga., Thursday, and the sympathy of all classes was shown her. There is a general belief she will soon be pardoned.

Fishing schooner Seddie C. Pyle was run into on Friday night by an unknown barque twenty miles off Thatcher's island, and six men knocked overboard, two of whom, Nelson M. Dean of Fox island, Me., and Wm. Post of Arichat, C. B., were drowned. The barque did not stop to render assistance.

Chief Justice Waite of the Supreme Court of the United States, who is holding the term of the Circuit Court in New York, was given a reception by the Bar association of New York on Friday evening, at which Samuel J. Tilden, Mr. Evarts, and the leading lawyers of New York were present.

William Cullen Bryant, the editor and poet, is seriously and dangerously ill from the effects of a fall. While entering the residence of a friend, after attending the exercises on the occasion of the unveiling of the bust of Mazzini, in New York Central Park, Wednesday, he seems to have lost consciousness, and in the act of raising one foot to enter the vestibule fell backward on a broad stone, striking his head with some violence.

The body of Hon. John Scott Harrison, son of President Harrison and father of Hon. Ben. Harrison, who died last week and was on Wednesday buried in the family vault at North Bend, Ohio, was next day discovered in the vault of the Ohio Medical College at Cincinnati by John Harrison and another man who were searching for the body of another person just stolen from a North Bend grave. It was not known that Mr. Harrison's grave had been desecrated until Mr. John Harrison recognized his father's features. The grave had been provided with a guard, who must have been faithless. The janitor of the college was at once arrested, and the Harrison family mean to see what the law will do to prevent such outrages.

New Hampshire Items.

At an auction sale in Dalton the other day a notable figure was Peter Trainer of Lunenburg, Vt., 102 years old last January, who walked six miles to attend the sale and return to his home.

The *White Mountain Echo* is to be the name of a new weekly paper to be started at Bethlehem, on the 13th of July. It is intended specially for visitors to the White Mountains, a floating population estimated to comprise in the height of the season at least 15,00 persons.

There is a movement among the alumni of Dartmouth College, residing in New Hampshire and Massachusetts, in favor of choosing Hon. James W. Patterson of Hanover, and Hon. Charles H. Bell of Exeter, to fill the vacancies in the Board of Trust, occasioned by the resignation of Nathaniel Bouton, D. D., and by the death of Hon. George W. Burleigh.

Ivory B. Hill's steam sawmill at Northwood Centre was burned Friday forenoon. Much of the machinery was saved.

Deacon David Stevens and wife of Deerfield celebrated their golden wedding, recently, assisted by a hundred ladies and gentlemen.

An editorial in the Concord *Monitor*, discussing the question of electing a United States Senator to succeed Wadleigh, says: "Our belief is that the duty of electing a Senator to fill the new term, which will begin March 4, 1879, devolves upon the Legislature which convenes next month, and which will be the legislative body of the State until June, 1879, three months after the expiration of Senator Wadleigh's term."

Nashua has a greenback club, the first public meeting of which was held on the evening of May 28th.

Naval Affairs.

The U. S. S. Tennessee, Capt. Jonathan Young, was at Villafranche May 11th on route for home.

Rear Admiral John C. Howell is laid up with rheumatism at his home in Washington.

Lieut. Hoff of the navy has invented a life-saving buoy which is intended to be borne to the beach from a stranded vessel by the action of the waves, and to carry with it a line, and anchor itself firmly there, forming a connection with the shore without the use of shore lines or mortars. One is being constructed at the Washington navy yard to be experimented with.

The U. S. Steamer Tallapoosa has arrived at Newport from New York, with supplies for the torpedo station.

The following officers of the navy are on record in the Navy Department as having sent in a request for leave to volunteer for service in the Jeannette, on her expedition toward the North Pole: Commander Ferry, since gone to sea; Lieut. John Garvin and Master John B Murdock, both now on coast survey; Ensign H. H. Hosley, U. S. S. Passaic, in Washington; Ensign George M. Stone, U. S. S. Alaska, New York; Cadet Midshipmen H. P. Huse and C. Parker, Naval Academy; Gilbert J. Marbery, Captain's Clerk U. S. S. Plymouth. Admiral Ammen says he has reason to believe that the number desiring leave for the service would have been much larger but for an impression among naval officers that the Jeannette was to be despatched up Smith Sound, on the old route which has been so often tried and where all expeditions have hitherto failed. The opinion of the most experienced officers of the navy, it seems, is that the route by way of Behring Strait is the true way to the Pole, and officers who have been in that region believe that not only are its advantages very great over the other route, but that by way of Behring Strait there is a reasonable hope of actually attaining the Pole with a well fitted ship and an energetic commander and crew. Lieutenant De Long is spoken of in naval circles as eminently fitted for the command of the Jeannette by his experience, skill and character for courage, energy and persistence, and the navy hopes for the most successful results from the expedition under his command.

WHO GETS THE PRIZES.

(The name of the winner of a prize is held to be confidential and is never used without the owner's consent.

SECOND CAPITAL PRIZE.

From the New Orleans Picayune, May 22.

NEW ORLEANS, May 21, 1878.

From the New Orleans Picayune, May 24.

NEW ORLEANS, May 23, 1878.

The undersigned certifies that he held for collection for account of J. C. Brocksmith, Cedar Rapids, Iowa, one-half of Single Number Ticket No. 6,586, Class E, in the Louisiana State Lottery, which drew the Fourth Capital Prize of TWENTY-FIVE HUNDRED DOLLARS, on Tuesday, May 14, 1878, said ticket having been sent by correspondence from the office at New Orleans (for the sum of One Dollar, and that the amount was promptly paid on presentation of the ticket at the office of the company.

M. BANISTER,
Runner State National Bank,
New Orleans, La.

Frank Guilford of Plymouth undertook to plough with one horse Saturday, and becoming angry because the beast was unable to do the work, knocked it down with a club and then beat it with a stone till he killed it. He has been threatened with prosecution.

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective as a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $800. Name can be furnished. Alex. Frothingham & Co., 13 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free.

The Colonnade Hotel, Philadelphia, Pa., endorsed by eminent and distinguished visitors as a model establishment, will be an exception hereafter to the general complaint of high prices.

No person ever used *Adamson's Balsam* without being able to speak in its favor. Its magical effects affording almost instant relief in the most stubborn cases has won for it a reputation as a remedial agent for coughs and colds, for which the proprietor may well be proud. Price 25cts.—*Boston Advocate.*

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&wtsept157

Letters for the night mails [and no others] east or west may be deposited in the box at the Eastern depot, every day except Sundays.

E. G. PIERCE, Jr., P. M.

THE CITY.

Five persons were baptized at Noble's Island, Sunday, by Elder E. Owen of the Free Will Baptist church.

There will be a meeting of the Memorial Day committee of arrangements this evening at half-past seven o'clock, at the Common Council room.

A Board of Ordnance officers is ordered to convene at New York for the examination of Major T. J. Treadwell, formerly of this city, for promotion.

The house on Charles street belonging to the Drisco estate, and a piece of land opposite, were sold on Saturday at auction by C. Dwight Hanscom & Co., to Dr. Curtis, for $495.

The Light Artillery will appear in new hats on their trip to Concord this week. The new hat is a black felt, ornamented with a black feather tipped with red, crossed guns on the front, and a cord of black and gold.

The police killed three dogs last week; one belonging to John Buckley, for biting a child of William Randall, one belonging to Nathan Jones, for biting a child of Wm. H. Allen, and one which had a leg broken by being run over.

The Rockingham Conference of Congregational and Presbyterian Churches meets in the North Church in this city on Tuesday and Wednesday, June 11th and 12th. On the first day there will be a sermon by Rev. Charles Tenney, and on the second day one by Rev. J. H. Stearns.

All the clothes and fishing gear that were in the schooner Celia when she went on Beacon ledge have been saved; about five thousand pounds of fish on board will be a total loss. The underwriters having taken charge of her, the navy yard riggers' gang, under direction of Boatswain McCaffery and Quarterman Pinkham, will commence work at raising her this morning.

We learn that Mr. Robert L. Harris, civil engineer, who left here a short time since as Chief Engineer of the Red River and Rio Grande Railroad in Texas, has been induced to accept his former position as Chief Engineer of the Canada Central Railway Extension, now to be pushed forward in new hands. The portion which he located, planned and superintended a few years ago is selected as the standard for the new work.

The Boston *Globe's* Washington dispatch of May 31st says that "In the Senate, to-day, Mr. Wadleigh presented the memorial of John F. Merrill, Thomas Hunter, Anthony Welch, N. A. Paine, Alex. Morrill, N. G. Palmer and F. A. Watson, citizens of Portsmouth, N. H.," against the eight-hour law. Who are these citizens, anyway? We have looked the Directory all through and failed to find one of the names given; neither have we found anybody who ever heard of one of them before.

CARDS OF THANKS.

The subscribers extend their heartfelt thanks to the Fire Department, City Marshal Entwistle and his assistants, and to all who rendered and offered aid during the fire on their premises on Thursday morning. BUTLER & LAIGHTON.

The Committee on the Memorial exercises in Music Hall, extend their heartiest thanks to each and every person who contributed so much with their presence and voice to the success of that feature of the observance. To one and all the committee feel that 'tis "the debt immense of endless gratitude."

COUNTY EXPENSES.

We paid the County Commissioners last years eighteen hundred and ninety-four dollars to economise on county expenditures. The Commissioners beat down the Exeter *News-Letter* and Portsmouth *Times* sufficiently to induce those papers to print the Treasurer's report for the liberal compensation of twenty-five dollars each. The whole amount expended for informing the county tax-payers how ninety-four thousand dollars has been disbursed is less than a quarter part of the fees paid to a lawyer imported from Cheshire county to act as referee in a divorce case, and one-third of the amount one of the judges of the Supreme Court charged as a referee. The report of county expenditures should be printed and distributed as a supplement in all the papers in the county. As it now is, the *News-Letter* is selected as the Commissioners' organ, and the *Times* probably because it will keep quiet as a democratic organ upon county expenses, while there are three other papers in Portsmouth, where a large share of the county tax is paid, whose readers know nothing of the way in which our large county expenditure is disbursed.

POLICE COURT.

SATURDAY, June1; *Batchelder, J.*

G. H. Marden pleaded *nolo contendere* to a charge of drunkenness, and was assessed $9.90 fine and costs. Then he appealed, and was given until Monday at noon in which to find sureties in $50 for his appearance at the higher court.

William Quinn, charged with an assault on Edward Lolley, had his case continued to Monday at ten o'clock in the forenoon, and furnished sureties in $100 for his appearance at that time.

Edward Lolley, charged with malicious mischief in breaking window-glass in a building owned by William F. Russell, was ordered to appear on Monday to further answer in the case. Bonds $100.

Charles Walker and Louisa Walker, complained of for keeping a disorderly house, gave bonds in $400 each to appear on Monday.

The cases of Quinn, Lolley and the Walkers seem to be mixed up. So far as heard from, the Walkers keep a disreputable den, of which Lolley was an assailant and Quinn a defender; and Lolley's father, possibly to "get even," complains of the keepers of the castle.

THE VICINITY.

Portland, Saco & Portsmouth Railroad meeting at Kittery to-day.

York boasts of a band of thirteen pieces. The bass drum was admitted last week.

Six sheep and lambs belonging to Mr. James W. Rollins of North Hampton were killed by dogs on the night of May 25th.

Mrs. Fannie Philbrick Salter, of Rye Beach, was a passenger on board the Cunard steamer Batavia, which left Boston on Saturday for Liverpool.

Mr. George Muchmore of Spruce Creek, Kittery, has had eight cases of diphtheria in his family of ten persons, but all are now convalescent.

The trustees of the Rice public library at Kittery have recently made quite an addition to the library by the purchase from Messrs. Estes & Lauriat, of Boston, of a large number of valuable books.

The house of James W. Barton, in North Hampton, was broken into Friday evening, during the absence of the family, and a quantity of new silver ware stolen. There was some money in the house which the burglars failed to find.

The school in District No. 3, in Eliot, taught by Miss Frink, of Newington, has been closed on account of diphtheria, there being about twenty cases in the district, nearly all which, however, are reported as doing well. There had been three deaths up to Friday night—two children named Bartlett and one named DeKoff.

The Exeter *News-Letter* has an announcement, not an unusual one for that sheet, of the propriety of Mr. Chas. H. Bell being nominated for Governor. Mr. Bell would make a respectable candidate; but would the Exeter clique so far remember the proprieties of the occasion as to permit some other town in the county to have a show for nomination of some of the county officers, if the Governor should be an Exeter man?

The Portsmouth Baptist Sunday School Convention is to meet in the town hall at Hampton Falls on Wednesday, June 5th. This is a yearly convocation composed of the pastors and delegates from fifteen Baptist churches, including Exeter, Portsmouth, Dover and Great Falls. The present meeting is its twenty-fifth anniversary. During the session Rev. W. H. Alden, D. D., of this city, will read an essay on "The necessity of the Bible in the Sunday school."

There are plenty of alewives, barbels, frost fish, eels, etc., in York river, clear to its head, to furnish a day's sport and a dinner to the inhabitants of the surrounding district as often as they like to go for it. There is no regular fishery carried on there, which the people are very glad of, believing it would soon clear out all the fish. The fresh water streams in York are well stocked with trout, but they have been fished so much that it is now rare to catch one more than six or seven inches long, except in streams hidden in the depths of the woods and consequently unknown to sportsmen in general.

The lot of land at Kittery Point known as Austin's Point, containing two or three acres, situated on the river and having on it a house a century old, with a fine river and ocean view, has been purchased by Hon. A. M. Shaw of Lebanon, and Dr. John W. Barney and Gen. J. N. Patterson of Concord, who will erect cottages thereon for summer residences. Messrs. Shaw and Barney have spent several seasons at Kittery Point, and have become so much charmed with the place that the result has been a negotiation with Mr. John A. Trefethen for the spot designated. The beautiful seaside resorts at Kittery sooner or later will attract the attention of those who seek summer homes by the salt water.

Gen. Marston and other citizens of Exeter are trying to secure the establishment of a post route between that town and Hampton, which is now further away from Exeter than are either Portland or Boston, so far as mail facilities are concerned. If a letter for Hampton happens to miss the morning mail for this city it has to wait over a day, or else go to Boston by the Boston & Maine Railroad and thence back over the Eastern Railroad. The proposed route would be a great convenience to many persons in this city if the Exeter postmaster could be induced to send by it all mail matter from Exeter for Portsmouth. Letters for this city leave Exeter in the morning, and should be delivered by the route agent at Newmarket Junction and we should receive them at 10:10 o'clock A. M., but they are carried everywhere; two days is a fair average time for a letter to be on the way from Exeter to Portsmouth. In the afternoon letters leave here for Exeter at five o'clock, and if they are properly disposed of at the Junction may go through the same night. The trouble is with the route agents on the Boston & Maine Railroad; did they attend to their business a letter might leave Exeter at 9:30 A. M., and reach Hampton via Portsmouth at 11:30; but now everything goes to Boston to be remailed, instead of being sent direct.

A FREQUENT IRISHMAN.

An Irishman who stood near the third base watching a game of base ball was sent to grass by a foul which struck him under the fifth rib. "A fowl wuz ut? Begorra, I thought it wuz a mule."—*St. Louis Journal*, May 6th.

An old Irishman who stood near the third base watching a game of base-ball in Rochester the other day was sent to grass by a foul which struck him under the fifth rib. "A fowl, wuz ut? Begorra, I thought it wuz a mule."— *Manchester Mirror*, May 31st.

Yesterday an Irishman who stood near the third base watching the game of base ball at the Plains, was sent to grass by a foul which struck him under the fifth rib. "A fowl, wuz it? Be gorra, I thought it was a mule."—*Portsmouth Times*, May 31st.

MARRIAGES.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Neck Oil, Menthol and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and sinews of horses and animals. For Stiff Joints, Lameness, Sprains, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They give simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '74. *Dear Sir.*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be calthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms over Stomach and Disordered Bowels, there is nothing like Castoria. 1aug

UNDER FRANKLIN HALL, FLEET STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while developing its curative results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and natural remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint, the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to instructions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressed or Scanty Menses, Unnatural Stoppages, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects, can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, postpaid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to marriage, and the care of offspring.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 1dbk20 79

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL.

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Train.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 38, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

Pierce's Pleasant Purgative Pellets.

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful catharic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using these Pellets to operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

NEW FOUR PER CENT

GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured to wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closets for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent will not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humers in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

Ask your dealer for this Lamp. If he will not supply you, write to us for it. It gives the light of twenty candles, or one-third more than any other lamp of similar style (same size burner) in the world; the light being, also, steadier and every way more satisfactory.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

By the preparation of this remarkable remedy every active, plastic, and curative principle is obtained in vapor, condensed and bottled. What remains in the crude state is inert, putrescent, and totally unfit for use in an organism so delicate as the nasal passages. Yet all other preparations of woody fibre, all tinctures, saturated solutions,

SANFORD'S RADICAL CURE

is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the affected parts. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid secretion that passed its way into the stomach and thence into the blood. Thus it cures catarrh in both directions. Perhaps more seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Rempis Old Fellow Company, I got an almost stupid, I took a severe cold and was laid up at Newark, N.J. This cold brought on a severe attack of catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position on the firm, being unable to sing a note. For three years afterwards I was troubled with it at all. The first attack of catarrh left my nasal organs and throat so sensitive that the slightest cold would bring on a fit of catarrh, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I felt as though a red-hot excoriating pain in my head, was so intense as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE. Four bottles cured me, very effectually. I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head is only a sore, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize or appreciate the relief obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and an occasional use of it ever nearly since, have entirely free from Catarrh, for the first time in years. Respectfully yours,

GEO. H. ROLLINSON.

BOSTON, Mass., Jan. 5, 1876.

Manufactured the RADICAL CURE of GEO. H. ROLLINSON, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

Is the Electro-Galvanic Battery combined with a Medicated Plaster containing the most medicinal Gums and Balsams of the modern Pharmacy.

This article has now been before the public for two years, and the testimony among the immense number of users of the article, of persons, both male and female, and ordinary plasters, they have steadily increased in public favor, and with universal approval, as evidenced by over one thousand medicinal testimonials, which are on file. Many of the whole cases have been certified to by well-known citizens in all parts of the United States, a copy of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world.* Beware of cheap imitations, worthless and dangerous. The price is 25 cents, although the cost to manufacture is quite equal to any other plaster. Instead of the proprietors to make the best plaster in the world for the least money, any quantity can be brought, numbers of unscrupulous dealers will be found ready to misrepresent them for a paltry gain, and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

[Written for this paper.]

JUNE — THE BATTLE MONTH.

BY FRED MYRON COLBY.

Concluded from yesterday.

June 15th, B. C. 216, Hannibal annihilated a great Roman at Cannæ, which result made him master of Italy for fifteen years.

June 16th. In 1487, Henry the Seventh, King of England, defeated the Yorkists in the decisive battle of Stoke, thus terminating the Wars of the Roses, and raising the House of Tudor to the English sovereignty. In 1743, the French were defeated by the allied armies of Germany and England, commanded by George the Second. This was the last occasion on which an English king ever appeared in person on a battle-field. June 16th, 1815, the First Napoleon gained a victory at Ligny, over the Prussians under Marshal Blucher; and the same day Wellington beat the French, commanded by Ney, at the battle of Quatre-Bras.

June 17th. In 1775, on this day, took place the battle of Bunker Hill, in which the Americans lost the field, but the English suffered by far the greater loss of men.

June 18th. In 1675, the Swedes were badly beaten by the Prussians in the battle of Fehrbellin. In 1757, Frederick the Great, King of Prussia, was defeated at the battle of Collin by the Austrian army, commanded by Marshal Daun. In 1815, the battle of Waterloo, gained by the combined Swedes, Germans, Dutch and English, over the French, under Napoleon, unseated the emperor, and retarded the progress of republicanism in Europe for a hundred years. June 18th, 1855, the Russians defeated the French and English at Malakoff, near Sebastopol.

June 19th. In 1799, the French, under Macdonald, were defeated by the Austrians and Russians, commanded by Suvarroff, at the battle of the Trebia. June 19th, 1864, the unique naval engagement between the warships, the Kearsarge and the Alabama, took place resulting in a decisive victory for the Union vessel.

June 20th. In the year 1097, the battle of Nice took place on this day, in which the Crusaders gained a great victory over the Saracens. In 1779 the Americans defeated the British at the battle of Stony Ferry. In 1821 the Greeks were beaten by the Turks at Dragashan; and in 1830 the French gained the battle of Stroull over the Algerines, which virtually made them masters of Algeria.

June 21st. In 1798 the Irish were defeated with bloody slaughter at the battle of Vinegar Hill by the English and Orangemen; this event proved fatal to the Irish cause. In 1813 Wellington gained the decisive battle of Vittoria, in Spain, which drove the French out of the Peninsula, and destroyed Napoleon's power in that country. In 1588 the first day's action with the Spanish Armada occurred.

June 22d. The Americans defeated the British at the battle of Craney Island, in 1813.

June 23d. In 1757, the battle of Plassey was won by the British over the Mahrattas, the result of which decided the future fortunes of India. In 1780 the Americans suffered a defeat by the British at the battle of Springfield.

June 24th. On this day, 1340, Sir Robert Morley, the Admiral of Edward the Third, of England, gained the great naval battle of Sluys, over the French fleet. June 24th, 1813, the British were defeated by the Americans at the battle of Beaver Dams. In 1859, the battle of Solferino, won by the French and Sardinians over the Austrians, terminated the Italian war, and placed the iron crown of the Lombards on the brow of Victor Emmanuel.

June 25. In 1314 Robert Bruce won the great victory at Bannockburn, which utterly defeated the English, and raised up a line of kings which ruled Scotland with glory for almost three hundred years. In the year 841 was fought the battle of Fonteney, in which the emperor Lothaire was defeated with great slaughter by his brothers, Louis of Bavaria and Charles the Bold of France.

June 26th. A. D. 714, Roderick, the last of the Goths, was vanquished at the battle of Xeres by the Moors, thus opening the way for the establishment of the Arab empire in Spain, and the glories of Cardova and Granada.

June 27th. The great Indian massacre occurred at Dover in 1689. In 1862 the Federal forces gained a victory over the Confederate army at Gaines' Mills.

June 28th. The battle of Charleston harbor took place, 1776; the Americans defeating the British, which event left the Southern States free from the aggressions

of the mother country for the space of four years. In 1778 occurred the battle of Monmouth, between the British and American armies, which, though undecisive, yet disheartened Clinton, and heralded the victory at Yorktown.

June 29th. A. D. 71, Jerusalem was taken by the Romans under Titus, after a siege of five months; thousands of people were slain and the city was completely overthrown. In 451, the battle of Chalons sur Marne was fought, in which Ætius defeated Attilla the Hun; 160,000 of the barbarians were slain.

June 30th. In 1097 the battle of Dagorgan shattered the Saracen powers of Asia Minor and gave the crusading hosts a respite from the toils of war. In 1643 Lord Fairfax was defeated by the royalists at Atherton Moor, and totally routed. In 1600 the French under Marshal Luxembourg defeated the allied army under the Prince of Waldeck, at Fleurus. June 30th, 1862, closed the seven days' fight before Richmond, and also closes this chronicle.

Daily Chronicle

TUESDAY, JUNE 4, 1878.

Senatorial.

Hon. H. W. Blair, who has very serious intentions of being a candidate for election as a Senator of the United States, denies that he is Mr. W. E. Chandler's man and says this story is an invention of political enemies designed to injure him. We frequently see the democratic newspapers link together the names of Mr. Rollins and Mr. Chandler. We have no idea that Senator Rollins has any especial attachment for Mr. Chandler, except that perhaps they are co-owners of a newspaper, which reflects Mr. Chandler's views, some of which are rather incompatable with what we presume are Mr. Rollins' notions. The *Statesman* has its peculiar way of enforcing respect for its opinions. It fairly cuffed Gov. Prescott into subjection, and the Governor passed over one after another appointment to appease the temper of the *Statesman* and propitiate its good will. But we were alluding to Mr. Blair. He thinks he is entitled to the nomination and election to the office of Senator. He has worked hard for the party in his district and the State, and regards himself as well deserving of the position as is any one in the State. He is outspoken in his views, is a hardworking member of the present Congress, a vigorous man, smart enough to provoke jealousy in his own party and develop fierce opposition from the democracy. There seems to be no announcement from Senator Wadleigh that he is a candidate for re-election, but whether he intends to let the office seek the man, or to bestir himself when he finds out when the election is to come off, and marshal his forces, we are not informed. The Senatorships never go about the State seeking incumbents, and whoever is elected will find that the position is attainable only by a deal of labor, and this may be attributed to the weight of patronage which former incumbents have insisted should attach to the office.

Congress.

The Senate on Saturday adopted a concurrent resolution authorizing the President to pay the fishery award if he shall deem that national honor demands it, and recommending the abrogation of the articles of the treaty with Great Britain that give the citizens of the United States the right of in-shore fishing, and the citizens of the British Provinces the right to bring fish into the United States free of duty. The House resolution fixing the date of the adjournment of Congress at June 17th was adopted by a vote of 38 to 17.

News and Notes.

Steamer Idaho, of the Williams & Guion line, was totally lost in a fog on the coast of Ireland, Saturday night. All hands were saved.

The sinking of the Grosser Kerfurst by the Koenig Wilhelm was owing to the disarrangement of the latter's steering gear. Of 500 men on board the sunken iron-clad, 210 were saved, including thirteen officers.

A tornado swept the village of Richmond, Mo., Saturday, levelling to the ground over half the buildings in town. Over a hundred houses were totally destroyed and the loss of property will reach $250,000. Fifteen persons were killed and over forty seriously injured.

John and Stephen Lorein, brothers, and Stephen Crabio, all young men, were drowned by the upsetting of a boat in Boston harbor Sunday afternoon. Five other youths were rescued by the yacht Gypsy.

Two thousand warriors under Sitting Bull are getting ready for the war-path. They are well provided with arms, ammunition and ponies.

Dr. Karl Edward Nobling, a democratic socialist, shot at and wounded the Emperor of Germany Sunday afternoon as he was driving by Nobling's house in Berlin. The assassin afterward fired upon the men who broke into his house to arrest him, and unsuccessfully attempted to commit suicide. He fired a double-barrelled gun loaded with small shot at the Emperor, and inflicted painful but probably not fatal wounds.

Mrs. Becky Baldwin, a young widow living near Tazewell Court House in Virginia, was assaulted Saturday night by two tramps who broke into her house to rob her. She killed one of them with an axe, and the other stabbed her twice in the left breast with a dirk. After being thus wounded she struck the second tramp a blow that nearly severed his right arm at the shoulder, and he fled. His dead body was found on Sunday two miles away. Mrs. Baldwin was mortally wounded in the fight, and died Sunday forenoon. The dead tramps were thrown into a hog-pen by the enraged people of the vicinity.

New Hampshire Items.

A meeting of the graduates of Dartmouth College convened in the Council Chamber at Manchester, Friday evening, Hon. Daniel Clark presiding, and voted to form an Alumni Association. Col. John B. Clark, Judge C. W. Stanley, A. W. Batchelder and Hon. Daniel Clark were appointed to draft a constitution and by-laws. A committee of five were also elected—Judge Stanley, Lewis B. Clark, James O. Adams, Daniel Cross and E. M. Topliff—to nominate the last twelve names, from which the three vacancies in the College Board of Trustees are to be selected, the committee to report June 7th. There are said to be sixty-one graduates in the city.

Saturday night James Miskella, aged about thirty-five years, fell from his boat while fishing in Lake Massabesic, and was drowned. His body was recovered Sunday morning.

The farm buildings of Carlos King, in Dublin, were burned early Sunday morning. Insured $1100. Fire supposed to have been incendiary.

The Advent camp-meeting at Centre Harbor is attracting considerable religious interest, a large concourse of people being in attendance. It will continue through this week.

A prominent citizen of Exeter made, through the columns of a local paper, some uncomplimentary allusions to the students of Phillips Academy, whereupon the students were indignant and serenaded him, creating considerable disturbance. Sherman Hoar, one of the young men, was arrested and fined $1 and costs, and fifty more are to be arrested.

Michael Murray, a laborer, was drowned in the Merrimac river at Concord Sunday, while bathing. He was about fifty-five years old. He went to Concord some four weeks ago, either from Lawrence, Mass, or Biddeford, Me. His body was not recovered.

A gang of burglars made a bold raid in Keene Saturday night. At the residence of Hon. John A. Carter, $100 worth of silver ware was taken. Silverware, gold rings and money to the value of $50 were taken from the residence of L. P. Alden. An attempt at the house of S. O. Gates was unsuccessful. The stable of Augustus Grimes was entered and a pair of horses, a hack and blankets taken. The hack and horses were afterwards found unharmed in the yard of a tannery.

—A gentleman who has been in the habit of repeating the Lord's prayer with his family recently began to preface that with extempore petitions. His bright three-year-old girl kneeling by his side thought the time was up and broke in—as well as out—with "Paps, hurry up; I want to say amen."

—The ill-natured paragraphs that are so common about persons finding a wallet with money in it, and receiving from the owner only a dollar or so for his trouble, tend to create the feeling that a person is entitled to what he finds. The idea that he is morally entitled to a handsome commission is calculated to work mischief.—*Lowell Courier.*

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective as a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $200. Same can be furnished. Alex. Frothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

The Colonnade Hotel, Philadelphia, Pa., endorsed by eminent and distinguished visitors as a model establishment, will be an exception hereafter to the general complaint of high prices.

No person ever used *Adamson's Balsam* without being able to speak in its favor. Its magical effects affording almost instant relief in the most stubborn cases has won for it a reputation as a remedial agent for coughs and colds, for which the proprietor may well be proud. Price 25cts.—*Boston Advocate.*

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A Mistake Corrected.

While riding in a Niagara-street car, at Buffalo, N. Y., said Mr. A to Mr. B, "I was mistaken the other day." "How?" said Mr. B. "You remember we were talking of Dr. Pierce and his Invalids' and Tourists' Hotel, and I questioned the Doctor's ability to cure catarrh or consumption, and stated that a friend had used his medicines with but little or no relief. To satisfy you I wrote my friend, and here is his reply:"

DECATUR, Ill., August 6th, 1877.

FRIEND A:

In reply to yours, just received, asking what effect Dr. Pierce's medicines had on me, I would say, three years ago I expected to die with consumption. I had long suffered with catarrh, my throat and lungs were badly affected, and my system was rapidly breaking down. I had tried many physicians and remedies without benefit. Having seen good results follow the use of Dr. Pierce's Medicines, I resolved to give them a thorough trial. In six months time I was entirely cured. No medicines stand higher, in my estimation, than Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. They not only saved my life, but have made me a hearty and strong man.

Very truly yours,

S. M. IRWIN.

Admission 25, 35 and 50 cents; secure your seats at Preston's Drug Store. 5t

—Ambitious athletes may like to know the opinion of Stickney, the circus rider, as to the feat of turning a triple somersault: "It is impossible to turn a triple somersault and alight fairly and squarely on the feet. It has never been accomplished, and every man who has attempted it has been killed in the attempt. I know there are some who claim to have done it, but it has never been done in public. I would not be afraid to undertake it, under proper conditions. I should want a netting and some good, reliable men to catch me in case of failure; but I don't think the feat is practicable.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&teept15 7

E. G. PIERCE, JR., P. M.

THE CITY.

Comdr. Charles C. Carpenter, U. S. N., left this city on Saturday for Newport, where he is to report for torpedo practice.

John E. Giddings, Esq., of this city, was one of the bidders for the construction of the new Normal School building to be erected at Gorham, Me.

Are the police aware that the trundling of wheelbarrows, containing unsavory swill, with contents dripping, upon sidewalks, is a nuisance they ought to abate, and a violation of an ordinance they are sworn to enforce?

Mr. John Garland, railroad advertising agent, introduced a real imported bicycle on the streets Monday evening. It is made of steel, the forward wheel being fifty-two inches in diameter. Mr. Garland says he can go twenty miles in one hour on a decently smooth road, without being fatigued. The cost is $112. Those made in this country are of wood, and heavier.

Mr. Wm. H. Jarvis, a native of this city, but for the past ten years a resident of Tennessee, where he has been employed as a machinist and engineer, has returned home in ill health, having been confined to the hospital for a long time past with rheumatism contracted in the discharge of his duties as engineer of a stationary engine employed in tunnelling the mountains in that State for the Cincinnati Southern Railroad line.

Signor Henry Guernella and Mad. Maria Guernella announce four nights of mystification at Music Hall, commencing Wednesday evening. The Guernellas claim to be able to perform all the wonders of "spiritual manifestations," including "materialization" under a strong light, all the tying and untying feats of the most noted mediums, etc. The Newburg *Independent* says of them: "The feats performed throw far into the shade any of the spiritual manifestations of the mediums we have seen, while the Guernellas perform upon the open stage and disclaim any supernatural aid whatever. In fact, portions of their entertainment are given up to an exposure of some of the infamous deceptions practised by spiritualists." Many other papers, in places where they have performed, say they do all they promise, and more.

The naval officers at this station have been notified that they will have to wait an indefinite period for their pay for May and June, as there is no money on hand to pay them, and will be none until Congress passes a deficiency bill. The "democratic House" is not only doing its best to destroy the army under a transparent pretense of economy, but is doing much toward discouraging and demoralizing the officers of the navy by persistently refusing them the barest justice. So long as they are in the service they are entitled to their legal compensation, and to receive it when it is due; and it is contemptibly mean for Congress to try to make political capital by refusing to make provision for the prompt payment of the nation's unquestioned liabilities to its servants. And it is not only mean, but will prove futile, for it is not at all such "economy" that is demanded by the people, who are superior even to Congress, though the "democratic House" does not seem to have yet found it out.

PORTLAND, SACO & PORTSMOUTH RAILROAD.

The annual meeting of the Stockholders of the Portland, Saco & Portsmouth Railroad was held in Railway Hall in Kittery on Monday; Gen. Alfred P. Rockwell, President of the corporation, presided. The attendance of the stockholders was much less than in former years.

The report of the Directors shew the affairs of the corporation in a much better condition than at any time for several years previous. The supplemental agreement with the Eastern Railroad Company, made May 21, 1877, which explains the contract of March 4, 1871, went into effect just a year since; by this agreement the affairs of the company are on a more satisfactory basis. The indebtedness consisting of notes of $250,000 endorsed by the Eastern Railroad has been provided for by the Eastern R. R. Co., relieving this company from all concern about the liability, which may now be regarded as a debt of the Eastern Railroad, and which is provided for and will be paid within three years. This will render the P., S. & P. R. R. free from all debt. The semi-annual dividends of three per cent. have been promptly paid. The suit of the Boston & Maine Railroad against the P., S. & P. R. R. for betterments upon the road, and the suit of the P. S. & P. R. R. against the B. & M. R. R. for unadjusted freight balances, have been settled. All questions affecting the financial condition of the road have been definitely disposed of, and the property relieved from all suits of every nature. The road property is in better condition than last year. About eleven miles of steel rails have been laid, and thirty thousand new ties put down. All renewals are with steel rails, and ere long the entire main track will be of steel. About ten miles of new fence have been built. The settled condition of the affairs of the road with the Eastern Railroad gives promise that the existing contract will be a permanent one.

The report was received with applause, and unanimously accepted. A committee of three was then appointed by the Chair to receive the votes cast for Directors. The meeting proceeded to vote, and the following named gentlemen were reported to have received 3162, or all the votes cast, and were declared elected: Alfred P. Rockwell, S. Lothrop Thorndike, W. H. Y. Hackett, Samuel C. Lawrence, George P. King, George E. B. Jackson, John B. Brown.

The meeting then dissolved. An extra train at one o'clock left with the Stockholders going west.

POLICE COURT.

MONDAY, June 3; *Batchelder, J.*

Thomas Tuttle and George Anderson, drunks, were assessed $9.90, fine and costs. Thomas Philbrook, another drunk, was sent to Brentwood for thirty days; costs $6.90.

William Quinn, for assaulting Edward Lolley, was sentenced to thirty days in jail and to pay $11.54 costs. He appealed and was ordered to find sureties in $100 for his appearance at the October term of the Supreme Court.

Edward Lolley, for malicious mischief, was bound over in $100 to answer at the October term.

Charles Walker and Louisa Walker, complained of for keeping a disorderly house, were bound over in the sum of $400 each for their appearance at the October term.

COUNTY EXPENDITURES.

The county of Rockingham owes a debt of $122,000. It has been increased a little more than three thousand dollars the past year by reason of the expenditure for the new asylum at the county farm for which no appropriation seems to have been made. Sixty-six thousand dollars were raised by taxation, twenty thousand dollars were hired, and the other receipts were of small amounts. The debt does not seem likely to decrease. Twelve thousand dollars will become due on the first of October and a like sum next year, and we presume as the county has a good credit it will continue to hire the money to pay its maturing bonds. Indeed, the fact that the county bonds are sought for as an investment and the ease with which the County Treasurer pays the county debt,—like Micawber, giving an I. O. U. in discharge,—is perhaps a reason why no more strenuous efforts are made toward reducing the debt. We are informed by the Treasurer's report that the county paid last year in interest $6,540.00, though we are told that some one has been kind enough to carry at an expense of only $270.63, or less than two per cent., the floating debt of $15,000. As the Treasurer gets but $300 per year salary, it would seem that this is cheap financiering. The county farm costs us twenty-five thousand dollars yearly. Paupers outside the farm cost nearly half as much. Our jurors cost us about six thousand dollars, and our Sheriffs and court attaches cost $3644. We owe considerably more than ten dollars each for every inhabitant of the county to pay, and the question presents itself to the tax-payer, "Are our county affairs managed in the most judicious and economical manner? Do we get the services of the best men for commissioners, and is the strictest economy shown in the expenditure of the county's money?" We are not increasing in wealth or population. The aim should be not to refund, but to diminish our indebtedness.

We hope that when the County Convention meets next week it will make some provision for reducing our indebtedness. All we have to show for it is an unprofitable outlay at Brentwood, and if it costs us five hundred dollars a week to run the county farm, the question whether a more economical and satisfactory arrangement cannot be made for the support of the county poor, is one which our representatives ought to investigate.

[Communicated.]

THE PHONOGRAPH.

Those who improved the opportunity afforded them of seeing the phonograph on Wednesday afternoon and evening of last week, at Mechanics' Hall, came away very much gratified, as well as having been not a little amused. Although but the germ of something greater when reaching a more advanced date of completeness, it is truly a wonderful invention, as all were ready to acknowledge, if it is not yet all that is hoped from it hereafter, and they were somewhat reminded of the voice of the man who does the talking for Punch and Judy in its echoes of the comic tests of its powers, such as "Peter Piper" and like familiar rhymes, applied to it by the exhibitor. Among the memories that will be recalled hereafter of the first phonograph seen in Portsmouth, will be the experiments upon it in his fine-toned voice of a well-known citizen, especially the flourish with which he concluded one of the verses of a song, that created much mirth from its being returned by the instrument with such perfect accuracy; the whistling of "Yankee Doodle" by a popular music teacher, and that came back to the ear with not less of distinctness, and the singing of a portion of "La Marseillaise" by the French lady teacher at Miss Morgan's seminary, who took away with her the tinfoil on which it had been impressed, to be reproduced from it, when opportunity offers, in her native land.

B.

THE FARRAGUT HOUSE.

The large new building at the Farragut House at Rye Beach is one of the finest structures upon the coast. It was built by contract, and in a most thorough manner. On the first floor is a beautiful hall, well lighted, with a stage at the end, and an auditorium capable of seating over three hundred spectators; it is admirably adapted for concerts, readings, theatricals, etc., and is also a fine place for hops. Above are rooms with high ceiling, well-ventilated and with the lates conveniences; connected with the office are a set of electric bells. The furniture and carpets of these new rooms are of a superior quality, far above that usually seen in seaside hotels. The views from the windows on two sides, looking far out over the deep blue sea, the broad piazzas, the wide halls, and the extraordinary care evidently taken to make this equal in point of comfort and surroundings to the homes of the class of persons who annually come to the Farragut, show the determination of the proprietors to maintain the high repute of this celebrated summer resort. The extensive addition to the dining room at the Farragut is worthy of a visit to note the great improvement. The enlargement has been constructed in a substantial and tasteful manner, the ceiling being handsomely frescoed. The appearance of the "new Farragut" from the sea is very pleasing, its style of architecture being of a symmetrical order, gratifying to the taste and adding much to the appearance of the place.

THE VICINITY.

Savage, the murderer of Rose Vincent at Saco, has been condemned to imprisonment for life.

The fifty-sixth annual meeting of the Congregational churches in York county is to be held at Kennebunk, June 11th and 12th.

A young lady in Exeter recently bid against a professor in bricks and mortar for the job of taking down and removing a large, old-fashioned chimney. The professional's bid was $8, the young lady's $6; the lady got the contract, and down came the chimney; she wheeled the bricks away herself, made a good thing of it, and fully satisfied the letter-out of the job.

The Greenland correspondent of the Exeter *News-Letter* says: "In this town are one hundred and sixty-five dwelling houses, only four being tenantless, twenty-one having two families each in them, making one hundred and eighty-two families all told. Sixty-two families attend the Congregational church. Sixty-three families attend the Methodist. Twelve families attend the Catholic church in Portsmouth. A few families attend the Unitarian church in Portsmouth from here. The remainder stay at home."

INHUMAN CRUELTY.

On Sunday afternoon Sheriff J. Horace Kent of this city and Deputy Sheriff Smart of Newmarket started for Deerfield to investigate the alleged murder by long-continued cruelty of a girl named Hattie E. Chase, a daughter of John Henry Chase, formerly of this city, and the adopted daughter of Tobias and Matilda Perry of Deerfield. The officers were on the trail all night and Monday forenoon, and the result of their investigations was the arrest, Tuesday afternoon, by Deputy Sheriffs Flint and Smart, of the Perrys, on a warrant charging them with assault with intent to kill, issued by County Solicitor Harriman. The details of the case are sickening. The girl, now twelve years old, was taken by the Perrys six years ago, and since then has been subjected to torments that would make Sitting Bull blush. She was found after a night's search by the Sheriff and his companion, at the house of her mother in Barrington, lying in bed, with her head and body shockingly bruised, lamed for life with an injured hip, and wasted to a skeleton. The Perrys are well-to-do people, and Comeouters (whatever that may be) in religion. One phase of their cruelty to the wretched girl was their forcing her in the coldest weather to carry water a long distance for eleven head of cattle, a horse and six sheep. The Perry woman also tortured her by daily telling her that her mother was burned to death in the Fall River mill, and showing her illustrated papers containing hideous pictures of women struggling in the flames. The mother knew nothing of her child's sufferings until a short time ago, when she called at the Perrys to visit her; Mrs. Perry endeavored to prevent an interview, but the mother was persistent, and on finding the horrible condition the girl was in at once took her away.

REAL ESTATE CONVEYANCES.

The following transfers of real estate in this city and vicinity have been recorded in the office of the Register of Deeds:

EPPING.

Laura A. Doy of Epping, to Charles F. Davis, of Newmarket, land, $2000.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. S. ROSE & CO., 46 DEY ST., NEW YORK.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for Children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON CO., PA., Mch. 17, '76. *Dear Sir:*—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.

F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments

allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy,

and harmless remedy for children, is Pitcher's Castoria. It is as pleasant to take as honey, and as certain in its effects as Castor Oil. For Wind Colic, Worms or Stomach and Disordered Bowels, there is nothing like Castoria. jlaug

WOMAN.
By an immense practice, extending through 8 period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.
To designate this natural specific compound, I have named it
Dr. Pierce's Favorite Prescription.
The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the chief, or crowning gem of my medical career.** On its merits, as a positive, safe, and efficacious remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and will sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, (two-thirds of the medicine having been taken according to directions, and the other being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures, in hundreds of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**
The following are among those diseases in which my **Favorite Prescription** has worked cures, and by its aid, with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppression when from unusual causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my **Favorite Prescription** works **cures—the marvel of the world.** This medicine I do not extol as a cure-all, but as admirably fulfilling a **single class of purposes,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects will find it in the PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. Treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.
FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.
R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, ofy2878
H. HALLETT & Co., Portland, Maine.

DR. JOHN TRIPP'S
BLOOD PURIFIER
IS the most wonderful discovery for the radical cure of **SCROFULA** and **SYPHILIS.** It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. **ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM** and **GOUT** yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.
Sole Eastern Agency, **386 Columbus ave., Boston.** Office hours, 8 to 11, A. M., 2 to 7 P. M.
Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codnov11

Transportation.

RE-OPENING
OF THE POPULAR
PROVIDENCE LINE
TO NEW YORK,
VIA PROVIDENCE.
Opens April 29, for the season of 1878.
Only 42 Miles of Rail.

PENNSYLVANIA RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE
The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In
Construction AND Equipment
THE
PENNSYLVANIA RAILROAD
stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.
The Safety Appliances
in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed
THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,
forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.
Pullman Palace Cars
Are run on all Express Trains
From New York, Philadelphia, Baltimore, and Washington,
To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,
WITHOUT CHANGE,
and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.
The Scenery
OF THE
PENNSYLVANIA ROUTE
is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form
A PLEASING AND MEMORABLE EXPERIENCE.
Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns.
FRANK THOMSON, L. P. FARMER,
General Manager. Gen. Passenger Agent.
C. S. HALDEMAN, New England Agent,
203 and 205 Washington st., Boston, Mass.

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL.
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Train.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical Science, No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh and drastic in effect; but such is not at all the case. The different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.
R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.
The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.
The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.
The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.
Orders by mail will receive prompt attention.
Jan. 27, 1878. E. P. KIMBALL, Cashier.
tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.
The few compositions, which have won the confidence of mankind and become household words, amongst not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as
Ayer's Cherry Pectoral.
It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these complaints of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that no other medicine has ever yet been in a position to assume. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords to you by its timely use in sudden attacks.
PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine. No. 1

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the *juices* and *flavor* are retained.

Does not get *ashes* or *soot* on the meat.

Does not let smoke and *gas* out of the stove.

Does not put out the fire.

Ask your Dealer for the **STANDARD BROILER.** *It is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & Co., Nashua, N. H.

MANUFACTURED BY

ARTHUR BROWN & CO., Fisherville, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. ***Glenn's Sulphur Soap*** produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts.* It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

"HILL'S HAIR AND WHISKER DYE,"

Black or Brown, 50 Cents.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health, and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scrofula, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

In the preparation of this remarkable remedy every herb, plant, and bark is subjected to a distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all quills are insoluble compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation, and pain and at once correcting, cleansing and purifying the secretions. Internally administered it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen,—About twelve years ago, while travelling under Father Kempt's Northern Light Concert Company as a tenor singer, I took a severe cold and was laid up a fortnight. The cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, when I was really obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so deaf as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have reduced me an easy victim. When in this distressing condition, I commenced the use of Sanford's Radical Cure for Catarrh, very reluctantly, I confess, as I had tried several advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of Sanford's Radical Cure. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1878.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

This article has now been before the public for many years, during which time numerous imitations of it have appeared in the form of liniments, lotions, plasters, and ordinary galvanic bands, but have steadily increased in sale and met with universal approval, as evinced by over one thousand unsolicited testimonials in our possession. Many remarkable cures have been certified to by well-known citizens in all parts of the Union. Pamphlets, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience, and we feel that we are now offering the best remedy for the purpose that has ever been produced. Beware of other plasters, put on to take the benefit of the reputation of the genuine article. Ask your druggist for it. It will be found at all druggists' and dealers' in medicines throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Daily Chronicle.

Chronicle Correspondence.

ANDOVER, MASS., May 30th.

Mr. Editor: The approaching centennial celebration of "Phillips Academy" in this place, which occurs on Wednesday and Thursday, June 5th and 6th, has been noticed in your columns, and perhaps a few items in regard to this well-known seat of learning, and other matters connected with "Zion's Hill" may not be without some interest to a portion of your readers.

Phillips Academy was founded April 21st, 1778, by Judge Samuel Phillips; was incorporated by the Massachusetts legislature Oct. 4th, 1780, and was the first incorporated academy in America. An old joiner's shop, twenty by thirty-five feet, one story high and capable of accommodating thirty or forty scholars, was the first building used for school purposes. Since that time four more buildings have been used; two of them are now standing, one used as a gymnasium and the other as the academy, the latter being an imposing structure, standing in a very conspicuous place, and built in 1865. The first Principal was Mr. Pearson, and since then there have been eight others, the one best known being Dr. Samuel Harvey Taylor, who was universally called by the boys "Uncle Sam." He filled the position a third of a century, and, as may be remembered by many, died very suddenly on a Sunday morning in January, 1871—and in this connection it may not be improper to state that his widow died quite as suddenly and unexpectedly on Sunday morning, May 12th, this year. The present Principal is Prof. C. F. P. Bancroft, who has occupied the position six years. "Uncle Sam" was a terror to the boys—that is, the bad ones—and it was not often that they could get ahead of him when concocting measures to break the rules of the school. He was almost sure to find them out, and then if the offences were rank they were sent from the "Hill" to some sequestered spot for a period, where they could meditate upon their wickedness. But if they feared him they also respected him, and to-day there are not many who were under his care but what revere his memory. One of the rules was that no student should use tobacco, and one poor fellow was coming up street one day with a good allowance of "fine cut" in his mouth—no doubt enjoying it, too—when looking up he discovered himself in close proximity to Uncle Sam, and fearing that he would speak to him, and so of course discover the weed, he, not daring to spit it out, swallowed it, and a sicker boy than he, when he came into the Mansion House a few minutes later, never crossed the threshold of that well-known resort. The latest case of "antics" or whatever it may be called on the part of the boys, took place not long since, when ten of them, feeling dissatisfied at the manner in which breakfast was served to two or three of them at their boarding house, and thinking it might be worse at dinner, all adjourned to a public house where, in the midst of probably the best dinner they had sat down to for three months, they were suddenly astonished by the appearance of the Principal standing at the head of the table.

The number of students that have attended this institution can be counted by thousands, and they have come from all quarters of the globe, and many among them have became prominent men and made their mark. The catalogue of 1877 shows that boys from twenty States attended school here during that year; and Canada, South America, the West Indies, Turkey and Germany were represented. Extensive and elaborate preparations are being made for the coming celebration, and as "Zion's Hill" is now in its glory of green foliage on its magnificent elms and other trees, it can not prove to be anything but a successful demonstration, and a season of delight to all who may revisit the scenes of their school days on that occasion.

The Mansion House, which for many years has been used for hotel purposes and is still, was built in 1782 by Judge Phillips for his residence. Here Gen. Washington, during his celebrated tour through the Eastern States, called (Nov. 5th, 1789) on the Judge and spent half an hour in the "south-east parlor," and the chair in which he sat has been preserved and is still to be seen in the same room. On that same day, in Andover, the General requested a young girl to mend his riding glove, which she did, and was rewarded with a kiss, which so elated her that she refused to have her face washed for a week afterwards! The lock on the front door of the Mansion House is eighteen inches long, twelve inches wide and two inches thick, and the key is nine inches

long and weighs one pound.

"G.," your New York correspondent, evidently "knows how it is himself," and a long residence at the "St. Cloud" has not only made fearful inroads on his stock of "innocence" but has made him perfectly competent to give excellent advice. If there is any error in this statement it is attributable to B. Hill, from whom timely information is often gratefully received. NAT.

Daily Chronicle

WEDNESDAY, JUNE 5, 1878.

Congress.

The question of the right of the present Legislature of the State of New Hampshire to elect a Senator has been referred by the Senate committee on privileges and elections to Senator McMillen, as a sub-committee. His high reputation for legal ability and large experience in dealing with questions of this character will probably make his report upon the subject decisive with a majority of the committee.

Storm and Flood Signals.

Under direction of the Secretary of War a board has been convened by Gen. A. J. Myers, Chief Signal Officer, to meet at Fort Whipple, Va., "for the examination of such plans or systems of signals or reports as may be properly brought before it." The board will inquire especially into the system of storm and flood signals devised by Mr. A. Watson, the prominent feature of which is the speedy announcement of coming storms by the use of cannon for the dissemination of information locally, as an adjunct to the telegraph. In order to a thorough test of this system the Western Union Telegraph Company has tendered the free use of its wires for a length of time sufficient to demonstrate the practicability of the system.

News and Notes.

A man named Caldwell, at Americus, Ga., on Sunday killed his wife, three children and his wife's sister with a flat-iron, and then committed suicide. He was insane at the time.

More depredations by the Bannock Indians are reported. Gen. Sheridan telegraphs that the news from the north, by the way of Benton, is very alarming. Friendly Nez Perces are fearful of an outbreak somewhere on the upper Columbia. The restlessness is more general and simultaneous among Indians hundreds of miles apart than usual. The United States skeleton of an army is far too large, and should be reduced to three men, the Bounding Banning, Abe Hewitt and Proctor Knott.

A Lowell man named Irvin attacked his wife on the street Monday, and stabbed her twice in the back. The wounds are probably not fatal. Irvin's uncle came to her rescue, when the infuriated man shot him through the back, the ball coming out on the left side. It is believed the wounded man will recover.

Rev. C. C. Burleigh, the famous anti-slavery leader and late pastor of the Florence (Mass.) Free Congregational church, was run over by cars at Florence, Monday night, and fatally hurt. He was running between stationary and passing trains at the time of the accident.

A passenger train on the Pennsylvania Railroad ran into a funeral procession on its way from Newark to Mount Olivet cemetery at the North avenue crossing in Elizabeth, N. J., Monday, and striking a carriage killed both horses, crushed the driver's skull and broke his leg and arm. Two old men in the carriage were badly but not fatally hurt.

It is said that when Nobling attempted to murder the Emperor William, as soon as the Emperor was fired upon and when the first report was heard, a chasseur sitting on the box with the coachman threw himself over the Emperor, so that the slugs from the second shot touched only the arm of the Emperor.

A peculiar case of suicide occurred in Chicago Sunday morning. One Christian Bestrim has been paying his attentions to a Mrs. Miller, a widow who keeps a saloon, for about a year, but has been steadily refused by her. Saturday night he called and demanded her hand, but was again refused. About daylight Sunday morning she was awakened by his breaking in the door of her room where she was sleeping, but she remained quietly in bed to watch his movements. He approached her bed and asked if she would not reconsider and accept him. Upon again being refused he took a pistol and shot himself six times in the breast, the last shot passing through his heart and killing him instantly. She then notified neighbors to remove the body that she might resume her slumbers.

Barque Advocate, of Windsor, N. S., 635 tons register, sailed from New York for Dunkirk, Scotland, May 13th, with 36,000 bushels of grain and 16,000 feet of lumber. She was seen bottom up in the Atlantic May 28th. All hands no doubt lost.

The present business stagnation is not the worst the country ever experienced. In 1843, cotton sold at four cents a pound and pork at $4 per barrel; in New York lots that brought $35 per front foot in 1836, in 1843 fetched only $3.50. No real relief after the panic of 1837 came before 1848, or eleven years after the first trouble. Our last panic began in 1873; a change is now at least within reasonable calculation, and a moderate revival is rationally hoped for.

The correspondent of the London *Times* in Berlin thinks that the sudden and alarming growth of socialism in Germany is directly due to the indiscretion in sowing the milliards paid by the French broadcast over the country. Excessive competition begotten of French gold weakened small capitalists. Then came the reaction. Reckless extravagance and wanton strikes were replaced by involuntary idleness and pitiable destitution in whole sections of the working classes. Just when a ray of light was breaking in upon the dark scene, the Russian must take it into his head to liberate the Slav and make the Teuton pay for his philanthropy by rude relapse into commercial straits.

A pair of martins in Lancaster, Pa., imprisoned an owl that had taken possession of their nest, built in a small box, by plastering the entire front with mud. A gentleman witnessing this performance opened the box a few days afterward and found the owl dead.

A witness by whom Daniel Dean attempted to prove an alibi in the trial for murder at Estillville, Va., was pushed so closely on his cross-examination that he got frightened and confessed to swearing as he did for $75, given him by a lawyer. The lawyer vanished before he could be arrested, and Dean was convicted of murder in the first degree.

Major W. I. McDonald, who has been Chief Clerk of the United States Senate for nearly forty years, is lying dangerously sick at his residence at Washington, and to add to his affliction his wife died on Saturday night. There is little hope of his ever again assuming his duties.

Willard's Hotel at Washington has been closed, and the furniture sold at auction. The hotel for some time past has been conducted indirectly by people having a mortgage on the furniture and fixtures, but they found the receipts too disproportionate to the expenses to stand the strain any longer.

Curiously enough the inflation-greenback movement is dying out in the west and gaining strength in the east. It will make but a sorry show in Iowa, Illinois and the Western States generally in the autumn elections this year, but shows some strength of organization in New York, Pennsylvania and the New England States. The recent Indiana "National" convention ought to have been composed of 1,075 delegates—less than a third of that number responded to the call, and that chiefly from the democratic counties. The greenbackers are no longer a political power in that State. The same state of things is true of Iowa. The late State convention was a flat failure. The former prominent leaders were absent. In the west there will be this year but two parties—republicans and democrats—and the latter will wish they were "not."—*Burlington Hawkeye.*

New Hampshire Items.

The Great and General Court of the State of New Hampshire convenes to-day.

The annual report of the State Fish Commissioners shows that the distribution of black bass has been remarkably successful. A large number of ponds in all sections of the State have been stocked. Land-locked salmon were placed in Tri-Echo Lake in Milton, Lovewell's Pond in Wakefield, Squam Lake, Sunapee Lake, Blaisdell's Pond in Sutton, Stocker Pond in Grantham and Star Pond in Springfield. Several other bodies of water have been stocked with smelt. The bass are distributing themselves faster than the Commissioners could do it and the Connecticut river is already so well stocked in the neighborhood of the Sugar river as to afford excellent fishing. Once planted and let alone for five years, these fish will take care of themselves and need but little protection. The Board of Commissioners consists of Col. Samuel Webber of Manchester, Luther Hayes of Milton and Albina H. Powers of Grantham.

There is considerable excitement in Westmoreland, caused by the finding of some old clothes, a vest and hat and the sleeves of a frock, in the Esty woods, under some logs, about half a mile from any house.

About fifteen students of Phillips Academy were arraigned in the Police Court at Exeter on Monday for disturbing the peace, but the case was continued to Saturday. This was more of the "serenade" business.

A remarkable phenomenon occurred at Hopkinton the other evening, a large branch of an elm being taken off by an electric current when there was no flash, or thunder, or wind, and the only noise heard was like the explosion of fire crackers. No shower had fallen through the day.

Naval Affairs.

Commodore William F. Spicer is ordered to command the Boston navy yard, June 25th.

The new class of officers for torpedo duty reported to Capt. K. R. Breese, commanding the torpedo station at Newport, R. I., on Monday. They were all in full uniform, and were shown the various departments by Capt. Breese and the instructors. In the class are Commanders George C. Remey and Chas. C. Carpenter, and Lieutenants Charles H. Rockwell and A. M. Thackara.

—Indianapolis reports a strange epidemic among the cattle, which die in a few hours after eating white clover covered with dew, from the gas it forms in their stomachs, which penetrates to all parts of their bodies. The remedy is as strange as the disease, and consists in thrusting a knife in the sides of the cattle afflicted, just behind the shoulder-blades, which releases the gas and brings instant relief.

—An erring husband, who had exhausted all explanations for late hours, and had no apology ready, recently slipped into the house, about one o'clock, very softly, denuded himself very gently, and began rocking the cradle by the bedside, as if he had been awakened out of a sound sleep by infantile cries. He had rocked away for five minutes, when Mary Jane, who had silently observed the whole manœuvre, said: "Come to bed, you fool; the baby isn't there."

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective as a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

A young mechanic in Singer's Sewing Machine Works made $6,000 in less than four weeks, from an investment of $200. Name can be furnished. Alex. Flothingham & Co., 12 Wall st., N. Y., were his brokers. Send for their *Weekly Financial Report*—free. 7

The educational and charitable institutions of New Orleans are in constant receipt of large funds from the Louisiana State Lottery Company, an Institution specially chartered by the State in 1868. One of its Semi-annual Drawings will take place in that city on the 11th of June. This drawing will be under the personal supervision of Generals G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia. The prizes, as set forth in a scheme in another column, aggregate an enormous sum including a capital prize of $100,000.

Patrons of a first-class hotel justly consider themselves entitled to comfortable rooms, a bountiful bill of fare, and courteous treatment in the office. All these, combined with a notable degree of elegance throughout, are to be found at the Colonnade Hotel, Philadelphia, Pa.

Free Sample Bottles of Adamson's Botanic Balsam may be had of your druggists. Pleasant and never failing remedy for coughs, colds, bleeding from the lungs, asthma, &c., &c. Large bottles 75 and 35 cts. Try it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&wtsept15 7

E. G. PIERCE, JR., P. M.

THE CITY.

Mr. John E. Rider arrived in this city from California on Monday evening.

Mr. M. M. Collis, the proprietor of the Boston 99 cent store, has a cat in the store which is claimed to be twenty-three years old.

We were on Tuesday shown a specimen of winter rye raised by Mr. Silas Nowell, of York, that measured six feet ten inches in height. The stalks shown us were pulled on the last day of May.

The fishing schooner Celia was lifted off the Beacon ledge, Tuesday forenoon, by the navy yard riggers' gang. She was raised by two scows, and towed in on the beach at Oyster island by tug Clara Batemen.

The Light Artillery was out on street parade Monday evening, and judging from appearances it is evident that they intend to keep up their reputation for discipline in drill on their visit to Concord. The Portsmouth Cavalry has been assigned the right of the procession at Concord on inauguration day.

On Monday evening a new resolution was introduced in a meeting of Piscataqua Lodge of Odd Fellows by friends of the proposed new hall, asking that $6000 be substituted for $5000 for the hall. The matter was postponed for two weeks. At a former meeting the vote stood seventy-five to fourteen for indefinitely postponing the whole matter.

On Tuesday evening there was a fracas in the residence of Benjamin F. Shepard, colored, in which a Peruvian named George B. Cochran, who came in here on the U. S. S. Omaha, shot Shepard through the wrist with a revolver. Jealousy was the cause. Both parties were taken to the police station, and Dr. Jones was called to dress Shepard's wound.

It was currently reported about town on Tuesday that the workmen who were repairing the side door steps of the old Rice house on Islington street found some money, the quantity being kept a secret. When the cellar to the house was built, many years ago, money was then found and some of the old residents who remember the circumstance state that at one time one hundred persons were digging for it.

The Guernellas open at Music Hall this evening. They are highly spoken of by the papers as remarkable exhibitors, who perform all the "spiritual phenomena" of the mediums in better style than the mediums do, and under more difficult conditions. This evening Sheriff Kent has been invited to shackle the performer, who will be held by four men, and in forty seconds it is claimed the bound man will be freed. There will also be organ playing and singing by invisible persons, the organ belonging to Mr. D. H. Montgomery. The Great Falls *Free Press* says they cause spirit forms, hands and faces to appear in the full glare of the gaslight. Tickets at Preston's; see advertisement.

A letter from a point twelve miles from San Antonio, Texas, written home by Mr. George B. Mudge, formerly of this city, says that on Saturday, May 25th, (the day before the wide-spread hailstorm in this State, Massachusetts and Vermont,) there was a severe hailstorm there, and after it was over hailstones were picked up measuring two and three-quarters inches long and an inch and a half thick, of solid ice. No great damage was done on the sheep stations, as it was shearing time and most of the sheep were under cover. Mr. N. K. Raynes, an old "Texan ranger," informs us that he has more than once seen similar hailstorms there, and that the people always had a cool drink thereafter, as one or two of the hailstones put in a glass of water would thoroughly chill it.

On Tuesday we enjoyed a call from Mr. Henry M. Burt, editor of the *New England Homestead* of Springfield, Mass., and editor and publisher of *Among the Clouds*, the daily paper issued from the summit of Mount Washington during the season of summer travel. Mr. Burt was the pioneer in this issuing of a mountain-top newspaper, having published *Among the Clouds* last year, his printing office being the reception room of the old Tip Top House, 6291 feet above the sea level. The first number is issued on the 10th of July, and publication is kept up until the close of the season. All the "news" of the mountain-top is given, and a full list of the daily arrivals at the summit. The paper last year was very handsomely printed, Bro. Burt being determined to do the craft no discredit in his elevated situation.

There has been more petty thieving from vessels and boats in the harbor and at the wharves this year than ever before. The boats used by the navy yard workmen for crossing the river have suffered largely. The thieves take ropes, oars, rowlocks, small sails and anything else that they can lay their hands on and lift. The sneaking pilferers do their stealing at night, and as they are of course thoroughly acquainted with the river it is almost impossible to catch them.

COMMISSIONER'S COURT.

Charles Johnson, James Johnson, John Sullivan and Robert Fogg, complained of by Capt. Henderson of schooner Anna and Millard for deserting from his vessel, were on Tuesday forenoon brought before United States Commissioner W. H. Y. Hackett. In the absence of Mr. Harriman, counsel for the seamen, the case was postponed until four o'clock in the afternoon, when some evidence was offered; but Mr. Harriman being obliged to leave town on the evening train, and stating that he had other evidence to put in, the case was continued until ten o'clock Wednesday morning.

THE SHOALS.

The landing stage for Appledore island was towed out on Monday by steamer Appledore, and moored in position for the summer. The Laightons have made a thorough overhaul in all departments of their establishment, and everything connected with their islands is in the best condition. For sail-boat service at the islands they have secured their old force of veteran skippers, and other equally competent ones. The Appledore, as before announced, will be commanded by Capt. Albert Rand, who is too well-known to need either introduction or praise. Mr. William Gertin, who for three years past has had charge of the Appledore's engines, has again taken that position, his services being too valuable to be dispensed with. Mr. George Smith, who will act as mate, has had considerable experience at steamboating, having been employed on the Major by Mr. Poor. The little steamer Mollie will make trips between Appledore and Star islands day and evening, under command of Mr. Joseph Haley, who was born on the Shoals and is a capable and careful seaman. Many minor improvements have been made on both islands, nothing which could be suggested as likely to increase the comfort of their guests having been left undone. On Star island the wharf has been raised and made solid; additions have been made to the buildings where needed, and the grounds much improved. The Appledore House and island, as heretofore, will be under the personal superintendence of the Laighton brothers, while Mr. Christopher E. Rymes will have special charge of Star island and the Oceanic. That the latter, under its "revised and improved" management, will soon win a fair share of the popularity to which its many attractions entitle it, we do not doubt, any more than we do that it never would have become a favorite resort so long as Mr. Poor controlled it.

ROCKINGHAM CO. CENSUS.

Below we give a report of the census of Rockingham county so far as it had been returned to the Secretary of State by the town and city authorities up to the last of May. We also give the census of 1870 to make the comparison easy:

	1878	1870
Atkinson	509	488

THE VICINITY.

Mr. Augustus Jones, of Spruce Creek, Kittery, has fifteen Leghorn hens which in the first twenty-three days of May laid 225 eggs.

The old "Post Road" in Kittery and York is being much improved under roadmasters Grant, Goodsoe, Nowell, Wilson, Haley and Roberts.

Deputy Sheriff Hanson, of Biddeford, on Sunday morning captured five ten-gallon kegs of liquor at the Eastern Railroad depot in that city. The kegs were marked "J. Pierce," the same as the last previous lot seized by the same officer. The question arises among the Biddeford people, "Who is 'J. Pierce,' anyway, and what kind of a business does he do, to enable him to afford to lose fifty gallons of liquor a week, and yet keep on at it?"

The partridges in some parts of York have been so tame the past winter and spring that in quite a number of instances they have left the woods and mingled with the fowls in barnyards, helping themselves freely to the fowls' grain.

An attempt was made to burn the store of D. F. Littlefield, in Saco, Sunday morning. A police officer saw smoke issuing from a shed in the rear, and on investigating the matter found a box filled with hay on fire, evidently the work of an incendiary.

Mr. George Shattuck, of Birch Hill, York, is laying the foundation for a new house. Mr. Isaac Chick has finished his sawmill, built in place of the one burned last winter; the new mill is fitted with improved machinery, and is now ready for business.

Joseph Ropes, who on Sunday robbed his uncle, E. T. Doe of Newmarket, of $125, and made good his escape, was captured in Nashua on Monday and $104 of the money recovered. The young man, aged twenty-one years, had provided himself with a revolver and bullets, and was prepared to take to the highway as a tramp.

Tobias Perry and his wife Matilda were arraigned before Justice Shackford at Newmarket, Tuesday forenoon, and were ordered to recognize in the sum of $1000 each for their appearance on the 18th of this month at Deerfield, to further answer to a charge of assault with intent to kill on Hattie E. Chase. They procured bonds.

THAT "FREQUENT IRISHMAN."

The *Times* copies from the CHRONICLE of Monday our item under the heading "A Frequent Irishman," and says:

We copy the above from the *Chronicle* of this morning and add the following with the remark that "they all do it:"

An Irishman who stood near the third base intently watching the game of base ball which the Amateurs were playing on Saturday afternoon, was "sent to grass" by a foul which struck him under the fifth rib. "A fowl, wuz it? Begorra, I thought it wuz a mule, sure."—*Keene (N. H.) Sentinel*, May 9.

A burly Irishman got hit in the bowels by a stray ball on Broad street yesterday while watching a base ball game. Somebody near paddy told him it was a foul, whereupon Mike exclaimed, "A foul, wuz it? be jabbers, I thought it wuz a mule."—*Elizabeth (N. Y.) Daily Herald*, May 29.

"A foul hit," exclaimed the umpire, Saturday, as the ball hit an Irish gentleman in the head. "A foul hit, do yees call it? be jabbers I thought 'twas a mule hit."—*Rochester Courier*, May 31.

To be continued,—probably.

An Irishman who stood near the third base watching a game of base ball was sent to grass by a foul, which struck him under the fifth rib. "A fowl, wuz ut! Begorra, I thought it wuz a mule."—*Lake Village Times*, June 1st.

YORK BEACH.

Great preparations are going on along the sea front of York for the reception of the annual and annually-increasing influx of summer visitors. Mr. Joseph Bragdon is building a piazza on the west end of his cottage, which is leased to Mrs. T. Bigelow Lawrence. Capt. Sam. Young is putting his premises in order, and has got his pleasure yacht Belle already in fine trim. The Marshall House, at the entrance to York river, is being renovated; and the Goodwin House is receiving thorough repairs, and the grounds being graded and otherwise improved. Mr. Wm. H. Grant has taken charge of the Adams House, and Mrs. Todd and Mrs. Plaisted of the Stone Edge (or Lord) cottage, both at York Beach. The Fairmount House at Union Bluff, carried on by Mrs. Griswold, and the Sea Cottage, which is run by mine host Grant and his wife Nancy, famous for superb chowders, are being cleaned up outside and in. Mr. George Griffin, who was connected with the Fairmount last year, has finished at the Bluff a new house which he calls the Agamenticus, and which will accommodate thirty persons. The Thompson House at the Bluff has had its piazza painted, and a lawn has been laid out facing the sea. A Mr. French, of Manchester, is building a cottage at the Bluff for a summer residence for himself and family. Mr. John Lord, of Picnic Grove, whose place has long been headquarters for gunners, to whom he is known as "Uncle John," has been fixing up his house and grounds in nice style, and putting his yacht "Veto" in first-class condition for pleasure parties. Mr. Edward C. Moody has finished and furnished his twelve-roomed house at the Beach. Mr. John Dennett is putting up a fine house for a residence at York village.

—The largest cask in the world is that at Konigstein which was finished in 1725 after three years' work. The cask, as soon as finished was filled with 6000 quintals of good Meissen wine, which cost £6000 sterling. It contains 649 hogsheads more than the famous tun of Heidelburg. The top is railed in, and affords room sufficient for fifteen or twenty persons to stand while drinking to the health of its builder.

Astral Oil!

THE SAFEST AND BEST

ILLUMINATING OIL!

For Safety and for Excellent Burning Qualities, it is without an equal.

CAUTION.

The great popularity of "ASTRAL" OIL has induced some unprincipled persons to sell worthless and dangerous imitations for "ASTRAL," while others palm off inferior oils, representing them as good as "ASTRAL." To prevent this fraud, purchasers should demand "ASTRAL" and take no other.

The Genuine Article is sold by

Portsmouth Chronicle

How Not to Get Local News.

He came into our office, and after paying his subscription, said:

"I guess you can stop sending my paper, as I've just subscribed for a paper that I need more."

"Just so," we returned.

He pulled it out of his pocket and handed it to us for inspection. It was a Philadelphia publication, being neatly printed, ornamented with a handsomely engraved head, and contained forty-eight columns of reading matter.

"A very fair looking paper," said we. "But, my dear sir, do you find much news concerning our own city and neighborhood in it?"

No, he didn't know that he had found any.

"Do you find anything in it about our State?"

No, he didn't. And yet he needed that sheet much more than he did his local paper. Such men are blessings to our community. What enterprise would flourish without them?—*Exchange.*

—Edison has perfected a fog-horn that can be heard ten miles, but when it comes to an invention for getting his hired girl up in the morning, he smiles sadly and falls to musing on the infinite.—*Utica Observer.*

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of these may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. The **White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Sprains, Ring-bone, Sweeney, Galls, Foll-evil, etc., the **White Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are healing as well as certain.

UNDER FRANKLIN HALL, FLEET STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, my faith has grown with years, and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to take my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under a **POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, I **feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine is not an extract or a concoction, but it admirably fulfills **a singleness of purpose,** being a perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $50 per day. DR. JOHN TRIPP'S

BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and all Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codtnov11

Transportation.

RE-OPENING

OF THE POPULAR

PROVIDENCE LINE

TO NEW YORK,

VIA PROVIDENCE.

Opens April 29, for the season of 1878.

Only 42 Miles of Rail.

Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 5 P. M. Connecting at Fox Point wharf, Providence, with the **Entirely New and Magnificent**

STEAMER MASSACHUSETTS

and the well-known and popular

STEAMER RHODE ISLAND,

Are ving in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.

Returning, leave Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.

No intermediate landings between Providence and New York.

Tickets and State Rooms can be secured at Company's offices, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

J. W. RICHARDSON, Agent, Boston.
A. A. FOLSOM, Supt. B. & P. R. R. codtoctl

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an invariable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 79

FRANK THOMSON, *General Manager.* L. P. FARMER, *Gen. Passenger Agent.*

C. S. HALDEMAN, New England Agent, 203 and 205 Washington st., Boston, Mass.

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL,

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Trains.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

GEO. L. CONNER, Gen'l Pass. Agt.
J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 5 Old State House.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS:

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching** and **thorough, yet gentle and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who can analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

NEW FOUR PER CENT

GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine, and it makes the most effectual cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed those dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humers in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine disease, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy, every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all results are insoluble compounds of woody fibre; all impure, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain, and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Rome, N. Y. This cold brought on a severe case of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, a severer one than any previous, had suffered me most excruciating pain in my head, was so severe as to be scarcely able to speak, and confined me to my room. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one who has had aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, GEO. W. HOLBROOK.

WALTHAM, MASS., Jan. 8, 1876.

P.S.—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Hamford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Plasters have now been before the public for years, and, notwithstanding the numerous humbugs and imitations in form of linaments, lotions, pain-drops and ordinary plasters, they have steadily increased in sale and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many remarkable cases have also been certified to by well-known citizens of all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now the best plaster in the world, and the best plaster in the market at retail. The price (25 cents) is within the reach of all. The price is low, because we believe it is foolish to pay any other plaster. But, notwithstanding these facts of the superiority and low price of our plaster, in the world for the least money, any worthless remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for selfish motives and induce people to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

Old Time Chronicles, No. 170.

BY UNCLE JOSEPH.

Two miles from Newmarket village, down by the Bayside, are the remains of a house, taken down but a few years ago, its last occupants having occupied it perhaps less than twenty years since. There is but little left but the lower parts of the chimney, the brick being larger and more coarsely made than the more part made now. What is called the mantelpiece over the principal fireplace is a large timber, and the fireplace is of pretty good size. Valentine Smith, Esq., living a little farther on, has a picture of this house as it was, and his date of its erection is 1636. That was early. The place where it stood is in Newmarket, but till within a few years it was in Durham. A section about there was disannexed from Durham and annexed to Newmarket. Durham was a part of Dover, which was settled in 1623. At what time settlements extended into the part called at first Oyster River, now Durham, we do not know, but believe it was not many years after the early settlers came to Dover. Durham was incorporated in 1732. It is almost incredible that a dwelling was erected in that part of Durham so early as 1635, as it was away several miles from what is now Durham village, where the early operations in the town were. But those who have the date may be correct.

The house was a garrison. And then there was a projection of the upper part over the lower, as was the case with a number at that time. This enabled the inmates to throw down water from above, and extinguish the flames, if the Indians should set fire to the building. It is related that the Indians, who committed depredations in Durham several times, attack this house Jan. 5th, 1697, but there is no record of any mischief having been done.

What a history of perilous times in that age! How favored are we to live in times of peace and prosperity.

The Volcano Vesuvius.

The top of the cone is about a mile in circumference, and of course less than one third in diameter. Let us approach the verge of the crater and look down into the deep, smoky, sulphur-colored abyss. The walls go perpendicularly down some 200 feet to a smaller one. This is the volcano's chimney, and from it there issues, even when the mountain is at rest, a cloud of suffocating smoke and sulphurous gas. Down the inner crater is the vast lake of fire of which this volcano is but the safety-valve. And this is Vesuvius that has for ages been rumbling and roaring, growling and thundering, hissing and burning, smoking and blazing, vomiting out its wrath and spreading desolation all around. We cooked our eggs and warmed our coffee for breakfast in the hot air that issued from the crevices of the rock. We descended on another side of the mountain, running through the ashes and gravel six or eight inches deep, taking desperate leaps, kicking up a tremendous dust and covering ourselves from head to foot with ashes, reaching the base of the cone in ten minutes, though it took us an hour to get up.

Vesuvius is the most active volcano in the world; since the eruption of A. D. 79 (the first on record,) the one by which Pompeii and Herculaneum were destroyed, there have been at least sixty fearful eruptions, burning cities and villages, destroying millions on millions of property, and causing the death of over 20,000 persons. In 472 the volcano covered all Europe with ashes. In 1631 there was an eruption that lasted several days. Vast columns of smoke darkened the heavens, explosions resembling the discharge of artillery were frequently heard, burning stones and hot ashes fell on the sides of the mountain and on the surrounding campagna. Rivers of melted lava, some of them a thousand yards wide, ran down to the plain. The water of the sea was tossed by a subterranean force and became so hot that great quantities of fish died. During the eruption, earthquakes at frequent intervals added to the terrible desolation. When the frightened people who were so fortunate as to escape returned to their homes, they found more than forty cities, towns and villages laid waste, 10,000 animals burned or drowned, and at least $19,000,000 worth of property destroyed. But, more mournful than all the rest, 4,000 persons perished by the lava, the water or the falling of stones and houses. In 1695 the mountain poured out a stream of lava five miles long, 300 feet broad, and more than 100 feet deep. In 1737 the ashes and pumice fell four feet deep for miles around. In 1796 a steam of lava destroyed the town of Torre del Greco, and ran 400 feet into the sea, making the water boil for two days. In 1822 the whole top of the mountain was blown to pieces. In 1861 there was an eruption, causing great loss of property, remarkable for the fearful explosion that accompanied it. In 1872 the volcano destroyed two villages and two or three scores of lives. And so almost every year Vesuvius shows some sign of wrath, the eruptions becoming more frequent than in past centuries.

—Two enraged duellists meet upon the dark and bloody ground. Just as their swords are about to be handed to them

the first enraged duellist, in a voice trembling with suppressed bravery, says: "One of us two must remain on this field." "You're talking," says the second enraged duellist. "And it shall be you," says the first enraged duellist, "for I'm going."

Daily Chronicle

THURSDAY, JUNE 6, 1878.

New Hampshire Legislature.

The Legislature assembled on Wednesday, and organized by the choice of the republican caucus nominees. Both parties held caucuses Tuesday evening, and nominations were made as follows:

For the Senate: republican—President, David H. Buffum of Somersworth; Clerk, Calvin Sanders of Dover; Assistant Clerk, James Dodge of Manchester; Doorkeeper, George H. Bartlett of Sunapee. Democratic—President, Joseph D. Weeks of Canaan; Clerk, James L. Foote of Manchester.

For the House the nominations were: republican—Speaker, A. A. Woolson of Lisbon; Clerk, A. R. Barker of Lebanon; Assistant Clerk, Charles G. Emmons of Bristol; Sergeant-at-Arms, Charles Cummings of Concord; Doorkeepers, William H. Gardiner of Portsmouth, George A. Perkins of Goffstown, and William A. Caswell of Northwood. Democratic—Speaker, Herbert F. Norris of Epping; Clerk, John B. Mills of Dunbarton; Assistant Clerk, George H. Emerson of Lancaster; Sergeant-at-Arms, Frederick A. Barker of Keene; Doorkeepers, Geo. L. Brown of Concord, George W. Boody of Strafford and Norman G. Smith of Littleton.

The New Hampshire Senatorship.

The Senate committee on privileges and elections met on the 4th inst., and considered the bill legalizing the choice of a Senator by the present New Hampshire Legislature. The Committee was unanimous in declaring that the bill would be unconstitutional if enacted. Only an election in strict pursuance of the act of Congress of 1866, which election shall take place in 1879, will be valid, and there is no provision of law which warrants the election at any other time. An amended draft of a report by Senator McMillan was read and recommitted for further amendment, as was a supplementary report by Senator Hoar.

Congress.

The Senate used up most of the day, Tuesday, 4th inst., in discussion of the proposed subsidizing of the Brazil steamship line; no vote was reached.

The House passed S. S. Cox's bill reorganizing the life-saving service, and non-concurred in the Senate amendments to the legislative appropriation bill. Fernando Wood's bill to disorganize the business of the country, misnamed a tariff bill, received a virtual death blow in committee of the whole.

On Wednesday, in the Senate, Stanley Matthews demanded the appointment of a committee of seven to investigate his dealings with the pet perjurer of the democrats, Feliciana Anderson. Granted.

A communication from the Secretary of the Interior has been laid before the House, recommending that the Revised Statutes be amended so as to allow the executive departments to pay fair rates advertisements. The rate prescribed by existing laws, forty cents per hundred words, is, in the opinion of the Secretary, insufficient.

The House bill to authorize the Secretary of the Treasury to constitute superintendents of mints or assayers in assay offices assistant treasurers of the United States to receive gold coin and bullion on deposit for the purpose provided by Section 254 of the Revised Statutes has been passed by the Senate; also the House joint resolution providing for the issue of arms to the territories.

An amendment to the internal revenue laws has been passed by the House, forbidding the removal from State to Federal courts of suits for violation of State laws against any internal revenue officer.

News and Notes.

The annual National Encampment of the Grand Army of the Republic occurred in Springfield, Mass., 4th inst., and many military men from all over the country were in attendance. There was a fine military display and brilliant reception in the evening. On the 5th occurred the annual reunion of the Army of the Potomac, with an oration by Rev. Henry Ward Beecher.

The Direct United States cable, which was broken Jan. 19th by a Gloucester fishing schooner, was repaired on Saturday, 1st inst., by the cable steamer "Minia." Dr. Muirhead has just successfully applied his system of duplex to this cable, between Torbay and Ballinskelligs, Ireland. This is the longest line yet duplexed. Several trial tests show an actual speed in working commercial messages of from seventeen to twenty words per minute each way, thereby doubling the capacity of the cable.

A twelve-years-old boy at Yarmouth, Me., has been arrested for placing a sleeper on the track, which narrowly escaped throwing off a train on the Maine Central Railroad. The boy says he put the sleeper on the track to see the engine knock it off.

Joseph Heffernan, of Cambridge, Mass., was shot dead in the post office at South Framingham, Mass., at an early hour on the morning of the 5th inst., by Mr. Thomas Hastings, the clerk. Heffernan had broken into the building, and when confronted by the clerk drew his revolver, but Mr. Hastings was too quick for him. The thief was a noted ruffian.

The Commune.

Steiner, the "labor" agitator, replied at Philadelphia on the 4th inst. to a remark of the Mayor that though he had no apprehension of danger from any Communistic uprising he wished he had a battery of Gatling guns, Steiner declaring that dynamite would be more powerful than any guns that could be used.

On Monday, 3d inst., 700 striking miners from near Charlestown, West Virginia, captured a steamer and went to Blacksburg, and made the miners there stop work. They then took possession of a train on the Chesapeake & Ohio Railroad and returned, refusing to pay fare. The State authorities of West Virginia appear to be as powerless to deal with lawlessness now as they were last summer, when the aid of the Federal government was invoked and rendered; and the "democratic House" has resolved that communistic and murderous mobs must not be interfered with any more by the general government.

Naval Affairs.

Among the naval promotions confirmed by the Senate on the 4th inst. were Capt. Wm. N. Jeffers to be Commodore, and Lieut. Charles H. Rockwell to be Lieut.-Commander.

Commodore George B. Balch of the District of Columbia has been nominated to be Rear Admiral; Capt. William G. Temple of Vermont to be Commodore; Capt. William D. W. Whiting of Massachusetts to be Chief of the Bureau of Navigation; Edgar Frisbie of the District of Columbia to be Professor of Mathematics in the United States Navy.

New Hampshire Items.

J. & L. Knowlton's saw-mill at Marlboro' was burned on the night of the 3d inst. Loss $4000; no insurance. The mill is believed to have been set on fire.

William W. Eaton, who has been employed by the Nashua Lock Company for several years, has been arrested for stealing $80 from a desk in the office, and committed in default of $1000 bail.

Political.

The Greenbackers' State Convention of Maine was held on Wednesday, and J. L. Smith of Oldtown was nominated for governor.

The democratic Manchester *Union* endeavors to make a little political capital with its Irish readers by saying: "The veteran soldier, Gen. Shields, has received most shabby treatment at the hands of the republican Congressmen." Let's see how that was. Every republican in the House voted for Gen. Shields, the Irish democrat and Union soldier, for doorkeeper, and every democrat but one voted against him and beat him. Then every republican but three voted for a bill putting him upon the retired list of the army, and every democrat voted against it and the Irish hero was beaten again.

The "Democratic House" and the United States Army.

The "best hold" of the present "democratic House" is economy. Much bifulatin has been written by the democratic editor over the vast saving effected in the running expenses of the government through the determined economy of the democratic House. This economy has been mainly shown in the making of insufficient appropriations at one session, and squaring things with a huge deficiency bill at the next one. The officers of the navy had to wait six months at one time for their pay, the amount of which is fixed by law, the democrats having "economized" by appropriating only half enough money for the purpose; and now they are again told there is no money to pay them, and will be none until a "deficiency bill"—that great monument of democratic economy—has been passed. The democratic House also showed its economy by attempting to cut down the pay of every employe in the Senate, while squarely refusing to reduce the pay of any of its own officers! Another branch of democratic economy is the reduction of the already too small army, and a large cutting down of the officers' pay. Remembering how light are the duties of most officers of the House during the recess of Congress, and comparing the qualities and training required for their work (mostly clerical) with the training and service required of regimental and field officers, the following tables will be found instructive. The first gives the proposed pay of army officers:

Colonel,	$3,500
Lieutenant-Colonel,	3,000
Major,	2,500
Captain (mounted),	1,800
Captain (not mounted),	1,600
First-Lieutenant (mounted),	1,500
First-Lieutenant (not mounted),	1,400
Second-Lieutenant (mounted),	1,300
Second-Lieutenant (not mounted),	1,200

Here follows the pay of certain officers of the House:

Clerk of the House,	$4,500
Sergeant-at-Arms,	4,000
Doorkeeper,	2,500
Nine assistant clerks, each,	1,800
Clerk of Document-Room,	2,000
Distributing Clerk,	1,800
Messenger,	1,040
Upholster and locksmith, each,	1,400

Should this bill become a law, it would be better, so far as pay is concerned, to be a doorkeeper in the House of Representatives than a senior captain of infantry; better to be the locksmith of the House than a second-lieutenant of the line! It remains to be added, however, that when the army bill was under consideration in the House a proposition was made by Mr. Reagan, the ex-Postmaster General of the rebel Confederacy, to still further reduce the pay of a colonel to $3,000, of a lieutenant-colonel to $2,700, and of a major to $2,400. Mr. McCook suggested that members of Congress, receiving $5,000 a year for far less arduous service, should reduce their own salaries before cutting down the pay of the army. Mr. Reagan replied, lustily, that members of Congress "having such high and important duties to perform, their votes and acts touching the most vital interests of the country, are not too highly paid." Considering the kind of service this Congress has rendered the country, this is adding insult to injury.

Tacked on to the bill for lessening the size of the army and reducing the number and pay of its officers, was a clause forbidding the use of any portion of the army as a *posse comitatus* without a special act of Congress authorizing such use. This provision was the invention of Proctor Knott of Kentucky, and was possibly intended only to protect the "moonshiners" of Kentucky from the interference of the military with their plans for swindling the revenue; but its effect would be far more widely reaching, for under it the army could not be used to oppose secession, nor to aid the government of a State to preserve order in cases where the State authorities were helpless and called for aid, without a special act of Congress authorizing it. True, the Constitution expressly provides that "The President shall be Commander in Chief of the Army and Navy of the United States," and that the general government "shall protect each of them [the several States] * * on application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic violence." But the democratic House proposes to set this part of the Constitution aside; the rebel brigadiers in Congress are to be commander-in-chief of the army; and in cases such as those which occurred last summer, where the governor of a State calls for aid to suppress "domestic violence" that is beyond the control of the State authorities, the President is not to be allowed to do his sworn duty under the Constitution until the rebel brigadiers have graciously granted him permission by a special act! This scheme to throw aside one part of the Constitution and make Congress commander-in-chief of the army may not be a part of the plan to revolutionize our form of government, but if successful it will be a long step toward that end, and probably is intended as such by its promoters.

THE CITY.

Mr. Josiah H. Morrison and family arrived home from Florida, Wednesday afternoon.

C. Sullivan & Co. are selling fresh salmon at twenty cents a pound. This is lower than this market has afforded for many years.

The Rebbecca Degree Lodge of Odd Fellows voted one thousand dollars toward the proposed new hall, at the meeting on Tuesday evening, 4th inst.

Mr. William H. Gardiner, of this city, has been elected one of the doorkeepers of the New Hampshire House of Representatives. The Legislature will never have to "investigate" *him* any.

The New Hampshire war veterans are to hold a meeting next Tuesday evening to elect delegates to the convention to be holden at Concord, June 17th, to make arrangements for their annual re-union.

The Burroughs mansion on Pleasant street, occupied by Dr. Langdon, was entered between Monday night and Tuesday morning and robbed of a large quantity of silver ware. No traces of the thieves have as yet been discovered.

Hon. Marcellus Eldredge is at Concord wishing to have the Senate committee on elections rule that the greenback candidate for Senator was ineligible, and that consequently he (Eldredge) had a majority in District No. 1 and should be admitted as Senator. The question comes up to-day.

The Boston *Post* says: "It appears that J. E. Brown of Kensington, the greenback candidate for State Senator, was ineligible, not having been a resident of the State the length of time required by the Constitution. According to a precedent established by the republicans, Marcellus Eldredge of Portsmouth, the democratic candidate, is understood to claim that as he received more votes than all others he is elected." That's the first intimation we ever received that James A. Weston and his pals in the famous and infamous "Senate steal" were republicans; they were the only persons in this State who ever attempted to establish any such precedent as the *Post* refers to.

COMMISSIONER'S COURT.

The four seamen who were charged with deserting from the schooner Anna and Millard were again brought before Commissioner Hackett on Wednesday. After hearing all the evidence the Commissioner ordered the seamen to be returned to duty, and they were placed in charge of United States Deputy Marshal Joseph P. Morse, to be conveyed on board the schooner when she was ready to sail.

POLICE COURT.

TUESDAY, June 4th; *Batchelder, J.*

George Ellison, Alexander Morrison and Samuel Pettis, seamen belonging to a lumber schooner, were adjudged guilty of having been drunk, and each assessed $9.90, fine and costs.

George B. Cochran and Charles Taylor were arraigned for assault with intent to kill on Benjamin F. Shepard. The parties are all colored, the accused having both arrived here in the U. S. S. Omaha. The evidence showed that while all three were at Laconia on Monday, June 3d, a letter arrived there from Shepard's wife, addressed to Cochran, and containing a dollar and some endearing terms. This letter was taken possession of by Shepard, who knew his wife's handwriting, and seems to have created a coolness between the two men. Cochran, through the instrumentality of a lawyer at Laconia, recovered his letter and dollar from Shepard, and the parties appear to have all returned to this city together. On Tuesday evening Shepard sent for Cochran, but was advised by Taylor not to go to Shepard's home, as Shepard had a razor (so Taylor said) there and intended to slash Cochran with it. Finding Cochran determined to grant an interview to Shepard, Taylor handed the former a revolver; and it was with this weapon that he shot Shepard through the wrist at the end of a somewhat stormy confabulation. Taylor was discharged by the Court, there being no evidence to implicate him in anything wrong; Cochran was held in $1000 to answer at the October term of the Supreme Court.

A VENERABLE VISITOR.

We received a very welcome call on Wednesday from Mr. Charles Hanson Meserve, formerly of this city but for many years past a resident in and near Rochester, New York. Mr. Meserve, who is now eighty-nine years old, travelled all the way from Rochester to this city alone to have a look at the home of his boyhood, which he had not previously visited for sixty-five years. He finds none of the playmates of his early days now living, as might be expected; but he did find a rock at Church point on which he sat seventy-nine years ago to watch the launch of a ship from Badger's island, when he was ten years old, school having been dismissed to enable the children to see the launch. He had a long hunt to find the rock, there were so many buildings in the way, but he found it at last and sat in his old favorite seat for an hour or more, until the thronging memories of the olden time—of boys and girls whose names had not occurred to him for years, and who have long since ceased to be—"made him feel quite gloomy." Mr. Meserve is a great-grandson of the Col. Nathaniel Meserve who in 1745 built the drags on which the cannon were moved through the morass at the siege of Louisburg, and who lived in what is now called the Raynes house, and built vessels in the Raynes ship-yard; and the old gentleman since his arrival here has paid an interested visit to the ancient residence of his patriotic ancester. He married, when quite young, a lady nineteen days younger than himself; she was a native of Derryfield, (now Manchester,) and died five years ago at the age of eighty-four, after a married life of sixty-five years. They had ten children, all of whom reached maturity and seven of whom are now living. Mr. Meserve informed us that he "has twenty-six great-grandchildren—at least that was the number last time they were counted—most likely more of 'em now," in Rochester, New Orleans, St. Louis, Springfield, Mass., Bethel, Vt., Chicago, Chelsea, and other cities. He is hale and hearty, though bearing the marks of his great age; his memory is good, particularly concerning events that happened years ago; and he is more cheerful and companionable than many men of half his years. He has always been a temperate man, and most of his doctoring has been done by himself—when he found anything the matter he omitted a meal, and always came out all right. He proposes to spend two or three months travelling around and getting acquainted with his descendants. He has always been a farmer, and has no fault to find with the circumstances in which he finds himself in his old age. Long may he wave!

BOARD OF INSTRUCTION.

Regular meeting, Wednesday evening; present, the Mayor, Mrs. Wilson, Messrs. Sherburne, May, Hackett, Pender, Gardner, Shannon, Hutchinson and Goodrich.

Voted that the schools close on the 3d of July.

Claims of R. K. Oxford and Oxford & Johnson for wood and sawing some years ago, were referred to a special committee. Sundry bills were approved.

A map of New Hampshire was shown by Mr. Cline of Manchester, who desired to furnish the schools with copies; referred to text-book committee.

Reports from districts as to attendance at various schools were read. A committee consisting of the chairmen of the subcommittees was directed to investigate the accuracy of the reports, and if the same rules as to reports of attendance are observed in each district.

Voted that the Board of Aldermen be requested to partition the lower room in Cabot street school-house during the next vacation.

THE GUERNELLAS.

A very interesting entertainment in the shape of an expose of "spiritual manifestations" was given by the Guernellas at Music Hall Wednesday evening, to an audience good both as to numbers and quality. The several feats performed were certainly wonderful, astonishing the audience and their committee of inspectors, of whom Dr. Parsons was one. The tying, coat and shackle feats are inexplicable; and new features and "developments" being introduced each evening there will be larger audiences and increased interest at each performance.

The great "Foster trick"—the blood letter writing on the arm, which has mystified thousands of honest people—and "materialization seances," will be performed by gas-light. All who believe in the reality of so-called spiritual manifestations, and all who don't believe in them, should attend these remarkable seances, in which the exhibitors say the "spirits" take no part.

SUPREME COURT--LAW TERM.

The Supreme Court (law term) met at Concord on Tuesday; all the judges were present except Judge Bingham.

Upon the Rockingham county docket the case State by Attorney General vs. Eastern R. R. in New Hampshire and Eastern Railroad Co., was postponed to the August adjourned term.

On Wednesday decisions were announced in the following cases:

Trustees Phillips Exeter Academy vs. Exeter. Application for abatement of tax, on ground of exemption under charter of the Academy. Petition denied and case discharged. This is not property exempted by the charter. Buzell for Academy; Marston for Exeter.

State vs. Herbert W. Nowell, clerk, who declined to answer at Portsmouth before the grand jury, on the ground that he might be exposed to a prosecution for selling liquor contrary to law. The statute affords the party complete protection, and he is bound to answer; and process will issue should he decline so to do. Opinion by Smith, J. Hatch, Page and Harriman for defendant.

No. 16. Messer and al. vs. Smyth and al. Opinion by Smith, J. Question on plea of abatement. Action was entered at October term, 1877. Exceptions overruled. Hatch for pliff.; S. C. Eastman and Harriman for deft.

No. 19. Messer and wife vs. Smyth and wife. Action to forclose mortgage upon land in Northwood. Wife had the property to her sole use and made mortgage to secure payment of a part of purchase money. Husband did not sign. Defendants claim that declaration was defective; there was a mortgage from the wife of property held to her own use. Opinion by Doe, C. J. It was not necessary that the husband should join in such conveyance. The wife's deed was sufficient and the conveyance valid as between her and the plaintiffs. Judgments for plaintiffs, unless defendants within a certain number of days amend pleadings and raise other questions of law in the case. The case as drawn carefully omits the other questions which the defendants seek to raise; at present the declaration must stand. Case stands open to see if pleading can be amended. Hatch for pliff.; S. C. Eastman and W. C. Harriman for deft.

No. 28. Joseph W. Peirce and others, admr. of Ann K. P. Burroughs, vs. Henry Burroughs, executor of Chas. Burroughs. Question transferred from trial term upon certain sums claimed by pliffs. and denied by deft. Case discharged. Hatch for pliff.; William H. Hackett for deft.

No. 29. Thomas Wardwell vs. Chas. C. Jones, and county of Rockingham, Trustee. Defendant was a juror, and his pay trusteed. Trustee denied liability. Opinion by Doe, C. J. Trustee charged as claimed by pliff. Rollins for pliff.; Frink for deft. and trustee.

No. 30. John W. Smart vs. John B. Tetherly. Assumpsit for lumber sold. Verdict for pliff. at Jan. term, '78. Verdict set aside. Marston and Eastman for deft.

On Strafford docket, in case No. 21, Richard T. Rogers vs. Wm. Wentworth, Judge Foster gave an opinion annulling the demurrer, which was a decision in favor of the deft.

Hussey vs. Davis and Edgerly. Opinion by Doe, C. J. Defendant was a good officer; search warrant bad. Case to stand upon question of whether warrant to arrest was bad. Copeland and Edgerly for deft.

Orin Boynton vs. town of Somersworth, Exceptions overrulled. Judgement on verdict for the pliff. Opinion by Clark, J. Copeland for pliff.; Edgerly, Hall, Wells & Burleigh for town.

Caverly and al. vs. town of Strafford. Highway case; horse frightened by mortar pen in the highway. Opinion by Stanley, J. Exceptions overruled. Judgment on verdict for pliff. Smith and Hobbs for pliff.; Hall for town.

Nowell vs. Wentworth. Action to recover possession under landlord and tenant act. Judgment for the deft. Hall and Wheeler for pliff.; Copeland and Yeaton for deft.

A large number of cases upon this docket as well as upon the Rockingham docket were postponed.

Court adjourned to Tuesday next.

Jacob H. Twombly and Jacob H. Young, two Dover liquor sellers, were arrested and bonded on Monday, 3d inst., on the testimony of Henry W. Littlefield, who it is said has been quietly collecting evidence for some weeks, and has gathered enough to convict eighty liquor dealers. The Dover dealers have a heap o' trouble on their minds just now.

Unlike other cathartics, Dr. Pierce's Pellets do not render the bowels costive after operation, but, on the contrary, they establish a permanently healthy action. *Being entirely vegetable*, no particular care is required while using them. Sold by druggists.

Office No. 5 Congress Street Portsmouth

Portsmouth Chronicle

—There are now seventy-two postmistresses in the United States, one of whom, Miss Nina Hedges, in the Des Moines postoffice, is said to have handled and paid out four million dollars.

—A gentleman who has been in the habit of repeating the Lord's prayer with his family recently began to preface that with extempore petitions. His bright three-year-old girl kneeling by his side thought the time was up and broke in—as well as out—with "Papa, hurry up; I want to say amen."

—Perhaps no county in the United States is better off financially than Talbot county, Md. Not only is it free from debt, but it has so much money in the bank that it recently loaned $4400 for want of any other way of utilizing it, and still has over $20,000 due it on the collector's books for last year's taxes. The rate of taxation this year is only fifty cents on $1000.

—Gen. F. E. Spinner is becoming, in Florida, an agriculturist of an innovating and determined sort. He works ten hours a day, is bronzed as dark as a Turk, and is cultivating almost every vegetable, fruit, vine, shrub and tree that will grow in that region. He has just been planting olive trees and tea-plants, and says he hopes to live to drink tea made from the latter.

—Here is a London advertisement: "A clergyman of the Church of England, thirty-nine, five feet nine inches, considered good looking, a widower, with an only daughter, wishes to hear from any lady, with a view to marriage, who has from £6,000 to £12,000 at command, and would be willing to invest about £5,000 in the purchase of an advowson [that is, the freehold of a church, rectory-house and grounds,] in some beautiful locality, to produce an income of about £300 a year. Please write direct to the above reverend gentleman, as this advertisement is genuine and bona fide. Address with the editor."

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective as a means of imparting tone and regularity to the functions of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

The educational and charitable institutions of New Orleans are in constant receipt of large funds from the Louisiana State Lottery Company, an institution specially chartered by the State in 1868. One of its Semi-annual Drawings will take place in that city on the 11th of June. This drawing will be under the personal supervision of Generals G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia. The prizes, as set forth in a scheme in another column, aggregate an enormous sum including a capital prize of $100,000.

Patrons of a first-class hotel justly consider themselves entitled to comfortable rooms, a bountiful bill of fare, and courteous treatment at the office. All these, combined with a notable degree of elegance throughout, are to be found at the Colonnade Hotel, Philadelphia, Pa.

Free Sample Bottles of Adamson's Botanic Balsam may be had of your druggists. Pleasant and never failing remedy for coughs, colds, bleeding from the lungs, asthma, &c., &c. Large bottles 75 and 85 cts. Try it.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* cod&6tsep15 '7

SATISFACTORILY!

Don't Forget the Place!

UNDER FRANKLIN HALL, FLEET STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of these diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, I feel that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single lady who uses it for any of the ailments for which I recommend it, that I offer and will in under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works **cures—the marvel of the world.** This medicine can do no evil in any case, but it admirably fulfills a **singleness of purpose,** being a most potent specific as a cure for diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,

BUFFALO, N. Y

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, o1jy28'78

DR. JOHN TRIPP'S

BLOOD PURIFIER

IS the most wonderful discovery for the radical cure of SCROFULA and SYPHILIS. It never fails to entirely eradicate either of these diseases and Blood Poison from the system. ULCERS, CANCERS, WHITE SWELLINGS, FEVER SORES, SALT RHEUM, ERYSIPELAS, RHEUMATISM and GOUT yield to its power. It has been in private practice eighteen years, and over 10,000 cures effected by it are on record.

Sole Eastern Agency, 306 Columbus ave., Boston. Office hours, 8 to 11, A. M., 3 to 7 P. M.

Send for pamphlet. All communications confidential. Cure in all cases of Syphilis in either stage guaranteed. codtnov11

Transportation.

RE-OPENING

OF THE POPULAR

PROVIDENCE

LINE

TO NEW YORK,

VIA PROVIDENCE.

Opens April 29, for the season of 1878.

Only 42 Miles of Rail.

Steamboat Express Train will leave Boston & Providence Railroad Station daily (Sundays excepted) at 5 P. M. Connect at Fox Point wharf, Providence, with the **Entirely New and Magnificent**

STEAMER MASSACHUSETTS

and the well-known and popular

STEAMER RHODE ISLAND,

Arriving in New York at 6 A. M. This is the only line affording a delightful sail **through Narragansett Bay** by daylight.

Returning, leaves Pier 29, North River at 5 P. M., arriving in Boston at 7 A. M.

No intermediate landings between Providence and New York.

Tickets and State Rooms can be secured at Company's office, 214 Washington, corner State street, and at Boston & Providence R. R. Station.

J. W. RICHARDSON, Agent, Boston.

PENNSYLVANIA

RAILROAD.

GREAT THROUGH LINE

AND

UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment

THE

PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,

JANNEY COUPLER, BUFFER AND PLATFORM,

THE WHARTON PATENT SWITCH,

AND THE

WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery

OF THE

PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. 14eb20 79

THE GREAT

FALL RIVER LINE,

BETWEEN

BOSTON and NEW YORK.

THE MAMMOTH STEAMSHIPS

Bristol and Providence,

Of this Line, are the Largest, Handsomest, and Most Costly in the World!

Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 6 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 6 A. M.

No line can offer the accommodations presented by this favorite route—

ONLY 49 MILES OF RAIL.

Passing through Narragansett and Mount Hope Bays by daylight—

NO DISAGREEABLE NIGHT CHANGES,

But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.

Grand Promenade Concert on each Steamer every evening during the summer.

New and Elegant Drawing-Room Cars on Steamboat Express Trains.

BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.

Staterooms and Berths secured at No. 3 Old State House or at the Old Colony Depot.

GEO. L. CONNER, Gen'l Pass. Ag't.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without inconvenience to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

BUFFALO, N. Y.

NEW FOUR PER CENT

GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier. tf

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as Ayer's Cherry Pectoral. It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It alone has the most efficacious *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of humanity and hope to those, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawtjan178

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being one *preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, thereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tincture, strainted solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and blends into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my throat organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I suffered the most excruciating pain in my head, was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe I should that symptoms continued without relief they would have reduced me to an easy victim. Seeing in this distressing condition, I commenced the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the so-called remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have lived entirely free from Catarrh, for the first time in twelve years.

Respectfully yours,
GEO. W. HOLBROOK.

WALTHAM, Mass., Jan. 8, 1876.

DEAR—I purchased the RADICAL CURE of GEO. H. ROGERS, Druggist, Rumford Building.

Each package contains Dr Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1.00. For sale by all Wholesale and Retail Druggists throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

Your Plasters have now been before the public for two years, and, notwithstanding the immense number of imitations in the form of liniments, lotions, pain-curers, and ordinary plasters, they have steadily increased in sale and met with universal approval, as testified to by over one thousand unsolicited testimonials in our possession. Many remarkable cases have occurred which by well-known citizens in all parts of the United States, copies of which will be sent free of charge to any one desiring them. Improvements in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and *the best plaster in the world of medicine.* All we ask from every sufferer in the world is a fair trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any quality worse can be bought, and a number of unscrupulous dealers will be found ready to misrepresent them for selfish motives and scheme to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,
No. 3 BOW STREET.

Daily Chronicle.

Washington Correspondence.

WASHINGTON, D. C., June 3d.

The despatches coming to us from the west this morning will probably confirm the Sefiate in its opposition to the bill reducing the army to 20,000 men; and the conference committee or committees, to be entrusted with the work of harmonizing the conflict of opinion between the two Houses of Congress on that matter, have a most unpromising job in prospect. It appears certain that the Bannocks, heretofore the faithful allies of the whites, are now on the war path, having burned the bridges in their rear; and it also seems more than probable that government has another war with Sitting Bull on its hands. Opinion here seems to be that the Bannocks have been aggravated and exasperated into their hostility to the government by the bare-faced swindling and cheating practiced on them by some of its agents; at least such is the complaint made by that band. Dispatches that seem authentic allege that Sitting Bull's Sioux braves will be reinforced by many Arapahoe and Cheyenne warriors, besides large numbers of discontented Indians from other tribes. In short, the prospect for another savage outbreak of uncertain dimensions, but formidable enough considering our helpless condition, is first-class. Those contending for a reduction of the army are already heard declaiming against the sender of these despatches as the tool of those opposing such a measure; but the feeling of anxiety about the War Department is proof that such an explanation is not entertained there. And the opposition in and out of Congress seems to have been greatly strengthened by the tenor of advices received during the past seventy-two hours.

Among the many jobs before Congress which must suffer by an early adjournment, is subsidizing Tom Scott's Texas Pacific railroad. For the 1400 miles of road to be built at an estimated cost of $31,000,000, the government is asked to endorse the company's fifty-year five per cent. bonds to the tune of $38,000,000, and deliver to it the $31,000,000 the road is to cost. As security it is substantially proposed that the government shall retain all that is due the road for transportation of mails, troops, supplies, etc., belonging to or sent over it by government. Second, should that amount not wholly reimburse the government, it is to take the balance out of the $7,000,000 worth of bonds it holds, and whose value depends wholly on the creditor's endorsement guaranteeing their payment! Should the government accede to this novel proposition to pay itself by taking its own notes, it will be stuck for interest amounting to almost $2,000,000 annually, or for an aggregate of about $100,000,000, besides a contingent liability for $38,000,000, the face value of the bonds endorsed. The only source from which it can be paid is in the transportation it may require over the road.

After several unimportant meetings of the Potter committee, it got to work Saturday, having first before it Anderson, the much-advertised witness who was to floor Secretary Sherman. He appeared very confident, and reeled off his testimony with a glibness that indicated a good degree of preparation for the ordeal. From his own admissions it appears that he played fast and loose with the leading men of both parties, chiefly concerned as to which would make the highest bid for his secrets and services. On the whole the tenor of his testimony does not appear to have inspired an overwhelming amount of confidence in his veraciousness, nor in him as a reliable politician. It is freely charged here by those professing to be familiar with the character of his testimony heretofore given, that he has invited an indictment for perjury by the bold discrepancies between his sworn statements of Saturday, and those made previously relative to the same matters. Secretary Sherman was called to the stand to plead as to the authorship of a letter, an alleged copy of which was being used in evidence. His denial was guarded, as though he was not quite clear himself whether he wrote it; but he stated he did not think he did—indeed felt very certain that he did not—although much that was in the letter he would have written without hesitation if required.

KNOX.

A finely-dressed young woman came hurriedly out of Worthington street yesterday, and as she turned into Main, ran against a bare-footed urchin, one of a group, upsetting him. "I beg your pardon," she said; "did it hurt you?" "No, miss;" replied the little fellow, when he recovered his speech; "you may run agin me and knock me down twenty times if you want ter." Then as the young woman passed on, turning to his companions, he continued: "I tell you, fellers, it

kinder tuk my breath at fust to hear her 'poligize to me, but I guess I did the right sort of thing after all, didn't I?" "You bet," was the unanimous response. —*Springfield Republican.*

Daily Chronicle

FRIDAY, JUNE 7, 1878.

The Fraud Campaign.

Unless Anderson, night editor of the Philadelphia *North American*, ex-supervisor of elections in Feliciana parish, Louisiana, professional perjurer, etc., does better in the future than he has yet done, he will prove a very unprofitable purchase for the Tilden revolutionists. His first exploit was to swear that he was a perjurer, that he was and long had been ready to sell his political services—including his wondrous ability at lying and swearing to lies—to the party that would pay him best, and that he only came out at this late day with his circumstantial account of his own infamy because the Hayes administration flatly refused to give him a fat office. Now it appears that the only "official document" of importance that this bummer has produced in support of his assertion that he deliberately perjured himself before the Senate committee in New Orleans, is a forgery, and the republicans promise to show that Anderson himself was the forger. So far, all that this pet lion of the revolutionists has managed to convince the people of is, that there were some most unscrupulous scoundrels in power in the South at one time, and that he was one of them.

Thursday the revolutionary junta caught a Tartar. Anderson having stated that three of the Presidential electors of Louisiana, including Mr. Levisee, had voted blank at the meeting of the Electoral College, Mr. Levissoe, who lives in Washington, was summoned before the committee and examined by Mr. McMahon. He not only flatly denied the story of the centennial perjurer, but told Mr. McMahon the details of an offer to buy him by the democrats. He said that a Mr. Asher, a banker, who lived in Shreveport, came to him in New Orleans and asked him if he would accept a good round some of money, say from thirty to forty thousand dollars, and then refuse to accept the certificate of his election as an elector. The proposition was declined.

The Governor and Council.

The following is the official vote for Governor and Councillors, as reported to the Senate by the committee appointed to count the same:

GOVERNOR VOTE.

Whole number of votes	77,806
Necessary for a choice	38,904
Scattering	80
Asa Kendall (prohibition)	225
Samuel Flint (greenback)	269
Frank A. McKean	37,860
Benjamin F. Prescott	39,372

Prescott's majority 1,512

COUNCILLOR VOTE—DIST. NO. ONE.

Whole number	14,540
Necessary for choice	7,271
Scattering	161
Lorenzo M. Carpenter	6,509
Joshua B. Smith	7,870

Smith's majority 1,200.

DIST. NO. TWO.

Whole number	16,865
Necessary for a choice	8,433
Scattering	33
Warren Clark	8,135
Hiram A. Tuttle	8,697

Tuttle's majority 529

DIST. NO. THREE.

Whole number	13,412
Necessary for a choice	6,707
Scattering	4
Clark Hadley	5,880
Edward Spalding	7,521

Spalding's majority 1,637

DIST. NO. FOUR.

Whole number	15,365
Necessary for a choice	7,683
Scattering	64
Lyman Rounsevel	6,858
Francis A. Cushman	8,448

Cushman's majority 1,526

DIST. NO. FIVE.

Whole number	17,321
Necessary for a choice	8,661
Scattering	175
George W. Libbey	7,192
Joseph Burrows	9,954

Burrows' majority 2,587

Messrs. Smith, Tuttle, Spalding, Cushman and Burrows were declared elected Councillors for the ensuing political year.

Congress.

In the Senate, Wednesday, the post route bill was passed, including the Brazilian steamship subsidy, by a vote of 26 to 28. The bill, as passed, provides a total subsidy of $1,500,000 for two monthly steamship lines to and from New York and New Orleans to Brazil, starting on alternate fortnights, for five years, the New York line to start July 1st and the New Orleans line Jan. 1st next. The franking privilege is restored to the President, Vice President, Senators, Representatives and delegates to Congress, Secretary of the Senate and Clerk of the House, so far as to enable them to send through the mails free of postage any mail matter not exceeding two and a half ounces in weight. Senator Rollins voted for the subsidy and the restoration of the franking privilege, and for the final passage of the bill; Senator Wadleigh voted no on each question.

The House considered the internal revenue bill in committee of the whole, and adopted an amendment reducing the tobacco tax to sixteen cents a pound, by a vote of 126 to 80. Fernando Wood's bill for regulating the tariff in the interests of foreign manufacturers was killed, the enacting clause being stricken out by a vote of 184 to 121. Nineteen democrats voted in favor of striking out the enacting clause, and seven republicans against it. The New England democrats—Jones of New Hampshire, Dean of Massachusetts, and Phelps and Walker of Connecticut, voted with their party in favor of the foreign manufacturers and producers.

News and Notes.

A regency has been proclaimed in Germany, the Crown Prince, Frederick William, being appointed Regent. The decree is signed by the Emperor and countersigned by Bismark.

P. C. Davis, the noted oarsman, died at Portland on Wednesday of consumption.

The wife of Jesse Billings, a large builder and owner of canal boats, was shot through a window of her house in Schuylerville, N. Y., Wednesday night, and instantly killed. She has had considerable trouble with her husband, on account of his dealings with other women. Some years ago Billings shot his brother dead, and explained that it was accidental.

Two daughters of Mrs. Amelia Monchs, a teacher of Dixon, Mo., aged five and eight years, in the absence of their mother got into a large trunk and let the lid down, shutting them in. They were unable for some reason to raise the lid, and were smothered to death.

The Sho-wae-cae-mette four oared crew who are to represent America at Henley, on the Thames, next month, and Lee, the single sculler, sailed for Europe on the 5th inst.

Father Cuddiby, the Milford, Mass., priest, repeated his attack on the Ancient Order of Hibernians on Sunday, 2d inst. He read a letter from their lawyer urging a compromise, and declared that he never would make one. He called them "cowards, jail birds, vermin, dirty thieves, grog sellers, and corrupters of youth."

Stanley appeared at the recent newspaper press fund dinner in London evidently intoxicated, and made a very offensive speech. "Can no friend of a good but strangely warped fellow suggest to his immediate attention another unexplored desert?" asks the London *World*.

A competitive drill of colored military companies of different cities recently took place at Philadelphia, and was participated in by the Gray Invincibles of Philadelphia, Shaw Guards of Boston, a company of Baltimore and the Skidmore Guards of New York. The Boston company carried off the first prize and the Gray Invincibles of Philadelphia the second.

The suit of Edison, the phonograph man, against G. P. Prescott and the Western Union Telegraph Company, for infringement of patent in selling to the Western Union the quadruplex telegraph, which transmits four messages at once over one wire, has been decided in Prescott's favor, after running nearly two years in the courts.

New Hampshire Items.

Capt. I. A. Gay, a veteran of the Fourth New Hampshire Regiment, met with a severe accident on the 5th inst. While razing a barn at Hollis, one of the braces gave way, precipitating the frame and captain to the ground. One timber fell upon him, fracturing his thigh-bone, and he received other serious injuries.

More than fifty persons have died from diphtheria in the town of Rumney, since last Christmas, and the disease has not yet disappeared. There have been times when it was almost impossible to find persons to bury the dead, the fear of contracting the disease was so great. The population of the town is only rising a little above a thousand.

Peter Charest was drowned at Suncook Tuesday night, by the upsetting of a boat. He leaves a wife and thirteen children.

A man named Pearson, in Sullivan, was killed Wednesday night by the accidental discharge of a loaded gun while taking it from his wagon. He formerly resided in Keene.

Rev. Nathaniel Bouton, D. D., LL. D., died at Concord on Thursday at 11 o'clock A. M., aged 76 years.

Prof. Elihu T. Quimby of Dartmouth College, a member of the United States Coast Survey engaged in the triangulation of the State, has commenced to survey Gunstock Mountain in Gilford.

Denwood Adams, son of Hon. Isaiah Adams of Sandwich, was arrested on the 3d inst., for wantonly shooting through a window of the house of a Mr. Bragg, where a daughter of Mr. Bragg was sitting at the time, the bullet passing within a few inches of her head. He was held in the sum of $500 for his appearance at the October term of the Court.

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

It has been Customary in old communities to suspend pieces of stick sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

STATED MEETINGS.

CITY GOVERNMENT.

In City Building, Market Square.

E. G. PIERCE, JR., P. M.

THE CITY.

Hon. Daniel Marcy of this city is one of the executive committee of the New England Ship Owners' Association, recently organized in Boston.

Judge Isaac Smith, of Manchester, will sail for Europe in about three week to be abroad for three months, intending to return in season to hold the October term of the Supreme Court in this city.

New Hampshire Lodge, No. 17, I. O. O. F., voted on Wednesday evening to subscribe $5000 to the fund for the building of Odd Fellows' Hall. Thursday evening Osgood Lodge had a meeting in reference to the same subject.

The marriage of Mr. Alfred O. Larkin and Miss Mary T. Ball, daughter of True M. Ball, Esq., will take place at St. John's church on Thursday afternoon, June 20th inst. The happy pair will make a wedding tour to Europe.

The New Hampshire Senate on Thursday elected Emmons B. Philbrick, of Rye, Senator from the 1st District. Marcellus Eldredge of Portsmouth was granted till Tuesday, 11th inst., in which to file a protest in support of his claim to a seat in the Senate.

It will be seen by the advertisement in another column that Randall & Caswell, at the Spring Market, are selling fresh Penobscot river salmon at the unprecedentedly low price of seventeen cents per pound. This salmon has just been received, and is fresh and nice. Any one buying fish of this old and reliable firm may be assured of getting the best in the market.

The fishing schooner Celia, having been raised off Beacon ledge and pumped out, was on Thursday towed to Kittery by steamtug Clara Batemen, to go on the ways at Neal's shipyard for examination and repairs. She will soon be in order for fishing again; she has always shown a remarkable facility for getting wrecked, but she won't stay wrecked, and always come out of her troubles about as good as new.

The High School and invited guests had a picnic in the grove at Hotel Wentworth, Newcastle, Thursday. Besides the many who went down in teams, numerous little squads took the river for it, in boats; in fact, the picnicers pretty well cleared the docks of pleasure boats, as there was not one to be procured by anybody else during the middle of the day. The day was "just lovely," and the large concourse of young people fully enjoyed their outing.

The Concord *Monitor* says: "The canker worms are taking a wide swath through the central part of our city, regardless of tree protectors and every other device to head them off. Peach and plum trees suffer alike with the apple and elm trees." The pests are at work in this city too, but they are not nearly so bad as last year, and confine their ravages entirely to apple and elm trees, and mainly to trees that were attacked last year or the year year before. The king birds are doing excellent service against the canker worms this year, in this vicinity.

On Thursday morning the crew of the schooner Annie and Millard were delivered on board by U. S. Dep. Marshal J. P. Morse, having been placed in his charge for that purpose by U. S. Commissioner Hackett at the close of their trial for desertion, Wednesday. Soon after the seamen were put on board there was trouble between the captain and one of the men; as we get the story the captain pitched into the seaman, but the latter handled his assailant as though he was a child, and the captain then pulled a revolver and snapped it at the man, but it missed fire. Officer Pray, who was on the lookout to prevent any disturbance, ordered the captain to stop that and put up his shooting-iron, which he did. During the disturbance two of the seamen, Robert Fogg and Charles Johnson, disappeared and could not be found. The schooner left the wharf in tow of steamer Clara Batemen later in the day, and went to sea, having previously shipped some more men. From all accounts we should judge her to be rather a "wild packet."

The Boston *Journal*, in an article on the republican prospects of carrying the next National House of Representatives, says "even the New Hampshire democratic district ought to be redeemed." There is no such district in New Hampshire. Hon. Frank Jones has twice succeeded, through the judicious wire-pulling of himself and some influential friends in both parties, aided by skillfully fomented dissatisfaction in the republican ranks, in getting himself sent to Congress from the first district; but the district is republican for all that, and neither Mr. Jones nor any other democrat will misrepresent it in the 46th Congress. His vote in favor of the revolutionary schemes of the Tilden conspirators would cost Mr. Jones a good many votes among the business men of the democratic party, were he to order a third nomination of himself, and the republicans of the district do not propose to again bite off their noses to spite their faces.

CITY COUNCILS.

In Board of Mayor and Aldermen, Thursday evening:

A communication was received from Board of Instruction requesting that the lower room of the Cabot street schoolhouse be divided during the vacation; referred to committee on schools, to report.

James Janvrin asked leave to obstruct Water street for laying drain, and J. H. Thacher to open Vaughan street for same purpose; granted, work to be done under superintendence of Street Commissioner.

Capt. Albert Rand asked to have sidewalk relaid on Washington street; referred to committee on streets.

A request that drain on Cabot street be repaired was referred to committee on drains, with power to act.

Committee on streets, to whom was referred matter of compensation of Street Commissioner, presented their report, giving opinion of the City Solicitor. Accepted, and referred to committee on accounts for their instruction.

Same committee reported in matter of sediment running into pond in South cemetery, giving opinion of City Solicitor, which was accepted and adopted.

The committee on accounts presented monthly bills amounting to $5074.31, which they recommended to be paid; and it was so ordered.

Voted that matter of crossing at head of Vaughan street be referred to committee on streets, with power.

Petition of J. E. Colcord and others for a drain on Washington street was taken from the table; commmittee on drains recommended that the petition be granted. The matter was recommitted to same committee, with power to build the drain if the abutters pay one-half the expense.

Voted that committee on drains present plan to keep a record of the sewers and drains laid throughout the city.

Notice was given that the cesspool corner of Cabot and Islington streets needs repairing, and have a stench-trap put in; referred to committee on drains.

Adjourned.

In Common Council there was no quorum.

THE ANTI-CRUELTY SOCIETY.

At the last meeting of the New Hampshire Society for the Prevention of Cruelty to Animals the office of trustee of the permanent fund was created, and Mrs. J. J. Pickering was unanimously chosen trustee. This fund now amounts to five hundred dollars.

The president, Hon. T. E. O. Marvin, reported that he had received several documents relative to the law concerning the transportation of animals now pending before Congress, and that all our members of Congress had been asked to favor the proposed law. Upon the request of the chairman of the International Humane Society on Legislation for funds to aid in the expenses incurred in securing the passage of this law, it was voted that the New Hampshire Society contribute ten dollars for that purpose; and a member of the Society contributed the further sum of ten dollars for the same purpose.

Mrs. Pickering reported the receipt of seventy-five dollars for the permanent fund from Mrs. Peter Jenness, to make her three grand-children life members. The thanks of the directors were voted to Mrs. Jenness for her contribution to the funds of the Society.

The president reported the gift of three dollars for the general work of the Society, from a friend.

A vote of thanks was extended to Mrs. Pickering for her services in aid of an abandoned horse.

Several cases of reported cruelty were referred to the secretary, with power to act.

The thanks of the Society were voted to City Marshal Entwistle for his services rendered the Society, as he has refused any compensation for the same.

Attention was called to the treatment of lobsters, by being thrown into scows in large numbers and a part taken out as they are needed, and remaining without food while there. It appeared that lobsters might remain for a week or ten days, or even until they starved to death, as fresh lobsters were continually put in. The unfitness of their flesh for food was evident.

The thanks of the Society were voted to Mr. Tobie of Franklin, N. H., for his interest in prosecuting the cases of dog-fighting there, and for defraying the expenses.

The Secretary reported eight cases wholly or partially investigated during the last month: Shooting birds, two; using old worn-out horses, one; cruelly killing horses, two; shooting a dog maliciously, one; cruelty to cats, two. One animal was killed by the Society's procurement.

GUERNELLA.

Thursday evening the above named expositor carried out his promise of the first night, and more too, as some tests were performed that were not intended for the public just yet—but he took the joke good-naturedly, and turned the scene to good account during the last of the performance. To-night there will be an entire change of programme; the "Indian spirit, Honto," of the Eddy brothers, will be produced, and two of the most expert rope-tyers in the city will try to tie the "medium" so that his "Indian spirit" cannot release him. This evening will be the last exhibition here,—as owing to a sudden change in his affairs Mr. Guernella will not be able to remain for to-morrow night,—and it will be far the most interesting, judging from the programme. Tickets at Preston's.

"ELECTION DAY."

The Portsmouth military delegation, consisting of the Light Artillery, forty-four men, the Heavy Artillery, thirty-five men, and the Cavalry, forty-eight men and horses left this city at 6:10 oclock, A. M., for Concord, receiving at Newmarket Junction reinforcements from Dover, Great Falls and Newmarket, and arrived at their destination about 10 A. M. Owing to some disturbance in the railroad connection all of the companies did not arrive on time, and the forming of the procession was delayed until twelve o'clock. In point of appearance it certainly was the best military display ever seen in New Hampshire. Most of the uniforms were new and the improvement in the style, etc., was generally commented on by military critics. After marching through the principal streets the Governor entered the State House to go through the inaugural form while the military went through the very satisfactory ceremony of collation. Our boys led off the honors of the day, the Cavalry having the right of line in the march, the Light Artillery having the post of honor at the State House and the Heavies being detailed as guard of street during the review, Lieut. Andrew P. Preston acting as adjutant of the first regiment. After the inaugural followed the review, which was performed in a very creditable manner, after which the military roamed about the streets, enjoying things generally. It was commonly remarked that New Hampshire had reason to be proud of her military, both in regard to their soldierly appearance and also the gentlemanly conduct throughout the day. Among those from this city, who held distinguished positions, were Col. D. J. Vaughan, Major David Urch, Lieut.-Col. T. Y. Fields, U. S. Marine Corps, and Theodore D. Wilson, Constructor at navy yard. To Major Urch is due to a great extent the carrying out of the military intricacies and movements in the programme of the route, etc.

We copy the following from the Concord *Monitor*, which is one for Portsmouth:

One of the features in the procession to-day was the brilliant red uniform of the Portsmouth Light Artillery. This company claims to be one of the oldest in the State, and whether it was their venerable age or their prepossessing appearance that brought the bouquets we leave the fair donors to state.

The line was formed in the following order:

Brig. Gen. J. M. Clough, commanding.

Staff—Maj. A. W. Smith, Ass't Adj't Gen.; Maj. David Urch, Ass't Ins. Gen.; Maj. Ezekiel Morrill, Medical Director; Capt. George W. Nichols, Brig. Q. M.; Capt. John S. Rowell, Brig. Com.; Capt. D. S. Corser, Aid.

Portsmouth Cavalry, 44 men. French Band, Manchester, 24 pieces.

First Regiment—Col. J. J. Dillon, commanding; Lieut. Col. Wm. W. H. Greenwood; Major Geo. M. L. Lane; Adj't Levi L. Aldrich; Quartermaster, B. L. Hartshorn; Surgeon, James G. Sturgis; Chaplain, Henry H. Powers. Strafford Guards, Dover, 36 men; Sheridan Guard, Manchester, 35 men; Portsmouth Heavy Artillery, 35 men; Gov. Straw Rifles, Manchester, 37 men; Lane Rifles, C ndia, 31 men; Manchester Veterans, 45 men; Newmarket Guards, 48 men; Great Falls Light Infantry, 36 men.

Concord Brass Band, 22 pieces.

Third Regiment—Col. J. N. Patterson, Commanding; Lieut. Col. True Sanborn, Jr.; Major Irwin W. Drew; Surgeon, Frank A. Colby; Adj. R. P. Daniels; Quarter Master, John T. Batchelder; Sergeant Major James E. Ranlett; Q. M. Sergeant Jacob F. Chandler. Weston Guards, Pittsfield, 48 men; Merrimack Guards, Chichester, 42 men; Pillsbury Light Guard, Concord, 40 men; Nesmith Rifle Company, Franklin, 49 men; State Capitol Guards, Concord, 48 men; Messer Rifles, New London, 42 men.

His Excellency Gov. Prescott and Staff, Adj. Gen. Cross, Hon. David A. Buffum, President of the Senate, and Hon. A. A. Woolson, Speaker of the House, and Ex-Gov. Berry, in carriages. Accompanying the Staff were Inspector General Vaughan, Lt. Col. T. Y. Field, U. S. Marine Corps, and Theodore D. Wilson, Naval Constructor.

Battalion of unattached troops, under command of Lieut. W. H. H. Greenwood: Great Falls Band, 18 pieces; Great Falls Cadets, 32 men; Manchester Drum Corps; Manchester Cadets, 40 men; Portsmouth Light Artillery, 44 men; Nashua Cornet Band, 20 pieces; Keene Brass Band, 21 pieces.

Second Regiment—Col. D. M. White, commanding; Maj. J. H. Haddock; Adj., L. P. Wilson; Quarter Master, J. C. Perry; Surgeon, John H. Cotton; Chaplain, A. C. Hardy. Lincoln Rifles, Milford, 40 men; Granite Cadets, Antrim, 44 men; Hinsdale Guards, 48 men; Nashua City Guards, 49 men; Keene Light Guard, Co. G., 53 men; Keene Light Guard, Co. H, 51 men; Section A, First Light Battery, Manchester, 35 men.

Senators and members of Congress, State officials, ex-Governors, Judges of the State and United States Courts, invited guests, the Mayor and City Government, and citizens, in carriages, Concord Juvenile Templars.

One of the late organized companies and worthy of mention is the Great Falls Cadets, who appeared in a new uniform of grey. This company is composed of thirty-two young men, who by their enterprise have secured one of the best armories in the State, and have also attached to it a gymnasium.

THE VICINITY.

E. H. Gove is the York county member of the greenback State committee of Maine.

Samuel Shapleigh, of Eliot, was thrown from his team in that town recently and badly injured, but is now convalescent.

A married lady of Kittery Point recently cleaned three rooms—"spring cleaning," at that—put on twelve rolls of paper, and prepared three meals so well that the "men folks" didn't growl, in one day.

The life of Francis Champernowne, who resided near the mouth of the Piscataqua, and was distinguished during the Provincial and Colonial periods, by Chas. W. Tuttle, Esq., of the Suffolk Bar, is rapidly approaching completion and will be issued from the press at an early day.

Marseilles Doyle, a single woman formerly of in Biddeford, fell down stairs in Lawrence, Mass., Memorial Day, and injured herself so that she died the following Monday. She had been in Lawrence but a few hours, having "skipped out" from Biddeford to avoid prosecution for an assault on Mrs. Daniel Blake.

Portsmouth Chronicle

Another Call of Bonds.

The Secretary of the Treasury on Wednesday issued the fifty-ninth call for the redemption of 5-20 bonds of 1865, consols of 1865. The principal and interest are payable Sept. 5th, and interest will cease that day. The following are the coupon bonds dated July 1865, namely:

$50,	Nos.	59,061	to	60,000,	both inclusive.
$100,	"	101,001	"	103,000,	" "
$500,	"	69,001	"	72,000,	" "
$1000,	"	125,001	"	130,000,	" "

Total coupon bonds, $2,500,000.

Registered bonds, redeemable at the pleasure of the United States after the first of July, 1878, as follows:

$50,	Nos.	2,651	to	2,100,	both inclusive.
$100,	"	15,501	"	18,150,	" "
$500,	"	8,701	"	10,050,	" "
$1,000,	"	32,201	"	33,100,	" "
$5,000,	"	5,701	"	6,200,	" "
$10,000,	"	16,251	"	16,750,	" "

Total registered, $2,500,000.

Aggregate, $5,000,000.

JAMES MOSES, Collector.

May 28, 1878.

Centaur Liniments.

More than 1,000,000 bottles of the now celebrated **Centaur Liniments** were sold last year. We assert without fear of contradiction that no man, woman or child will say that they did not perform according to the advertisement. We do not pretend that the **Centaur Liniments** will mend a broken leg or perform impossibilities, but we do say and mean that these Liniments will come nearer working miracles than anything ever before discovered. We have thousands of certificates showing how, remarkable cures of obstinate cases of Rheumatism, Neuralgia, Sciatica, Caked Breasts, Poisonous Bites, Scalds and Burns, Swelled Legs and Stiff Joints, &c., have been effected by it. The certificates all read one way, and the sale is constantly increasing. We will send these certificates gratis. Some of them may be found around each bottle of Liniment. The Liniments are quick, they are reliable, they are safe and they are cheap. Among the ingredients used are Witch Hazel, Carbolic, Naphtha, Rock Oil, Mentha and Arnica. There is no flesh, bone or muscle ailment which they will not relieve and benefit. **The White Centaur Liniment** is for the human frame, while the **Yellow Liniment** is adapted to the tough muscles and fibres of horses and animals. For Stiff Joints, Lameness, Spavin, Ring-bone, Sweeney, Galls, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold to every farmer, livery man, teamster and owner of animals. A single bottle has put a disabled horse in the harness, and a few bottles have rendered a useless spavined horse worth two hundred dollars. There is no mistake about these Liniments. They are simply wonderful, and they are naturally finding their way into the uttermost parts of the earth. No family should be without them. They are handy as well as certain.

J. B. ROSE & CO., 46 Dey St., New York.

Children

May be made healthy and strong by the use of **Dr. Pitcher's Castoria**, a perfect substitute for Castor Oil. It contains no morphine and is superior to any syrup or remedy in use. The **Castoria** is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Colic, and for children Teething. For Colds, Feverishness, Disorders of the Bowels and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"COKENWALL, LEBANON CO., PA., Mch. 17, '74.
Dear Sir:—I have used your CASTORIA in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer.
F. A. ENDERS, M. D."

Mothers who try CASTORIA will find that they can sleep nights and that their babies will be healthy.

J. B. ROSE & Co., New York.

The Centaur Liniments allay pain, subdue swellings, heal burns, and will cure Rheumatism, Spavin, and any bone or muscle ailment. The White Wrapper is for family use, the Yellow Wrapper for animals. A list of the ingredients are contained around each bottle. They are cheap, speedy, and certain.

The certain, speedy, and harmless remedy for children, is Fletcher's Castoria. It is as pleasant to take as honey, and as certain as its effects as Castor Oil. For Wind Colic, Worms our Stomach and Disordered Bowels, there is nothing like Castoria. tmg

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incidental to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and efficient remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single useful lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of one bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all the foregoing of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain in the THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of nearly 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to females, and gives the author's advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $50 per day. PENNSYLVANIA
RAILROAD.
GREAT THROUGH LINE
AND
UNITED STATES MAIL ROUTE

The attention of the travelling public is respectfully invited to some of the merits of this great highway, in the confident assertion and belief that no other line can offer equal inducements as a route of through travel. In

Construction AND Equipment
THE
PENNSYLVANIA RAILROAD

stands confessedly at the head of American railways. The track is double the entire length of the line, of steel rails laid on heavy oak ties, which are embedded in a foundation of rock ballast eighteen inches in depth. All bridges are of iron or stone, and built upon the most approved plans. Its passenger cars, while eminently safe and substantial, are at the same time models of comfort and elegance.

The Safety Appliances

in use on this line well illustrates the far-seeing and liberal policy of its management, in accordance with which the utility only of an improvement and not its cost has been the question of consideration. Among many may be noticed

THE BLOCK SYSTEM OF SAFETY SIGNALS,
JANNEY COUPLER, BUFFER AND PLATFORM,
THE WHARTON PATENT SWITCH,
AND THE
WESTINGHOUSE AIR-BRAKE,

forming in conjunction with a perfect double track and road-bed a combination of safeguards against accidents which have rendered them practically impossible.

Pullman Palace Cars

Are run on all Express Trains

From New York, Philadelphia, Baltimore, and Washington,

To Chicago, Cincinnati, Louisville, Indianapolis, and St. Louis,

WITHOUT CHANGE,

and to all principal points in the far West and South with but one change of cars. Connections are made in Union Depots, and are assured to all important points.

The Scenery
OF THE
PENNSYLVANIA ROUTE

is admitted to be unsurpassed in the world for grandeur, beauty and variety. Superior refreshment facilities are provided. Employees are courteous and attentive, and it is an inevitable result that a trip by the Pennsylvania Railroad must form

A PLEASING AND MEMORABLE EXPERIENCE.

Tickets for sale at the lowest rates at the Ticket Offices of the Company in all important cities and towns. tfeb20 79

THE GREAT
FALL RIVER LINE,
BETWEEN
BOSTON and NEW YORK.
THE MAMMOTH STEAMSHIPS
Bristol and Providence,
Of this Line, are the Largest, Handsomest, and Most Costly in the World!
Trains leaving Boston from the OLD COLONY Railroad Station at 4:30 (Accommodation) and 8 (Steamboat Express) P. M., connect with these "Floating Palaces" at Fall River daily (Sundays excepted), arriving in New York at 8 A. M.
No line can offer the accommodations presented by this favorite route—
ONLY 49 MILES OF RAIL,
Passing through Narragansett and Mount Hope Bays by daylight—
NO DISAGREEABLE NIGHT CHANGES,
But affording passengers a full night's rest, and having an open water route, *avoids the intricate and perilous river navigation* incident to other routes.
Grand Promenade Concert on each Steamer every evening during the summer.
New and Elegant Drawing-Room Cars on Steamboat Express Trains.
BROOKLYN ANNEX STEAMER connects with this Line only, leaving Pier 28, North River, New York, on arrival of steamer from the East. Passengers and baggage for Brooklyn transferred free.
Staterooms and Berths secured at No. 5 Old State House or at the Old Colony Depot.
GEO. L. CONNER, Gen'l Pass. Agt. J. R. KENDRICK, Supt.
L. H. PALMER, Agent, 3 Old State House.

25 ELEGANT CARDS. No two alike. With name 10c. Post paid. Husted & Co., *Nassau*, N.Y

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they must be more drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Liver inability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remarkable power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

NEW FOUR PER CENT
GOVERNMENT BONDS.

The First National Bank of Portsmouth, N. H., is authorized by the Treasury Department to offer for sale and receive subscriptions for the Four Per Cent. Funded Loan of the United States, in denominations of $50, $100, $500 and $1000 upwards, at par and accrued interest in coin.

The Bonds are redeemable July 1, 1907, and bear interest, payable quarterly, on the first day of January, April, July and October of each year, and are exempt from taxation. They will be issued in Registered or Coupon Bonds, as preferred.

The interest on the Registered Bonds will be paid by check, issued by the Treasurer of the United States, to the order of the holder, and mailed to his address.

Orders by mail will receive prompt attention.

Jan. 27, 1878. E. P. KIMBALL, Cashier.
tf

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as **Ayer's Cherry Pectoral.** It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most decisive cures of *Coughs, Colds, Consumption,* that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and gives a feeling of immunity from their fatal effects, that is well founded, for it is the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.

PATENTED APRIL 10, 1877.

THE *simplest* and *best* article for **Cooking Beefsteak** *ever invented.*

Can be used over either a Coal or Wood fire.

Cooks Steak so **quickly** that all the *juices* and *flavor* are retained.

DOES not get ashes or coal on the meat.

DOES not let smoke and gas out of the stove.

DOES not put out the fire.

Ask your Dealer for the STANDARD BROILER, *it is just what you want.* The Trade supplied by FULLER, DANA & FITZ, 110 North St., Boston, and WILLIAMS & CO., Nashua, N. H.

MANUFACTURED BY ARTHUR BROWN & CO., Fitchburg, N. H.

GLENN'S SULPHUR SOAP.

A STERLING REMEDY FOR DISEASES AND INJURIES OF THE SKIN; A HEALTHFUL BEAUTIFIER OF THE COMPLEXION; A RELIABLE MEANS OF PREVENTING AND RELIEVING RHEUMATISM AND GOUT, AND AN UNEQUALED DISINFECTANT, DEODORIZER AND COUNTER-IRRITANT.

Glenn's Sulphur Soap, besides eradicating local diseases of the skin, banishes defects of the complexion, and imparts to it gratifying clearness and smoothness.

Sulphur Baths are celebrated for curing eruptions and other diseases of the skin, as well as Rheumatism and Gout. *Glenn's Sulphur Soap* produces the same effects at a most trifling expense. This admirable specific also speedily heals *sores, bruises, scalds, burns, sprains* and *cuts*. It removes dandruff and prevents the hair from falling out and turning gray.

Clothing and linen used in the sick room is disinfected, and diseases communicable by contact with the person, prevented by it.

The Medical Fraternity sanction its use.

Prices—25 and 50 Cents per Cake; per Box (3 Cakes), 60c. and $1.20.

N.B.—Sent by Mail, Prepaid, on receipt of price, and 5 cents extra for each Cake.

AYER'S SARSAPARILLA

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and scattle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Leucborrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

SANFORD'S RADICAL CURE For CATARRH

A purely vegetable distillation entirely unlike all other remedies.

IN the preparation of this remarkable remedy every herb, plant, and bark is subjected to a distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is inert, valueless, and totally unfit for use in an organism so delicate as the nasal passages. Yet all crude and inert vegetable compounds of woody fibre; all tinctures, saturated solutions.

SANFORD'S RADICAL CURE

Is a local and constitutional remedy, and is applied to the nasal passages by insufflation, thus allaying inflammation and pain and at once correcting, cleansing and purifying the secretions. Internally administered, it acts upon the organs of circulation, keeps the skin moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure results in both directness and in fact, it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE.

Gentlemen.—About twelve years ago, while travelling with Professor Kemp's celebrated Female Concert Troupe as a tenor singer, I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for four weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was unable to sing at all. The first attack of Catarrh had left my nasal organs and throat so sensitive that the slightest cold would bring on a fresh attack, leaving me prostrated. In this way I continued to suffer. The last attack, the severest I ever had, was terrible. I coughed so hard and so long that my head was so hoarse as to be scarcely able to speak, and coughed incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptoms continued without relief they would have rendered me an easy victim. When in this distressing condition, I accepted the use of SANFORD'S RADICAL CURE FOR CATARRH, very reluctantly, I confess, as I had tried all the advertised remedies without benefit. The first dose did me more good than all the rest, and the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulate distinctly on account of the choking accumulations in his throat, to realize how much relief I obtained from the first application of SANFORD'S RADICAL CURE. Under its influence, both internal and external, I rapidly recovered, and by an occasional use of the remedy since, have been entirely free from Catarrh, for the first time in twelve years.

Respectfully yours, J. ROLBROOK.

WALTHAM, MASS., Jan. 5, 1876.

WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly Medicated Plaster containing the choicest medicinal Gums and Balsams known to modern Pharmacy.

These Plasters have now been before the public for two years, and have gained a reputation above a number of remedies in the form of liniments, lotions, potions, etc., and ordinary plasters, they have stood the test of time and met with universal approval, as evidenced by over one thousand unsolicited testimonials in our possession. Many ten-strike cures have been certified to by well-known citizens in all parts of the United States, some of which will be sent free of charge to any one desiring them. Improvements, in many ways, have been made, as suggested by experience and use, until it is believed that they are now perfect in every respect, and the *Plaster is the world of medicine.* All we ask from every sufferer is the best is a single trial. The price is 25 cents, although the cost is double that of any other plaster. But, notwithstanding the efforts of the proprietors to make the best plaster in the world for the least money, any similar remedy can be bought, numbers of unscrupulous dealers will be found ready to misrepresent them for *selfish motives* and endeavor to substitute others. Do not allow yourself to be imposed upon. Ask for

COLLINS' VOLTAIC PLASTER

And insist upon having what you are willing to pay for.

Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO., No. 3 BOW STREET.

Daily Chronicle.

All About a Brick.

A well-known citizen living not many blocks from Union Square relates an incident somewhat in this wise:

One bright morning in the month of November, some years ago, I was preparing to go down town, when the servant informed me that a man was waiting at the front door to see me. "Tell him I'll be down in a moment," said I. On going to the door a man of tall stature and robust appearance, calling me by name, requested my assistance, saying that he had a large family, a wife in delicate health, and no means to procure food for them. "You appear to be strong and healthy; why don't you work?" asked I.

"Simply, sir, for the reason that I cannot procure work."

Not having work to give him, I thought I would test the sincerity of his intentions. "If I give you work, what pay do you want?"

"Anything, sir, you choose to give me, so long as I can obtain means for my suffering family."

"Very well," said I, "I will give you twenty-five cents an hour if you will carry a brick on your arm around the block for five hours without stopping."

"Thank you, sir; I will do it."

After hunting a while I found a brick, placed it on the man's arm, started him on his work, and then went down to my business. Not having the least faith in the man's promise, I thought but little more of it, yet as I knew I should be back within five hours I determined to see if he performed his work. My business kept me away rather later than I expected, so I had to forego my usual walk home, and took a Fourth avenue car to be back within the five hours. As I approached the corner of the street where I resided I found a great crowd of persons gathered—two fire engines, a hose-cart, and a hook-and-ladder truck. Upon inquiring where the fire was, I was informed that it was a false alarm, and that what brought the people together and occasioned the agitation was the spectacle of a tall man carrying a brick on his arm around the block for nearly five hours. The neighbors were looking at him from the windows and the doors as he passed along; some thought he was crazy, but when spoken to his answer was:

"Do not stop me; it's all right."

As he interfered with no one he was allowed to walk on undisturbed.

"Where is the man now?" I asked.

"There, you can see him at the other end of the block, walking with his head down," was the answer.

He was just about turning the corner, and I waited till he had performed the circuit, then, taking him quietly by the arm, I marched him to my house, followed by a lot of boys. In the meantime, the firemen, engines, and hose-cart rattled off. The man was thoroughly tired out when I took him into my hall and seated him on a chair, while my servant went for a little wine and something to eat. I paid him forthwith a dollar and a half. He informed me that, while making one of his turns, a lady came out of a house and inquired why he was carrying that brick, and on his giving her the reasons he received a dollar. The object soon became known, for as he passed the houses small sums were given to him by different persons, and he was well satisfied with his day's work. "But," said he, "what shall I do to-morrow?"

"Why," I replied, "go early in the morning to the houses from which you received the money and ask for work, and no doubt you will find some one who will put you in the way of getting it; then report to me."

The following afternoon he informed me that he had been sent to a German, who kept a pork establishment on Third avenue, and who wanted a clerk to keep his books. He was to get $5 a week if his work proved satisfactory, and his duties began on the following day. Before leaving me he asked for the brick which had brought him such good luck, and I gave it to him. Within the year I ascertained that the man had been transferred to a larger establishment of the same kind, with a salary of $1000.

Three or four years after this I was riding in a street-car, when a well-dressed man accosted me with a smile, and asked me if I knew him. Seeing me hesitate, he said:

"Don't you recollect the man who carried the brick?"

He then informed me that he was doing a prosperous business on his own account, had laid up money, and expected soon to build himself a house up town.

"What became of the brick?" I inquired.

"That brick, sir, has always occupied a place on our mantelpiece, and we value it as the most precious of our little possessions. It has made our fortune."—*N. Y. Eve. Post.*

Feeding of Menagerie Animals.

The feeding of the animals in a menagerie is always carefully done, because their lives depend on the adaptability of their food. The Philadelphia *Times* says that the daintiest eaters in the Zoological Garden are two chimpanzees. They breakfast on weak tea, with plenty of milk and sugar, and bread thickly spread with honey. They lunch at ten o'clock on bananas and oranges, dine at three on rice or tapioca served with sugar and sherry, and sup at seven on rice and milk. The seals are less troublesome to feed, but more expensive, for five of them eat daily eighty pounds of fresh fish. Formerly the lions, tigers and other carnivora were costly, but of late they have been fed on horse meat, which is very cheap. The buffaloes, deer and elephants live now on the grass in the grounds. The rhinoceros is the greediest of the lot; but it is quantity that he

craves, without much regard to quality. He will eat two hundred and fifty pounds of hay every day, and a bushel of potatoes is to him like a plate of strawberries to a hungry man. His food costs ten dollars a week, which is as much as that of an elephant. The giraffe has to be fed carefully, because he has no regard for his long, narrow throat, and starts one mouthful down before the one before it has reached his stomach, thus choking himself. Common monkeys eat nearly everything that is offered them; so do the ostriches and cassowaries; but some of the insectivora have to be patiently catered to; the moose is the hardest to please, and misses the twigs of his native woods.

Daily Chronicle

SATURDAY, JUNE 8, 1878.

New Hampshire Legislature.

The Speaker of the House on Friday announced the standing committees. The chairmen are as follows: On revision of statutes, Sargent of Concord; National affairs, Moore of Nashua; elections, Goodell of Antrim; judiciary, Stevens of Nashua; railroads, Powers of Jaffray; banks, Batchelder of Fitzwilliam; State prison, Dow of Concord; on insurance, Clark of Gilford; on agriculture, Gen. Luther McCutchins of New London; on manufactures, Holden of Concord; education, Patterson of Hanover; agricultural college, Worcester of Hollis; finance, Joseph B. Clark of Manchester; towns and parishes, Burlingame of Exeter; division of towns, Tutherly of Claremont; insane asylum, Lougee of Rochester; roads, bridges and canals, Wight of Dummer; mileage, Barney of Canaan; fish and game, Dodge of Manchester; retrenchment and reform, Sherman of Keene; military affairs, Stevens of Concord; incorporations, House of Manchester; reform school, Hayes of Alton; normal school, Mosher of Dover; bills on 2d reading, Richardson of Francestown; printers' accounts, Richardson of Manchester; military accounts, Tredick of Portsmouth; claims, Moses of Somersworth; unfinished business, Wells of Lisbon. The joint standing committees are chaired as follows: engrossed bills, Young of Concord; State library, Batchellor of Littleton; State-house and State-house yard, Freeman of Somersworth.

Gov. Prescott's Message.

Gov. Prescott's inaugural message is a very long one, and would take up between five and six columns of this paper, printed in the finest type we use. The following is a brief abstract of its principal points:

The Governor, after referring to the general condition of State affairs, and the fact that the present Legislature is the last to meet under the constitution of 1792, proceeded to speak of the finances. On July 1, 1877, $100,000 of the funded debt matured and was paid. July 1, 1878, 110,000 more matures and will be promptly paid. For the $250,000 maturing July 1, 1879, this Legislature must make provision, and it would be well also that it should provide for the $250,000 maturing July 1, 1880, so as to secure uniformity in the date of the bonds. The Governor makes recomendations to this end. The State indebtedness has been decreased during the year $46,200.80. The Governor recommends raising $400,000 as the State tax. Special attention is directed to the savings banks and the importance of care and faithfulness in their management. Only one savings bank was chartered by the last Legislature, and the demand for these institutions seems to be quite fully supplied. The whole number now in operation is sixty-six, with 94,967 depositors. The whole amount of deposits and accumulations April 1, was $30,218,211.93, being $1,260,665.58 less than last year.

The Governor recommends a continuance of the present rate of taxation, and a limitation of dividends to a maximum of four per cent. until a sinking fund of ten per cent. shall be accumulated from the surplus earnings.

The work of constructing a new State Prison is progressing rapidly. The act called for a prison sufficient to accommodate 200 convicts. At that time the largest number of convicts ever in prison at one time was 169, and the expectation was that crime would diminish and these accommodations be ample. The number of convicts has, however, reached 201, with a prospect of increasing rather than diminishing. The Governor, therefore, urges the passage of an act authorizing the addition of forty-eight cells.

The Reform School is declared to be in excellent condition; the reform temperance movement is spoken of approvingly, and the good likely to come from a proper and honest attempt to enforce the existing law against the sale of alcoholic liquors is urged; mention is made of the International Prison Congress to be held at Stockholm; the operations and results of the Referee law are declared to be very satisfactory; the present county farm system for the support of paupers is recommended if administered by humane, prudent, honest and careful men; attention is called to the question whether the insane paupers can be properly cared for at the county farms; and numerous appropriations are recommended, among which is one in aid of Dartmouth College, which institution he considers deserves well of the State, in consideration of the great educational work it has accomplished. Some of its investments have depreciated, and it is in need of temporary assistance. The popular interest in the militia is unabated; improvements have been made in their uniform and equipment. Reference is made to the Centennial celebration at Bennington, and the Governor concludes by recommending such a division of the work before the Legislature that the greatest results can be accomplished in the shortest time.

The 'Ale Fellows.

The brewers have just been in session at Baltimore. Their association numbers 463 members, and they have a fund of $18,000. The address was delivered by Mr. H. H. Reuter, of Boston; but then, like the beer they make, these men may label an address, while at the same time it may be the production of some other's brain. The address shew the condition of the malt liquor interests of the country.

News and Notes.

By an explosion in the Evanswood colliery at Haydock, England, Friday, between 250 and 300 miners lost their lives.

The Port Royal Railroad in South Carolina was sold at auction Thursday for $500,000, to the Union Trust Company of New York.

The Emperor of Germany is recovering from the wounds inflicted by the communistic assassin Noebling.

The U. S. Senate has passed a bill giving any company desiring to do so liberty to land ocean telegraph cables on the coast of the United States.

A yacht belonging to Henry S. Holmes of Plymouth, Mass., containing seven persons, capsized and sunk off Duxbury Point Thursday afternoon. Henry S. Holmes, his young son Arthur, and David Brown, Jr., were drowned. The other four clung to the mast and were rescued.

A vessel recently took 300 tons of coal from Philadelphia to the Russian steamer Cimbria at Southwest Harbor. The freight paid was $1.40 in gold per ton. The ordinary freight to the adjacent ports would be a dollar per ton.

New Hampshire Items.

There was a sharp frost at Contoocook, Middleton, Keene, Milford and the adjacent districts Thursday night, and great damage was done to the growing crops.

Bean & Atwood's steam mill at Bath was burned Friday morning. Loss, $10,000.

The New Hampshire Historical Society holds its fifty-sixth annual meeting at Concord on Wednesday, 12th inst. The annual address will be by John T. Perry, Esq., of Cincinnati.

Milk.

The New Hampshire milk producers are compelled to sell milk at their farms for two cents per quart. Various causes combine to this result. One is, the customers of the retailers in Boston are poor, and do not buy freely. Another is that the market gardeners who formerly supplied the Boston market, find that garden truck is brought in such quantities and with such a system from the South that their business is good for nothing, and they have gone into the milk business. There are too many found in the milk trade to make the business profitable, and farmers at a distance of fifty miles or more from Boston, who have sold milk for that market, must look to other sources for consumption of their dairy products. Butter and cheese must be made, perhaps cheese and butter factories established; at any rate the farmer in Rockingham county must make a move of some kind. The fact is, farming in New England, as everywhere, is subject to changes in products, markets, etc., and the only thing to do is to keep just a few paces ahead of the procession. Watch, and be ready to adapt one's product to what will sell in market at a remunerative point. It is only men of this stamp that can keep up with the mutations of the times.

Political.

"The greenback party in Maine held a State Convention and nominated one Jos. W. Smith for Governor," is the irreverent and improper manner in which the Boston *Post* gives an important item of political news.

Upon the question in the U. S. Senate of granting subsidy to the Brazilian steamship line, Mr. Rollins voted yes and Senator Wadleigh no. Upon the proposition in the House to defeat Mr. Wood's bill to disarrange the tariff, Mr. Jones voted for Fernando, though the interests of his constituents would perhaps have been as well subserved by not disturbing the tariff.

—Mrs. Fortune, of Halifax, has just given birth to a pair of female twins. Miss Fortunes never come singly.

—The delicate question at present agitating half the feminine world is where to put the pocket in close-clinging princess dresses.

The Prevention of a Terrible Disaster.

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disaster, recourse should be had, upon the first manifestation of trouble, to Hostetter's Bitters, which experience has proved to be effective as a means of imparting tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of those organs, which are most important outlets for the escape of such impurities.

It has been Customary in old communities to suspend pieces of alica sulphur around the necks of children as a protection against contagion in epidemics. A thorough washing with GLENN'S SULPHUR SOAP has been found a much better preventive. Sold everywhere. Hill's Hair & Whisker Dye, Black or Brown.

Patrons of a first-class hotel justly consider themselves entitled to comfortable rooms, a bountiful bill of fare, and courteous treatment in the office. All these, combined with a notable degree of elegance throughout, are to be found at the Colonnade Hotel, Philadelphia, Pa.

What we all want now, is money! You may realize hun reds of dollars by investing $50 in stock operations through the reliable house of Alex. Frothingham & Co., brokers, 12 Wall st., N.Y. Their *Weekly Financial Report* gives full information and is sent free. 8

Free Sample Bottles of Adams's Botanic Balsam may be had of your druggists. Pleasant and never failing r medy for coughs, colds, bleeding from the lungs, asthma, &c., &c. Large bottles 75 and 35 cts. Try it.

—A little urchin being asked, "What is Rhode Island noted for?" replied, "It is the only one of the New England States which is the smallest."

Signs.

People who still adhere to the look-at-your-tongue-and-feel-of-your-pulse doctor sometimes express not a little curiosity in regard to Dr. R. V. Pierce's original method of distinguishing all forms of chronic disease without personal consultation. Some even suppose that he accomplishes this through clairvoyance, or some other species of professional jugglery. All this is utterly false. He claims to determine disease by the rational methods of science only. Says Comley, in his Biographical Encyclopedia of New York State, speaking of this distinguished physician: "He perceived that in each of the natural sciences the investigator proceeds according to a *system of signs*. The geologist in his cabinet accurately determines and describes the cleft of rock, which he has never seen, from the minute specimen on his table. And the chemist in his laboratory notes the constituents of the sun with the same precision that he analyzes a crystal of rock salt. The analogous system developed by Dr. Pierce in Medical Science is worthy of his genious, and has made his name justly celebrated." For a full explanation of this ingenious system of diagnosis, see the People's Common Sense Medical Adviser, sent, post-paid, to any address on receipt of one dollar and fifty cents. Address the author, R. V. Pierce, M. D., Buffalo, N. Y.

—Fayal is being spoiled by Americans. The inhabitants have recently gone up on their prices there, and board is even as high a $1.25 a day.

THE CITY.

Size of Portsmouth came up to 'Lection, and actually had a white vest on.—*Concord People.*

Mr. L. Blumauer is to resume the dry goods business at corner of Fleet and Congress streets, in Franklin House Block.

Rev. Mr. Hubbell will give a Bible reading upon "Christian hope" in the Congregational chapel at 7:30 o'clock Sunday evening.

A beautiful bouquet was presented to Capt. Cunningham of the Heavy Artillery as the company was passing the Eagle Hotel in Concord, "Election day," by the Sons of Portsmouth in Concord.

Mr. George Fernald has built six new row-boats during the past winter, and added them to the fleet of pleasure boats which he keeps to let at the north end of the city. They are very handsome, and reflect credit on their builder.

The Senate committee on privileges and elections having unanimously decided that the present legislature of New Hampshire cannot legally elect a United States Senator, it is astonishing to find how many persons have been that way of thinking all along.

The annual class-day exercises at Miss Morgan's young ladies' school will take place on Wednesday, the 19th inst., at three o'clock in the afternoon. A reunion of the former pupils will be one of the pleasant features of a card reception to be given by Miss Morgan and her pupils in the evening.

The Apollinaris water advertised by Messrs. Laighton & Son, grocers, is a sparkling, effervescent and palatable remedial agent of acknowledged worth. We know several families that are never without it, and we are glad to know there is a place in town where it can be procured, as the last we used we were obliged to send to New York for.

Laighton Bros. & Co.'s little steamer Mollie is having a new casing put over boilers, and other improvements made to fit her perfectly for her summer duty as ferry-boat between Appledore and Star islands. Mr. Charles Hart, of this city, who has passed his examination before the United States inspectors, is to have charge of the Mollie's engines.

The merchant marine of Rollinsford came down the river on Friday, the first time for this season. It consists of the steamship Louis Irving, L. V. Stackpole captain and engineer; she is a screw-steamer of five horse-power, thirty-two feet long and ten feet beam, owned by M. H. Grant of South Berwick and M. R. Barney of Rollinsford, and built in Portland three years ago. Her regular tying-up place is at the wharf in South Berwick, and her line of business the bringing of pleasure parties down the river.

"Sweet are the uses of advertisement." On Thursday the veteran fish-dealers, Randall & Caswell, handed in an advertisement for insertion in the CHRONICLE saying that they were selling Penobscot river salmon at seventeen cents a pound. Happening to meet one of the firm Friday forenoon we asked if he had noticed his advertisement, to which he replied, "No; I haven't seen it, but I knew 'twas in fast enough, for we sold more than a whole box of salmon this morning before nine o'clock. Haven't had such a run before for years."

The Portsmouth Representatives in the Legislature are on committees as follows: Ryder, on State prison; Call, on roads, bridges and canals; Fredick, on military accounts (chairman) and banks; Curtis, on insane asylum; Adams, on agricultural college; Sherburne, on manufactures; Wendell, on revision of statutes; Goodrich, on education. Amazeen of Newcastle is on fish and game committee; Peterson of Greenland on finance; Hoyt of Newington on national affairs. In the Senate, Philbrick of Rye is on the committees on finance (chairman), State institutions, and on claims.

We learn from Mr. E. P. Kimball, Assignee of the Rockingham Ten Cents Savings Bank, that while in the present torpid state of the market for doubtful or doubted stocks, there is not the prospect for an immediate payment of a second dividend that he had hoped,—still he is working to declare such ere long; and is not inclined to abate much if anything from the first estimate of total results, say thirty-five to forty per cent. more. There is much feeling and complaint among the depositors, at the appointment by the Court of a *second* party in addition to Mr. Kimball, to help eat up the assets, and talk of a meeting to protest against his continuance.—*Weekly.*

SEAMAN'S FRIEND SOCIETY.

The annual meeting of the Seaman's Friend Society was held at the Sailor's Home on Thursday afternoon, the 6th inst. It was opened by Rev. Mr. Holbrook with reading and prayer. The old Board of Officers was re-elected. The annual report was as follows:
